Assurances, Affirmations, and Declarations

KIPP Academy of Opportunity (also referred to herein as “KAO” and “Charter School”) shall:

- Be nonsectarian in its programs, admission policies, employment practices, and all other operations. (California Education Code (hereinafter “Ed. Code”) § 47605(d)(1).)

- Not charge tuition. (Ed. Code § 47605(d)(1).)

- Not discriminate against any pupil on the basis of disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of hate crimes set forth in section 422.55 of the Penal Code. (Ed. Code § 47605(d)(1); Ed. Code § 220.)

- Except as provided in Education Code section 47605(d)(2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or legal guardian, within this state, except that an existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that school. (Ed. Code § 47605(d)(1).)

- Admit all pupils who wish to attend Charter School. (Ed. Code § 47605(d)(2)(A).)

- Except for existing pupils of Charter School, determine attendance by a public random drawing if the number of pupils who wish to attend Charter School exceeds Charter School’s capacity. Preference shall be extended to pupils currently attending Charter School and pupils who reside in the Los Angeles Unified School District (also referred to herein as “LAUSD” and “District”). (Ed. Code § 47605(d)(2)(B).)

- If a pupil is expelled or leaves Charter School without graduating or completing the school year for any reason, Charter School shall notify the superintendent of the school district of the pupil’s last known address within 30 days, and shall, upon request, provide that school district with a copy of the cumulative record of the pupil, including a transcript of grades or report card, and health information. (Ed. Code § 47605(d)(3).)

- Meet all statewide standards and conduct the pupil assessments required pursuant to Education Code sections 60605 and 60851 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in non-charter public schools. (Ed. Code § 47605(c)(1).)

- Consult, on a regular basis, with Charter School’s parents, legal guardians, and teachers regarding the school’s educational programs. (Ed. Code § 47605(c)(2).)

Charter School hereby declares that Charter School, operated as or by its nonprofit public benefit corporation, is and shall be the exclusive public school employer of Charter School’s employees for the purposes of the Educational Employment Relations Act (EERA), Chapter 10.7 (commencing with Section 3540) of Division 4 of Title I of the Government Code. Charter School shall comply with all provisions of the EERA and shall act independently from LAUSD for collective bargaining purposes. In accordance with the EERA, employees may join and be represented by an organization of their choice for collective bargaining purposes.

NOTE: This Charter contains specific “District Required Language” (DRL), including the Assurances, Affirmations, and Declarations section above. The DRL should be highlighted in gray within each Charter element or section. The final section of the Charter provides a consolidated addendum of the DRL. This intentional redundancy facilitates efficient charter petition
review while ensuring ready access to the DRL for any given section of the Charter. To the extent that any inconsistency may exist between any provision contained within the body of the Charter and the DRL contained in the addendum, the provisions of the DRL addendum shall control.
CHARTER RENEWAL CRITERIA AND ELIGIBILITY

A. Evidence of Meeting Charter Renewal Standards Pursuant to Education Code Section 47607(b) and the California Code of Regulations, Title 5, Section 11966.4(a)(1)

Education Code Section 47607(b) requires that a charter school that has been operating for at least 4 years must meet at least one of the following renewal criteria prior to receiving a charter renewal:

1. Attained its API growth target in the prior year or in two of the last three years, both school wide and for all groups of pupils served by the charter school.

2. Ranked in deciles 4 to 10, inclusive, on the API in the prior year or in two of the last three years.

3. Ranked in deciles 4 to 10 inclusive, in the API for a demographically comparable school in the prior year or in two of the last three years.

4. The entity that granted the charter determines that the academic performance of the charter school is at least equal to the academic performance of the public schools that the charter school pupils would otherwise have been required to attend, as well as the academic performance of the schools in the school district in which the charter school is located, taking into account the composition of the pupil population that is served at the charter school.

5. Has qualified for an alternative accountability system pursuant to subdivision (h) of Education Code Section 52052.

The following shall serve as documentation confirming that the Charter School meets the statutory criteria required for renewal as set forth in Education Code Section 47607(b)(3) and Section 47607(b)(4).

*Note on Testing Data

Assembly Bill 484 amended Education Code sections 52052(e)(2)(F) and 52052(e)(4) to allow schools that do not have an API calculated to use one of the following criteria to meet legislative and/or programmatic requirements:

- The most recent API calculation;
- An average of the three most recent annual API calculations; or
- Alternative measures that show increases in pupil academic achievement for all groups of pupils schoolwide and among significant groups.

KAO meets the charter renewal criteria established in Education Code Section 47607(b)(4), due to its performance on the 2016 and 2017 CAASPP, relative to surrounding schools, as indicated by the table below.

Element 1 – The Educational Program

“The educational program of the charter school, designed, among other things, to identify those whom the charter school is attempting to educate, what it means to be an “educated person” in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.” (Ed. Code § 47605(b)(5)(A)(i).)

“The annual goals for the charter school for all pupils and for each subgroup of pupils identified pursuant to Section 52052, to be achieved in the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school, and specific annual actions to achieve those goals. A charter petition may identify additional school priorities, the goals for the school priorities, and the specific annual actions to achieve those goals.” (Ed. Code § 47605(b)(5)(A)(ii).)

“If the proposed charter school will serve high school pupils, a description of the manner in which the charter school will inform parents about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable and courses approved by the University of California or the California State University as creditable under the “A” to “G” admissions criteria may be considered to meet college entrance requirements.” (Ed. Code § 47605(b)(5)(A)(iii).)

Local Control Funding Formula (LCFF) and Local Control and Accountability Plan (LCAP)

Charter School acknowledges and agrees that it must comply with all applicable laws and regulations related to AB 97 (2013) (Local Control Funding Formula), as they may be amended from time to time, which include the requirement that Charter School shall annually submit a Local Control and Accountability Plan (LCAP)/annual update to the Los Angeles County Superintendent of Schools and the Charter Schools Division (CSD) on or before July 1. In accordance with Education Code sections 47604.33 and 47606.5, Charter School shall annually update its goals and annual actions to achieve those goals identified in the charter pursuant to Education Code section 47605(b)(5)(A)(ii), using the Local Control and Accountability Plan template adopted by the State Board of Education, as it may be changed from time to time. Charter School shall comply with all requirements of Education Code section 47606.5, including but not limited to the requirement that Charter School “shall consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the local control and accountability plan and annual update to the local control and accountability plan.” (Ed. Code § 47606.5(e).)

Academic Calendar and Schedules

Mathematics Placement

Charter School shall comply with all applicable requirements of the California Mathematics Placement Act of 2015.

Transitional Kindergarten
Charter School shall comply with all applicable requirements regarding transitional kindergarten. For purposes of admission to Charter School, transitional kindergarten shall be considered a part of kindergarten, and therefore students enrolled in transitional kindergarten at Charter School shall be considered existing students of Charter School for purposes of Charter School’s admissions, enrollment, and lottery.

**High School Exit Examination**

Charter School shall comply with all applicable requirements of Education Code sections 60850 – 60859, including but not limited to the requirements of sections 60851.6 and 60852.3.

**WASC Accreditation**

**English Learners**

Charter School shall identify potential English Learners in a timely manner in accordance with all applicable legal requirements. Charter School must provide all English Learners with an effective English language acquisition program that also affords meaningful and equitable access to Charter School’s core academic curriculum. Instructional plans for English Learners must be (1) based on sound educational theory; (2) adequately supported with trained teachers and appropriate materials and resources; and (3) periodically evaluated to make sure the program is successful and modified when the program is not successful.

On an annual basis, upon request, Charter School shall submit a certification to the LAUSD Charter Schools Division (CSD) that certifies that Charter School has adopted and is implementing either the LAUSD English Learner Master Plan or Charter School’s own English Learner (EL) Master Plan. If Charter School chooses to implement its own EL Master Plan, the plan shall provide a detailed description of Charter School’s EL program, and shall address the following:

- How Charter School’s EL Master Plan provides all of its English Learners, including but not limited to Long Term English Learners (LTELs) with an effective English language acquisition program as well as meaningful and equitable access to Charter School’s core academic curriculum
- How English Learners’ specific needs will be identified
- What services will be offered
- How, where, and by whom the services will be provided

Each year, Charter School shall provide to the CSD a report on its annual evaluation of the effectiveness of its EL program. Upon request, Charter School shall provide a copy of its current EL Master Plan to the CSD.

Charter School shall administer the CELDT/ELPAC annually in accordance with federal and state requirements.

Charter School shall reclassify English Learners in accordance with federal and state requirements.
Charter School shall provide parent outreach services and meaningfully inform parents with limited English proficiency of important information regarding Charter School matters to the same extent as other parents.

**STUDENTS WITH DISABILITIES**

**Federal Law Compliance**
Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.

**Special Education Program**
Charter School shall ensure that no student otherwise eligible to enroll in Charter School shall be denied, directly or indirectly, admission due to a disability or to Charter School’s inability to provide necessary services. Charter School acknowledges that policies and procedures are in place to ensure the recruitment, enrollment, service, and retention of students with disabilities at LAUSD-authorized charter schools, including Charter School.

Prior to LAUSD Board of Education approval of an initial Charter petition, and if a renewing Charter School intends to operate as a “school of the district” for special education services, Charter School shall execute a Memorandum of Understanding (“MOU”) by and between LAUSD and Charter School regarding the provision and funding of special education services consistent with applicable state law and the LAUSD Special Education Local Plan Area (“SELPA”) Local Plan for Special Education and shall be considered a “public school of the District” for purposes of Special Education pursuant to Education Code Section 47641(b). However, Charter School reserves the right to make written verifiable assurances that it may become an independent local educational agency (LEA) and join a SELPA pursuant to Education Code Section 47641 (a) either on its own or with a grouping of charter school LEAs as a consortium following the requirements of Education Code section 56195.3(b).

**SELPA Reorganization**
The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.

**Modified Consent Decree Requirements**
All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of the Chanda Smith Modified Consent Decree (“MCD”) and other court orders imposed upon the District.
pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measureable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

- **End of Year Suspension**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, date of suspension, number of days suspended, and reason for suspension.

- **Statewide Assessment Data**
  
  The standard file including District ID.

- **Norm day**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **CBEDS**

- **All Students enrolled as of December 1 of each school year**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **Dropout**
  
  District ID, SSIS ID, last name, first name, middle name, date of birth, grade, last location, school name and local district.

- **Monthly SESAC and Suspension data**

- **Graduation roster from all charter schools with 12th grade students with disabilities**

The MCD requires charter schools to implement the District’s integrated student information system, which is currently referred to as My Integrated Student Information System (MiSiS). MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

KIPP Academy of Opportunity is operated by KIPP LA Schools (“KIPP LA”). KIPP LA currently operates 14 public charter schools within the Los Angeles Unified School District. KIPP LA currently serves nearly 6,500 students in transitional kindergarten through eighth grade. Additionally, KIPP LA supports nearly 1,700 alumni starting in ninth grade, through their senior year of college. As of “norm day” 2016-17, ninety percent of KIPP LA students are from low-income families, 97.9% are African-American or Latino, and 10% qualified for special education services. Presently, 92% of KIPP LA alumni (exiting eighth graders) have graduated high school, 85% have matriculated into a college or university, 71% continue to persist in college or have already graduated. KIPP LA is an independent California nonprofit public benefit corporation that was formed in 2007 to both support and grow KIPP schools in Los Angeles. KIPP LA has also obtained 501(c)(3) tax-exempt status. KIPP LA Schools has a local governing board that oversees and governs all aspects of KIPP LA’s operations.

Community Need for a Charter School

KIPP Academy of Opportunity is a tuition-free, public charter school located in South Los Angeles. In 2017-18, KAO moved into its primary location at 8500 S. Figueroa, Los Angeles, CA 90003. During the last charter term, KAO’s primary location was at 7019 S. Van Ness Ave., Los Angeles, CA 90043 and its 5th grade classes were co-located at two different locations, Weingart YMCA and KIPP Empower Academy’s (“KIPP Empower”) permanent location, which is 8466 S. Figueroa St, Los Angeles, CA 90003. KAO started co-locating with KIPP Empower during the 2014-15 school year.

Our new site on Figueroa is approximately 3 miles from our original primary site on Van Ness. The communities have similar demographic characteristics. The area is densely populated and is recognized as low income. According to the 2010 U.S. Census, these zip codes have an average of 17,163 residents per square mile. This is substantially more that the Los Angeles County average (8,093), California statewide average (239), and the US national average (80). According to the American Community Survey of 2012, nearly 30% of children and 48% of adults on average in these zip codes live in poverty. Further,
50% of adults have not earned a high school degree and on average less than 6% of adults have a bachelor’s degree or higher. Unemployment is also significantly higher in these areas than in either Los Angeles County, where unemployment in 2012 was 7.0%, or the state as a whole, where unemployment was 7.1%.

KAO has made a positive impact in its community and since its founding year and will continue to meet the needs of students and the community by providing high quality instruction, character education and enrichment opportunities. As KAO enters into its 3rd charter term, we look to sustain the success we have achieved in the past, and improve as we move forward. The successes KAO has celebrated include:

- Awarded California Distinguished School in 2013
- Implementation of Quiet Time
- KAO alumni College Acceptances and high school acceptances

The sections that follow discuss these successes in more detail, and how these successes address the needs of our student population. The following section also outlines the challenges that KAO has faced over the past charter term.

**Academic Achievement and Other Outcomes**

**KAO & LAUSD 2017 CAASPP Performance**

KAO has exhibited steady academic achievement on the California Assessment of Student Performance and Progress (“CAASPP”). Most recently, in the 2016-17 school year, KAO students demonstrated higher rates of students meeting or exceeding standards than LAUSD in English Language Arts, however, did remain lower in Math when comparing whole District to scores to KAO. When we break down the rate of students meeting or exceeding standards by grade level, we see that KAO students in grades 6, 7, and 8 out-performed LAUSD in English Language Arts.

1 KIPP LA recognizes that at the time of submitting this charter renewal petition, the 2017 CAASPP data is not available for public release. We are sharing this data with LAUSD due to the special status of the authorizer relationship. Should the data not be public by the time the Board takes action on the charter renewal petition, KIPP LA agrees to redact the data, or to work with the District to achieve a different, mutually agreeable, solution.

When looking at individual school performance levels, (see chart below) there is a larger disparity between KAO and neighborhood schools among achievement in ELA and mathematics. The neighborhood schools are performing at a significantly lower level in ELA with a range of 6 - 23% of students scoring at standards met or exceeded. In math, the range is even larger, with the lowest level of meeting or exceeding standards at 1% and highest neighborhood school rate at 21%. In 2017, KAO students outperformed neighborhood schools in English language arts by a 37% margin, and in math by a 20% margin.
KAO’s progress outpaces District neighborhood schools for the schoolwide student population. It is more significantly positive when comparing the performance of demographically similar students. Below are 2017 CAASPP scores for our subgroups, along with subgroup performance from our neighborhood schools in aggregate.

In the charts provided above, KAO’s 2017 CAASPP scores were broken into the major subgroups in comparison to the neighborhood school subgroup score results. In three subgroup areas (Ethnicity, English Learner, and Economically Disadvantaged), KAO outperformed the neighborhood schools in both ELA and math. The largest discrepancies between KAO and the district were seen in the ethnicity subgroups, with African American/Black KAO students outpacing neighborhood subgroup counterparts in ELA by 30% and in math by 13%. Hispanic/Latino KAO students outpaced neighborhood subgroup counterparts by 28% in ELA and 28% in math. For special education students, KAO students outscored the neighborhood schools in ELA by 4%.

**KAO CAASPP Performance over the Charter Term**

In the spring of 2015, like all public schools in California, KAO students took the CAASPP for the first time. Of our fifth through eighth grade students that year, 29% met or exceeded standards in ELA and 18.2% of our students scored met or exceeded standards in math. In 2016, KAO experienced increases in results, with 38% of students meeting or exceeding standards in ELA and 24% meeting or exceeding standards in math. In 2017, KAO experienced an increase in ELA, with 43%
of students meeting or exceeding standards, and a decrease of 3% in math with 21.4% of students meeting or exceeding standards. In both ELA and math, KAO has scored higher than our initial results, with a net growth of 14% in ELA from 2015 to 2017 and 3.2% in math, from 2015 to 2017.

Additionally, KAO has exhibited greater increases in academic achievement for all subgroups in nearly all content areas. With our economically disadvantaged subgroup, we have increased a total of 16% in ELA and 3% in math since 2015. With our Hispanic/Latino subgroup, we have seen a total increase of 25% in ELA and 13% in math, and a 11% increase in ELA for our African American/Black student subgroup. Although making significant gains with EL students in ELA, 20% increase from 2015, we have much work to do with increasing their growth in math. Additionally, we have an opportunity to focus on our students with disabilities to ensure they are experiencing increased growth over time.

We intend to solidify our focus on instructional improvement for the next charter term; this will be achieved through more targeted professional development sessions to ensure precision in both lesson planning, studying, and delivery. We will launch content teams with content leads who have demonstrated results in the classroom in their particular content area of focus. These content leads will meet with the School Leader regularly to progress monitor with student data. Literacy will be infused in all subject areas to a higher degree, with accountability measures. Math resources will be used more heavily to ensure improvement in students’ conceptual understanding.
Local and State Indicators

Attendance Goals and Rates

KAO believes that academic achievement can only be possible with strong in-seat attendance. Our goal is to have a 95% or higher daily attendance rate each year. We have remained constant in our ADA progress toward meeting our goal throughout the length of our current charter. Our attendance rate in 2016-17 was 94.2%, and historical rates can be found below:

To ensure that we meet and improve on our Average Daily Attendance (“ADA”) goals in 2017-18 and beyond, KAO is taking the following steps:

- Monitor student attendance on a daily, weekly, and monthly basis and meet with parents if attendance issues arise to determine the cause and find a solution through the School Support Team meetings (“SST”), and the School Attendance Review Team (“SART”). The SART team is made up of school administrators and staff and meets on an as-needed basis to address student attendance issues;
- Partner with parents at our new student orientation, Back to School Night, parent/teacher conferences and It Takes a Village (“ITV”), our parent group, to create a shared vision around the importance of consistent attendance for our scholars;
- Clearly articulate our attendance policies and procedures to all parents through our student and family handbook;
- Provide incentives for classrooms and students so that students can advocate for their attendance.

Suspension Goals and Rates

KAO seeks to have a less than 5% suspension rate in a given year to ensure that every student has ample classroom time to learn and to enable our teachers to build positive relationships with our students and families. In 2016-17, KAO’s suspension rate was 3%. KAO will continue to keep its suspension rate low and reduce its suspension rate in the coming years by focusing on restorative justice practices that encourage scholars to learn from their mistakes and build character. KAO will continue to implement meaningful in-school discipline structures targeted at providing reflection time for students and involving parents in an authentic way to assist in supporting their child behaviorally. Further, all teachers and team
members are trained in Strategic Alternatives to Suspension and Progress Monitoring Action Plans and a tiered behavior system to ensure school safety.

Innovative Features

Quiet Time

The Quiet Time program is a practical, evidence based approach to reduce daily stress and improve academic performance, student wellness and the school environment. KAO implemented Quiet Time in 2015-16. KAO’s Quiet Time provides students with two 15-minute periods of quiet or transcendental meditation each day to help balance lives and improve their readiness to learn. Transcendental meditation (“TM”), is the core intervention of the Quiet Time Program. TM is a simple, easily learned technique, practiced by students and teachers while sitting comfortably with the eyes closed. It does not involve religion, philosophy or change in lifestyle. Over 340 published scientific studies document its effectiveness for improving health and learning. This approach has been adopted by hundreds of public, private, and public charter schools worldwide - with strong support from students, parents, and educators.

KAO Alumni: High School and College Acceptances

Through our KIPP Through College Program, explained in detail on page 26, KAO students explore their high school and college options. We know that securing an excellent high school experience will support college access. The KIPP Through College Team supports KAO students in meeting their goals post KIPP. Our most recent class of 8th graders (2016-17) are attending a variety of high schools types; the attendance breakdown is:

- 50% - Charter schools
- 21% - Magnet
- 15% - Traditional public
- 10% - Private
- 4% - Early College public

Additionally, our KAO alumni have been accepted to a variety of institutions, 2017-18 included Duke and American University for the first time, as well UC Berkeley, Morehouse College, Kalamazoo College, San Jose State, UC Merced, and California
State University Los Angeles, to name a few. Historical matriculation rates of KAO students are listed below:

- 2015 alumni: 56 students, 73% matriculated to college
- 2016 alumni: 65 students, 77% matriculated to college
- 2017 alumni: 67 students, 72% matriculated to college (this number will increase by September, as we confirm more college acceptances).

