“NOTE: This Charter contains specific “District Required Language” (DRL), including the Assurances, Affirmations, and Declarations section above. The DRL should be highlighted in gray within each Charter element or section. The final section of the Charter provides a consolidated addendum of the DRL. This intentional redundancy facilitates efficient charter petition review while ensuring ready access to the DRL for any given section of the Charter. To the extent that any inconsistency may exist between any provision contained within the body of the Charter and the DRL contained in the addendum, the provisions of the DRL addendum shall control.”

**STUDENTS WITH DISABILITIES**

**Federal Law Compliance**
Charter School shall adhere to all provisions of federal law related to students with disabilities including, but not limited to, section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act of 2004.

**Special Education Program**
Charter School shall ensure that no student otherwise eligible to enroll in Charter School shall be denied, directly or indirectly, admission due to a disability or to Charter School’s inability to provide necessary services. Charter School acknowledges that policies and procedures are in place to ensure the recruitment, enrollment, service, and retention of students with disabilities at LAUSD-authorized charter schools, including Charter School.

Prior to LAUSD Board of Education approval of an initial Charter petition, and if a renewing Charter School intends to operate as a “school of the district” for special education services, Charter School shall execute a Memorandum of Understanding (“MOU”) by and between LAUSD and Charter School regarding the provision and funding of special education services consistent with applicable state law and the LAUSD Special Education Local Plan Area (“SELPA”) Local Plan for Special Education and shall be considered a “public school of the District” for purposes of Special Education pursuant to Education Code Section 47641(b). However, Charter School reserves the right to make written verifiable assurances that it may become an independent local educational agency (LEA) and join a SELPA pursuant to Education Code Section 47641 (a) either on its own or with a grouping of charter school LEAs as a consortium following the requirements of Education Code section 56195.3(b).

**SELPA Reorganization**

The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition.
The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.

**Modified Consent Decree Requirements**

All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of the *Chanda Smith* Modified Consent Decree (“MCD”) and other court orders imposed upon the District pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measurable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

- **End of Year Suspension**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, date of suspension, number of days suspended, and reason for suspension.

- **Statewide Assessment Data**
  
  The standard file including District ID.

- **Norm day**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.

- **CBEDS**

- **All Students enrolled as of December 1 of each school year**
  
  District ID, SSIS ID, last name, first name, date of birth, gender, grade, location code, school name and local district for all students enrolled on norm day.
- Dropout
  District ID, SSIS ID, last name, first name, middle name, date of birth, grade, last location, school name and local district

- Monthly SESAC and Suspension data

- Graduation roster from all charter schools with 12th grade students with disabilities

The MCD requires charter schools to implement the District’s integrated student information system, which is currently referred to as My Integrated Student Information System (MiSiS). MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

**Community Need for Charter School**

Pacoima Charter School has proven to be an asset in this community. In these last 15 years, we have changed our reputation from the worst school in this area, to one where both students and parents are happy with a successful curriculum, and strong socio-emotional programs. Element 2 will highlight our academic successes in detail.

Pacoima Charter School has and will continue to meet the needs of the community it serves by meeting the expectations on the LAUSD oversight reports in the following areas:

1. Governance: Pacoima Charter School has demonstrated fulfillment of the Governing Board’s fiduciary responsibility to effectively direct and provide oversight.
2. Student Achievement and Educational Performance: Pacoima Charter School has demonstrated academic growth in the SBAC scores from 2015-2017 for all students
3. Organizational Management, Programs and Operations: Pacoima Charter School has demonstrated effective leadership and implementation of the governing board’s policies and procedures as well as the educational program and systems and procedures for the day- to-day operations of the school.
Pacoima Charter School’s Goals
According to The Charter School Act of 1992, there are six goals that charter school must accomplish. Each of these goals is presented in terms of what Pacoima Charter School has accomplished during the second renewal cycle (2013-2018). We will continue to reflect and improve our innovative instructional practices to that our students can continue to be successful in all aspects of their lives.

1. Improved Pupil Learning

   As stated in our initial Charter petition, our focus has been, and continues to be, an emphasis on the implementation and teaching of California Content Standards and frameworks, and the alignment of our resources to increase academic achievement and foster continuous improvement. This is demonstrated by the following:

   - Growth of 14.31% in Meeting and Exceeding Standards since the first SBAC in 2015
   - Strong science program that has evolved into many science-based team activities: competitive Lego robotics, Minecraft tech teams, a Girl’s Science Club, and an Engineering Curriculum.
   - Involvement in various pilot and research studies further delineates the proactive nature to enhance and increase student achievement and innovative practice (Johns Hopkins University, Cal State Northridge, First 5 LA, etc.)
   - Partnership with community organizations and agencies through our Pacoima Community Initiative, which meets at Pacoima Charter School quarterly. This partnership has been, and continues to be, an additional layer to empower our parents and community.
   - Implementation of a Multi-Tiered Support System, Grades K-5, to make sure that all students are effectively learning, and if not, as observed by various data points, then appropriate assistance will be provided to get those student back on track.

2. Increased learning opportunities for all pupils, with special emphasis on expanded learning experience for pupils who are identified as academically low-achieving.

