TITLE: Social Media Policy for Students

NUMBER: BUL-6399.1

ISSUE: Frances Gipson, Ph.D. Chief Academic Officer Division of Instruction

Sophia Mendoza, Director Instructional Technology Initiative

DATE: August 10, 2017

POLICY: The Los Angeles Unified School District encourages positive relationships between students, employees and associated persons. There is, however, a distinction between being supportive of students and the real or perceived breach of confidentiality or misconduct, especially online.

MAJOR CHANGES: This revision replaces BUL-6399.0, of the same title, dated October 9, 2014, to reflect updated guidelines and definitions regarding students’ social media use.

PURPOSE: The purpose of this bulletin is to provide policies and guidelines regarding student’s social media use; to prevent unauthorized access and other unlawful activities by students online; to prevent unauthorized disclosure of or access to sensitive information, and to comply with the Children’s Internet Protection Act (CIPA). All social media on a District device and on the District’s Network is always subject to District policies. Social Media is more than just social networking - blogs, wikis and messaging services are also classified as social media. At all times, in and out of school, social media use on District devices is covered by the RUP and this bulletin.

BACKGROUND: The use of the Internet in schools and at home can have a major positive impact on a student’s education. For example, participating online with an audience beyond the classroom provides an opportunity to engage with others and experience diverse perspectives. The use of the Internet also presents certain risks, which can be reduced greatly when students participate safely and appropriately online.

Social media awareness and education is crucial to effectively navigating and productively participating in ever-growing online spaces. Social
media systems are designed around gathering, storing, and sharing information about their users. Teaching students to be critical consumers and creators of online material will help them be better positioned for college and career success. Irresponsible social media behavior and engagement have the potential to adversely influence one’s future, disrupt the learning environment, and have negative outcomes for other students, staff, and administrators. Students need guidance on how to responsibly and productively participate online and establish a positive digital footprint. As stated in BUL-5181.1, Policy Regarding Internet Safety for Students, dated May 1, 2012 all LAUSD students who are provided access to the Internet must participate in an Internet safety education program.

GUIDELINES: I. SOCIAL MEDIA GUIDELINES FOR STUDENTS

District electronic devices are provided for educational purposes, and approved social media is to be used at school for educational purposes only and under the direction of a teacher or school leader. Home use of social media on District or personal electronic devices is limited to sites approved by the District’s web filtering system. Students should recognize that the District is authorized to access, view, record, check, receive, monitor, track, and log any social media activity conducted on a District network or District-provided electronic device.

Students are expected to exemplify the student code of conduct in all interactions. All policies and behavior guidelines that cover student conduct on the school premises and at school-related activities similarly apply to the online environment in those same venues. Students must refrain from bullying and use respectful language and tone with others both on and offline. Respectful language includes avoiding vulgarity, profanity and slurs. Language that targets someone because of their perceived association with or membership in one of the protected classes (i.e., sex, sexual orientation, gender, gender identity, gender expression, race or ethnicity, ethnic group identification, ancestry, nationality, national origin, religion, color, mental or physical disability,) could be considered a bias-motivated incident. Refer to BUL-999.9, Responsible Use Policy (RUP) For District Computer System dated June 19, 2013 and BUL-5212.2, Bullying and Hazing Policy: Student-to-Student and Student-to-Adult, dated September 17, 2012.

The District has jurisdiction over student online behavior in certain circumstances: 1. behavior that occurs while on the school premises and at school-related activities, even if the conduct was on the student’s personal device; 2. behavior that occurs at any time while on a District-
issued electronic device; and 3. behavior that occurs outside of school but significantly disrupts the school’s operations (see section 48900 of the Education Code for regulations on bullying).

1. Social media gives an illusion of privacy any content or information shared privately through social media on electronic devices can still be viewed, accessed, and distributed by others. Once posted, the student loses all control of what happens to that content. It can be copied, shared, and reposted at will.

2. Students must engage in privacy practices and respect the privacy of others. Students must exercise good judgment when using the built-in camera and recording capabilities of electronic devices. Students must always obtain permission before taking pictures, recording video, or recording audio of any person. Permission must be obtained before posting such material online.

A signed Los Angeles Unified School District Parent/Guardian Publicity Authorization and Release is required to post any images or video of any student under eighteen on school property or at school-sponsored activities. When signing a Publicity Authorization and Release form, parents should receive explicit notification if such material will be posted on a school-sponsored social media platform.

3. Students should not share confidential information about themselves or others. Sharing personal information about oneself, family, peers or others can lead to safety and privacy concerns. Personal information includes (but is not limited to) one’s full name, address, phone number, school, and birthday. Refer to BUL-999.9, Responsible Use Policy (RUP) for District Computer System, dated June 19, 2013.