Character Education

Our mission supports the notion that schooling should develop the character and self-identity of students. KAO will cultivate character traits and teach the KIPP values strategically throughout the school year. Teachers are encouraged to incorporate KIPP values in their lesson plans across content levels so that students are receiving a holistic education that builds academic and character skills. Additionally, there are weekly assemblies in each grade level where students discuss character, practice, and highlight classmate’s demonstrating character. Students will be motivated to creatively represent what each value means to them through writing, skits, music, and more. They could creatively express the KIPP values individually, as a class, or even as a grade level. Just as communities have for centuries used the arts to tell their personal and collective stories, so too will students at KAO engage in drama, music, dance, visual arts, and choir to promote self-expression and self-confidence and to explore their communities’ history and heritage. As in all other areas of instruction, KAO will maintain a high standard of excellence, offering a wide-range of quality instructional options to suit students’ interests and learning preferences.

Challenges

Reclassification

KAO has faced a challenge in reclassifying students at a rate similar to our other schools. KIPP LA changed its reclassification policy aligned with state testing. To remain in alignment with the state, the KIPP LA reclassification policy was updated numerous times within KAO’s charter term. Additionally, KAO experienced an increase in enrollment of EL students during the charter term. With these changes, the timing for reclassification proves to be difficult to show the true numbers of reclassification. Reclassification rates do not reflect the most current testing, due to when the results of the tests that determine reclassification are released. To address these issues, KAO utilizes an Intervention teacher to focus on all EL students and ensure the proper progress for these students. As well, a key priority for our staff development is differentiation, which will include Specially Designed Academic Instruction in English (“SDAIE”) strategies and academic discourse. Additionally, our teachers participate in development workshops on reading conferencing, guided reading, writer’s workshops, and language forms and functions so that our students who are still working to master English are supported in small group instruction throughout various points of the day with reading, writing, speaking and listening in English.
The CDE calculates reclassification rate by dividing the number of EL students on norm day by the of EL students on norm day from the previous year. KAO’s 2017-18 reclassification rate is provided based on reclassifications reported to CALPADs from Norm day 2016 and will conclude Norm Day 2017. As displayed in the table below, KIPP Academy of Opportunity has worked to increase their reclassification rate. In July 2016, KIPP LA Schools hired a Regional EL Coordinator to help with EL support, monitor student level data, and reclassification. The Regional EL Coordinator facilitates whole group professional development session’s bi-annually and individual monthly meetings with on-site EL Coordinators. Due to the nature of how reclassification rates are calculated the work that the regional EL coordinator and school-based team members did is reflected in the 2016-17 and 2017-18 rates. Additionally, the rate for 2016-17 is a reflection of the work we did the previous year. We accept many EL students who are or at risk of being long term EL students and as a result need time to work with them to ensure they truly are ready for reclassification.

*Internal estimates to be finalized Norm Day 2017

We are constantly looking for ways to support our EL population, and this is supported by the year to date results for the 2017-18 reclassification rates. As of August 2017, we have reached a 17.6% reclassification rate, according to internal estimates and anticipate increasing by the time we reach norm day in October 2017.

Split Campus

Throughout the majority of KAO’s history, the Charter School has operated out of two physical locations and experienced several moves. The most difficult year was when KAO operated on a split campus at a YMCA, which was nearly 5 miles away. This created strain on the team and families as our resources were split. For example, the administrative and office team split time between the two sites so that administration was always available. Additionally, teacher resources were
divided, making it difficult for teachers to quickly access the tools they need to teach. KIPP LA Schools worked hard to remedy this situation and KAO has moved into its new permanent building, housing all grade levels, in August 2017.

**Chronic Absenteeism**
Over the course of each academic year, KIPP Academy of Opportunity will engage in efforts to reduce chronic absenteeism in our schools, with the goal of fewer than 10% of students being chronically absent. By closely monitoring student attendance records, school staff will identify students who need intervention and will provide targeted intervention based on individual student needs. Intervention efforts will include phone calls, written correspondence, individual and small group meetings addressing barriers to good attendance, and connecting families with resources to address their specific barriers to good attendance.

**Looking Ahead**

*Equity and Trauma Informed schools*
One of the impediments to accessing opportunity for our students is the impact of traumatic events on their ability to learn and develop. At KIPP LA, we believe in providing both a rigorous education and social-emotional supports to empower our students to thrive in school, college, and the competitive world beyond.

National data indicates that one in four children experience a traumatic event in their lifetime that can affect learning and development; in a 2013-2014 screening of 572 Los Angeles students, 88% reported experiencing three or more traumatic events. Research supports that even one traumatic event influences the brain enough to alter development, such as increasing symptoms of depression, irritability, aggressive behaviors, and anxiety while decreasing attention/focus, short- and long-term memory, communication and language skills.

In our effort to reduce the inequities between subgroup performance and increase achievement for all students, we will continue to implement Quiet Time, and additionally move to becoming Trauma Informed Schools. This is an approach to teaching and school culture that understands that our students bring with them their past experiences and aids in the healing process for those that have experienced trauma. One component of this approach is to provide a Social-Emotional Learning intervention course which we will continue to implement with Quite Time. Through our work with Quiet Time, we have supported the region in making a similar transition to Calm Classroom.

**Student Population To Be Served**

KIPP Academy of Opportunity believes that the middle school years are crucial years and that the choices students make during these years will help set them on a path for success. KIPP Academy of Opportunity creates a supportive, rigorous and personalized learning environment with a focus on college-readiness for fifth through eighth grade students.

As a public school, KIPP Academy of Opportunity is tuition-free and will admit any middle school-age student regardless of disability, gender, gender identity, gender expression, nationality, race, ethnicity, religion, sexual orientation, or any other characteristic of any protected class. KIPP Academy of Opportunity works in tandem with parents, community members, and the Los Angeles Unified School District to realize the mission of the school. Although the middle school will be open to any student, KIPP Academy of Opportunity targets academically underserved students in Los Angeles.

**School Mission and Vision**

The mission of KIPP Academy of Opportunity ensures that its students develop the academic skills, character traits, and intellectual habits necessary to succeed in top quality high schools, colleges, and the competitive world beyond.

KIPP Academy of Opportunity enables students to become self-motivated, competent and lifelong learners. Armed with these skills and achievements, the students of KIPP Academy of Opportunity recognize that an outstanding education is the instrument to achieve personal success and that success means having abundant opportunities.

KIPP Academy of Opportunity, which serves no more than 485 fifth through eighth grade students at full enrollment, aims to strengthen the character and academic skills needed for underserved students in Los Angeles to excel in competitive high schools and colleges and assume positions of responsibility and excellence. Central to the school’s mission is the belief that all students can succeed in rigorous college-prep environments when provided with high expectations, a disciplined commitment to academics, extended time for learning, including summer school and daily supplemental instruction, and
access to a wide range of enriching learning experiences. It is now a truism that an excellent college education is necessary for expanded opportunities in an increasingly competitive and global 21st century job market. Therefore, a college preparatory ethos drives all aspects of the school, from the educational program to the allocation of resources and daily scheduling.

By utilizing the rigorous grade-level expectations articulated in California’s Common Core Content Standards (“CCSS”) and Next Generation Science Standards (“NGSS”), as well as by utilizing the remaining California state standards, academic learning at KIPP Academy of Opportunity will be driven by the teachers’ design and implementation of year-long pacing guides and internalization that ensure students have mastered core standards to mastery by the end of the third quarter. Diverse data drives instruction at every step. Intervention and accelerated groups are used to ensure all students are challenged and supported in individual learning levels.

Our mission supports the notion that schooling should develop the character and self-identity of students. KIPP Academy of Opportunity will cultivate character traits and teach the school’s values strategically throughout the 2018-23 charter term. Teachers are encouraged to incorporate school values, discussed below, in their lesson plans across content levels so that students are receiving a holistic education that builds academic and character skills. Students will be motivated to creatively represent what each value means to them through writing, skits, music, and more. They could creatively express the school’s values individually, as a class, or even as a grade level. As a school, we will give students real-world experiences and opportunities that ignite their curiosity, heighten their critical thinking and provide access to opportunities available to their middle-class peers. For example, beginning in fifth grade, each grade will visit at least one college campus annually to make college a tangible place and goal in our students’ minds. Students will also participate in an overnight camping trip where they will experience scientific concepts such as erosion, plate tectonics, and weather patterns first-hand. These experiences and others aim to level the playing field and enrich our students’ lives.

**School Values**

In order for students to realize the mission of KIPP Academy of Opportunity, character building and a values focus are essential components. The values of the school are Grit, Optimism, Curiosity, Zest, and Gratitude. The school will build upon the students’ existing experiences and values in these areas and seek to strengthen and develop these values supporting students’ success in middle school, high school, college, and the competitive world beyond. Students will use rubrics to self-reflect on their own character based on eight character traits identified as the most predictive of student’s success in college and in life: grit, zest, self-control, optimism, gratitude, social intelligence, and curiosity. Teachers and families will also provide input on the student’s self-reflection. Students will learn to monitor their own progress on the character traits and also to solicit and accept feedback.
KIPP Academy of Opportunity will achieve its mission and vision through its implementation of KIPP’s Five Pillars, its partnership with the KIPP Foundation and KIPP LA Schools, and through KIPP’s educational philosophy. KIPP’s Five Pillars, the core operating principles that all KIPP schools share, will drive KIPP Academy of Opportunity and are as follows:

HIGH EXPECTATIONS: Clearly defined and measurable high expectations for academic achievement and conduct that creates and reinforces a culture of achievement and support. We know that every student is different and we personalize learning based on a student’s needs, skills, and interests.

STRENGTH OF CHARACTER: Success in life depends on more than academic learning. We help students foster character strengths that are essential for their own success. And we empower them to express their voice with power and to improve the world around them.

HIGHLY SKILLED TEACHERS & LEADERS: Great schools require great teachers and school leaders. We empower our school teams and invest in leadership and training rather than in bureaucracy.

SAFE & STRUCTUREN ENVIRONMENTS: Physical and emotional safety is needed for students to take risks and learn from their successes and their mistakes. Our schools provide a safe, structured, and nurturing environment with minimal distractions so our students love school and maximize their learning.

KIPP THROUGH COLLEGE: Our counselors and advisors support students as they prepare for and select the right college for their needs and interests. After high school, we help KIPP alumni navigate the social, academic, and financial challenges they might encounter while in college.

College and Career Readiness: Becoming a 21st Century Educated Person
Every KIPP LA school’s goal is to ensure that its students are on the path to and through college. By focusing on college starting in kindergarten and preparing our students to be successful in middle school, high school and beyond we will achieve our goal. To be college ready, our students must be able to:

1. Master core content;
2. Develop key cognitive strategies;
3. Take ownership of their learning and become proficient with a range of learning strategies;
4. Acquire the knowledge necessary to make a successful transition from secondary to postsecondary education.

Implementing the highest-quality instructional program is paramount to KIPP’s track record of success. KIPP Academy of Opportunity’s high-quality instruction is standards-based, with an emphasis on character and academic skills, and is explicitly tied to the school’s mission of preparing students in Los Angeles for success in college and in life.
Although there are several important factors that contribute to student achievement, research has demonstrated that the quality of instruction in the classroom has twice the impact on student achievement as school-wide policies regarding curriculum, assessment, staff collegiality, and community involvement.\(^5\) While the quality of instruction cannot be emphasized enough, it is also important that schools focus on teaching the appropriate types of skills that will adequately prepare students for the challenges that await them. Tony Wagner, a researcher from Harvard University, created an evidence based approach. Through interviews with senior executives and college admissions counselors, he determined what the seven survival skills are for workforce readiness. Therefore, to truly prepare our students to become 21st century educated persons, we must focus on these seven skills. They are:

1. Critical Thinking and Problem Solving
2. Collaboration across Networks and Leading by Influence
3. Agility and Adaptability
4. Initiative and Entrepreneurialism
5. Effective Oral and Written Communication
6. Accessing and Analyzing Information
7. Curiosity and Imagination\(^6\)

These seven survival skills for becoming 21st century educated persons are composed of both academic skills and character skills, which is why KIPP schools have always been founded with a dual purpose of cultivating both sets of skills. In the words of David Levin, founder of KIPP, “the experiences of KIPP Academy New York and KIPP Academy Houston have taught us that academics without character are useless; students will have the skills but lack the motivation to use them. Character without academics is hollow; students will have the motivation but not the ability to use it. Together, they have the power to transform lives.” By teaching academic and character skills in tandem, KIPP Academy of Opportunity will develop self-motivated, competent, lifelong 21st century educated persons.

In addition to these academic and character skills, the 21st century demands that students are able to use technology and media in a meaningful, responsible, and strategic manner, which is why KAO has a 1:1 computer ratio. Students will need to employ technology to enhance their reading, writing, speaking, listening, and language skills. They will need to efficiently research information online and utilize what they learn in both on- and offline environments. They will need to understand the strengths and limitations of various technology and media and use those to their maximum potential to accomplish their goals. KAO is focused on ensuring usage of purposeful technology in school and at home so that students gain 21st skills to prepare them for success in college and beyond.

**KIPP Through College**

At KIPP LA, our mission is to ensure student success through college graduation. While our current schools serve only the elementary and middle school grades, KIPP Through College ("KTC") will continue to support students who complete the eighth grade at KIPP Academy of Opportunity on their journey to remain on the path to college.

The mission of KIPP Through College is to empower KIPP LA alumni to continue to use their KIPP-learned intellectual habits, knowledge, and character traits in their current school and in life to attend and complete college as well as further their communities. The fundamental goal of the KIPP Through College program is to ensure that more than 80 percent of KIPP LA alumni go on to college and become successful in life.

Our KIPP Through College program offers a range of services to KIPP LA’s alumni. Our services are provided in three major areas:

**In middle school:**

The KIPP Through College program begins by assisting KIPP LA students and their families with the high school placement process. Beginning in fifth grade, KIPP LA families know the crucial role middle school plays in their child’s trajectory to and through college. For families who did not attend a KIPP elementary school, they are introduced to KTC during the Parent Academy in the summer before 5th grade. High School Placement advisors work closely with students and families to assist them during the high school application and admission process, with the aim of identifying the college preparatory high school that best fits each student’s individual strengths and interests.

**In high school:**

The focus on college is even more intentional when KIPP LA alumni begin high school. While in high school, KIPP Through College provides support to alumni in the following areas: academic advising, standardized testing preparation, college tours, college admissions and application assistance, scholarship support, and financial literacy.

**In college:**

KTC not only supports students on their journey to college, but also supports them while they work towards college graduation. KTC advisors visit students on their college campuses, as well as keep in touch via email and phone. KIPP Through College Counselors, who work for KIPP LA’s regional team discuss academic progress, financial aid, social pressures, and internship and career options. During holidays and breaks, KIPP LA hosts events for students while they are back in their hometowns.
How Learning Best Occurs
Implementing a high-quality instructional program is paramount to KIPP’s track record of success. High quality instruction is a result of proper planning and varied instructional techniques and methods that are relevant to students. There are four components to KIPP Academy of Opportunity’s approach to high quality instruction:

1. **Quality Instruction is Standards-Based.** KIPP Academy of Opportunity has correlated its curriculum objectives to the CCSS, NGSS, and remaining State content standards adopted by the California State Board of Education. Incoming student needs and performance levels will determine the weight that teachers place on different elements of the curriculum. The school’s expectation is to accelerate student learning to ensure that mastery of the state standards is achieved at a faster pace necessary to prepare students for the rigorous and challenging curriculum they will encounter in middle school and high school honors and advanced placement programs.

2. **Quality Instruction is Data-Driven.** All instructional decisions at KIPP Academy of Opportunity are anchored in student data. Teachers begin by using diagnostic and beginning-of-year assessment data to adjust pacing guides and differentiate instruction. During lesson planning and internalization, teachers identify formal and informal ways to collect data about student understanding; teachers use this data to adjust scaffolds, pacing and student grouping. Teachers analyze student data during grade-level meetings and professional development to inform practice. The School Leader uses student data to drive observations, feedback and teacher development.

3. **Quality Instruction is Differentiated.** Students process material in a variety of ways. Thus, teachers at KIPP Academy of Opportunity continuously work together to enhance student learning by sharing, developing, and refining effective teaching strategies. The advantage of having more time for learning means that multiple instructional techniques can be combined and integrated throughout the day. Students whose needs have not been met through traditional teaching methods benefit from supplemental, direct instruction, small group work, workshop, call and response, hands-on learning, chanting, role-playing, team-teaching, individualized instruction, cooperative learning, peer tutoring, computer activities, and other innovative techniques.

4. **Quality Instruction is Culturally Relevant and Responsive to Students.** KIPP Academy of Opportunity combines California’s rigorous content standards with the pedagogies that have proven successful in established KIPP schools. While it is important that teachers ensure students are mastering content standards, it is vital for teachers to create a learning environment as well as provide students with opportunities to learn skills and content in meaningful ways, KIPP Academy of Opportunity defines culture as a necessary dimension towards academic achievement. Therefore, it is incumbent upon the staff KIPP Academy of Opportunity to truly understand the cultural values, beliefs, customs, and ideas of the students that attend their school. By doing so, teachers can make informed decisions about how to help students connect what they are learning to what they already know. Culturally relevant pedagogy also seeks to build a positive self-concept within students by valuing a student’s background, at KIPP Academy of Opportunity,
a culturally responsive curriculum will also students to better understand their place within their community and how realizing their goals and dreams will impact and support the community they live in. KAO staff receive training on the school culture and climate, Trauma-Informed classrooms, and culturally responsive curriculum. Staff are also expected to spend time in the neighborhoods surrounding the school to understand the climate and culture. Also, KLA seeks to hire staff from the communities we serve whenever the opportunity is available - i.e. finding an applicant that meets all qualifications and is from the communities we serve. Staff also are encouraged to care for the whole child - beyond just teaching academics.

**Outcomes and Assessments Aligned with the State Priorities**

In accordance with Education Code Section 47605(b)(5)(A)(ii), KIPP Academy of Opportunity has developed annual goals, schoolwide and for all numerically significant pupil subgroups, in the eight state priorities, as well as annual actions to achieve those goals. These are identified below in Figure 6.

KIPP Academy of Opportunity’s school-wide and subgroup outcome goals and performance targets will be aligned to the state’s priorities. We will carefully set ambitious goals and outcomes for our teachers and students with the ultimate goal of preparing them for success once they leave KIPP Academy of Opportunity. These goals and targets are outlined in Figure 6.
All Students Will Achieve

Specific Annual Actions to Achieve Goal

**KIPP LA’s Six Essential Questions**

Beyond the state priorities, the KIPP national network has developed Six Essential Questions to provide a yardstick by which to measure our progress, keep us focused as we grow, and most important, help us keep the promises we make to our students and their families.

The six essential questions that we use to help us set goals are as follows:

1. Are we serving the children who need us?
2. Are our students staying with us?
3. Are our students progressing and achieving academically?
4. Are our alumni climbing the mountain to and through college?
5. Are we building a sustainable people model?
6. Are we building a sustainable financial model?

KIPP Academy of Opportunity sets specific and measurable goals aligned to each of our six essential questions. These goals are in alignment with our goals in the state priorities described above.

**Instructional Design**

KIPP Academy of Opportunity offers a rigorous CCSS-based instructional program that will build the foundation to ensure our students’ success in the future, by enabling and empowering them to become self-motivated, competent, life-long learners. The school’s program will nurture well-rounded critical thinkers who love learning, while preparing them to master the CCSS through engaging in authentic work. Beyond enabling our students to perform at or above grade-level in English Language Arts and Mathematics, KIPP Academy of Opportunity will enable our students to become artists, scientists, authors, athletes, and agents of change who develop projects to impact the local and global community.

KIPP Academy of Opportunity’s staffing model is designed to best serve the students that we teach in our building. For this reason, an emphasis is placed on hiring the most qualified teachers who will have the best results with our students. We will hold true to our promise of providing an excellent education for all students by maximizing the human capital in our building. KIPP Academy of Opportunity staff plan is outlined below in Figure 7.

The true curriculum of KIPP Academy of Opportunity is the California Common Core Standards and mastery of these standards will be the primary focus of the school’s instructional program. All teachers will be expected to use the selected curriculum as a base and lift the material off the page into standards-based lesson plans.

When planning, teachers will think of how their instruction will meet the individual needs of students. They will plan how to incorporate different learning modalities and multiple intelligences, informed by the work of Howard Gardner, psychologist and author of *Multiple Intelligences*, and social and emotional intelligence based on the work of Daniel Goleman, psychologist and author of *Emotional Intelligence*, into lesson plans. Further, the teachers will use a mixture of groupings during their instruction. At times, they will utilize whole class instruction, while others they will use collaborative learning groups.

Strategic technological education is paramount to scholars gaining 21st Century skills that will prepare them for a competitive workforce and society. KIPP Academy of Opportunity has a 1:1 computer ratio, but provides high quality computer software programs that will prepare each scholar to perform their best on the CAASPP.