   - Extended Learning Program (ELP) is offered for all students to boost their skills in ELD, Reading, Writing, and Mathematics.
   - Reduced class sizes in all grades
   - Extended Learning time (30 minutes) for all students in Grades 1-5, all year.
   - Extended Learning time (an additional 30 minutes) for targeted English Learners 4th and 5th grade.
   - 1:1 ratio of computer access in Grades 3-5. 2:1 ratio access to computers in Grades 1-2.
   - Positive Solutions Facilitator assists teachers and parents in addressing student behavior issues that may cause problems in the classroom and interrupt student progress.
• I-Ready and Imagine Learning, which are a research-based digital courseware that addresses the full range of learner’s needs through its standards-based, targeted curriculum, has been implemented and is accessible throughout the school.
• Artistic Courses are offered in Art Appreciation, Percussion, Violin, Guitar, Dance and Culinary Cooking.
• Leadership courses are offered through participation in Student Council and through participation in Speech and Debate.

3. Encourage the use of different and innovative teaching methods.

• Distributive Leadership was developed to build capacity amongst the staff and create small learning communities to enhance instruction and increase student achievement. The Grade level Coordinators facilitate articulation, monitor enrollment, oversee the implementation of the schoolwide curriculum, and provide support to the classroom teachers.
• Pacoima Charter has designed a Science, Technology, Engineering, Art, and Mathematics (STEAM) team to teach innovative and unique lessons to all students.
• Schoolwide Calisthenics are conducted every morning for ten minutes and again during weekly psychomotor time with the aim of promoting good health, reducing obesity, and complying with the 100-Minute Physical Education requirement. Students and teacher engage in the series of exercises based on input from physical and occupational therapists for maximum body and brain development.

4. Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site

• The school promotes professional growth by funding registration for teacher to attend and participate in local, or state workshops, and seminars.
• Teachers participate as members of the policy councils.
• Collaboration meetings take place after school where teachers exchange and design CA common core based lessons to further the understanding of concepts and differentiate instruction to meet student needs.
• National Board Certified teachers work with newly hired teachers and other teachers working on BTSA, and provide peer assistance to new teachers.
• Teachers are offered the opportunity to observe master teachers with real time input from a Grade Level Coordinator.

5. Provide parents and students with expanded choices in the types of educational opportunities that are available within the school system

• Parents are encouraged to do minimum of 30-hours of parental involvement directed specifically to increase the Parent-Child relationship. A list has been developed that enumerates a variety of ways that parents can be involved in
educationally focused activities with their child. There is no school penalty for not completing the hours.

- Parent education opportunities are available through the Parent Academy, Parent Center, Pre-school Program and other community agencies.
- Family Learning Nights are held throughout the year to train parents in the reading, math, and science curriculum. Staff presents topics and facilitates activities on how parents can work with their child at home for Reading and Math.
- The Parent Leadership Advisory Committee (PLAC) was designed to increase the level of knowledge and awareness of school policies and provide a forum for parent input.
- The Pacoima Community Initiative meets quarterly and is composed of various community, health, and law enforcement agencies meeting to develop strategies to improve community relations.
- General Informational Meetings for Parents are conducted throughout the school year and pertain to testing, program improvement, and change in school schedules.
- School Site Council and English Advisory Committee provide opportunities for parents to be actively involved in the decision making at the school.
- The Network Council develops and plans events during the year to increase parent involvement.
- The Unusual Suspects is a non-profit theater group that partners with schools to give families who live in economically depressed areas a chance to write and perform their own play, while working with professional actors, about any important issue in the community that needs to be voiced. This group meets approximately for 10 weeks, and then performs their play to the neighborhood. Afterwards, there is discussion with the audience about what the problems are from the community, and how they can plan for meaningful solutions. This opportunity is open to 4th and 5th grade students who learn from professional and perform with their families.

6. **New professional opportunities for teachers, including the chance to be responsible for the learning program at the school site.**

- Under the provisions of the Charter School Act, we have made progress in the years as a charter school as illustrated in the charts and tables below. The data demonstrates how Pacoima Charter School has shown growth in different comparisons. Pacoima Charter School is the only school in the area that is not in PI status.
- All schoolwide committees – Curriculum, Network and Fiscal – grant teachers, staff, and the community the ability to choose, communicate and fund the learning program at Pacoima Charter.
- The Local Control Accountability Plan (LCAP) provides teachers the opportunity to plan and describe the school’s vision, and design annual goals and specific actions on the eight areas identified as state priorities.

Student Population to be Served

Pacoima Charter School is a traditional calendar school currently serving 1293 students in grades K-5. The following statistics continue to identify us as an at-risk student population. The majority of our students live in the area of Pacoima and many live across the street at the public housing facility. Our students come from homes where little or no English is spoken and live in converted garages or multi-family homes. Many of our families have low educational levels. Our students are very interested in science. Pacoima Charter School has outperformed the District and the State in the California State Test. We have award-winning Engineering, Robotics, Speech and Debate, Minecraft and Science teams. Pacoima Charter School receives Title 1 Program funding.

Goals and Philosophy
The Pacoima Charter School community is submitting their third renewal request and reaffirms the commitment of all stakeholders to continue the mission and vision in the original petition of July 2003. During these last 15 years of conversion, charter status has given us the ability to design innovative practices and implement strong research-based curriculum that otherwise would not have been possible. The impact of this freedom is evident by the improved student progress, increased parent involvement, access to successful interventions and the ability to direct resources to the needs of our student population.