4. Students must represent themselves honestly and ethically online. It is unlawful to impersonate another person (student, staff, or any other person) for the purpose of causing harm or person gain. Refer to BUL-999.9, Responsible Use Policy (RUP) For District Computer System, dated June 19, 2013 and Penal Code 529 PC, California Senate Bill 1411, Impersonation Internet.
5. Students should be aware that all District employees are mandated reporters of suspected child abuse, BUL-6399.0, *Social Media Policy for Students*, dated October 9, 2014. Should information posted on social media suggest that a minor is being abused or involved in sexual exploitation, or of danger to him/herself or others District employees are required to report this information to the appropriate authorities. Refer to BUL-1347.2, *Child Abuse and Neglect Reporting Requirements*, dated July 1, 2011 and BUL-5799.0, *Threat Assessment and Management (Student-to-Student, Student-to-Adult)*, dated July 1, 2011.

6. Students must restrict their access to age-appropriate, educational content when using District electronic devices or network resources. Accessing, producing, or posting inappropriate material may lead to serious consequences. The posting and sharing of sexually explicit images of minors (for example, sexting) is a serious crime and may constitute child abuse. Refer to BUL-6231.0, *Discipline Foundation Policy: School-Wide Positive Behavior Intervention and Support*, dated February 14, 2014 and BUL-1347.2, *Child Abuse and Neglect Reporting Requirements*, dated July 1, 2011.

7. Students must always behave lawfully and refrain from encouraging others to act unlawfully. Refer to BUL-6231.0, *Discipline Foundation Policy: School-Wide Positive Behavior Intervention and Support*, dated July 1, 2011 and BUL-5799.0, *Threat Assessment and Management*, dated July 16, 2011. Unlawful activities that can be conducted through social media includes (but is not limited to):
   - Threats
   - Drug Sale
   - Criminal Activity
   - Gang Activity and Communications
   - Cheating and Plagiarism
   - Forgery and Falsification
   - Sexual Harassment
   - Sexual Exploitation
   - Blackmail and Extortion
   - Prejudice and Hate Crimes
8. Students must take responsibility for helping to create a safe school environment on and offline by reporting bullying or hazing to a trusted District teacher or administrator. Students must refrain from participating or contributing to cyber bullying, which is bullying through digital means such as via text, image, video, message, website post, social media activity, or other form of communication sent by an electronic device. Refer to BUL-5212.2, Bullying and Hazing Policy: Student-to-Student and Student-to-Adult, dated November 26, 2014; BUL-2047.0, Responding to and Reporting Hate-Motivated Incidents and Crimes, dated October 10, 2005; and BUL-3349.0, Sexual Harassment Policy (Student-to-Student, Adult-to-Student, and Student-to-Adult), dated November 29, 2006.

9. Students must produce original work and not misrepresent the work of others as their own. Students must use materials covered by a copyright only with permission. File sharing software and sites that encourage the illegal downloading of media are forbidden. Refer to BUL-999.9, Responsible Use Policy (RUP) For District Computer System, dated June 19, 2013.

10. All District students are expected to:
   • Be familiar with and follow the guidelines and the provisions of this policy
   • Adhere to this Social Media Policy for Students

II. ADMINISTRATOR/DESIGNEE RESPONSIBILITIES

A. Administrator/Designee will:

1. Distribute and communicate this Social Media Policy for Students to all employees.

2. Investigate reported incidents of employee or students’ misconduct or violations of appropriate conduct. Refer to BUL-999.9, Responsible Use Policy (RUP) For District Computer Systems, dated June 19, 2013 and BUL-5212.2, Bullying and Hazing Policy (Student-to-Student and Student-to-Adult), dated September 17, 2012 and other related District policies.
3. Report inappropriate postings may warrant additional
reporting to School Operations and the appropriate
reporting agency:

   a. Threats (contact Los Angeles School Police Department
      (LASPD), School Operations, and Crisis Counseling
      and Intervention Services).
   b. Inappropriate or sexualized images of minors (contact
      law enforcement and LASPD),
   c. Child pornography (contact law enforcement and
      LASPD Police),
   d. Raise a reasonable suspicion of child abuse (contact
      Child Protective Services). Refer to the attached
      Behavior Intervention Matrix, BUL-1119.1,
      Organizing for Assessing and Managing Threats, and
      BUL-1347.2, Child Abuse and Neglect Reporting
      Requirements.

4. Document inappropriate postings by taking and printing
screen shots or downloading them for evidence. Evidence
should be collected with the permission of the site
administrator for the sole purpose of the investigative
process and stored in a secured location. This evidence may
be used in conference with the employee(s) or associated
persons in question. **Caution: Do not download or print
images of minors or any content that may be considered
pornographic images of children.** Law enforcement will
gather evidence of pornography, not a District employee.