Teachers will further differentiate instruction through modifications to the content, process, or product while ensuring they are providing the needed scaffolding to set their students up for success. The work of Carol Ann Tomlinson, author of *The Differentiated Classroom: Responding to the Needs of All Learners*, will be used to inform their differentiated instruction.
By utilizing the above teaching methodologies and building a professional library and resource base which will be incorporated into professional development, the teachers will address the varied needs of students and targeted student population in order for all students to meet and exceed the goals set forth in the charter.

Each of these instructional programs was selected due to its comprehensive nature and alignment to the CCSS and NGSS. Each program includes teaching approaches to differentiate instruction, to meet the needs of English Learners, and to push accelerated students. Each program has been created by reputable publishers with a record of successful implementation with the students population KIPP Academy of Opportunity will serve.
In addition to the materials listed above, KIPP Academy of Opportunity will incorporate standards-based online learning programs to supplement instruction in core subjects. Through rigorous and engaging online content such as (but not limited to) Compass Learning, ST Math, Accelerated Reader, and Achieve3000, students will be able to access individualized instruction at their level to practice what they’ve learned in class and strengthen their 21st century computer literacy skills through sustained daily usage of computer hardware and software. When selecting online learning content, the School Leader will consider academic rigor, student engagement, and program alignment to the CCSS and NGSS.

KIPP Academy of Opportunity will further enhance the programs by aligning and supplementing the curriculum based on assessment data and innovative strategies, such as an accelerated curriculum in the fifth grade level. In addition to the selected instructional programs, teachers will use a variety of supplemental materials and frameworks to reinforce and enhance mastery of the content standards as designed in the core subject scope and sequences provided in figure 9. Teachers will utilize supplemental resources that may include:

**Innovative Instructional Practices**

**Core Areas of Instruction**

**English Language Arts and Writing**

The English-Language Arts program provides a challenging and rewarding curriculum that is literature-based, culturally diverse, and intellectually stimulating. A significant emphasis is placed on developing reading and writing skills. Students work collaboratively to guide each other’s understanding of texts, novels, media and other sources. Students will leave our school with a mastery of the language arts skills that will be required of them in the highly selective high schools and colleges they later attend.

The fundamental elements of reading comprehension, writing, listening, speaking, and presentation are all covered in each English-Language Arts classroom. Students learn the fundamentals of grammar, the writing process, public speaking, note taking, and learn to identify social and cultural influences and differences in writing. Students work together to revise, edit, and present papers and other presentations.
In order to address the individual needs of students, we will use the following approaches to its ELA instruction. The components of the reading program are:

- **Read Aloud**: The teacher reads a text aloud and involves the students in what is read through comprehension activities. Students acquire and sharpen their listening and comprehension skills through this exercise. The teacher uses this time to model the application of reading skills.

- **Shared Reading**: The teachers and students work from a common text to study particular reading skills and strategies. Literature choices take into consideration themes across content areas, literature genres, and texts read and discussed at exemplary middle schools.

- **Independent Reading**: There is a time set aside each day for independent reading using a book selected by the student according to their independent reading level.

- **Guided Reading**: The teacher identifies a small group to deliver a focused reading lesson. Students read text at their reading level, answer reading comprehension questions, and respond in writing. Teacher conferences with students constantly while providing intensive reading instruction.

- **Close Reading**: Teachers and students will work from a common text to develop a deep and precise understanding of the text through thoughtful, critical analysis that can focus on details or patterns.

**Writing**

KIPP LA sees writing as an essential component of both balanced literacy and college and career readiness. Thus, KIPP LA teachers plan writing instruction with both the grade level content standards in mind and the Common Core anchor standards. Students receive writing instruction that is intimately woven with reading in ELA, social studies, and science, as they learn to cite textual evidence, make claims, and expound upon ideas born from their critical analysis of reading. Teachers develop students’ craft as they guide them through writing expository, persuasive, and narrative. Sometimes this occurs in a workshop model, while other times the instruction is delivered in a more guided, directive manner, based on student need. The end goal of KIPP LA’s writing instruction is for students to develop a love of the written word, their ability to think critically and express their ideas, and hone their communication skills to benefit their future educational, career, and life endeavors.

**English language development**

Based on a substantial research base proving the benefits of a structured English immersion program, KIPP Academy of Opportunity will implement a comprehensive structured immersion program, in every mainstream classroom, for its EL students. We aim for all of our students to leave the school proficient in the English language and with pride and support for their home language.
Teachers will use the English Language Development standards set forth by the California Department of Education, and in alignment with the Common Core State Standards, to assist in planning and assessing the progress of English Learners. Students of limited English proficiency will receive the same academic content as those students who are native English speakers in alignment with KIPP LA’s English Learner Master Plan, which is immediately available upon request.

Language acquisition is enhanced by exposing students to experiences in a variety of learning modalities (kinesthetic, auditory, and visual) that correspond to the subject matter and grade level curriculum, as well as providing structured, explicit language instruction. Teachers will use Specially Designed Academic Instruction in English strategies to enhance the English Language development of all of students. These strategies are also effective for English-only students, as they implement strong teaching techniques. When teaching using SDAIE strategies, teachers will organize the subject matter so that it is grade-level appropriate and cognitively demanding in the core curriculum. SDAIE provides (1) access to the core curriculum, (2) English language development, and (3) opportunities for social integration into the multicultural classroom community. Examples of utilizing SDAIE strategies include supporting verbal explanations with nonverbal cues and designing appropriate learning sequences, such as building upon prior knowledge.

In addition to SDAIE strategies, teachers will also provide students with differentiated explicit language instruction. Teachers will use the CCSS aligned English Language Development standards, along with a forms and functions matrix, and an adapted model of Susana Dutro’s framework for a focused approach on language development, to design lessons that build academic language— both vocabulary and structure, provide fluency or language practice, and encourage students towards appropriately rigorous language outputs.

In addition to the structured English immersion modifications teachers will make in their mainstream classes within the extended day schedule, there will be ample time for additional intensive English language instruction during small group and workshop time. We will use proven methodologies including increased time for reading and math and individualized instruction for students who are acquiring English. Examples of instructional models that may be employed with EL students:

- Workshop models;
- Cooperative learning;
- Thematic teaching;
- Scaffolding instruction;
- Think/pair/share;
- Kinesthetic activities;
- Books on tape;
- Graphic organizers;
· Pre-teaching vocabulary;
· Labeling items in classrooms and school in different languages;
· Manipulatives;
· Jigsaw;
· Storytelling;
· Using culturally relevant materials;
· Repetition; and
· Modeling.

Mathematics

KIPP LA implements math curriculum that reflects the three Common Core shifts in mathematics: focus, coherence, and balanced rigor (a balance among conceptual understanding, procedural fluency, and application/problem solving). Our children benefit from student-centered mathematics that is focused not only on them mastering the grade level content standards, but equally as much on the 8 Standards for Mathematical Practice, so that our students learn to think and act like real life mathematicians. Mathematics at KIPP LA is research-based, with best practices including building procedural fluency from a foundation of conceptual understanding, teachers moving through the developmental continuum of engaging with new mathematics first concretely (with tools and manipulatives), then pictorially, and finally abstract (numbers and symbols), and always emphasizing visual models to represent mathematical ideas. KIPP LA recognizes collaboration and communication as essential components of mathematics instruction, so classrooms incorporate partner work, group work, and small group and whole class discourse as much as possible. Our ultimate goal is for our students to see mathematics as a joyful, creative process, and for them to engage in the discipline in a manner that hones their critical thinking skills and ability to collaboratively problem solve in the ways that the jobs of the future will require of them.

Science

Establishing a strong foundation in science enables students to critically observe their surroundings and develop critical thinking and analytical skills. KIPP Academy of Opportunity will use Holt and Harcourt developed textbooks for a hands-on, inquiry-based approach to science serving as a tool for ensuring mastery of the NGSS.

Science instruction utilizes integration of the Next Generation Science Standards in combination with exploration through investigations, experiments, and viewing media clips that bring certain topics to life for the students. The science instruction across the grade levels is organized to best facilitate the students’ mastery of their grade level content standards in each of
the following content strands: physical sciences, life sciences, earth sciences, and investigation and experimentation. In accordance with our accelerated pace, students also gain a strong foundation in Biology that will enable them to be placed in Honors or accelerated Biology classes in high school. A broad, multicultural history of science component spans the entire curriculum, as does skills development, a study of the impact of humans on the environment, and a reinforcement of math and technology skills.

**History - Social Studies**

In order to become agents of change who will positively impact the community, developing a strong sense of history and social, economic, and political trends over time is essential. Students develop their historical and social sciences analysis skills through developing the following intellectual, reasoning, reflection, and research skills: chronological and spatial thinking, research, evidence, point of view, and historical interpretation. Lesson plans will be developed with an eye towards mastery of the California Content Standards in Social Studies.

Social studies instruction utilizes a textbook-based approach combined with exploration using realia, primary and secondary resources, as well as watching media clips that bring certain topics to life for the students. Students have the opportunity to conduct research and seek resources to deepen their knowledge based on a particular topic. Based on assessment data, the teachers may elect to modify the pacing or supplement the chosen curriculum as needed. The teachers work collaboratively to order the curriculum for connections to be made across the disciplines.

In accordance with the California State Content Standards for History-Social Studies, the curriculum for 5th through 8th grades will be organized around the broad topics listed below by grade level. Encompassed within the broad theme for each grade are all state standards that build upon prior knowledge, intertwine geography instruction, and deepen student's understanding of our world and how it has come to be. Outlined below are the broad instructional themes for each grade level. As an example for how history and geography standards blend, 5th grade provides a single truncated example of a standard to be taught:

- **Fifth grade: United States and Geography: The Making of a Nation**
- **Sixth grade: World History and Geography: Ancient World – Ancient Civilizations**
- **Seventh grade: World History and Geography: Medieval History**
- **Eighth grade: United States History and Geography: Growth and Conflict**
Non-Core Areas of Instruction

Foreign Language, Arts and Health
To fulfill the whole child focus of KIPP Academy of Opportunity, our program expands beyond the core curriculum to include health and wellness, visual and performing arts, foreign language, physical education, and technology.

KAO believes we should educate students who are equipped linguistically and culturally to communicate and thrive in their community and abroad. Our foreign language program is based upon a set of principles about language education. These tenets are based on language education research and are supported by experience: · All students can experience success in foreign languages · Students learn/acquire language in different ways · Native speakers need explicit instruction in grammar, conventions and academic language · Language acquisition is a lifelong process · Students acquire proficiency at different rates · Language is more easily acquired in meaningful context · Student language development should be assessed regularly. Visual arts supports all core subjects. By fusing arts with core content such as literature and math, we support our students in acquiring academic and art skills. While students gain confidence in their artistic abilities and sense of belonging among other passionate artists, they develop the leadership skills required in the administration of clubs. Our performing arts course offerings are also diverse, including choir, modern band, and orchestra. As students develop mastery of their instrument or voice, they gain procedural and fine motor skills, learn to communicate through music, improvise, and learn the basics of music theory.

Technology
Students develop digital citizenship every day through the use of Google Classroom, an online platform where students compose, revise, and submit writing, share resources, and communicate with their peers in a teacher-facilitated and monitored manner. In addition to Google Classroom, all students regularly access Illuminate Education, a web data management system through which students complete computerized, SBAC-aligned assessments and where students and parents can access grades. Students are held accountable to challenging personal reading goals through the Accelerated Reader Program, which allows students to select appropriate level books and to complete reading comprehension assessments. Students in fifth grade utilize blended math instruction with Compass Learning, a personalized online tool that allows students to increase their mathematical mastery. Sixth, seventh, and eighth graders frequently access Khan Academy. Every classroom is equipped with projectors and document cameras to make instruction more accessible and engaging to all students.
Physical Education

Physical education classes develop students’ motor skills while promoting the good health habits that will have a positive effect on students’ well-being. In addition, students develop sportsmanship and teamwork skills.

The program is organized in accordance with the California content standards in Physical Education at each grade level, following these overarching standards:

- Standard 1: Students demonstrate the motor skills and movement patterns needed to perform a variety of physical activities.
- Standard 2: Students demonstrate knowledge of movement concepts, principles, and strategies that apply to the learning and performance of physical activities.
- Standard 3: Students assess and maintain a level of physical fitness to improve health and performance.
- Standard 4: Students demonstrate knowledge of physical fitness concepts, principles, and strategies to improve health and performance.
- Standard 5: Students demonstrate and utilize knowledge of psychological and sociological concepts, principles, and strategies that apply to the learning and performance of physical activity.

Academic Calendar

KIPP Academy of Opportunity’s school year is similar to a traditional single-track calendar with 180 instructional days with an additional 5 supplemental days of instruction for all students.

---

7 Projected instructional minutes calculated here are based on the tentative 180-day calendar. KIPP LA Schools reserves the right to reduce the school year to 175 instructional days. KIPP Academy of Opportunity will submit a finalized Calendar of Reports to the District prior to the beginning of each school year.

In order to best meet the needs of our newest students, KIPP Academy of Opportunity may elect to organize the instructional day with paired teachers focusing on a particular subject. For example, in fifth grade two teachers may teach English-Language Arts and social studies and the other two may teach math and science, allowing them to specialize.

Below, figure 12 shows a sample comprehensive course table that shows all course offering for all grades to be served.

**Professional Development**

We believe that having the best teachers creates the best student outcomes. As a result, we view teacher professional development ("PD") as a critical component to the success of our program. As a staff, we determine the most high-priority PD topics for the year with a consistent focus on literacy, problem solving, and teaching the whole child. No matter what the year or focus, we always emphasize that our teachers are experts, celebrating the strengths we have on campus. Our approach to professional development is two-pronged: for teachers who are already experts in the classroom, we ask that they become further experts in our target areas for the year. For teachers who need individualized development, we rely on their personal evaluations to determine which PD experiences will benefit them and their students the most. Advanced teachers attend PD in topics. When they return, they disseminate best practices to reach the greatest number of students.

In their relationships with managers, teachers feel supported. Through the use of the KIPP Framework for Excellence in Teaching ("KFET"), teachers routinely survey their skills and weaknesses to develop goals furthering their own growth. In September, each teacher determines year-long goals that will serve as the foundation for their performance evaluations and classroom observations throughout the year. With a midyear and end-of-year recalibration of these goals, teachers are able to prove growth and hone skills in a continuous, supportive manner.

Professional development is structured through school-wide team, content, grade level, and differentiated meetings. Team meetings are a place for analyzing and discussing school-wide trends, sharing announcements, conducting team-building exercises, and making sure teachers are operationally developed. During content and grade level meetings, leaders look at student work and student data, practice lesson delivery and study curriculum.

School-wide professional development is a chance for the School Leader and teachers to address instructional trends going on in the classroom and ways in which the students can be better served. Topics may include improving check for understandings, incorporating literacy across all contents, or enhancing differentiation for English Learners.

Finally, differentiated meetings are content-level and grade-level department meetings that each happen once a month. Those will occur after the weekly school-wide meetings. As a content group, they will also have several opportunities throughout the school year to conduct excellent school visits in an effort to improve their instructional practices for their students.

Grade-level department meetings led by the Grade Level Chair provide teachers with an opportunity to solidify logistics for the team, discuss the needs and academic progress of individual students, and implement school-wide systems.
Another integral component of professional development is the observation-debrief cycle (coaching cycle). School Leadership will formally observe teachers. Following the observation, school leadership and teacher will discuss student learning based on student data and notes from the observation. Teachers will also be empowered to observe and provide feedback to their colleagues. These observations will allow the school leadership and teachers to notice instructional and culture trends across the school. This one-on-one professional development cultivates a desire in teachers to continue to improve their craft so their students can achieve.

The SPED department is a regional team and all SPED teachers are regional staff. Therefore, all the training they receive would be at the regional level. In the past, the KIPP LA regional office has provided the following trainings for SPED:

**Team Recruitment**

Team selection is a critical aspect of KIPP Academy of Opportunity. The goal of the process will be to find qualified candidates and hire staff that have developed cultural competency, have successful teaching experience in an under-resourced community, and have exemplary student achievement results and are qualified to deliver the proposed instructional program. Also, they must have strong and positive recommendations, evidence of strong connections with students and their families, must be team players, flexible, smart, community service oriented, embody and exemplify the values of the school, and be committed to the vision and mission of KIPP Academy of Opportunity.

Staff recruitment happens via a series of methods. KIPP LA recruits teachers at teacher hiring events, education conferences, and special KIPP LA recruitment events. Additionally, KIPP LA advertises teacher openings on college and university job boards, as well as other education-related job boards. KIPP LA’s Associate Director for Teaching & Leadership Support leads
these recruitment efforts in conjunction with the School Leader. All candidates for teaching positions will undergo a four-step process to ensure they are not only a fit for KIPP Academy of Opportunity, but also to ensure that KIPP Academy of Opportunity is a fit for them. The four steps are an online application, a submission of written materials, a phone interview, and an in-person interview day, which consists of a panel interview with school stakeholders and a model teaching observation. In addition, we will contact at least two references for each candidate. This process will be open to others who will work closely with the candidate. Ideally, the panel will be comprised of a diverse group to gain insight into the candidate’s perceptions and how they interact with and feel about people from different backgrounds. In cases where the School Leader is unable to visit a candidate’s classroom, for example a candidate who lives out of state, a candidate may submit a video.

For non-teaching positions, candidates will complete an online application and pre-interview questions before moving forward to interview with the School Leader, and if needed interview with a panel. In addition, a detailed reference check will also be completed. The School Leader will make all final hiring decisions for the non-instructional staff.

Staff Recruitment Strategies

In order to seek out a diverse pool of the best candidates, a strategic recruitment plan will be implemented. Some of the strategies that will be used are outlined below.

● KIPP Teach: Open positions will be posted on KIPP LA’s website in which interested candidates can apply online. They apply through a program call Quickbase.

● KIPP Academy of Opportunity website: The website includes the school’s vision, mission, goals, and values. In addition, information on KIPP such as history, network success, and Five Pillars will be included. The job descriptions will be posted as well as contact information and information on how to apply. Interested candidates can submit applications for positions online.

● Schools of Education at Loyola Marymount University, USC, Cal State LA, Cal State Dominguez Hills, and UCLA.

● Teach for America: The Teach for America Office of Career and Civic Opportunities provides many services that assist with finding quality candidates who are mission aligned with KIPP which will be accessed. For example, the office offers a free web-based job posting and sends out a monthly teaching e-mail blast that reaches over 20,000 Teach For America corps members and alumni which lists featured job opportunities. A posting for KIPP Academy of Opportunity will be placed on both of these resources. Further, the office collects resume books that will be accessed to seek out quality candidates. KIPP Academy of Opportunity will also be represented at career fairs and other similar opportunities to find candidates.

● Established current contacts: The School Leader and other KIPP LA staff will reach out to colleagues who may know high quality teachers looking for positions. The School Leader will also leverage contacts already developed by KIPP LA Schools.
Meeting the Needs of all Students

English Learners

The Charter School will meet all applicable legal requirements for English Learners as they pertain to annual notification to parents, student identification, placement, program options, EL and core content instruction, teacher qualifications and training, re-classification to fluent English proficient status, monitoring and evaluating program effectiveness, and standardized testing requirements. The Charter School will implement policies to assure proper placement, evaluation, and communication regarding ELs and the rights of students and parents.

The school is dedicated to providing these students with an exceptional education and transitioning them into English Proficiency through the use of the school’s services and teaching methods. The school also recognizes the importance of valuing students’ native languages, and reinforces an appreciation for the cultures, customs, and languages of all its students through the school’s core curriculum, enrichment programs, and life—skills curriculum.

Home Language Survey

The Charter School will administer the home language survey upon a student’s initial enrollment into the Charter School (on enrollment forms).

ELPAC Testing

All students who indicate that their home language is other than English will be California English Language Development Test tested within thirty days of initial enrollment and at least annually until re-designated as fluent English proficient.

The Charter School will notify all parents of its responsibility for ELPAC testing and of ELPAC results within thirty days of receiving results from publisher. This shall be used to fulfill the requirements under the Elementary and Secondary Education Act for annual English proficiency testing.

Strategies for English Learner Instruction and Intervention

KIPP LA Schools will comply with all federal, state, and judicial mandates for English Learners. Given the demographics of the Los Angeles Unified School District, KIPP LA Schools expects that a significant number of our students will be classified as English Learners. The school is dedicated to providing these students with an exceptional education and transitioning them into English proficiency through the use of the school’s services and teaching methods. KIPP LA Schools will administer California’s state English language proficiency (ELP) assessment to all eligible students. Students who are
entering their first year into a US public school will take the initial assessment, additionally all identified English Learners students will take the annual assessment. The California Department of Education (CDE) is transiting from the CELDT to the ELPAC as the state ELP assessment by 2018. The school also recognizes the importance of valuing students’ native languages, and reinforces an appreciation for the cultures, customs, and languages of all its students through the school’s core curriculum, enrichment programs, elective course offerings and character building curriculum.