Our Mission
The Mission of Pacoima Charter School is to create an environment that fosters a high quality educational experience for all children. We strive to prepare students for college and career by holding high academic expectations, nurturing positive social-emotional growth, developing strong literacy and STEAM (Science, Technology, Engineering, Arts, Mathematics) skills.

Our Vision
The Pacoima Charter School learning community is committed to developing students who are academic achievers, effective communicators, responsible citizens, proficient with technology and ready for the challenges of the 21st century. Upon completing their Pacoima Charter School’s journey, our students will be prepared to meet the challenges of middle school, high school, college and beyond.

An Educated Person in the 21st Century
Pacoima Charter School recognizes that to be an educated person of the 21st century, our students need to possess the knowledge, skills and habits of mind necessary to work and live in the 21st century global environment. We developed Pacoima Charter School's Student Learning Outcomes (SLO’s) to give our students a strong foundation that will allow them to be successful in the higher grades, college and their future careers.

**Smarter Balance Assessment Consortium (SBAC) Results**

The following charts show the results of the Smarter Balance Assessment Consortium (SBAC). It exemplifies the successes Pacoima Charter School continue to create since becoming a charter school. Since taking the new SBAC assessment, we have demonstrated growth in both ELA and Math. Even though Pacoima Charter is amongst the highest-performing K-5 elementary school in both areas, we must improve the percentage of students meeting or exceeding the standards. We are constantly self-reflecting on how we can improve, and we look forward to continuing to collaborate with LAUSD to share best practices and to support each other so that all of our schools can increase student achievement together.
Pacoima Charter School has made progress in ELA. We have increased in the number of students meeting and exceeding standard. We have also decreased the number of students not meeting standard expectation. We have grown 14.31 percentage points during the last three years of SBAC testing. In the ELA domains we have shown improvement as seen in the chart below.

Our students demonstrate consistent strength in listening and research inquiry. Although reading comprehension and writing remain an area of concern our students have shown steady growth in these domains across the years.

In the next renewal cycle, we will intensify our classroom instruction in all ELA domains. We will continue to contract with the Success for All Foundation (SFAF) to provide the professional development and coaching in the area of ELA. SFA will continue to provide ongoing support.
tailored to teachers’ needs, with grade- level coordinator training and guidance in establishing component-specific teams that provide peer-to-peer support.

We will continue to use the SFA’s coaching model which uses a problem-solving approach based on student data, which helps teachers set attainable goals focused on their pupils’ greatest needs. It also promotes meaningful learning opportunities for teachers during the school year and helps them devise new teaching strategies.

**SBAC Math Results**

Pacoima Charter School has increased the number of students meeting and exceeding standards over the last three years. Students not meeting standards have also decreased by 12 percentage points.

We will continue to work with *Math Solutions* to help us identify strengths and weaknesses in our math instruction. *Math Solutions* has the expertise, the experience, and the resources necessary to support in the development of a strategic plan that will not only identify where we are and where we need to be but include the tactical steps that will help us reach our goals. We are learning what to look for in the classroom, how to identify and meet instructional needs, how to build capacity through the development of our instructional leadership team (grade level coordinators), and how to sustain the meaningful change.
In the SBAC math domains, our students demonstrate strength in communicating math reasoning and consistent growth in problem solving, modeling, and data analysis. However, the area of concern continues to be in concepts and procedures.

Analysis of 3rd Grade SBAC Data

Further analysis of each grade level provides specific data that demonstrates the impact of instruction, to identify the strengths which can be replicated and/or focus on improvement needed of specific student groups.

Our SBAC data reveals that our 3rd grade instruction has proven to decrease the number of students not meeting standard performance expectations in ELA. The number of students meetings and exceeding standards had also improved. The students demonstrates strength in listening and research claim areas. Over 70 percent of our 3 grade students scored at/near or above standard in listening and research. They have also consistently grown in reading and writing over the last 3 years.
In math, 3rd grade instruction has shown to be effective in moving our students into proficiency over the years. Students not meeting standard has decreased by 10 percentage points. Our students show strength in communicating reasoning and continue to show growth in the areas on concepts and procedures and problem solving.

Analysis of 4th Grade SBAC Data

Our 4th grade instruction has demonstrated strength in improving the number of students exceeding and meeting standard expectations over the years. Students are showing consistent improvement in reading and writing. Although listening and research decreased the previous year, they remain categories that our students perform well.
are having difficulty with understanding how to apply concepts to real world problem solving. They have demonstrated strength in communicating their reasoning.

**Analysis of 5th Grade SBAC Data**

In 5th grade, progress has been a challenge, but they have made significant progress since taking the baseline by maintaining students meeting or exceeding standard expectation in ELA over 30 percent. The percentage of students not meeting standard expectations has declined by 6 percentage points since taking the baseline assessment. There has been steady improvement in writing and reading. Even though there was a decline in research from the 2017 SBAC, students in 5th grade instruction has helped our students’ performance in listening and research.
It has also been a challenge for our 5th graders in math. They have struggled in making adequate progress in Concepts and Procedures as well as in the problem solving/Modeling/Data Analysis domain. Our 5th grade instruction has proven to lessen the amount of students not meeting standard expectations since baseline. However, we struggled with improving the number of students meeting and exceeding grade level standard expectations. This year our teachers have been working closely with Math Solutions Inc. to learn more about math instructional practices that allow students to develop their conceptual knowledge about math and understand how to apply the procedures learned.