5. Document all critical incidents on the Incident System
Tracking Accountability Report (iSTAR).

6. The target of online harassment can request removal of
objectionable postings by reporting the abuse to the Internet
service provider or webmaster. Most social networking
sites have the capacity to flag objectionable postings with
“report abuse” button. The target should document the
postings prior to their removal.

7. Monitor and follow-up to ensure that the inappropriate
online behavior has stopped.
B. Staff should:

1. Share responsibility for modeling appropriate behavior and creating an online environment where mutual respect, tolerance, civility, and acceptance among students and staff are promoted.

2. Discuss all aspects of the Social Media Policy for Students before using social media for instructional purposes.

3. Monitor online learning platforms used in instructional activities.

4. Encourage students to report violations of the Responsible and Acceptable Use Policy and the Social Media Policy for Students.

5. Provide instruction to ensure that students are educated about appropriate online behavior, including cyberbullying awareness and response and how to interact with others on social networking platforms. See BUL-999.9, Responsible Use Policy, dated June 19, 2013.

6. Report any complaints or incidents involving social media to the site administrator.

C. Local District Superintendents should:

1. Communicate this Social Media Policy for Students to administrators, employees and associated persons.

2. Designate administrators to ensure the implementation of this policy.

D. Central Office Staff should:

1. Support this policy by assisting schools and worksites via trainings, consultation, and distribution of resources.

2. Align this policy with related District initiatives.
III. GENERAL PROTOCOL FOR RESPONDING TO COMPLAINTS

The following are general procedures for the administrator/supervisor to respond to any complaints:

A. Secure campus/office safety by ensuring all school site protocols are being followed.

B. Assure involved parties that allegations and complaints are taken seriously.

C. Investigate.

D. Take action to stop the behavior.

E. Request a factual written statement from the involved parties, to include witnesses if available.

F. Consult with the Local District, Staff Relations and other offices, as appropriate.

G. Document actions taken.

H. Implement disciplinary action as needed.

I. If appropriate, the victim may file a criminal complaint with law enforcement.

J. Continue to monitor and address inappropriate behaviors.

K. If appropriate, complete the Incident System Tracking Accountability Report (iSTAR).

L. Information about allegations of misconduct or investigations should be handled within the confines of the District’s reporting procedures and investigative process. The District will not tolerate retaliation against anyone for filing a complaint or participating in the complaint investigation process.

If the allegation is against one’s administrator or supervisor, that person’s supervisor must respond to the complaint (see Attachment D, Workplace Violence Complaint Form).
AUTHORITY: This is a policy of the Superintendent of Schools.

DEFINITIONS

Social media is comprised of online platforms where users engage one another and share information and ideas through text, video, or pictures. To be responsible social media users, students must understand the different types of social media available and ways to engage in safe and productive ways online. For more information about adolescents and social media, or applications and platforms, visit http://www.commonsensemedia.org/.

The following terms provide a general overview of common social media tools, practices, and features:

Apps are applications used to post or peruse media and are accessed primarily through mobile devices. Apps can access the user’s pictures, personal information, and GPS location.

Associated Persons includes, but is not limited to, parents, parent-elected leaders of school committees, representatives and volunteers, consultants, contracted employees, walk-on coaches, child care/enrichment program providers, vendors and after-school youth services providers.

Blogs are web logs or online journals where authors and users can post textual, audio, or video content, and where some permit others to post comments on their blogs. Some websites enable individuals to create free standing blogs, other special interest websites use blog tools and message forums to engage users.

Confidential Data refers to District-related content such as (but not limited to) grade and exam information, attendance data and behavior incidents.

Cloud Computing, otherwise known as ‘using the cloud,’ requires an internet connection and is the practice of accessing files across multiple devices over the Internet.

Digital Citizenship is the practice of critical engagement and respectful behavior online, which is demonstrated through the digital content a student becomes engaged with.
Digital Footprint is determined/defined by an individual’s choice of content to post and profiles made across multiple websites, apps, and other platforms.

Media Sharing Sites are websites where users post and share videos, audio files and/or photos as well as tag them to enable search ability. Examples include Instagram, YouTube, and Flickr.

Microblogs are online spaces that allow users to post blog entries of limited length or characters. Twitter is an example of a site that invites users to post short status. Facebook allows users to post location updates.

Social Media, also referred to as Social Networking, is a form of electronic communication through which users create and engage in online communities to share and view information, ideas, personal messages, and other content.

Tagging is the practice of identifying and assigning information to a digital artifact such as a website, blog post, photo, video, or article for the purpose of easy identification, organization, aggregation, and searching. Tagging helps users find content they are looking for across online platforms.

Wikis are resources or documents edited collaboratively by a community of users with varying levels of editorial control by the website publisher.