Based on a substantial research base proving the benefits of both an Integrated and Designated English Language Development (ELD) program, KIPP LA Schools will implement a comprehensive ELD program, that primarily uses an Integrated ELD (iELD) approach supplemented by a Designated ELD (dELD) approach in each classroom with English Learner students. It is the goal of KIPP LA Schools that all of its students will leave the school proficient in the English language and with pride and support for their home language.

Teachers at KIPP LA Schools will use the English Language Development standards set forth by the California Department of Education, and in alignment with the Common Core State Standards, to assist in planning and assessing the progress of English Learners. Students of limited English proficiency will receive the same academic content as those students who are native English speakers. All instruction will be in English; however, there may be times when primary language support will be provided to students. Language acquisition is enhanced by exposing students to experiences in a variety of learning modalities (kinesthetic, auditory, and visual) that correspond to the subject matter and grade level curriculum as well as providing structured, explicit language instruction (e.g. explicit instruction in Tier 2 and 3 vocabulary words related to the content) and supports (e.g. sentence frames to support writing and speaking related to the content). Teachers will use Specially Designed Academic Instruction in English (SDAIE) strategies to enhance the English Language development of all of students. These strategies are also effective for English only students, as they implement strong teaching techniques. When teaching using SDAIE strategies, teachers will organize the subject matter so that it is grade level appropriate and cognitively demanding in the core curriculum. SDAIE provides (1) access to the core curriculum, (2) English language development, and (3) opportunities for social integration into the multicultural classroom community. Examples of utilizing SDAIE strategies include supporting verbal explanations with nonverbal cues and designing appropriate learning sequences, such as building upon prior knowledge. In addition to SDAIE strategies, teachers will also provide students with differentiated explicit language instruction. Teachers will use the Common Core aligned English Language Development standards along with a forms and functions matrix, and an adapted model of Susana Dutro’s framework for a focused approach on language development, to design lessons that build academic language—both vocabulary and structure, provide fluency or language practice, and encourage students towards appropriately rigorous language outputs.
Examples of instructional models that may be employed with EL students at KIPP LA Schools:

- Workshop models in literacy, which allows for students to receive consistent language and literacy instruction at their specific levels
- Cooperative learning during the majority of math, ELA and science lessons
- Thematic teaching in ELA, social studies and science
- Scaffolding instruction using EL supports embedded in adopted content curricula’s teacher’s guides, as well as additional teacher-created scaffolds
- Think/pair/share
- Sentence frames
- Word walls
- Sufficient wait-time following posed questions
- Kinesthetic activities
- Audio books
- Graphic organizers
- Pre-teaching vocabulary
- Labeling items in classrooms and school in different languages
- Using manipulatives in math and science to foster conceptual and linguistic understanding
- Storytelling
- Using culturally relevant materials
- Strategic repetition and rephrasing of questions
- Explicit modeling of correct written and spoken English
- Providing ELs with visual and verbal cues when called on in class

Beyond using the California’s ELP assessment to monitor students’ English language development, KIPP LA Schools team members will use the Common Core English Language Arts Standards to monitor the levels at which students are performing in reading, listening, speaking, and writing. This information will particularly guide the teachers in differentiating instruction in order to adjust the levels of questioning for English Learners who are not progressing through the English language development levels. KIPP LA will regularly analyze subgroup data to track English Learners’ progress related to their English proficient peers, in order to monitor and trigger additional interventions when needed. To further support students who are not progressing through the English language development levels, the following instructional strategies may be used to support these students in gaining higher levels of English proficiency:
• Workshop focused on English Language development skills such as vocabulary development, oral language skills, comprehension skills
• Small group work to lower the affective filter and target specific areas of growth
• Use instructional assistants, apprentice teachers, intervention teachers and school leaders to target specific needs
• Increase collaborative time to increase the amount of interaction spoken in English
• Pre-teach content vocabulary and frontloading concepts
• Echo reading and choral reading
• Focus on the development of Cognitive Academic Language Proficiency (CALP) beyond Basic Interpersonal Communicative Skills (BICS)
• Offer at-home development support through family literacy workshops
• One-on-one tutoring
• Use technology for literacy support that has proven successful with English Learners
• Offer service-learning opportunities or field lessons to increase real world experiences and personal connections

In addition to the Integrated ELD approach in classrooms with EL students, KIPP LA Schools uses an extended day schedule where ample time, if necessary, can be used for Designated ELD instruction (dELD). As stated in the California Framework for English Language Development, dELD has a strong emphasis on oral language development in actively engaging collaborative discussions. During the school day, teachers use designated time to support all learners during small group instruction, workshops and reteach time. Additionally, during these strategic designated times throughout a school week, teachers will work with EL students one-on-one or in small groups to focus on targeted ELD standards based upon their present levels of performance in English. Groupings of students are highly dynamic to meet the needs of English Learners in addition to the number of ELs within the school. Per the California Framework for English Language Development and English Language Arts, the guidance on the general stages of English language development (native language → emerging → expanding → bridging → lifelong language learners) are described as a complex and multilayered process that does not necessarily occur in a linear fashion. During the dELD time, teachers focus on:

• Intellectual Quality: Students are provided with intellectually motivating, challenging, and purposeful tasks, along with support to meet the tasks.
• Academic English Focus: Students’ proficiency with academic English and literacy in the content areas, as described in the CA ELD Standards, the CA CCSS for ELA / Literacy, and other content standards, is the main focus of instruction.
• Extended Language Interaction: Extended language interaction between students, including ample opportunities for students to communicate in meaningful ways using English, is central. Opportunities for listening or viewing
and speaking or signing are thoughtfully planned and not left to chance. As students progress along the ELD continuum, these activities also increase in sophistication.

- Focus on Meaning: Instruction predominantly focuses on meaning, connecting to the language demands of ELA and other content areas, and identifies the language of texts and tasks critical for understanding meaning.

- Focus on Forms: Congruent with the focus on meaning, instruction explicitly focuses on learning about how English works based on purpose, audience, topic, and text type. This includes attention to the discourse practices, text organization, grammatical structures, and vocabulary that enable individuals to make meaning as members of discourse communities.

- Planned and Sequenced Events: Lessons and units are carefully planned and sequenced to strategically build language proficiency along with content knowledge.

- Scaffolding: Teachers contextualize language instruction, build on background knowledge, and provide appropriate levels of scaffolding based on individual differences and needs. Scaffolding is both planned in advance and provided just in time.

- Clear Lesson Objectives: Lessons are designed using the CA ELD Standards as the primary standards and are grounded in appropriate content standards.

- Corrective Feedback: Teachers provide students with judiciously selected corrective feedback on language usage in ways that are transparent and meaningful to students. Over correction or arbitrary corrective feedback is avoided.

- Formative Assessment Practices: Teachers frequently monitor student progress through informal observations and ongoing formative assessment practices; they analyze student writing, work samples, and oral language production to prioritize student instructional needs.

KIPP LA Schools will monitor the effectiveness of the program through student performance on the California Assessment of Student Performance and Progress (CAASPP) Reports, norm-referenced assessments when applicable, ELP test results, CA Dashboard reports as applicable, internal benchmarks, and reclassification rates for all of KIPP LA Schools.

**Reclassification**

Based on the reclassification procedures developed by the California Department of Education (CDE) and set forth in Education Code Section 313(d), KIPP LA shall utilize multiple criteria in determining whether to reclassify a pupil as proficient in English, including, but not limited to, all of the following:

- Assessment of language proficiency using an objective assessment instrument, including, but not limited to, the English language development test pursuant to Section 60810 of the Education Code:
The student must demonstrate English proficiency on the annual ELPAC by achieving an overall performance level of 4 or 5 with skill area scores of 3 or higher.

Comparison of the student’s performance in basic skills against an empirically established range of the performance of English proficient students of the same age in basic skills, that demonstrates whether the student is sufficiently proficient in English to participate effectively in curriculum designed for students of the same age whose native language is English.

Basic skills criteria for students in grades 3 and above include:

- A student’s score on the CAASPP for English Language Arts is a 3 (standards met) or higher, which is considered to be at least basic grade level performance. This score suggests that the pupil may be sufficiently prepared to participate effectively in the curriculum and should be considered for reclassification.

- For students scoring below 3 on the CAASPP, KIPP LA in accordance with criteria set by the school district, should attempt to determine whether actors other than English Language proficient are responsible for low performance on the state assessment for English Language and whether it is reasonable to reclassify the students.

- Students in grades K-2 are not eligible for reclassification.

Teacher evaluation, including, but not limited to, a review of the pupils curriculum mastery:

- KIPP LA teachers will use student academic performance in core subject areas to inform the reclassification process.

- KIPP LA teachers understand and note that incurred deficits in motivation and academic success unrelated to English Language proficiency do not preclude a student from reclassification.

- For 6th – 8th grade only: a grade of C or better in English language Arts required for reclassification.

Parental opinion and consultation:

- KIPP LA will provide notice to parents or guardians of their rights and encourage them to participate in the reclassification process.

- KIPP LA will provide an opportunity for a face-to-face meeting with parents and guardians to discuss the reclassification process.

KIPP LA will notify parents and guardians of reclassification, update the school records, as well as monitor the student’s progress for two years.
Monitoring and Evaluation of Program Effectiveness

The Charter School evaluates the effectiveness of its education program for ELs by:

- Adhering to Charter School-adopted academic benchmarks by language proficiency level and years in program to determine adequate yearly progress.
- Monitoring teacher qualifications and the use of appropriate instructional strategies based on program design.
- Monitoring student identification and placement.
- Monitoring parental program choice options.
- Monitoring availability of adequate resources.

Academically High Achieving (Gifted and Talented) Students

As all students are challenged to reach their intellectual potential within the instructional program, KIPP Academy of Opportunity does not offer a formal, separate gifted and talented education ("GATE") program. Throughout the day, the staff may differentiate instruction based upon the individual needs of the students and will provide an opportunity to excel for those students who are achieving at high levels or demonstrate a specific ability or talent, as identified through student data or evidence of a pupil’s capacity. Teachers will differentiate in the forms of acceleration, depth, complexity, and novelty and will differentiate the process, content, or product to meet the needs of gifted and talented students. Examples of instructional models that may be employed with gifted and talented students are:

- Project-based learning opportunities
- Accelerated technological instructional programs
- Comprehensive experiential learning opportunities to enhance and supplement the curriculum
- Differentiated curriculum that promotes inquiry, self-directed learning, discussion, debate, metacognition, and other appropriate modes of learning (as proposed in the Recommended Standards for Programs for Gifted and Talented Students, published by the California Department of Education)

By using assessment information to monitor students’ progress, teachers will be able to make the necessary modifications and adjustments to best support students. Teachers will utilize workshop time, as well as differentiated choices for gifted and talented students throughout the day to support them in continual growth. All students will be valued for their individualism and their interests and passions will be cultivated. Further, the teachers will work together to develop plans to best support students in driving forward their academic achievement and pursuits in relation to the students’ learning profiles and specific talents. In order to ensure that the needs of all students are being met, the staff will utilize the Student Success Team process for students who have been identified as consistently achieving well above the norms (as measured
by formative, summative, and standardized testing) just as they would use the process for identifying students who struggle. (Refer to following section for more details on the composition of the SST.)

**Students Achieving Below Grade Level**

Students who are performing below grade level in each of the content areas as measured by informal and formal classroom assessments will receive individual and small group instruction to target their individual needs. During whole class instruction, the teacher may differentiate instruction based upon students’ needs, interests, readiness, and learning profile. In addition, other types of instructional support that KIPP Academy of Opportunity may utilize to support students achieving below grade level include:

- Small group, targeted instruction utilizing student's’ individualized academic data in order to design and execute scaffolded lessons in order for students to achieve incremental growth towards overall proficiency targets
- Small group guided reading and writing lessons targeting specific skills that students need additional support mastering; data from reading and writing benchmark assessments and running records will determine specific grouping models
- One-on-one conferring sessions between teachers and students in which teachers provide real-time, specific, targeted feedback to students in order for struggling students to strategize next steps towards instructional proficiency.
- More instructional time incorporated into the daily schedule and academic year in order to increase learning opportunities and supplemental curriculum for students needed additional academic instruction and tutorials (including, but not limited to, summer programming)
- Pre-teaching, re-teaching and spiraling standards, as evidenced by instructional scope and sequence, unit plans, and daily lesson plans, in order for students to have multiple opportunities to access each of the standards
- Use of technology to enhance and supplement the existing curriculum, using student data to create individualized technological instructional programming to meet the needs of all students
- Providing tutorial programming and homework support, as needed
- Increasing parent engagement in their child's instructional progress via workshops and strategy workshops, so that they may support their son/daughter at home

If an area of growth for student success becomes evident across a grade level or the school, such as reading comprehension, professional development will be dedicated to that focus. In addition, teachers and administrators will work collaboratively to share best practices and ideas to support students achieving below grade level, and will develop key partnerships with community agencies and educational organizations to develop a cadre of resources for staff, students, and parents to access in order to meet the instructional needs of all students.
If after implementing the aforementioned instructional support strategies significant progress has not been made as measured by assessments, students achieving below grade level may be referred by the teacher or by the parent for a Student Success Team meeting. In these meetings, the classroom teacher, the parent, the School Leader, and any other relevant party will convene to discuss the child’s strengths and areas of concern. The SST uses multiple sources of information and data to create a plan that addresses the individual needs of each student. Teachers, parents, and other relevant parties will bring student work samples, tests and quizzes, portfolio work (if applicable), notes from observations of performance or behavior, discipline logs and any other pertinent source of information concerning the child’s demonstrated abilities. Based on the evidence and the discussion of its meaning, action steps will be generated for follow-up interventions to further assist the child in academic or behavioral growth. Additionally, tools are either gathered or generated to track the progress of the student given the new interventions. Specific strategies, interventions and accommodations will be implemented and documented based on the individualized needs and areas of concern. In addition to detailing the steps, the expected outcomes and the responsible personnel, the SST will also schedule timely follow-up meetings to review and discuss the student’s response to the interventions. Based on the progress a student makes, the level of intervention can be adjusted in order to meet each student's needs.

After 3 SST meetings, if significant progress has not been made as measured by assessments, the student may be referred for assessment to determine if the child is eligible for special education services under the Individuals with Disabilities Education Act, if appropriate. The school will make efforts to ensure an exhaustive list of interventions is utilized to avoid over-identification of students in Special Education.

**Socioeconomically Disadvantaged Students**

KIPP LA Schools seeks to serve an under-resourced student population. To put students on the path to and through college, the mission, vision, and instructional programs of KIPP LA’s schools are designed to provide and ensure equal access for all students, particularly those students who are designated as socioeconomically disadvantaged based upon the poverty index. In the 2014-2015 school year, 90% of KIPP LA students qualified for free or reduced price lunch. KIPP Academy of Opportunity will seek to serve a similar population, and the school’s program will be based upon the successful practices already in practice at KIPP LA’s existing schools. At our core, we believe in high expectations for each of our students, regardless of background.

We have designed KIPP Academy of Opportunity’s program to support students from socioeconomically disadvantaged backgrounds in the following ways:
• Providing more time to increase the learning opportunities of all students (these opportunities include, but are not limited to, in-class literacy experiences, out of class experiential learning field lessons, supplemented day and summer school)
• Building the social capital of students via experiential learning opportunities in order for them to be able to navigate different social and educational settings
• Building robust classroom libraries in order to support the continued development of students’ literacy experiences, both in and out of school

**Students with Disabilities**

**Overview**

The Charter School shall comply with all applicable state and federal laws in serving students with disabilities, including, but not limited to, Section 504 of the Rehabilitation Act (“Section 504”), the Americans with Disabilities Act (“ADA”) and the Individuals with Disabilities in Education Improvement Act.

The Charter School will be its own local educational agency (“LEA”) and will apply directly for membership in a Special Education Local Plan Area (“SELPAs”) in conformity with Education Code Section 47641(a). The Charter School will consider membership in the following SELPAs: Los Angeles County SELPA, Southwest SELPA, and El Dorado County Charter SELPA.

In the event the Charter School seeks membership in a different state-approved SELPA, the Charter School will provide notice to LACOE, the SELPA, and the California Department of Education before June 30th of the year before services are to commence.

The Charter School shall comply with all state and federal laws related to the provision of special education instruction and related services and all SELPA policies and procedures; and shall utilize appropriate SELPA forms.
The Charter School may request related services (e.g. Speech, Occupational Therapy, Adapted P.E., Nursing, and Transportation) from the SELPA, subject to SELPA approval and availability. The Charter School may also provide related services by hiring credentialed or licensed providers through private agencies or independent contractors.

The Charter School shall be solely responsible for its compliance with Section 504 and the ADA. The facilities to be utilized by the Charter School shall be accessible for all students with disabilities.

Section 504 of the Rehabilitation Act

The Charter School recognizes its legal responsibility to ensure that no qualified person with a disability shall, on the basis of disability, be excluded from participation, be denied the benefits of, or otherwise be subjected to discrimination under any program of the Charter School. Any student, who has an objectively identified disability which substantially limits a major life activity including but not limited to learning, is eligible for accommodation by the Charter School.

A 504 team will be assembled by the School Leader and shall include the parent/guardian, the student (where appropriate) and other qualified persons knowledgeable about the student, the meaning of the evaluation data, placement options, and accommodations. The 504 team will review the student’s existing records; including academic, social and behavioral records, and is responsible for making a determination as to whether an evaluation for 504 services is appropriate. If the student has already been evaluated under the IDEA but found ineligible for special education instruction or related services under the IDEA, those evaluations may be used to help determine eligibility under Section 504. The student evaluation shall be carried out by the 504 team, which will evaluate the nature of the student’s disability and the impact upon the student’s education. This evaluation will include consideration of any behaviors that interfere with regular participation in the educational program and/or activities. The 504 team may also consider the following information in its evaluation:

- Tests and other evaluation materials that have been validated for the specific purpose for which they are used and are administered by trained personnel.

- Tests and other evaluation materials including those tailored to assess specific areas of educational need, and not merely those which are designed to provide a single general intelligence quotient.

- Tests are selected and administered to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student’s aptitude or achievement level, or whatever factor the test purports to measure, rather than reflecting the student’s impaired sensory, manual or speaking skills.

The final determination of whether the student will or will not be identified as a person with a disability is made by the 504 team in writing and notice is given in writing to the parent or guardian of the student in their primary language along with the procedural safeguards available to them. If during the evaluation, the 504 team obtains information indicating possible
eligibility of the student for special education per the IDEA, a referral for assessment under the IDEA will be made by the 504 team.

If the student is found by the 504 team to have a disability under Section 504, the 504 team shall be responsible for determining what, if any, accommodations or services are needed to ensure that the student receives a free and appropriate public education (“FAPE”). In developing the 504 Plan, the 504 team shall consider all relevant information utilized during the evaluation of the student, drawing upon a variety of sources, including, but not limited to, assessments conducted by the Charter School’s professional staff.

The 504 Plan shall describe the Section 504 disability and any program accommodations, modifications or services that may be necessary.

All 504 team participants, parents, guardians, teachers and any other participants in the student’s education, including substitutes and tutors, must have a copy of each student’s 504 Plan. The site administrator will ensure that teachers include 504 Plans with lesson plans for short-term substitutes and that he/she review the 504 Plan with a long-term substitute. A copy of the 504 Plan shall be maintained in the student’s file. Each student’s 504 Plan will be reviewed at least once per year to determine the appropriateness of the Plan, needed modifications to the plan, and continued eligibility.

**Identification and Referral**

The Charter School shall have the responsibility to identify, refer, and work cooperatively in locating Charter School students who have or may have exceptional needs that qualify them to receive special education services. The Charter School will implement SELPA policies and procedures to ensure timely identification and referral of students who have, or may have, such exceptional needs. A pupil shall be referred for special education only after the resources of the regular education program have been considered, and where appropriate, utilized.

The Charter School will follow SELPA child-find procedures to identify all students who may require assessment to consider special education eligibility and special education and related services in the case that general education interventions do not provide a free appropriate public education to the student in question.

**Assessments**

The term “assessments” shall have the same meaning as the term “evaluation” in the IDEA, as provided in Section 1414, Title 20 of the United States Code. The Charter School will determine what assessments, if any, are necessary and arrange for such assessments for referred or eligible students in accordance with applicable law. The Charter School shall obtain parent/guardian consent to assess Charter School students.
IEP Meetings

The Charter School shall be responsible for having the following individuals in attendance at the IEP meetings: the School Leader and/or the Charter School designated representative with appropriate administrative authority as required by the IDEA; the student’s special education teacher; the student’s general education teacher if the student is or may be in a regular education classroom; the student, if appropriate; and other Charter School representatives who are knowledgeable about the regular education program at the Charter School and/or about the student. The Charter School shall arrange for the attendance or participation of all other necessary staff that may include, but are not limited to, an appropriate administrator to comply with the requirements of the IDEA, a speech therapist, psychologist, resource specialist, and behavior specialist; and shall document the IEP meeting and provide notice of parental rights.