**Analysis of SBAC Data by Sub-groups**

Significant improvement was made by our students with disabilities on the SBAC. Assessment reveal that the number students with disabilities not meeting standard expectations has been
consistently declining in ELA. Their performance in all the ELA domains have been improving over the years. The number of students with disabilities meeting and exceeding standard expectations remain a priority for our school.

On the SBAC math, our students with disabilities also show significant gains. The number of students with disabilities not meeting standard expectations have declined by 16 percentage points. These have also shown growth in all the math domains. However, the number of students meeting and exceeding standard expectations remain a concern.

Our economically disadvantaged subgroup has demonstrated progress in ELA. The number students from this subgroup meeting and exceeding standard expectations has grown over the years by 16 percentage points. The number of students not meeting standard expectation has declined 16 percentage points since baseline. This subgroup has also shown steady improvement
in reading and writing. Although, Listening and research has declined 2017 compared to 2016, those domains remain an area of strength for this subgroup.

Our economically disadvantaged students have also made consistent growth in Math. This subgroup has increased by 14 percentage points in meeting and exceeding standard expectations since baseline. Students not meeting standard expectations have declined by 13 percentage points since baseline. Their performance in each of the math domains have improved over the last two years.

Our Latino subgroup has made significant growth on the SBAC ELA. The number of students Meeting and exceeding standard has increased by 14 percentage points since baseline. The number of students not meeting standard expectations has also decreased tremendously by 14 percentage points as well. They have made steady improvement each year in the reading and writing domains. Although the listening and research domains are areas were they perform strongest they did experience a 3-4 percent dip compared to the previous year.
Our Latino subgroup has also demonstrated growth on the Math SBAC. The number of Latino students meeting and exceeding standard has increased by 12 percentage points over the last 3 years. They have made consistent growth in the area of problem solving and modeling. They have made great strides in the area of communicating reasoning by increasing their performance by 12 percentage points since baseline. However, they have struggled to maintain growth in the area of concepts and procedures.
The graph above shows the progress our English Learners are making toward English proficiency according to our California School Dashboard. In 2017, 76 percent of our ELLs were considered making adequate progress which is 8 percentage points improvement since 2015.

The reclassification rate of English learners has also improved by 18.6 percentage points in the last three years. The Student Support and Progress Team (SSPT) will continue to monitor EL students’ progress toward reclassification. We will continue to offer interventions for those students not meeting the reclassification criteria.

California Science Test

Another significant improvement over the last 5 years was made on our 5th grade CST Science Test. The chart below illustrates the impact of the instructional practices and effect of instruction in the area of science. Our school averaged over 60 percent of our students scoring proficient or higher in the area on the CST science in comparison to the district which averaged 50 percent. Our strength in science is evidence of our continued efforts to provide our students with a robust science education that incorporates inquiry and investigation. Pacoima Charter School outperformed both LAUSD and the State in the last 5 years of CST Science testing.
How Learning Best Occurs

The majority of our student population comes from poverty. Factors often used to identify "at risk" population continue to describe Pacoima students. Pacoima Charter School understands that students will learn best when their basic needs are met and has allocated resources to address the needs of the "whole child".

1. **Early Childhood Education** - We understand the importance of early childhood education and have allocated space and resources for a licensed state preschool and school readiness groups. We have partnered with LAEP, YPI, and First 5 LA to provide services for our families and future students.

2. **Nutrition** - We realize that children who lack nutritional meals will have a difficult time learning. Pacoima Charter School contracts with a sous chef to plan and prepare healthy meals throughout the day. Many of our ingredients come straight from the farm. Students have three choices for an entree as well as a fruit and a salad bar.

3. **Health** - The health of our students is a priority at our school. The health office is staffed by a full-time medical doctor and a full-time nurse's aide. They provide routine auditory and vision checks and contract with a local dentist to provide dental screenings. They serve as advocates for our children and assist their families in navigating the health care system.

4. **Clothing** - We have partnered with various community agencies who provide free clothing and uniforms to all students in need. The school also has a uniform recycling program in which students donate uniforms which they have outgrown.

5. **Shelter** - Our Social Work Department assists parents in completing applications to the housing authority and navigate them through the process. In addition, they are linked with temporary shelters until long term assistance.
6. **Emotional Well-Being**- Our in-school counseling services consist of a full-time school psychologist, applied behavior interns, two full-time social workers, and social work interns. They provide emotional support through individual and group counseling. Furthermore, this team facilitates a variety of workshops and classes for all parents. We established partnership with mental health agencies who send clinicians to provide services to our students.

7. **Safety**- Pacoima Charter School maintains a closed campus to provide safety for all staff and students. We have placed security cameras at strategic locations throughout the campus. We have adequate supervision before, during, and after school. We conduct regular drills and participate in the Great California Shakeout. Our school crisis team assesses and responds to all threats. Our school has zero tolerance for bullying. We have a partnership with both LAPD and Gang Reduction and Youth Reduction (GRYD) to prevent and respond to any outside threats.

8. **Parent Engagement**- Pacoima Charter School recognizes the impact of parental involvement in the students' academic achievement. Our Network and Partnerships Committee, parent center director, and social worker act as a liaison between the school and the parents ensuring that parents are given meaningful opportunities to become involved.