IEP Development

The Charter School understands that the decisions regarding eligibility, goals/objectives, program, services, placement, and exit from special education shall be the decision of the IEP team, pursuant to the IEP process. Programs, services and placements shall be provided to all eligible Charter School students in accordance with the policies, procedures and requirements of the SELPA and State and Federal law.

IEP Implementation

The Charter School shall be responsible for all school site implementation of the IEP. As part of this responsibility, the Charter School shall provide parents with timely reports on the student’s progress as provided in the student’s IEP at least as frequently as report cards are provided for the Charter School’s non-special education students. The Charter School shall also provide all home-school coordination and information exchange. The Charter School shall also be responsible for providing all curriculum, classroom materials, classroom modifications, and assistive technology.

Interim and Initial Placements of New Charter School Students

The Charter School shall comply with Education Code Section 56325 with regard to students transferring into the Charter School within the academic school year. In accordance with Education Code Section 56325(a)(1), for students who enroll in the Charter School from another school district within the State, but outside of the SELPA with a current IEP within the same academic year, the Charter School shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved IEP, in consultation with the parent, for a period not to exceed thirty (30) days, by which time Charter School shall adopt the previously approved IEP or shall develop, adopt, and implement a new IEP that is consistent with federal and state law.
In accordance with Education Code Section 56325(a)(2), in the case of an individual with exceptional needs who has an IEP and transfers into the Charter School from a district operated program under the same special education local plan area of the Charter School within the same academic year, the Charter School shall continue, without delay, to provide services comparable to those described in the existing approved IEP, unless the parent and the Charter School agree to develop, adopt, and implement a new IEP that is consistent with federal and state law.

For students transferring to the Charter School with an IEP from outside of California during the same academic year, the Charter School shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved IEP in consultation with the parents, until the Charter School conducts an assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by the Charter School, and develops a new IEP, if appropriate that is consistent with federal and state law.

Non-Public Placements/Non-Public Agencies

The Charter School shall be solely responsible for selecting, contracting with, and overseeing all non-public schools and non-public agencies used to serve special education students.

Non-discrimination

In the event that the parents/guardians file for a due process hearing, or request mediation, the Charter School shall defend the case.
SELPA Representation

The Charter School understands that it shall represent itself at all SELPA meetings.

Funding

The Charter School understands that it will be subject to the allocation plan of the SELPA.

Students in other subgroups

KIPP Academy of Opportunity will determine eligibility of students who are either considered foster youth or homeless through the use of CALPADS, discussions with the parent/guardian and observations of the child. Children who are eligible for services may have different needs such as physical needs for uniforms, school supplies or free meals. We will assist parents and or guardians in providing for these items to ensure that the student is able to actively participate in school. KIPP Academy of Opportunity will consider what barriers to education can be removed and what is in the best interest of each child.

KIPP LA has updated its data system to provide for easy and regular analysis of subgroup performance on a variety of measurements from attendance to suspensions to performance on exit tickets, interim assessments and on the SBAC. School leaders, manager of school leaders, the Managing Director of Special Education, along with KIPP LA’s CAO and CEO regularly review this data and create plans to address performance gaps.

Typical Day

Ryann is an eighth grade student at KAO. An Honor Roll student since the fifth grade, she is excited to be a senior at KAO so that she can serve as a role model for the three grade levels of students under her. Today is Friday and she is particularly excited. Her grade level, the seniors, were the first class to earn “Dress Down Friday.” They did this by working as a grade level to achieve over 95% attendance, 95% of students on time, campus cleanliness and classroom performance. She is very proud to wear the KIPP shirt of her choice – Ryann chose her 6th grade End of the Year Field Trip shirt – and her new jeans.

Ryann is also excited because her Algebra skills assessment is being returned today. Ms. J already graded it using KAO’s student information and data system, Illuminate, so Ryann knows she earned a 90%. She’s excited, though, to get the test back so she can figure out what two problems she missed and fix them. She’s been studying hard in all of her subjects, but especially in math. She thinks about fifth and sixth grade, and how hard math felt then, and is amazed that when she writes, “Math is Life” on her math notes, this time she really feels it.

She enjoys the playful loyalty that each of her teachers have for their subjects. For example, her teachers make sure KAO students know that “History is Revolutionary”, “Science is what Matters”, “ELA is Soul” and of course, “Math is Life”. She takes extra pride in the grit and optimism it took for her to feel that passionately about Math.
She arrives at KAO at 7:00 am after her dad drops her sister off at the KIPP elementary down the street and her brother at high school. Her brother, an alumnus of KAO, is doing very well in high school. He’s taking 9th grade geometry, is involved with many extra-curricular activities such as the sports program, and is currently running for class President. Given that he culminated from KAO with a 4.0 GPA, she’s certain he’s going to win. Ryann is very proud of her brother, especially when he comes back to KAO as an Alumni Volunteer – he helps out in Mr. Vanegas’ science class and as a peer tutor.

When she arrives at the school gate, as usual she is greeted by school administrators. She tells Ms. Gray about her dance recital the day before, ensures she’s in dress code, goes into KAO Hall to get breakfast and then quietly bounds to homeroom. She eats her breakfast with her homeroom teacher, getting herself organized for the day. She finishes her meal and starts copying down her ELA HW in her agenda. ELA is her first class of the day and also the subject of today’s Thinking Skills, which she picked up on the way in the door. As she glances over today’s sheet, she reads the daily quote out loud to herself: “Tenderness and kindness are not signs of weakness and despair, but manifestations of strength and resolution. — Kahil Gibran”. Today’s quote resonates with her deeply, given her kind demeanor. She giggles to herself silently as she thinks about the word “resonate”. That was a 6th grade vocabulary word that she remembers and uses in her everyday language.

Her teacher takes attendance while Ryann finishes her thinking skills. After she’s done, Ryann takes out her Cornell Notes for social studies to review for her quiz this afternoon. Her classmates are either finishing their thinking skills, studying or reading their independent books.

Ms. Miles, her ELA teacher, gives the signal that they are changing from homeroom to ELA class, and all of the students immediately put away all of their other work except for their ELA notebooks and independent reading books. They also take out their working drafts of the biographies they’ve been writing. Today, they’re strengthening their writing skills and finishing the draft of their biographies. Since Ryann and one of her teammates have already finished their draft and gotten feedback from Ms. Miles, they are able to partner up to do peer revisions. About halfway through their time allotted for this activity, their teacher does a quick mini lesson on teaching students how to create sentences that enhance meaning and how to create sentences that vary in length and structure. The class works on autobiographies for about 45 minutes, after which they review the thinking skills and homework and go into the vocabulary practice for the day. Even though this class is seventy minutes, it goes by quickly.

As a senior, Ryann is really excited to have started to earn some independence. Knowing that she wants to be able to go to a competitive high school, hopefully Harvard-Westlake, she is eager to practice their talking transition. She makes sure she has all of her things, gets her books ready for Science class, and walks quietly towards the door. She and her classmates
walk in a loose line, talking quietly. They see a 6th grade class walking down the steps from the building and instantly, they stop talking. While they are practicing how to be independent, Ryann and her classmates still want to set good examples for their younger KIPPster siblings. They enter science class, excited because today, they’re going to test out the rockets they’ve been building for the last two weeks.

After 2nd Period, she and her class go outside for their snack break. They’ve been working hard all morning and look forward to this opportunity to socialize with their peers and teachers. Ryann chats with Destiny, Quentin and Diamond about their upcoming Fall Festival. After 10 minutes, the students quietly move to their Period 3 classes – for Ryann, Art. Ryann really enjoys her art class because it’s a good mix of doing art and learning about it. She loves when Ms. Nakashima talks about the way that they rip or shape or cut paper for their collages can show so much emotion. Ryann really believes that the details make up the big picture, something she remembers her fifth grade teacher telling her about in Life Skills.

Next, it’s time for her homeroom to go to lunch and recess. She and her teammates start with recess while the seventh graders eat their lunches calmly. She decides to jump rope today because she played Freeze Tag yesterday. The whistle blows after 20 minutes, and she picks up her backpack and lines up outside of KAO Hall. She and her teammates quiet down and prepare to have a calm, relaxing lunch inside of KAO Hall.

By noon, Ryann feels like she has already accomplished so much for the day, yet she’s looking forward to the second half of the day. It’s time for one of her favorite classes, Read, Baby, Read, which is listed as RBR on her schedule. She hums the chant in her head as she thinks about her new book out of her backpack. She smiles as she thinks about how excited she was in fifth grade to learn the chant that was being taught at KIPP schools across the country. She remembers Harriet Ball, the master teacher that her teachers say they are learning from every day. Read, Baby, Read is a time of the day when students have novel study with their teachers and sustained silent reading time. In this class, her teammates read, discuss, and analyze novels, both independently and in groups. The novels used constitute a culturally diverse combination of classic literature and recent works. Today, they are reading the Narrative of the Life of Frederick Douglass. She spends half of this class reading silently to herself. During the last 15 minutes of class, she does her reflection on what she’s read. She wishes the class were longer than 30 minutes. During the next hour, she goes to social studies class and then goes to her last core class for the day, and her favorite, math.

Her last class of the day is Life Skills. During this class, students learn about developing positive habits that successful people embody. They are currently working on the unit entitled: Finding Humor, Thinking Interdependently and Listening with Empathy. She finishes Life Skills and then goes to her enrichment class, which is Student Leadership this quarter. Ryann is excited to present to Ms. Gray her group’s ideas for a school dance, even though she knows how Ms. Gray feels about dances. Ryann is sure that they’ll be able to convince her because they’ve really planned for everything Ms. Gray may ask.
At 4:00 pm, Ryann hears the announcement from the office. It’s time for dismissal. She and her teammates start their homework as they wait for their names to be called. At 4:10, she hears her name so she packs up and goes outside. When she gets to the school yard, Mr. Trejo walks her to her car and waves goodbye to her mother. Ryann is excited for a weekend and is proud of her hard work through the day and the week.
Element 2 & 3 – Measurable Pupil Outcomes and Method by which Pupil Progress Toward Outcomes will be Measured

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.” (Ed. Code § 47605(b)(5)(B).)

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” (Ed. Code § 47605(b)(5)(C).)

**Measurable Goals of the Educational Program**

Charter School shall meet all statewide content and performance standards and targets. (Ed. Code §§ 47605(c)(1), 60605.)

Charter School shall comply with all applicable laws and regulations related to AB 97 (2013) (Local Control Funding Formula) and AB 484 (2013), as they may be amended from time to time, including all requirements pertaining to pupil outcomes.

**Standardized Testing**

Charter School agrees to comply with state requirements for participation and administration of all state-mandated tests, including computer-based assessments. Charter School shall submit and maintain complete, accurate, and up-to-date California Longitudinal Pupil Achievement Data System (CALPADS) data in accordance with the requirements of California Code of Regulations, title 5, section 861. Charter School hereby grants authority to the State of California to provide a copy of all test results directly to the District as well as Charter School. Upon request, Charter School shall submit, in the requested format (e.g., CD), a copy of the results of all state-mandated tests to the District.

**Measurable Goals of the Educational Program**

These goals are the same as those described in Element 1 in accordance with Education Code Section 47605(b)(5)(A)(ii). The “LCFF State Priorities” table in Element 1 is incorporated here by reference.

**Measuring Pupil Outcomes: Summative Assessment Performance Targets**

These outcomes are the same as those described in Element 1. The “LCFF State Priorities” table in Element 1 is incorporated here by reference.
**Instructional Cycle and Methods of Assessment**

Beginning in 5th grade, KAO teachers will use an instructional cycle driven by standards mastery and student data in language arts and mathematics. Other core content areas such as Social Studies and Science will follow an adapted version of this cycle. Professional development, grade-level and content team planning along with 1:1 check-ins between managers, which may include School Administration and Lead Teachers, and teachers will support the implementation and execution of each of the instructional cycle’s ten steps. The cycle is a framework for teachers to use as a tool in their instructional design and delivery and is meant to provide alignment both across and between grade-levels.

Figure 14: KAO Steps of Instructional Cycle

KAO will work to ensure that all students will score at Standard Met or Standard Exceeded levels in ELA and math on the CAASPP assessment. All students in grades 5-8 will take the CAASPP each spring. Additionally, all students in grades 5-8 will take a norm-referenced test such as the MAP in the fall. 8th grade students will take the MAP in the spring as well while grade 5-7 will take CAASPP. Detailed reports by student and by class will be created to facilitate in-depth analysis and data informed decision-making. Thoroughly analyzing annual student achievement results will allow the staff to reflect on teaching practices and identify areas of strength and areas of weaknesses to improve in the upcoming years.

Each year KAO will disaggregate school-wide MAP, or other norm-referenced equivalent, data by gender, race, English Learner status, Special Education status, socioeconomic status, and other relevant subgroups and analyze those data to make any needed adjustments to the instructional program. The Charter School expects students in each subgroup to meet the Charter School’s MAP performance goals listed in Element 1. MAP data for individual students is reported to each student’s family at the beginning of the year and at end of year for 8th graders. Additionally report cards will be provided to students/families four times a year. Progress reports will also be sent home intermittently as students take assessments.
weekly. Teachers will adjust or enhance instructional strategies based upon the results for each individual student and class. Any substantial disparities in improvement across subgroups may result in modifications to curriculum, schedule, school staffing, or provision of support services.

KAO shall adhere to all state testing requirements applicable to charter schools. As established in the previous section, KAO will utilize diverse assessments that are aligned with the curriculum and instructional program, and compliant with state mandates. These will be administered according to the assessment cycle described within this Element. Further, KAO affirms that its methods for measuring pupil outcomes for the State Priorities, as described above in this charter, shall be consistent with the way information is reported on a School Accountability Report Card as required by Education Code Section 47605(b)(5)(C).

KAO, like all KIPP LA schools, believes that data is a powerful instructional tool. KAO’s data will be shared openly with KIPP LA management and other KIPP LA schools. Further, at regular intervals the data will be shared with KIPP LA’s board. Annually, KAO’s leadership team will provide an update to its students and parents about school wide academic performance.

In addition, students in fifth through eighth grades who have been in the United States for less than twelve months and have Spanish indicated on their Home Language Survey may take the Standards-based Tests in Spanish (“STS”). All students who are English Learners as identified by their Home Language Survey will take the ELPAC each year as required.

**Method for Measuring Pupil Progress Toward Outcomes: Formative Assessments**

KAO will administer initial assessments, exit tickets, and end unit assessments as well as interim assessments in an effort to determine where students are performing at any given time. These assessments will guide instruction and help determine which students need additional support or which students can be pushed to achieve at even higher levels.

**Initial Assessments**

At the beginning of each school year, the students will be given teacher-created, standards-based initial assessments in order to determine their performance levels in key performance areas. These initial assessment results will be discussed and analyzed in depth to determine ways to differentiate instruction based on the needs of the students. Teachers will discuss the data collaboratively to share ideas and effective strategies to drive forward student achievement. Teachers will also use this data to create fluid intervention groups in which they will target specific needs of students. These assessments will also serve as a beginning point in which progress will be monitored and measured again.
Exit Tickets, Unit Assessment
Using the initial assessments as a baseline for student groupings and instructional implementation, KAO will also implement a variety of formative assessments including daily exit tickets, weekly or bi-weekly assessments, and unit assessments. During small group rotations in ELA and math, teachers will administer exit tickets daily to do a quick check for understand after a lesson. Exit tickets allow teachers to quickly identify and respond to students. Additionally, they enable teachers to push accelerated students on to new topics more quickly and efficiently. These exit tickets may be performed on a laptop whiteboard, allowing the student to show the teacher his or her answer and discuss in real time any challenges. When students do not successfully complete an exit ticket, the teacher will direct them to further work on that particular topic either through independent tasks, utilize adaptive software programs, or re-teach in small groups.

In addition to exit tickets, KAO’s teachers will administer unit assessments. Using the standards-based pacing calendar, teachers will utilize curricular assessments to appropriately measure mastery of the topics taught in the previous unit. All assessments are aligned with CCSS, NGSS, and other applicable state content standards.

These formative assessments will often be administered online, allowing for immediate collection of responses and easier analysis through Illuminate. Teachers will analyze the data to identify topics that need to be retaught the following week, assess the effectiveness of student groupings, highlight students who continue to struggle and those who are ready for more challenging work, and shine a light on instructional techniques that did not work. Similarly, unit assessments will reinforce successful teaching techniques and help to identify teachers who are excelling and can be tapped for professional development or best practice sharing.

At grade-level or department meetings throughout the unit assessment cycles, teachers will continue to discuss their students’ progress in mastering standards, analyze student work, and discuss best practices. Each teacher will receive one-on-one coaching, from a member of the leadership team, which will, in part, focus on planning, lesson observation, feedback, and informal assessments as they relate to student outcomes on formative assessments. Ultimately, unit assessments will help ensure that students receive the instruction and intervention or acceleration they need to be successful on the interim assessments and ultimately, the CAASPP. The table below shows KAO’s goals for unit assessments.

**Data Analysis and Reporting**

KIPP LA Schools maintains extensive data on student demographics, performance, and participation in special programs for all of its charter schools. These data are stored in our student information system, Illuminate. Illuminate will allow KAO to collect, analyze, and share data on student performance on formative and summative assessments easily. The KIPP LA Academics Team maintains the database system and ensures confidentiality and security.

Through Illuminate, our teachers will be able to assess individual student performance, analyze classroom patterns, and target and tailor instruction accordingly. illuminate stores data using a unique identifier system assigned to each student.

- The data in use includes:
  - Student demographics;
  - Student National School Lunch Program (“NSLP”) eligibility;
  - Student participation in special education;
  - Student English learner status;
  - Student attendance;
  - Student behavioral infractions;
  - Student scores and proficiency levels on state assessments;
  - Student scores and proficiency levels on MAP;
  - Student report card grades;
  - Individual item responses on internal assessments created through the Illuminate assessment system;
  - Other student-level data as necessary.

Using Illuminate and the KIPP LA-created student data dashboard, KAO’s administrators and teachers will be able to access student, classroom, and school level data in real time to create student groupings, align instruction with student needs, and reassess scope and sequence as necessary. It will allow data to be aggregated by student sub-group, classroom, and grade level. Additionally, Illuminate will allow teachers to create and administer assessments and easily collect data on student
performance on those assessments, including the unit assessments discussed above. Teachers will discuss and analyze these initial assessment results in depth to determine ways to differentiate instruction based on the needs of the students. Through the use of Illuminate and Tableau, teachers will graphically analyze data to identify trends and areas of both growth and strength. Illuminate also allows teachers to export data to excel for analysis using more traditional methods. Below is an overview of the bi-weekly data process:

- **Data acquisition**: Team will ensure that the data we use to assess student performance is collected and organized in a timely manner, so that all stakeholders can readily access it;

- **Data reflection and analysis**: Teachers will reflect on their classroom data systematically and will conduct error analysis on all assessments. Grade levels and/or content teams will then come together to reflect on their results and create specific plans of action and subsequent goals to improve student outcomes. Simultaneously, the Leadership Team will meet to review school wide results and create plans to support teachers/grade levels as needed.

- **Analyzing Student Work**: On a regular basis (daily, weekly, bi-monthly or monthly depending on the data), teachers will come together to analyze student work or exit tickets. The aim is to identify student misconceptions early and clarify during a reteach block.

- **Unit/Lesson Plan Reviews**: Weekly, lessons plans and internalization guides will be reviewed by content leads and/or School Leadership to ensure that each evidences the criteria for high impact lessons.

- **Flexible Small Group Instruction**: Based on assessment results, changes to the make-up of small groups will be made to ensure all students are receiving differentiated instruction.

- **Program Alignment and Design**: Through data acquisition, reflection, and analysis, KAO’s teachers will ensure that our instructional model is aligned with relevant content and standards, as well as student growth. This process will ensure that the teaching strategies and practices we employ are appropriate and supportive of the outcomes and overall design of the academic program.

In addition to assessing student data to tailor instruction, KAO will also use data to assess teacher progress towards professional growth goals including student progress and proficiency. These data are incorporated into teacher evaluations and reviews.
Finally, KAO will use student performance data to assess our educational program and ensure that we are meeting our goals as outlined above. KAO’s leadership, in concert with the KIPP LA Academics Team, will analyze student formative and summative assessment data to determine whether KAO is on track to meet its academic goals by the end of the year. In cases where projections fall behind goals, KIPP LA staff will work with the KAO leadership to augment instruction, intervention, or curricula to put learning back on track and progressing.

**Grading, Progress Reporting and Promotion/Retention**

KAO will administer grades based upon student’s mastery of the Next Generation Science Standards, state content standards, and CCSS. Grades will be reported in quarterly school-created report cards on a scale from A-F (A, B, C, and F) corresponding to the percentages of mastery shown on classwork, homework, assessments, and special projects or labs.

KAO, like all KIPP LA schools, will follow KIPP LA’s Board Policy on Acceleration and Retention. KAO expects students to progress through each grade level within one school year. To accomplish this, instruction will accommodate the variety of ways that students learn and include strategies for addressing academic deficiencies when needed. Students shall progress
through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement.

When high academic achievement is evident, based on student work, participation and assessments, the School Leader or designee may recommend a student for acceleration into a higher grade level. The student’s maturity level shall be taken into consideration in making a determination to accelerate a student.

As early as possible in the school year, the School Leader or designee shall identify students who should be retained and who are at risk of being retained in accordance with the following criteria. Students shall be identified on the basis of grades. The following other indicators of academic achievement shall also be used:

- Failure in one or more classes;
- Excessive (10) absences and/or tardies (3 tardies/early leaves = 1 absence);
- Scoring basic or below on standards based assessments and or not meeting grade level goals;
- The Charter School’s decision regarding promotion and retention will be based on the totality of the circumstances and will be final and binding, subject to appeal as described below;
- CAASPP and MAP testing can be used in combination with school performance to recommend retention prior to the next school year.

Students who are at risk of retention will have a minimum of two (2) Student Success Team meetings prior to retention. The SST process is described previously in this petition in the section pertaining to intervention. The School Leader or designee will notify the student’s parent or guardian prior to end of 3rd quarter if the student is at risk of retention. Upon the conclusion of the school year, the student’s teacher(s), in consultation with the parent or guardian, shall determine if the student shall be retained. The parent or guardian may appeal the decision to retain the student to the School Leader or designee, who will meet with the parent/guardian and review the decision of the teacher(s). The School Leader’s decision may be appealed to the Executive Director or the Executive Director’s designee.

**Stakeholder Involvement**

We will build a school and program based on high expectations, excellent instruction, focusing on results, and partnering with families. Our partnership with families is instrumental in achieving our results. Our parents are well informed about intervention strategies to use at home from our workshop-style Literacy Night and Math Night for families. Teachers and administrators frequently check in with parents about student progress via telephone, written notes, and in person, and via home visits. Through the avenues detailed below, parents are involved and engaged in Charter School governance.

Our collaboration with parents is an indispensable part of our school. We view our parents as partners in the education of their children and seek their input regularly through our parent groups. With these groups, parents have the opportunity to be leaders in many of the Charter School’s extracurricular activities (like the winter and spring concerts), voice their ideas, attend educational workshops, and learn more about what goes on in our school. The Charter School will also engage all stakeholders to include parents, teachers, staff and administrations in its annual development and review of its Local Control and Accountability Plan (LCAP). Stakeholder engagement is typically organized in 3 parts: Educating, Learning and Engaging, and Revising. Stakeholders are continuously engaged about the progress of our school; however, we will host at least one official LCAP meeting annually.

The school will also have a parent leadership group that will meet once a month, in conjunction with other parent groups to provide the school with feedback and to organize volunteering efforts. This will include the option for parents to join KIPP LA region wide parent groups such as the Family Ambassadors group already in existence.

The Charter School will have a School Site Council (SSC) that will meet once a month, in conjunction with other parent groups, and is made up of teachers and parent and led by an administrator. We will have equal parts school representatives and parent, community representatives. Each person, except for the school administrator, will be elected by his or her peers to serve on the SSC. The SSC main responsibilities will be to review the school plan’s such as LCAP and the LEA plan addendum.
All KIPP LA Board members are asked to visit at least 1 school. The School Forum is a sub set of board members who visit at least three schools a year where they speak with leadership and engage with parents. The schools are selected on a rotating schedule and vary in location, type and size. We will also dedicate a significant amount of time to parent education. Parent education covers several topics including how to best help their children succeed academically, to informing parents of the programmatic and funding requirements our school complies with. Teachers will hold office hours to support and train parents. In addition, we will offer Back to School Night, Literacy Night, Math Night, Living the College Dream, Standardized testing Night, and College Readiness Night.

Parents will help the entire classroom community, not just their child. The objective is twofold; we want parents to take ownership of the education all children are receiving and students to understand that their parents are also their teachers. While doing this, we will build a strong sense of community, collaboration, and internalize the “we are all in this together” mentality.

The plan has been designed to ensure that outreach is targeted towards racially and ethnically diverse underserved students in the Charter School’s surrounding communities. During the interest and enrollment periods, the Charter School affirms that it will provide relevant enrollment information to inquiring families through its website, telephone hotline, and by assisting families in person, via email or over the phone as they navigate the recruitment process and requirements.

Each year, the Charter School will implement a multi-pronged recruitment strategy that cuts across the five key areas of student recruitment that have proven to yield optimal outcomes: leveraging families and KIPP LA partners, community engagement, creating partnerships with feeder pre-K and head start programs, marketing, advertising, flyering and neighborhood canvassing. Such student recruitment practices include:

- Enlisting support from current KIPP LA families to provide referrals, conducting open houses, providing information about enrollment at Los Angeles-wide education exhibitions, community events, resource fairs, and public housing development council meetings
· Targeting the siblings of current KIPP LA middle students to enroll in the Charter School. These students and families already know the expectations and culture of KIPP and could become a base for further student recruitment.
· Connecting with pre-K programs, childcare centers, and day cares to create partnerships to identify potential families and students.
· Providing opportunities for families to meet with school staff and learn more about the academic program, school schedule, and other expectations
· Contacting local community leaders and businesses to assist in the recruitment effort by posting information and advertisements about the Charter School geared towards student recruitment.
· Targeting community events and community organizations to build relationships and spread information about the Charter School, such as local festivals and celebrations. Community events are good places to connect with families and potential students who may be of age to attend the Charter School.
· Walking the community and knocking on doors to distribute information about the Charter School. Being visible in the community is also essential so that community members meet the Charter School’s Co-School Leaders and begin understanding the mission of the Charter School.
· Developing a coordinated and multi-faceted marketing campaign along with tactic aligned collateral to reach families and spread information about the Charter School. This may include newspaper, bus and radio ads as well as flyers, posters, and postcards mailed to surrounding communities.
· Providing lottery interest form access online for families to expand the Charter School’s applicant pool.

Generally, the student recruitment activities for the Charter School starts in September. Throughout the student recruitment outreach process, interested families and parents will complete student interest forms and once the interest form period has ended, applications for enrollment. When distributing applications for enrollment, staff and volunteers will clearly explain the goals and expectations of the Charter School to families, parents and/or students. Follow-up meetings will be scheduled and staff will respond to phone call and e-mails from interested parents as quickly as possible.

Recruitment materials and outreach information will be available in both English and Spanish to best spread the word to the community of South Central. Those conducting outreach and recruitment will speak the language used by families and community members. Recruitment materials will include information about the Charter School (e.g. the mission statement of the Charter School, pictures of KIPP students, information about the KIPP network of schools, and contact information for the Charter School) in both English and Spanish. The Charter School’s website is linked to the KIPP LA Schools website and provides extensive information about the Charter School’s instructional vision, mission, goals and values along with additional information about the KIPP national network of public charter schools. Through the community we build at the Charter School, students and families will learn from each other to respect different

An annual independent financial audit of the books and records of the Charter School will be conducted as required by Education Code Sections 47605(b)(5)(I) and 47605(m). The books and records of the Charter School will be kept in accordance with generally accepted accounting principles, and as required by applicable law, the audit will employ generally accepted accounting procedures. This audit will be conducted in accordance with Generally Accepted Accounting Principles and applicable provisions within the California Code of Regulations governing audits of charter schools as published in the State Controller’s K-12 Audit Guide, and will verify the accuracy of the Charter School’s financial statements (including its Balance Sheet, Income Statement and Cash Flow Statement), attendance and enrollment accounting practices, and review internal controls.

The KIPP LA Schools Audit Committee will select an independent auditor. The auditor will have, at a minimum, a CPA and educational institution audit experience and will be approved by the State Controller on its published list as an educational audit provider. To the extent required under applicable federal law, the audit scope will be expanded to include items and
processes specified in applicable Office of Management and Budget Circulars. KIPP LA’s Chief of Finance & Operations and Controller will work with the auditor to complete the audit and send to required agencies.

The annual audit will be completed and forwarded to the District, the Los Angeles County Superintendent of Schools, the State Controller, and to the California Department of Education by the 15th of December of each year by the contracted auditing firm. KIPP LA Schools’ Audit Committee will review any audit exceptions or deficiencies with the Chief of Finance & Operations and the Chief Executive Officer and report to the Charter School Board of Directors with recommendations on how to resolve them. The Board of Directors will submit a report to the District explaining how these findings have been or will be resolved to the satisfaction of the District and the anticipated timeline for doing so. Audit appeals or requests for summary review shall be submitted to the Education Audit Appeals Panel (“EAAP”) in accordance with applicable law. The independent financial audit of the Charter School is a public record to be provided to the public upon request.
Element 10 – Suspension and Expulsion Procedures

“The procedures by which pupils can be suspended or expelled.” (Ed. Code § 47605(b)(5)(J).)

**GENERAL PROVISIONS**

Charter School shall provide due process for all students, including adequate and timely notice to parents/guardians and students of the grounds for all suspension and expulsion recommendations and decisions and their due process rights regarding suspension and expulsion, including rights of appeal.

Charter School shall ensure that its policies and procedures regarding suspension and expulsion will be periodically reviewed, and modified as necessary, in order to conform to changes in state law.

Charter School shall ensure that its staff is knowledgeable about and complies with the District’s Discipline Foundation Policy and/or current equivalent policy, as required by the Modified Consent Decree. Charter School shall comply with the terms of the School Discipline Policy and School Climate Bill of Rights resolution adopted by the LAUSD Board of Education on May 6, 2013.

Charter School shall be responsible for the appropriate interim placement of students during and pending the completion of Charter School’s student expulsion process and shall facilitate the post-expulsion placement of expelled students.

Charter School shall document and implement the alternatives to suspension and expulsion that Charter School utilizes in response to attendance-related concerns, e.g. truancy or excessive tardiness.

**STUDENTS WITH DISABILITIES**

Charter School shall establish and implement policies and procedures to ensure full compliance with federal and state laws and regulations regarding the discipline of students with disabilities. If a student is recommended for expulsion and the student receives or is eligible for special education, pending the completion of the expulsion process, Charter School shall identify and provide special education programs and services at an appropriate interim educational placement determined in coordination with the LAUSD Division of Special Education.

In the case of a student who has an Individualized Education Program (“IEP”), or a student who has a Section 504 Plan, Charter School shall ensure that it follows correct disciplinary procedures to comply with the mandates of state and federal laws, including IDEA and section 504 of the Rehabilitation Plan of 1973. As set forth in the MOU regarding special education between the District and Charter School, an IEP team will meet to conduct a manifestation determination and to discuss alternative placement utilizing the District’s Special Education Policies and Procedures Manual. Prior to recommending expulsion for a student with a Section 504 Plan, Charter School’s administrator will convene a Link Determination meeting to ask the following two questions:

A. Was the misconduct caused by, or directly and substantially related to the student’s disability?
B. Was the misconduct a direct result of the Charter School’s failure to implement Section 504?
**NOTIFICATION OF THE DISTRICT**

Upon expelling any student, Charter School shall notify the Charter Schools Division by submitting an expulsion packet to the CSD immediately or as soon as practicable, which shall contain:

- Completed “Notification of Charter School Expulsion” [form available from the CSD website or office], including attachments as required on the form
- Documentation of the expulsion proceeding, including statement of specific facts supporting the expulsion and documentation that Charter School’s policies and procedures were followed
- Copy of parental notice of expulsion hearing
- Copy of expulsion notice provided to parent stating reason for expulsion, term of expulsion, rehabilitation plan, reinstatement notice with eligibility date and instructions for providing proof of student’s compliance for reinstatement, appeal process, and options for enrollment
- If the student is eligible for Special Education, documentation related to expulsion in compliance with IDEA and the MCD, including the Expulsion Analysis page of the pre-expulsion IEP
- If the student is eligible for Section 504 accommodations, documentation that Charter School conducted a Link Determination meeting to address two questions:
  
  A. Was the misconduct caused by, or directly and substantially related to the student’s disability?
  B. Was the misconduct a direct result of Charter School’s failure to implement Section 504 Plan?

Notwithstanding and apart from the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student’s district of residence within 30 days of the expulsion. Additionally, upon request of the receiving school district, Charter School shall forward student records no later than 10 school days from the date of the request as stated in Education Code section 49068 (a) and (b).

**OUTCOME DATA**

Charter School shall gather and maintain all data related to placement, tracking, and monitoring of student suspensions, expulsions, and reinstatements, and make such outcome data readily available to the District upon request.

**REHABILITATION PLANS**

Pupils who are expelled from Charter School shall be given a rehabilitation plan upon expulsion as developed by Charter School’s governing board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the pupil may apply to Charter School for readmission. Charter School shall inform parents in writing of its processes for reinstatement and applying for expungement of the expulsion record.

**READMISSION**

Charter School’s governing board shall adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. Upon completion of the readmission process, Charter School’s governing board shall readmit the pupil, unless Charter School’s governing board makes a finding that the pupil has not met the conditions of the rehabilitation plan or continues to pose a danger to campus safety.
description of the procedure shall be made available to the pupil and the pupil’s parent or guardian at the time the expulsion order is entered and the decision of the governing board, including any related findings, must be provided to the pupil and the pupil’s parent/guardian within a reasonable time.

**REINSTATEMENT**

Charter School’s governing board shall adopt rules establishing a procedure for processing reinstatements, including the review of documents regarding the rehabilitation plan. Charter School is responsible for reinstating the student upon the conclusion of the expulsion period in a timely manner.

**GUN-FREE SCHOOLS ACT**

Charter School shall comply with the federal Gun-Free Schools Act.

**School Climate and Student Discipline System**

This Pupil Suspension and Expulsion Policy, which constitutes the entire policy, has been established in order to promote learning and protect the safety and well-being of all students at the Charter School. In creating this policy, the Charter School has reviewed Education Code Section 48900 et seq., which describes the non-charter schools’ list of offenses and procedures to establish its list of offenses and procedures for suspensions and expulsions. The language that follows closely mirrors the language of Education Code Section 48900 et seq. The Charter School is committed to annual review of policies and procedures surrounding suspensions and expulsions and, as necessary, modification of the lists of offenses for which students are subject to suspension or expulsion.

When the Policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as the Charter School’s policy and procedures for student suspension and expulsion and it may be amended from time to time without the need to amend the charter so long as the amendments comport with legal requirements. Charter School staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will be printed and distributed as part of the Student Handbook and will clearly describe discipline expectations.

The Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. The notice shall state that this Policy and Procedures are also available on request at the Co-School Leader’s office. The Charter School will ensure that the policy in the Student Handbook and the policy in the Co-School Leader’s office are consistent.

A student identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability pursuant to the Individuals with Disabilities Education Improvement Act of 2004 (“IDEA”) or who is qualified for services under Section 504 of the Rehabilitation Act of 1973 (“Section 504”) is subject to the same grounds for suspension and expulsion and is accorded the same due process procedures applicable to general education students except when federal and state law mandates additional or different procedures. The Charter School will follow all applicable federal and state laws including but not limited to the California Education Code, when imposing any form of discipline on a student.
identified as an individual with disabilities or for whom the Charter School has a basis of knowledge of a suspected disability or who is otherwise qualified for such services or protections in according due process to such students.

**Discipline Foundation Policy**

Throughout the country, KIPP schools have been extremely successful in teaching and overseeing appropriate student behavior. From initially setting expectations for behavior (such as through the Commitment to Excellence) to consistently discussing and reinforcing what good behavior looks like, KIPP students are constantly acculturated to the Charter School’s values and expectations.

By acknowledging positive behavior in the classroom and encouraging students to do the same with their peers, the Charter School’s teachers will teach each student the importance of modeling and embodying good behavior. Similarly, the Charter School’s students will be able to identify and explain times when they are not meeting behavior expectations. This allows for self-correction and reflection. Each classroom at the Charter School will employ a multi-step disciplinary system, which clearly conveys to students the consequences of misbehavior and provides opportunities for improvement. The consistency of this system across classrooms and grade-levels will ensure uniformity of expectations for all students.

- By utilizing a range of progressive disciplinary options, the Charter School will curtail misconduct before there is a need for more serious sanctions. The Charter School is dedicated to working with students and families to address behavior challenges effectively. Potential actions include (but are not limited to):
  - Additional assignments to be completed at home and/or at school, overseen by teachers and/or grade level leaders;
  - Parent meetings with teachers and/or grade level leader;
  - Mandatory study hall during and/or after school (with notification to parent(s)/ guardian and overseen by grade level leader;
  - Loss of incentives or privileges;
  - Calling plans (requiring the student to call teachers to notify them of homework completion);
  - Daily conduct log (in which a student is required to get teacher acknowledgement of appropriate behavior after each class);
  - In-school suspension plans, providing opportunity for the teachers or Co-School Leaders to meet with an individual student to discuss misconduct and to determine appropriate consequences;
  - Written apology for misconduct;
  - A behavior reflection sheet which documents, in real time, student decisions in relation to the values of the school so that problematic choices can quickly be identified and addressed;
  - Disciplinary probation with notice to parents and explanation of required improvement;
  - Study teams, resource panel teams, or other assessment-related teams;
  - Peer presentations of personal improvement plan;
Referral to school counselor, psychologist, child welfare attendance personnel, or other school support service staff. Based upon the specific facts and/or issues involved in a situation with a student, intervention from a child welfare attendance specialist may need to be involved. The school shall use this resource to serve the best interest of students when necessary. Corporal punishment will not, under any circumstances, be used as a disciplinary measure with any student. (Corporal punishment includes the willful infliction of, or willfully causing the infliction of, physical pain on a student.) This commitment by the Charter School does not limit the rights of the Charter School employee to use force that is reasonable and necessary to protect the employee, student(s), staff or other persons, or to prevent damage to school property.

The Co-School Leaders or a designee (designee will be a School Administrative Staff member) will handle all discipline referrals; and based on the severity of the action, will handle each referral on a case by case basis in the best interest of students. The facts of every discipline case are always different. The policy shall be implemented uniformly and administration will take the individual facts of each case into consideration while determining the best course of action for students. The Co-School Leaders or the designee will document on the disciplinary referral how the action was handled. The discipline referral will be sent home to be signed by the student’s parent or guardian and must be returned the following day. A copy of the referral will be given to the classroom teacher and one will be kept on file with the Co-School Leaders or designee.

Suspension and Expulsion Policy

The Charter School’s Student Suspension and Expulsion Policy promotes learning and protects the safety and well-being of all students and staff, Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. The School Leader or Designee will ensure that students and their parents or guardians are notified in writing upon enrollment of all discipline policies and procedures. The policy and procedures will be set forth in the Student and Parent Handbook.

For Categories 2 and 3, the school must provide evidence of one or both of the following additional findings: (1) Other means of correction are not feasible or have repeatedly failed to bring about proper conduct, (2) Due to the nature of the act, the student’s presence causes a continuing danger to the physical safety of the pupil or others.

Potential Disciplinary Actions

In general, a suspension may be imposed only when other means of correction fail to bring about the proper conduct. However, with respect to the violations set forth in Education Code Section 48900, subdivisions (a) – (e), i.e., the first five enumerated under Category 3 offenses enumerated list above, an out-of-school suspension may be authorized for a first offense. (Additionally, a suspension for any of the above-listed violations is permissible if a student’s presence causes a danger to persons or property or threatens to disrupt the instructional process.) Education Code Section 48900.5. Expulsion for a violation of subsections (a) – (e) is permitted based upon the recommendation of the School Leader and a finding by the KIPP LA Board (or a designated committee thereof) that the student committed the offense and that either: (a) other means are not feasible or have repeatedly failed to correct the behavior; or (b) due to the nature of the act, the student’s presence would cause a continuing danger to personal safety. Education Code Section 48915(b)

With respect to the remaining violations set forth above, except as otherwise noted (with respect to acts triggering mandatory expulsion consideration), a suspension is permitted only when other corrective actions have failed to bring about the proper conduct. However, prior corrective action is not a prerequisite if a student’s presence would cause a danger to persons or property. Expulsion for these offenses are limited to situations in which the Chief Executive Officer or School Leader/designee has made a recommendation based on a finding that one of these enumerated offenses was committed, and the Board has found (or a designated committee thereof) that either: (a) other means of disciplining are not feasible or have repeatedly failed to correct the behavior; or (b) due to the nature of the act, the presence of the student would cause a continuing danger to someone’s personal safety. Education Code Section 48915(e). An appeal of this finding would go to a full Board.