**Education**

Pacoima Charter’s believes that learning best occurs when students are allowed opportunities to learn cooperatively with one another. Our belief is rooted in the Cooperative Learning framework. This framework guides our effective instruction, critical academic and social skills. The Cooperative learning framework is based upon the belief that learning in isolation can pose significant challenges, especially for our students who are coping with the stresses of poverty or English as a second language. Pacoima Charter believes cooperative learning is the best way to engage and motivate our students. They can support one another, learn to think critically and consider opinions of others before reaching a conclusion. We believe that learning should be a social activity. Working in groups, students can accomplish far more than on their own. They have the opportunity to discuss new concepts with peers who have similar levels of understanding. They can support one another, learn to think critically and consider opinions of others before reaching a conclusion.

Cooperative learning strategies enable students to fulfill their potential while having fun along the way. In our classrooms, all children benefit from the constant coaching, encouragement and peer feedback. In addition, our curriculum emphasizes team goals that can only be achieved when everyone is learning and improving.

According to Dr. Robert Slavin, “Our society is composed of cooperative groups—families, neighborhoods, political parties, clubs, and teams. These groups also have a competitive element, but in all of them, if the individuals cannot cooperate to achieve a common goal, all lose out.” Pacoima Charter students are motivated to work together to achieve common learning goals. By helping others, they learn to help themselves, and they take responsibility for their own development. We use the Student Team Learning (STL) techniques that were developed and refined by Robert Slavin.

---

1 Robert Slavin, John Hopkins University Researcher and Professor
researched at Johns Hopkins University. Students are motivated to work collaboratively toward a common goal that is based on the learning objective being taught. Three concepts are central to all Student Team Learning methods: team rewards, individual accountability, and equal opportunities for success. Teams earn certificates or other team rewards if they achieve above a designated criterion. “Individual accountability” means that the team’s success depends on the individual learning of all team members. According to Slavin, “team rewards and individual accountability were essential elements for enhancing achievement. It isn’t enough to simply tell students to work together; they must have a reason to take one another’s achievement seriously.” Pacoima Charter believes in designing lessons to support cooperative learning in order to best use teacher time and student learning time.

We believe our school goals will enable our students to become and remain self-motivated, competent, and lifelong learners. Pacoima Charter School believes that success is measured by the effort put forth in the learning process of attaining these goals. We have embraced the Growth Mindset approach developed by Dr. Carol Dweck which posits there are variable factors that impact intelligence and these factors can be influenced by learning, effort, practice, and training. Therefore, we believe the process for attaining our goals involves teaching our children to love challenges, be intrigued by mistakes, enjoy effort, and keep on learning. We strive to teach our students to approach challenges as learning opportunities and to set individual goals that will help them overcome learning obstacles. Our students understand that abilities can be transformed if they remain goal focused and determined to take risks and put forth the effort. At PCS we create learning environments were students are not afraid to take risks and make errors. We praise the effort given and celebrate the learning journey. We firmly believe students who are goal focused and possess a Growth Mindset will have a lifelong way to build and repair their own confidence.

**Instructional Design**

The purpose Pacoima Charter’s instructional program is to provide instruction that engages and motivates our students to continue on the path of being self-motivated, competent, life-long learners who are responsible, contributing citizens who are ready for college and career. Pacoima Charter School offers a nurturing, educational environment to students that allows them to work collaboratively, purposefully and meaningfully. A goal focused driven, cooperative educational environment is an educational setting in which students work together to achieve their learning goals. Pacoima Charter believes SFA’s Cycle of Effective Instruction developed by the Success for All Foundation is an excellent process that best supports cooperative learning. The basic format for this design is as follows:

**Teach:** Teachers prepare students for learning through questioning, modeling, and guiding students through content.

**Teamwork:** During this part of the cycle, students are given time to explore and examine concepts with their team members. While students work together the teachers circulates through the classroom checking for understanding with individuals and groups. This also provides an opportunity for the teachers to meet with students one on one for more targeted instruction.

**Test:** Assessments are both formal and informal across the weekly cycle of instruction. However, both type of assessments are used formatively to help guide instruction. Formal assessments are given at the end of the instructional cycle. Informal assessments occur on a daily basis as teachers circulate around the classroom, as well as through the daily products that students or teams complete.

---

4 Instructional technique developed by Success for All Foundation (SFA)
**Team Recognition**: Teams earn daily points throughout the cycle for working cooperatively, meeting behavior expectations, and meeting learning goals. They receive formal recognition and rewards at the end of the cycle based on academic achievement of individual and team cooperation.

**Curriculum and Instruction**

Pacoima Charter understands that teachers have the greatest impact on student achievement. Our teachers incorporate two major, research-based teaching and learning models:

- **The California Standards for the Teaching Profession** (CSTP’s) which provide a common language and a vision of the scope and complexity of teaching by which all teachers can define and develop their practice.