The Charter School provides an in-school suspension program to avoid any loss of instructional time. A student suspended from a school for any of the enumerated offenses may be assigned, by the School Leader or the School Leader’s designee, to
a supervised suspension classroom for the entire period of suspension if the student poses no imminent danger or threat to
the campus, pupils, or staff, or if an action to expel the pupil has not been initiated. The Charter School follows the same
notice and conference requirements for in-school suspension as for out of school suspension. In-school suspension is
supervised by a credentialed teacher responsible for gathering assignments from the student's teachers of record and
providing a small group environment with close supervision and assistance in completing the work. The credentialed teacher
remains in the room to monitor on-task behavior and provide tutoring when needed. The in-school suspension program
includes a physical education component. On the rare occasion of a student with an IEP participating in the in-school
suspension program, an itinerant RSP teacher visits the individual student to provide the assigned daily minutes prescribed
in the IEP, and the student goes to all other DIS services as scheduled.

Suspension Procedures
The policies and procedures for suspension and expulsion will be periodically reviewed and the list of offenses for which
students are subject to suspension and expulsion will be modified as necessary. Such modifications will be in compliance with
the law and may be submitted to the District for review. The Charter School will account for suspended or expelled students
in its average daily attendance accounting as provided by law.

Authority
The School Leader, or a designee, determines if a suspension is to be imposed and, if so, the appropriate length.

Informal Conference
Suspension shall be preceded by an informal conference conducted by the School Leader, or designee, with the student with
his or her parent/guardian and, whenever practicable, the teacher, supervisor or school employee who referred the student
to the School Leader. At the conference, the student shall be informed of the reason for the disciplinary action and the
evidence against him/her; the student shall be given the opportunity to present his/her version and evidence in support of
his/her defense. (EC 48911(b)).
This conference may be omitted if the School Leader, or designee, determines that an emergency situation exists. An
"emergency situation" involves a clear and present danger to the lives, safety, or health of students or school personnel. If a
student is suspended without this conference, both the parent/guardian and student shall be notified of the student's right
to return to school for the purpose of the conference. The conference shall be held within two school days, unless the parent
waives his/her right to it or is physically unable to attend for any reason. In such case, the conference shall be held as soon
as the student is physically able to return to school. (EC 48911).
Notice to Parents/Guardians

At the time of the suspension, a school employee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension. (EC 48911)

This notice shall state the specific offenses committed by the student. (EC 48900.8)

In addition, the notice will state the date and time when the student may return to school. If school officials wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice may add that state law requires the parent/guardian to respond to such requests without delay.

Parent/Guardian Conference

Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (EC 48914)

While the parent/guardian is required to respond without delay to a request for a conference about a student’s behavior, no penalties may be imposed on the student for the failure of the parent/guardian to attend such conference. Reinstatement of the suspended student shall not be contingent upon attendance by the student’s parent or guardian at the conference. (EC 48911).

Time Limits

Absent a recommendation for expulsion, a student’s single suspension period (whether in or out of school) shall not exceed five (5) school days. As addressed in EC 48903(a), the total number of days for which a pupil may be suspended from school shall not exceed twenty (20) school days in any school year. A student with an IEP can only be suspended 10 days.

Upon a recommendation of expulsion by the Chief Executive Officer, School Leader/Designee, the pupil and the pupil’s guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Chief Executive Officer, School Leader/Designee upon either of the following: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing, 15 days, unless the parent/guardian requests to postpone the expulsion hearing for up to 30 calendar days. The student will have the opportunity to complete instructional activities missed due to his or her suspension and will be able to communicate with designated school staff for any questions and for evaluation of work.

Suspension Appeals

Within 10 days of receiving the notice of suspension, the parent/guardian may submit a written appeal to the Student Discipline Committee of the KIPP LA Board, which is a subcommittee of the KIPP LA Board of Directors. The Student Discipline Committee will conduct the suspension appeal review. The suspension appeal review will include a review of all evidence that was the basis for the suspension to determine whether the suspension should be sustained. The Student Discipline Committee decision is final. If the parent/guardian objects to the Committee’s decision, the parent/guardian may submit a written objection which should be included in the student’s discipline records if the parent so requests.

Access to Educational Materials

---

KIPP Academy of Opportunity Charter Renewal Petition, 2018-2023
During the period of the suspension, the Charter School will ensure that the student has access to the necessary educational materials by ensuring that classwork, homework, and other resources are made available to the student on a daily basis. The School Leader, and/or designee, will oversee the process in which these materials are distributed to students during suspension.

**Expulsion Procedures**

**Definition**

Expulsion is the involuntary removal of a student from all schools and programs of KIPP LA for an extended period of time for acts of specified misconduct. Except for single acts of a grave nature and mandatory grounds for expulsion, expulsion is used only when the School Leader determines that, all other behavior supports, plans, and interventions, have failed to bring about proper conduct, and/or the student’s presence causes a continuing danger to other students.

**Authority**

The KIPP LA Schools Chief Executive Officer and School Leader/Designee, have the authority to make expulsion recommendations. Final action is only taken by vote after the hearing of the designated school discipline committee of the KIPP LA Schools Board of Directors.

**Notice of Hearing**

In the event that the Chief Executive Officer, the Chief Academic Officer and/or the School Leader recommend a student for expulsion from the Charter School, the School shall promptly provide written notice to the student and parents/guardians at least 10 calendar days before the date of the expulsion hearing. The notification shall include:

- A statement of facts, charges and offense(s) upon which the proposed expulsion is based;
- The date, time and location of the expulsion hearing;
- A copy of the school's disciplinary rules which relate to the alleged violation;
- Guidance around the opportunity for the student or the student's parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;
- Notice of the student’s right to obtain and inspect all copies of documents to be used at the hearing, and confront and question all witnesses who testify at the hearing, and question all evidence presented and to present oral and documentary evidence on the student’s behalf including witnesses; and
- Notice of the obligation to provide information about the student’s status at the Charter School to any other school district or school to which the student seeks enrollment, if expelled.
Hearing

The expulsion hearing must occur within thirty (30) school days after the date the school leader determines that the student has committed any of the acts enumerated in EC 48900, unless the parent/guardian requests a postponement of the hearing. Likewise, the hearing shall not be held fewer than ten days following the written notification of due process rights unless the student and family/guardian waive their rights to ten days’ notice. (EC 48918).

Once determined that a student has committed an expellable offense, an expulsion hearing is held, in closed session, before an administrative panel of KIPP LA Schools. In connection with such a hearing and to effectuate an unbiased process, no School Leader or other school personnel who were involved in the underlying disciplinary action shall participate in any vote by the administrative panel. KIPP LA School’s administrative panel shall consist of three members. The members will include either, school administrators, school support team members, and/or school operations personnel within the KIPP LA Schools region.

The student’s advocate can be any person (attorney or non-attorney) of the student’s choice who is willing and able to represent the student at the expulsion hearing. The student and his/her advocate may present their evidence and arguments, question witnesses, call witnesses, and present materials to the administrative panel for consideration. A record of the hearing will be made and, if necessary, a translator will be present at the hearing. The student’s parent or guardian will be given access to this record.

Record of Hearing

Pursuant to EC 48918, a record of the hearing shall be made either by electronic recording and/or stenography. All documents and/or evidence presented at the hearing shall be maintained at the Charter School and school support office. Upon request, records may be released to the student, student’s advocate, or parent/guardian(s) within a reasonable time frame. Said records shall also be provided to the KIPP LA Schools Board in the event of an appeal proceeding.

Procedures for Expulsion Hearing Involving Sexual Assault and Battery Offenses

In certain expulsion cases, the Charter School may, upon a finding of good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, only the Charter School or the hearing officer, who is the General Counsel of KIPP LA Schools or designee, may present the testimony of the witness at the hearing in the form of sworn declarations that shall be examined. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil. The following outlines the procedures to be followed for all cases involving sexual assault and/or battery:

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult
support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. The Charter School must also provide the victim a room separate from the hearing room for the complaining witness’ use prior to and during breaks in testimony.

3. At the discretion of the administrative panel, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The administrative panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The administrative panel may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The administrative panel may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.

7. If one or both of the support persons is also a witness, the Charter School must present evidence that the witness’ presence is both desired by the witness and will be helpful to the Charter School. The presiding officer shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the room during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session, when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are no alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing room by means of closed-circuit television. Evidence of specific instances of a complaining witness’ prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstance can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.
Presentation of Evidence

While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. If, due to a written request by the expelled student, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

Post Hearing Procedures

Within three (3) school days after the hearing, the administrative panel shall submit their decision to expel to the KIPP LA Board-Student Discipline Committee. The committee shall consist of three (3) members of the KIPP LA School’s board that volunteer to serve on said committee. The Student Discipline Committee shall decide within 7 days whether or not to approve the recommendation to expel. Any decision, made by Student Discipline Committee, to accept the recommendation to expel must be based upon a finding of facts derived from the evidence presented to the administrative panel. Any decision made by Student Discipline Committee, to expel must be based upon substantial evidence relevant to the charges adduced at the expulsion hearing.

The Student Discipline Committee of the KIPP LA Schools Board, upon voting to expel a pupil, may suspend the enforcement of the expulsion order for a period of not more than one calendar year and may, as a condition of the suspension of enforcement, assign the pupil to another school or class for the rehabilitation of the pupil. The rehabilitation program to which the pupil is assigned may provide for the involvement of the pupil’s parent or guardian in his or her child’s education in ways that are specified in the rehabilitation program. A parent or guardian’s refusal to participate in the rehabilitation program shall not be considered in the KIPP LA board’s determination as to whether the pupil has satisfactorily completed the rehabilitation program. (EC 48917)

Notification to Parent(s)/Guardian(s)

Within three (3) calendar days of the Student Discipline Committee’s issuance of a decision, the Chief Executive Officer or designee, will make contact with the parent(s)/guardian(s) via telephone and certified mail via USPS advising them of the committee’s decision. Any decision to expel shall include the term of the expulsion as well as details of a rehabilitation plan and will be provided in a formal notice to parent(s)/guardian(s). The notice shall advise the parent(s)/guardian(s) of their right to appeal and access to records of the proceedings.

Right to Appeal

Parents and/or guardians have the right to appeal expulsions to the full board of KIPP LA Schools excluding the members of the Student Discipline Committee who approved the recommendation for expulsion. Members of the Student Discipline Committee will not participate with the full board for the appeal. A parent must submit a written appeal within 10 calendar
days of being informed of the expulsion decision by the board’s committee on school discipline. The appeal must include a statement briefly describing the reason in which the Student Discipline Committee’s decision should be reversed. The appeal must be sent to the General Counsel and/or Chief Academic Officer.

KIPP LA Schools board review is limited to the record of proceeding held before the administrative panel and recommendations presented to the Student Discipline Committee. Unless evidence was improperly excluded or, in the exercise of reasonable diligence, could not be produced at the time of the expulsion hearing, no evidence other than that contained in the record of proceeding may be heard. The full board of KIPP LA Schools shall review the expulsion record and make a determination as to whether the expulsion should be sustained. The decision of the full board is final. This review will occur within seven (7) calendar days of receipt.

KIPP LA Schools Chief of Employee Solutions & Legal Affairs will notify the parent(s)/guardian(s) of the date, time, and location of the appeal hearing in writing. The notice shall include language advising the parent(s)/guardian(s) that failure to appear at the hearing may be deemed an abandonment of the appeal by the board. Unless otherwise excused by the KIPP LA Schools board, failure of the appellant or parent/guardian to appear at the scheduled hearings or to pursue the appeal with diligence within the time frames established above, may be deemed an abandonment of the appeal and the KIPP LA Schools board may dismiss the appeal.

**Students with Disabilities**

Special Procedures for the Consideration of Suspension and Expulsion of Students with Disabilities

1. **Notification of SELPA**

   The Charter School shall immediately notify the SELPA and coordinate the procedures in this policy with the SELPA of the discipline of any student with a disability or student that the Charter School or the SELPA would be deemed to have knowledge that the student had a disability.

2. **Services During Suspension**

   Students suspended for more than ten (10) school days in a school year shall continue to receive services so as to enable the student to continue to participate in the general education curriculum, although in another setting (which could constitute a change of placement and the student’s IEP would reflect this change), and to progress toward meeting the goals set out in the child’s IEP/504 Plan; and receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, that are designed to address the behavior violation so that it does not recur. These services may be provided in an interim alternative educational setting.

3. **Procedural Safeguards/Manifestation Determination**

   Within ten (10) school days of a recommendation for expulsion or any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the Charter School, the parent, and relevant members of the IEP/504 Team shall review all relevant information in the student’s file, including the child’s IEP/504 Plan, any teacher observations, and any relevant information provided by the parents to determine:
a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child’s disability; or
b. If the conduct in question was the direct result of the local educational agency’s failure to implement the IEP/504 Plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that either of the above is applicable for the child, the conduct shall be determined to be a manifestation of the child’s disability.

If the Charter School, the parent, and relevant members of the IEP/504 Team make the determination that the conduct was a manifestation of the child’s disability, the IEP/504 Team shall:
a. Conduct a functional behavioral assessment and implement a behavioral intervention plan for such child, provided that the Charter School had not conducted such assessment prior to such determination before the behavior that resulted in a change in placement;
b. If a behavioral intervention plan has been developed, review the behavioral intervention plan if the child already has such a behavioral intervention plan, and modify it, as necessary, to address the behavior; and
c. Return the child to the placement from which the child was removed, unless the parent and the Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

If the Charter School, the parent, and relevant members of the IEP/504 Team determine that the behavior was not a manifestation of the student’s disability and that the conduct in question was not a direct result of the failure to implement the IEP/504 Plan, then the Charter School may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to students without disabilities.

4. Due Process Appeals

The parent of a child with a disability who disagrees with any decision regarding placement, or the manifestation determination, or the Charter School believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others, may request an expedited administrative hearing through the Special Education Unit of the Office of Administrative Hearings or by utilizing the dispute provisions of the 504 Policy and Procedures.

When an appeal relating to the placement of the student or the manifestation determination has been requested by either the parent or the Charter School, the student shall remain in the interim alternative educational setting pending the decision of the hearing officer in accordance with state and federal law, including 20 USC Section 1415(k), until the expiration of the forty-five (45) day time period provided for in an interim alternative educational setting, unless the parent and the Charter School agree otherwise.

5. Special Circumstances

Charter School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability who violates a code of student conduct.

The Chief Executive Officer or designee may remove a student to an interim alternative educational setting for not more than forty-five (45) school days without regard to whether the behavior is determined to be a manifestation of the student’s disability in cases where a student:
a. Carries or possesses a weapon, as defined in 18 USC 930, to or at school, on school premises, or to or at a school function;
b. Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function; or

c. Has inflicted serious bodily injury, as defined by 20 USC 1415(k)(7)(D), upon a person while at school, on school premises, or at a school function.

6. Interim Alternative Educational Setting
The student’s interim alternative educational setting shall be determined by the student’s IEP/504 Team.

7. Procedures for Students Not Yet Eligible for Special Education Services
A student who has not been identified as an individual with disabilities pursuant to IDEA and who has violated the Charter School’s disciplinary procedures may assert the procedural safeguards granted under this administrative regulation only if the Charter School had knowledge that the student was disabled before the behavior occurred.

The Charter School shall be deemed to have knowledge that the student had a disability if one of the following conditions exists:

a. The parent/guardian has expressed concern in writing, or orally if the parent/guardian does not know how to write or has a disability that prevents a written statement, to Charter School supervisory or administrative personnel, or to one of the child’s teachers, that the student is in need of special education or related services.

b. The parent has requested an evaluation of the child.

c. The child’s teacher, or other Charter School personnel, has expressed specific concerns about a pattern of behavior demonstrated by the child, directly to the director of special education or to other Charter School supervisory personnel.

If the Charter School knew or should have known the student had a disability under any of the three (3) circumstances described above, the student may assert any of the protections available to IDEA-eligible children with disabilities, including the right to stay-put.

If the Charter School had no basis for knowledge of the student’s disability, it shall proceed with the proposed discipline. The Charter School shall conduct an expedited evaluation if requested by the parents; however, the student shall remain in the education placement determined by the Charter School pending the results of the evaluation.

The Charter School shall not be deemed to have knowledge that the student had a disability if the parent has not allowed an evaluation, refused services, or if the student has been evaluated and determined to not be eligible.
Element 11 – Employee Retirement Systems

“The manner by which staff members of the charter schools will be covered by the State Teachers’ Retirement System, the Public Employees’ Retirement System, or federal social security.” (Ed. Code § 47605(b)(5)(k).)

Charter School shall comply in a timely manner with all applicable federal and state laws and regulations, as they may change from time to time, including but not limited to Internal Revenue Code section 414(d) and related regulations, governing Charter School’s participation in, and/or coverage of its staff members by, the State Teachers’ Retirement System (CalSTRS), the Public Employees’ Retirement System (CalPERS), and/or federal social security.

If Charter School participates in, or otherwise covers its staff members by enrolling or continuing their enrollment in, a "government plan" governed by section 414(d) (e.g., CalPERS), upon dissolution or final liquidation of Charter School, and/or its nonprofit public benefit corporation, notwithstanding any provision in Element 15 to the contrary, Charter School shall distribute its net assets in accordance with section 414(d), related regulations, and the government plan’s requirements.

If Charter School participates in CalSTRS and/or CalPERS, Charter School shall continue such participation for the duration of Charter School’s existence under the same CDS code, if mandated by applicable legal and retirement plan requirements.

All Charter School staff will participate in Social Security and will have the option join a 401(k) plan. The Charter School will not participate in the State Teachers’ Retirement System or the Public Employees’ Retirement System. KIPP LA Schools Chief of Employee Solutions and Legal Affairs will be responsible for ensuring that appropriate and timely arrangements for coverage under Social Security and the 401(k) have been made.

Certificated Staff Members
In addition to Social Security, full-time certificated teaching positions can participate in the 401(k). KIPP LA will provide a match to employee’s 401(k) contributions over the following schedule:

1. Up to 2% of the employee’s salary in the first fiscal year of employment;
2. Up to 3% of the employee’s salary in the second fiscal year of employment;
3. Up to 4% of the employee’s salary in the third fiscal year of employment;
4. Up to 6% of the employee’s salary in the fourth fiscal year of employment and beyond.

Non-certificated Staff Members
In addition to Social Security, full-time non-certificated positions can participate in the 401(k) and receive matching contributions according to the schedule identified above.

Other Staff Members
All other staff members will participate in Social Security only.
Element 12 – Public School Attendance Alternatives

“The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.” (Ed. Code § 47605(b)(5)(L.)

Pupils of Charter School do not have or gain any right to admission in a particular school of any school district, or program of any school district, as a consequence of applying to or enrolling in Charter School, except to the extent that such a right is extended by the school district.

A pupil who chooses not to attend Charter School may attend a public school within the pupil’s school district of residence in accordance with applicable law and that school district’s policies and procedures. The pupil alternatively may seek to enroll in another charter school in accordance with applicable law and the terms of the school’s charter. If LAUSD is the pupil’s school district of residence, an eligible pupil may pursue an inter-district transfer, if available, in accordance with the admission, enrollment, and transfer policies and procedures of the District, as they may change from time to time.

The Charter School is a school of choice. As such, no student shall be required to attend the Charter School.

Those who choose not to attend will have the right to attend any other school in their attendance area in keeping with existing enrollment policies of the District and/or see intra- or inter-district transfer in accordance with existing enrollment and transfer policies.

Parents and guardians of each student enrolled in the Charter School will be informed that enrollment in the charter provides no right to enrollment in any other school in the local educational agency, except to the extent that such a right is extended by the local educational agency. Parents and guardians of each student enrolled in the Charter School will be informed that enrollment in the Charter School provides no right to enrollment in any other school in the local educational agency, except to the extent that such a right is extended by the local educational agency.
Element 13 – Rights of District Employees

“The rights of an employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.” (Ed. Code § 47605(b)(5)(M).)

Employees of the District who choose to leave the employment of the District to work at Charter School shall have no automatic rights of return to the District after employment at Charter School unless specifically granted by the District through a leave of absence or other agreement or policy of the District as aligned with the collective bargaining agreements of the District. Leave and return rights for District union-represented employees and former employees who accept employment with Charter School will be administered in accordance with applicable collective bargaining agreements and any applicable judicial rulings.

No public school district employee shall be required to work at the Charter School. Employees of the District who choose to leave the employment of the District to work at the Charter School will have no automatic rights of return to the District after employment by KIPP LA Schools unless specifically granted by the District through a leave of absence or other agreement. Charter School employees shall have any right upon leaving the District to work in the Charter School that the District may specify, any rights of return to employment in a school district after employment in the Charter School that the District may specify, and any other rights upon leaving employment to work in the Charter School that the District determines to be reasonable and not in conflict with any law.

All employees of the Charter School will be considered the exclusive employees of KIPP LA Schools and not of the District, unless otherwise mutually agreed in writing. Sick or vacation leave or years of service credit at the District or any other school district will not be transferred to the Charter School. Employment by KIPP LA Schools provides no rights of employment at any other entity, including any rights in the case of closure of the Charter School.
Element 14 – Mandatory Dispute Resolution

Code § 47605(b)(5)(O).)

**Revocation of the Charter**

The District may revoke the Charter pursuant to the provisions set forth in the Charter Schools Act of 1992, as they may be amended from time to time. Prior to revocation, and in accordance with Education Code section 47607(d) and state regulations, the LAUSD Board of Education will notify Charter School in writing of the specific violation, and give Charter School a reasonable opportunity to cure the violation, unless the LAUSD Board of Education determines, in writing, that the violation constitutes a severe and imminent threat to the health or safety of the pupils. Revocation proceedings are not subject to the dispute resolution provisions set forth in this Charter.

This electronic master list shall be delivered to the CSD in the form of a CD or otherwise in accordance with District procedures.

4. Charter School must organize the original cumulative files for delivery to the District in two categories: active students and inactive students. Charter School will coordinate with the CSD for the delivery and/or pickup of student records.

9. Charter School shall provide to the responsible person(s) designated by the governing board of Charter School to conduct all closure-related activities a list of students in each grade level and, for each student, a list of classes completed and the student’s district of residence.
Financial Close-Out

After receiving notification of closure, the California Department of Education (CDE) will notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of apportionments, unpaid revolving fund loans or grants, and/or similar liabilities. The CDE may ask the county office of education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final audit within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School’s annual audit if it meets all of the requirements of the annual audit.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not LAUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budgets
2. Interim financial reports
3. Second interim financial reports
4. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.
Disposition of Liabilities and Assets

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District’s personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.

If Charter School is operated as or by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

a. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

b. Make final federal tax payments (employee taxes, etc.)

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter
School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

Closure of the Charter School will be documented by official action of the Board of Directors. The action will identify the reason for closure. The official action will also identify an entity and person or persons (likely the CEO) responsible for closure-related activities.

The Charter School will promptly notify parents and students of the Charter School, the District, the Los Angeles County Office of Education, the Charter School's SELPA, the retirement systems in which the Charter School’s employees participate, and the California Department of Education of the closure as well as the effective date of the closure. This notice will also include the name(s) of and contact information for the person(s) to whom reasonable inquiries may be made regarding the closure; the pupils’ school districts of residence; and the manner in which parents/guardians may obtain copies of pupil records, including specific information on completed courses and credits that meet graduation requirements.

The Charter School will ensure that the notification to the parents and students of the Charter School of the closure provides information to assist parents and students in locating suitable alternative programs. This notice will be provided promptly following the Board’s decision to close the Charter School.

The Charter School will also develop a list of pupils in each grade level and the classes they have completed, together with information on the pupils’ districts of residence, which they will provide to the entity responsible for closure-related activities. As applicable, the Charter School will provide parents, students and the District with copies of all appropriate student records and will otherwise assist students in transferring to their next school. All transfers of student records will be made in compliance with the Family Educational Rights and Privacy Act (“FERPA”), 20 U.S.C. § 1232g. The Charter School will ask the District to store original records of Charter School students. All student records of the Charter School shall be transferred to the District upon Charter School closure. If the District will not or cannot store the records, the Charter School shall work with the County Office of Education to determine a suitable alternative location for storage.

All state assessment results, special education records, and personnel records will be transferred to and maintained by the entity responsible for closure-related activities in accordance with applicable law.

As soon as reasonably practical, the Charter School will prepare final financial records. The Charter School will also have an independent audit completed within six months after closure. The Charter School will pay for the final audit. The audit will be prepared by a qualified Certified Public Accountant selected by the Charter School and will be provided to the District promptly upon its completion. The final audit will include an accounting of all financial assets, including cash and accounts receivable and an inventory of property, equipment, and other items of material value, an accounting of the liabilities,
including accounts payable and any reduction in apportionments as a result of audit findings or other investigations, loans, and unpaid staff compensation, and an assessment of the disposition of any restricted funds received by or due to the Charter School. The Charter School will complete and file any annual reports required pursuant to Education Code section 47604.33.

On closure of the Charter School, all assets of the Charter School, including but not limited to all leaseholds, personal property, intellectual property and all ADA apportionments and other revenues generated by students attending the Charter School, remain the sole property of the nonprofit public benefit corporation. Upon the dissolution of the nonprofit public benefit corporation, all net assets shall be distributed in accordance with the Articles of Incorporation. Any assets acquired from the District or District property will be promptly returned upon Charter School closure to the District. The distribution shall include return of any grant funds and restricted categorical funds to their source in accordance with the terms of the grant or state and federal law, as appropriate, which may include submission of final expenditure reports for entitlement grants and the filing of any required Final Expenditure Reports and Final Performance Reports, as well as the return of any donated materials and property in accordance with any conditions established when the donation of such materials or property was accepted.

On closure, the Charter School shall remain solely responsible for all liabilities arising from the operation of the Charter School. As the Charter School is operated by a non-profit public benefit corporation, should the corporation dissolve with the closure of the Charter School, the Board will follow the procedures set forth in the California Corporations Code for the dissolution of a non-profit public benefit corporation and file all necessary filings with the appropriate state and federal agencies. As specified by the Budget provided the Charter School will utilize the reserve fund to undertake any expenses associated with the closure procedures identified above.
Additional Provisions

**Facilities**

Charter School shall comply with all geographic and site limitations and related requirements set forth in Education Code sections 47605.1, 47602(a), and 47605(a).

**District-Owned Facilities**

If Charter School is using District facilities as of the date of the submission of this charter petition or takes occupancy of District facilities prior to the approval of this charter petition, Charter School shall execute an agreement provided by the District for the use of the District facilities as a condition of the approval of the charter petition. If at any time after the approval of this charter petition Charter School will occupy and use any District facilities, Charter School shall execute an agreement provided by the District for the use of the District facilities prior to occupancy and commencing use. Charter School shall implement and otherwise comply with the terms of any and all applicable facilities use agreements between Charter School and the District.

The circumstances of Charter School’s occupancy of District facilities may change over time such as, but not limited to, enrollment, programs, and the conditions of facilities, and the District has a vested interest in having an agreement that is appropriate for the situation.

For a Sole Occupant Agreement or any other use agreement that is not a Proposition 39 Single Year Co-location Use Agreement or a lease issued through the Notice of Intent and bid process, the term may be co-terminous with the approved Charter, as permitted by law. Charter School and the District shall negotiate any modifications of the agreement with the goal of such amendment or new agreement being considered by the LAUSD Board of Education with the renewal of the charter petition. If Charter School and the District cannot execute an agreement in time for such to be considered by the Board of Education with the renewal of the charter petition, the approval of the renewal of the charter petition shall be conditioned upon Charter School and the District executing an amendment to the existing use agreement or a new agreement no later than May 1st or within nine (9) months of the date of the Board of Education’s approval of the renewal of the charter petition. During such time period Charter School shall be permitted to remain in occupancy of the District facilities under the terms and conditions of the immediately preceding, executed use agreement; provided, that if Charter School and the District cannot agree upon and execute an amendment or new use agreement by said deadline, Charter School shall vacate the District facilities on or before June 30th of said school year.

Charter School acknowledges and agrees that occupancy and use of District facilities shall be in compliance with applicable laws and District policies for the operation and maintenance of District facilities and furnishings and equipment. Charter School shall comply with all District health, safety, and emergency procedures and requirements and shall be subject to inspection by the District’s Facilities Services Division, OEHS, and other District offices in the same manner as other LAUSD campuses. All District facilities (i.e., schools) will remain subject to those laws applicable to public schools.

In the event of an emergency, all District facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations, which may disrupt or prevent Charter School from conducting its educational programs. If Charter School will share the use of District facilities with other District user groups, Charter School agrees that it will participate in and observe all District safety policies (e.g., emergency chain of information and participation in safety drills).

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:
• *Use*: Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. Separate and apart from its right as an authorizer to observe and inspect any part of the charter school at any time pursuant to Education Code 47607(a)(1), the District shall have and reserves the right to inspect District facilities upon reasonable notice to Charter School.

• *Furnishings and Equipment*: The District shall retain ownership of any furnishings and equipment, including technology, ("F&E") that it provides to Charter School for use. Charter School, at its sole cost and expense, shall provide maintenance and other services for the good and safe operation of the F&E.

• *Leasing; Licensing*: Use of the District facilities by any person or entity other than Charter School shall be administered by the District. The parties may agree to an alternative arrangement in the use agreement.

• *Programs, Services, and Activities Outside Instructional Program; Third Party Vendors*
  (i) Any program, service, or activity provided outside the instructional program shall be subject to the terms and provisions of the use agreement, and, additionally, may require a license, permit, or additional agreement issued by the District. The term “instructional program” is defined, per Education Code section 47612 and 5 CCR section 11960, as those required educational activities that generate funding based on “average daily attendance” and includes those extracurricular programs, services, and/or activities that students are required to participate in and do not require the payment of any consideration or fee.
  (ii) Any program, service, or activity requiring the payment of any consideration or fee or provided by a third party vendor (defined as any person or entity other than Charter School), whether paid or volunteer and regardless of whether such may be within the instructional program, shall be subject to the terms and provisions of the use agreement and such third party vendor shall be required to obtain a license, permit, or additional agreement from the District.

• *Minimum Payments or Charges to be Paid to District Arising From the Facilities:*
  (i) *Pro Rata Share*: The District shall collect and Charter School shall pay a Pro Rata Share for facilities costs as provided in the Charter Schools Act of 1992 and its regulations. The parties may agree to an alternative arrangement regarding facilities costs in the use agreement; and
  (ii) *Taxes; Assessments*: Generally, Charter School shall pay any assessment or fee imposed upon or levied on the LAUSD facilities that it is occupying or Charter School’s legal or equitable interest created by the use agreement.

• *Maintenance & Operations Services*: In the event the District agrees to allow Charter School to perform any of the operations and maintenance services, the District shall have the right to inspect the District facilities, and the costs incurred in such inspection shall be paid by Charter School.
  (i) *Co-Location*: If Charter School is co-locating or sharing the District facilities with another user, the District shall provide the operations and maintenance services for the District facilities and Charter School shall pay the Pro Rata Share. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such in the use agreement.
  (ii) *Sole Occupant*: If Charter School is a sole occupant of District facilities, the District shall allow Charter School, at its sole cost and expense, to provide some operations and maintenance services for the District facilities in accordance with applicable laws and LAUSD’s policies on operations and maintenance services for facilities and F&E. NOTWITHSTANDING THE FOREGOING, the District shall provide all services for regulatory inspections which as the owner of the real property it is required to submit, and deferred maintenance, and
Charter School shall pay LAUSD for the cost and expense of providing those services. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such services in the use agreement.

- **Real Property Insurance:** Prior to occupancy, Charter School shall satisfy requirements to participate in LAUSD’s property insurance or, if Charter School is the sole occupant of LAUSD facilities, obtain and maintain separate property insurance for the LAUSD facilities. Charter School shall **not** have the option of obtaining and maintaining separate property insurance for the LAUSD facility if Charter School is co-locating or sharing the LAUSD facility with another user.

**Non-District-Owned Facilities**

**Occupancy and Use of the Site:** Prior to occupancy or use of any school site or facility, Charter School shall provide the CSD with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Charter School shall not exceed the operating capacity of the site and shall operate within any limitations or requirements provided by the Certificate of Occupancy and any applicable permit. Charter School may not open or operate without providing a copy of an appropriate Certificate of Occupancy to the CSD. If Charter School intends to move or expand to another facility during the term of this Charter, Charter School shall adhere to any and all District policies and procedures regarding charter material revision and non-material amendment. Prior to occupancy or use of any such additional or changed school site, Charter School shall provide an appropriate Certificate of Occupancy to the CSD for such facility. Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

**Facility Compliance:** Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements. This requirement shall also apply to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, and notices issued by any authorized building and safety agency. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and shall promptly provide such documentation to the CSD upon request.

**Pest Management:** Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

**Asbestos Management:** Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.
Modified Consent Decree Requirements

All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of the Chanda Smith Modified Consent Decree (“MCD”) and other court orders imposed upon the District pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measurable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

The MCD requires charter schools to implement the District’s integrated student information system, which is currently referred to as My Integrated Student Information System (MiSiS). MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

STUDENTS WITH DISABILITIES

Charter School shall establish and implement policies and procedures to ensure full compliance with federal and state laws and regulations regarding the discipline of students with disabilities. If a student is recommended for expulsion and the student receives or is eligible for special education, pending the completion of the expulsion process, Charter School shall identify and provide special education

  B. Was the misconduct a direct result of Charter School’s failure to implement Section 504 Plan?

Notwithstanding and apart from the documentation sent to the Charter Schools Division as indicated above, if the student is a resident of a school district other than LAUSD, Charter School must notify the superintendent of the student’s district of residence within 30 days of the expulsion. Charter School’s governing board shall adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. Upon completion of the readmission process, Charter School’s governing board shall readmit the pupil, unless Charter School’s governing board makes a finding that the pupil has not met the conditions of the rehabilitation plan or continues to pose a danger to campus safety. A description of the procedure shall be made available to the pupil and the pupil’s parent or guardian at the time the expulsion order is entered and the decision of the governing board, including any related findings, must be provided to the pupil and the pupil’s parent/guardian within a reasonable time.

Charter School shall ensure completion of an independent final audit within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School’s annual audit if it meets all of the requirements of the annual audit.
Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not LAUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budgets
2. Interim financial reports
3. Second interim financial reports
4. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.

For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

**Disposition of Liabilities and Assets**

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District’s personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.
If Charter School is operated as or by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

*Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.*

*Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:*

a. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

b. Make final federal tax payments (employee taxes, etc.)

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.
Additional Provisions

FACILITIES

Charter School shall comply with all geographic and site limitations and related requirements set forth in Education Code sections 47605.1, 47602(a), and 47605(a).

District-Owned Facilities

If Charter School is using District facilities as of the date of the submission of this charter petition or takes occupancy of District facilities prior to the approval of this charter petition, Charter School shall execute an agreement provided by the District for the use of the District facilities as a condition of the approval of the charter petition. If at any time after the approval of this charter petition Charter School will occupy and use any District facilities, Charter School shall execute an agreement provided by the District for the use of the District facilities prior to occupancy and commencing use. Charter School shall implement and otherwise comply with the terms of any and all applicable facilities use agreements between Charter School and the District.

The circumstances of Charter School’s occupancy of District facilities may change over time such as, but not limited to, enrollment, programs, and the conditions of facilities, and the District has a vested interest in having an agreement that is appropriate for the situation. For a Sole Occupant Agreement or any other use agreement that is not a Proposition 39 Single Year Co-location Use Agreement or a lease issued through the Notice of Intent and bid process, the term may be co-terminous with the approved Charter, as permitted by law. Charter School and the District shall negotiate any modifications of the agreement with the goal of such amendment or new agreement being considered by the LAUSD Board of Education with the renewal of the charter petition. If Charter School and the District cannot execute an agreement in time for such to be considered by the Board of Education with the renewal of the charter petition, the approval of the renewal of the charter petition shall be conditioned upon Charter School and the District executing an amendment to the existing use agreement or a new agreement no later than May 1st or within nine (9) months of the date of the Board of Education’s approval of the renewal of the charter petition. During such time period Charter School shall be permitted to remain in occupancy of the District facilities under the terms and conditions of the immediately preceding, executed use agreement; provided, that if Charter School and the District cannot agree upon and execute an amendment or new use agreement by said deadline, Charter School shall vacate the District facilities on or before June 30th of said school year.

Charter School acknowledges and agrees that occupancy and use of District facilities shall be in compliance with applicable laws and District policies for the operation and maintenance of District facilities and furnishings and equipment. Charter School shall comply with all District health, safety, and emergency procedures and requirements and shall be subject to inspection by the District’s Facilities Services Division, OEHS, and other District offices in the same manner as other LAUSD campuses. All District facilities (i.e., schools) will remain subject to those laws applicable to public schools.
In the event of an emergency, all District facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations, which may disrupt or prevent Charter School from conducting its educational programs. If Charter School will share the use of District facilities with other District user groups, Charter School agrees that it will participate in and observe all District safety policies (e.g., emergency chain of information and participation in safety drills).

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:

- **Use:** Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. Separate and apart from its right as authorizer to observe and inspect any part of the charter school at any time pursuant to Education Code 47607(a)(1), the District shall have and reserves the right to inspect District facilities upon reasonable notice to Charter School.

- **Furnishings and Equipment:** The District shall retain ownership of any furnishings and equipment, including technology, (“F&E”) that it provides to Charter School for use. Charter School, at its sole cost and expense, shall provide maintenance and other services for the good and safe operation of the F&E.

- **Leasing; Licensing:** Use of the District facilities by any person or entity other than Charter School shall be administered by the District. The parties may agree to an alternative arrangement in the use agreement.

- **Programs, Services, and Activities Outside Instructional Program; Third Party Vendors**
  
  (i) Any program, service, or activity provided outside the instructional program shall be subject to the terms and provisions of the use agreement, and, additionally, may require a license, permit, or additional agreement issued by the District. The term “instructional program” is defined, per Education Code section 47612 and 5 CCR section 11960, as those required educational activities that generate funding based on “average daily attendance” and includes those extracurricular programs, services, and/or activities that students are required to participate in and do not require the payment of any consideration or fee.

  (ii) Any program, service, or activity requiring the payment of any consideration or fee or provided by a third party vendor (defined as any person or entity other than Charter School), whether paid or volunteer and regardless of whether such may be within the instructional program, shall be subject to the terms and provisions of the use agreement and such third party vendor shall be required to obtain a license, permit, or additional agreement from the District.
• **Minimum Payments or Charges to be Paid to District Arising From the Facilities:**

  (i) **Pro Rata Share:** The District shall collect and Charter School shall pay a Pro Rata Share for facilities costs as provided in the Charter Schools Act of 1992 and its regulations. The parties may agree to an alternative arrangement regarding facilities costs in the use agreement; and

  (ii) **Taxes; Assessments:** Generally, Charter School shall pay any assessment or fee imposed upon or levied on the LAUSD facilities that it is occupying or Charter School’s legal or equitable interest created by the use agreement.

• **Maintenance & Operations Services:** In the event the District agrees to allow Charter School to perform any of the operation and maintenance services, the District shall have the right to inspect the District facilities, and the costs incurred in such inspection shall be paid by Charter School.

  (i) **Co-Location:** If Charter School is co-locating or sharing the District facilities with another user, the District shall provide the operations and maintenance services for the District facilities and Charter School shall pay the Pro Rata Share. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such in the use agreement.

  (ii) **Sole Occupant:** If Charter School is a sole occupant of District facilities, the District shall allow Charter School, at its sole cost and expense, to provide some operations and maintenance services for the District facilities in accordance with applicable laws and LAUSD’s policies on operations and maintenance services for facilities and F&E. NOTWITHSTANDING THE FOREGOING, the District shall provide all services for regulatory inspections which as the owner of the real property it is required to submit, and deferred maintenance, and Charter School shall pay LAUSD for the cost and expense of providing those services. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such services in the use agreement.

• **Real Property Insurance:** Prior to occupancy, Charter School shall satisfy requirements to participate in LAUSD’s property insurance or, if Charter School is the sole occupant of LAUSD facilities, obtain and maintain separate property insurance for the LAUSD facilities. Charter School shall **not** have the option of obtaining and maintaining separate property insurance for the LAUSD facility IF Charter School is co-locating or sharing the LAUSD facility with another user.

**Non-District-Owned Facilities**

**Occupancy and Use of the Site:** Prior to occupancy or use of any school site or facility, Charter School shall provide the CSD with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Charter School shall not exceed the operating capacity of the site and shall operate within any limitations or requirements provided by the Certificate of Occupancy and any applicable permit. Charter School may
not open or operate without providing a copy of an appropriate Certificate of Occupancy to the CSD. If Charter School intends to move or expand to another facility during the term of this Charter, Charter School shall adhere to any and all District policies and procedures regarding charter material revision and non-material amendment. Prior to occupancy or use of any such additional or changed school site, Charter School shall provide an appropriate Certificate of Occupancy to the CSD for such facility. Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

**Facility Compliance:** Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements. This requirement shall also apply to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, and notices issued by any authorized building and safety agency. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and shall promptly provide such documentation to the CSD upon request.

**Pest Management:** Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

**Asbestos Management:** Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.