- **DataWorks’ Explicit Direct Instruction (EDI)** - is a direct instruction approach based on the premise that all children can learn developed by John Hollingworth and Silvia Ybarra⁵. Explicit Direct Instruction (EDI) is a strategic collection of research-based instructional practices pioneered by pedagogues and cognitive researchers, such as Hattie, Rosenshine, Marzano, Sousa, Hunter, Goldenberg, and many more. It helps teachers deliver effective lessons that can significantly improve achievement for all learners. Components of EDI include: setting lesson objectives, explicitly teaching of learning objective, connection to prior knowledge, explicit teaching of academic language, presenting content, and using guided practice.⁶

- **The 5 E Learning Cycle** – Our teachers have received training and implement the 5 E learning cycle which is an instructional strategy designed to effectively educate. This approach is also noted in the newly adopted CA frameworks for social studies, math, and NGSS. According to the CA NGSS framework 2016, in the 5 E Learning cycle students (1) are **engaged** by some sort of hook that relates to their interest; (2) have time to **explore** ideas on their own before formal instruction; (3) **explain** their observations using models; (4) **elaborate** and **expand** on the new learning by applying it to a new context; and in the end, (5) **evaluate** and reflect on their own learning. The 5E sequence can be effective for sequences of lessons within a multi-week unit and to the individual activities within a single day’s lesson plan.⁷

- **Blended Learning**⁸ - The demands of the 21st Century require that our students possess essential skills in technology. Technology is used as a tool for improving curriculum and

⁸ Blended Learning is an educational approach that combines online digital media with traditional classroom methods
instruction at Pacoima Charter. We believe that students must have technology infused throughout the curriculum in order to develop the essential skills necessary to become contributing and productive members of society. The curriculum used for blended learning is *I-Ready, Imagine Learning and SFA’s Lightning Squad.*

**Reading Program**
The Success For All (SFA) Reading Program is aligned to the California Common Core Standards. Students are homogeneously grouped according to reading ability and are assessed and re-grouped every eight weeks. The reading textbooks used with the SFA program’s *Treasure Hunts are the Pearson’s Reading Street* series and core literature.

**Curiosity Corner (TK)**
The Success for All (SFA) Curiosity Corner Program provides teachers with well-structured thematic units aligned with state and national early-learning guidelines. The program includes detailed instructions and provides many of the materials necessary for implementing a stimulating, engaging program, as well as training and support for teachers. Students are assessed every quarter.

**Kinder Corner (Kinder)**
SFA KinderCorner is a research-based kindergarten program that provides children with experiences that prepare them for success in primary grades. KinderCorner fosters the development of children’s language, literacy, math, interpersonal and self-help skills, science, and social studies concepts. The focus on strong oral language skills, a love for reading, phonemic awareness, phonics, and listening comprehension create a solid foundation for reading. Students are assessed every quarter.

**Reading Roots (First Grade)**
Reading Roots targets the needs of beginning readers. Reading Roots is a research-based, beginning reading program that has proven its effectiveness in randomized experimental research. It provides a strong base for successful reading by providing systematic phonics instruction supported by decodable stories, as well as instruction in fluency and comprehension. Reading Roots also fosters students’ love for reading by providing rich literature experiences, extensive oral language development, and thematically-focused writing instruction. These objectives are embedded in a fast-paced, engaging, and highly effective instructional process. Students are assessed and regrouped according to their reading level every quarter to ensure they are receiving the most focused instruction. In addition, we use Reading Reels. The video skits and animations promote phonemic awareness. They also help students make the connection between letters and sounds, learn the word blending/spelling process, develop essential reading vocabulary and fluency, and become familiar with the cooperative learning routines used in the SFA kindergarten and first grade reading curriculum, which are designed to increase the emerging reading skills.
**Reading Wings (2nd-5th grade)**

*Reading Wings* targets the needs of students in grades two through five to ensure their growth as proficient readers. It teaches students comprehension strategies, such as summarization, clarification, graphic organizers, story structure, and prediction, so that students can become confident, strategic readers. The sophisticated reading skills include vocabulary development, reading comprehension, fluency, oral language development, and written expression through both narrative and expository texts. *Reading Wings* is taught through Targeted Treasure Hunts used with a variety of novels and basal anthologies. Students are assessed and regrouped every quarter.

**Mathematics**

*Houghton Mifflin’s Go Math* is a program aligned to the California Common Core Standards program. GO Math! combines powerful teaching strategies with components that help students connect concepts across and within grade levels. In the classroom, teachers and students can choose a print-based approach, an online approach, or a blended learning approach. In each case, the focus is on the major work of the grade. Lessons begin with problem-based situations and then build to more abstract problems. All along the way, students use multiple models, manipulatives, quick pictures, and symbols to build mathematical understanding. Best of all, GO Math! is write-in at every grade level, so students are completely engaged. Using manipulatives, multiple models, and rich, rigorous questions, students move through a carefully sequenced arc of learning. They develop deep conceptual understanding, and then they practice, apply, and discuss what they know with skill and confidence. The equal emphases on understanding, procedural skills and fluency, and application help turn our students into problem solvers and critical thinkers. The Grab-and-Go Differentiated Centers Kits are ready-made differentiated math centers with activities, games, and literature. Resources for every lesson and special challenge materials are used for independent practice. Best of all, online resources such as The Students Interactive and Personal Trainer help to personalize learning for students and help monitor student progress. In addition, Quarterly Benchmark assessments are given to all our students and the results are used to track their overall performance and to modify our instructional plan.

**Writing**

We believe that writing mastery demonstrates the internalization of language development and literacy concepts and standards in reading and math. We also feel that the demands of the 21st Century require that our students possess essential skills in writing. We have intensified our standards-based instruction of the writing process by focusing on the domains and tenets of writing. We are using *Thinking Maps* and *Write from the Beginning* to develop proficient writing. The program includes narrative, opinion, and expository writing instruction for grade levels K through 5. Through the use of these programs, students become well aware of the expectations for each grade level and can build upon previously learned strategies for writing. Using the program consistently throughout the grade levels has become a building block for the students’ writing and has created greater success on state and local writing tests.
**English Language Development**

English Language Development (ELD) is the foundation by which English Learners build their academic and social proficiency. Our mission is to provide all English Learners with access to core curriculum and development of academic language proficiency in order to reclassify and be college and career ready, in an environment that is culturally and linguistically sensitive to the community we serve. Our ELD program consist of both Integrated and Designated ELD. We provide consistent, focused, and integrated instruction that targets the receptive as well as the expressive aspects of the second language (English). During content area instruction, teachers have language objectives that are taught alongside their content objectives. Our teachers use EL strategies that help engage our El students and develop their understanding of the content while at the same time develop English. During Designated ELD time, our students are placed based upon their language proficiency levels and receive targeted ELD instruction. Pacoima Charter School utilizes the National Geographic’s Reach ELD Program and supplement with the Thinking Maps Path to Proficiency program for students who are mastering English. Also strategies from our SFA reading program such as My Turn, Your Turn are used in the primary grades to be build English oral language proficiency. In addition, ELPAC and Reach assessments are used to monitor students’ language development and to determine English language proficiency. In addition, ELPAC and Reach assessments are used to monitor students’ language development and to determine English language proficiency.

**Social Studies**

Pacoima Charter School uses the History-Social Science Framework for California Public Schools as a guide to the eras and civilizations our students study. These standards require students to not only acquire core knowledge in history and social science, but also to develop the critical thinking skills that historians and social scientists employ to study the past in its relationship to the present. Pacoima Charter School will implement a new McGraw Hill’s IMPACT California Social Studies in 2018-2019 academic year which is aligned to the new CA Social studies standards.

**STEAM**

Our students are provided the opportunity to build connections that link science to technology, engineering, art, math and service learning projects. Science, technology, engineering, and societal issues are strongly connected to community health, population, natural resources, environmental quality, natural and human-induced hazards, and other global challenges. We use the Engineering is Elementary (EIE) curriculum which integrates engineering with science and improves student understanding of technology. These connections are important. Though people tend to think of science, engineering, and technology as three separate things, they are actually closely connected. We are in the process of adopting a new NGSS curriculum which will be in full implementation in the 2018-2019 academic year. We are in the process of adopting Amplify, a new NGSS curriculum which will be in full implementation in the 2018-2019 academic year.
Technology Strand
The demands of the 21st Century require that our students possess essential skills in technology. Technology is used as a tool for improving curriculum and instruction. We believe that students must have technology infused throughout the curriculum in order to develop the essential skills necessary to become contributing and productive members of society. We exercise the use of technology by increasing the expertise of our teachers and expanding our students’ learning world through the use of the following:
- Imagine Learning, I-Ready and Think Central are implemented school wide
- Technology teacher
- Two full-time technology technicians
- Robotics Program
- Computerized assessments provide administrators, teachers, and students with the tools to improve academic performance.
- Computerized tutoring through SFA’s Alphie’s Alley
- One laptop per student in grades 3rd-5th
- One laptop per every two students in grades 1st and 2nd
- Interactive white boards and projectors in all classrooms
- The school library provides an additional thirty computers for a variety of uses: research, intervention, tutoring, etc.
- The access to network capability in every classroom
- Parent Square Communication System for more efficient parent communication
- A school website
- Computerized marquee in front of the school.

Health
Pacoima Charter School has created a Wellness Policy that emphasizes good health and decision making. This policy is reinforced daily and school wide through a variety of healthy practices and instruction. We are entering our third year of partnership with Common Threads to bring health and wellness education to our students and their families through cooking and nutrition education. We offer healthy choices for every breakfast, lunch and dinner prepared by our own team of chefs. We implement a smoke-free campus and programs to eliminate the use of tobacco by students and staff. We utilize the Too Good for Drugs program by the Mendez Foundation to educate our students on the effects of alcohol and illicit drugs on the brain and other organs of the body, thinking processes, and behavior.

Physical Education
Pacoima Charter School’s Physical Education goals are aligned with California State Standards and are in compliance with the state’s requirement of 200 minutes of physical activity every 10 school days. The ultimate goal of our Physical Education Program is to cumulatively build students’ gross motor development for the State’s 5th grade Fitness Test. Our physical education program consists of the following:
- Daily 10 minute Calisthenics Routine in the classrooms (50 minutes weekly).
- Psychomotor Program (50 minutes weekly). Each grade level has an assigned date for psychomotor. At this time, students are given physical education instruction based on the California Standards. They are taught physical skills which are necessary for success on
the fifth grade fitness exam. The students are supervised by a team of coaches who also lead the instruction. Teachers take this opportunity to collaborate in their grade-levels.

**Team Alphie Tutoring Program**
The best way to help students struggling with reading is through direct intervention – tutoring done in small groups or individually, depending on the severity of the need. SFA uses highly engaging and proven effective computer-assisted tools to provide focused support to these students in small-group tutoring (tier 2) and one-on-one (tier 3) sessions. The tutoring programs provide 20 minutes of intense, complete daily instruction that directly supports what the child is learning in class. **Team Alphie** is an SFA tier 2 computer-assisted program that enables one tutor to work with up to eight students at a time, using computer games to master specific reading objectives.

**Getting Along Together (GAT)**
*Getting Along Together* is SFA’s social problem-solving curriculum that is utilized schoolwide. Students learn to use cognitive and interpersonal skills that create the foundation for academic and lifelong learning. All staff members, including the principal and other administrators, are trained and involved in the GAT process. GAT is introduced early in the school year, teaching students to think critically, solve problems and work cooperatively. Through literature-based lessons introducing strategies for conflict resolution, teachers guide students in learning how to work together effectively. Throughout the year, student issues are addressed by setting expectations and rewarding positive peer interactions. At the beginning of each school year, the school and SFA work together to design a customized schoolwide behavior-management plan, based on discipline referrals, suspension records, teacher surveys and other particular requirements. The approach includes behavior-tracking mechanisms, proactive behavior management, workshops and end-of-year reviews.

**Cooperative Learning**
Pacoima Charter School teachers are committed to use cooperative learning as one of the most powerful tools in providing the level of engagement and academic and social support our students need to be successful. The benefits of cooperative learning are well researched and documented by John’s Hopkins University’s Center for Research in Education.

- Higher grades
- Increased retention of information
- Better relationships with peers
- Greater intrinsic motivation
- Better ability to stay on task
- Improved attitudes toward school

**Honors Classes**
The Honors Program at Pacoima Charter School will provide gifted and high achieving students with an accelerated and challenging curriculum. Students who are identified as *Gifted or High Achieving* under LAUSD or Pacoima Charter School guidelines will be eligible to participate. Students will be placed in *Honors* classrooms where they will be challenged using the *Depth and*
Complexity Framework. The Honors Program is taught by teachers who meet the requirements set forth by Pacoima Charter School Gifted Sub-Committee.

**Transitional Kinder**

Pacoima Charter School offers Transitional Kindergarten to students who turn 5 years old between September 2 and December 2 and who may benefit from an enriched foundational early childhood education program to prepare them for success in traditional Kindergarten. Transitional Kinder is a two-year program.

The Transitional Kindergarten program at Pacoima Charter School follows the full day schedule of Traditional Kindergarten. They follow the *Success for All Curiosity Corner* Curriculum which builds the necessary social and academic skills for success throughout their school careers. The program is based on the California Kindergarten standards with focused instruction in literacy and numeracy along with strong emphasis on self-regulation and social engagement. The daily schedule includes whole group instruction and activities, small group instruction and independent and “hands-on” learning. The Transitional Kindergartners enjoy lunch and recess with their fellow Kindergarten friends and participate in all Kindergarten activities such as music, art, and motor skills development throughout the year.
Pacoima Charter School
will continue to implement Learning Forward’s seven standards for professional learning in order to increase teacher effectiveness and better academic results for all students.

1. Learning Communities: Professional learning that increases educator effectiveness and results for all students occurs within learning communities committed to continuous improvement, collective responsibility, and goal alignment.

Professional Development

Pacoima Charter School will continue to implement the Learning Forward's seven standards for professional learning in order to increase teacher effectiveness and better academic results for all students. Learning Forward is the only association focused solely on the most critical lever in improving schools - building the knowledge and skills of educators.

1. **Leadership**: Professional learning that increases educator effectiveness and results for all students requires skillful leaders who develop capacity, advocate, and create support systems for professional learning.

2. **Resources**: Professional learning that increases educator effectiveness and results for all students requires prioritizing, monitoring, and coordinating resources for educator learning.

3. **Data**: Professional learning that increases educator effectiveness and results for all students uses a variety of sources and types of student, educator, and system data to plan, assess, and evaluate professional learning.

4. **Learning Designs**: Professional learning that increases educator effectiveness and results for all students integrates theories, research, and models of human learning to achieve its intended outcomes.

5. **Implementation**: Professional learning that increases educator effectiveness and results for all students applies research on change and sustains support for implementation of professional learning for long-term change.

6. **Outcomes**: Professional learning that increases educator effectiveness and results for all students aligns its outcomes with educator performance and student curriculum standards.

**Success for All** (SFA) coaches provide ongoing support tailored to teachers’ needs, with onsite facilitator training and guidance in establishing component-specific teams that provide peer-to-peer support. SFAF’s coaching model uses a problem-solving approach based on student data, which helps teachers set attainable goals focused on their pupils’ greatest needs. It also promotes meaningful learning opportunities for teachers during the school year and helps them devise new teaching strategies. SFA coaches come 8 times through the year to conduct classroom observations of the reading classes and teacher feedback. They meet with grade level coordinators to discuss student performance and effective implementation of the SFA program. They provide 3 professional developments each year that are target reading instruction. The topics of these professional developments are determined by school performance data, classroom observations, and staff input.

Pacoima Charter School has redesigned its school calendar in order to provide collaborative planning and reflecting time for teachers.

- Paid collaborative planning is provided three hours per month after school to promote teacher communication among and within grade levels. This collaborative planning time is mandatory.
- The number of grade level collaborative planning sessions was increased by decreasing the number of faculty meetings.
- Teachers have one hour of grade level collaboration per week.
• Teaching staff is provided the opportunity to attend one conference of their choice per school year. Registration is paid by the school.
• Selected teachers participate in conferences every year (SFA, Gifted and Charter).
• Teaching staff is provided a stipend which may be used to purchase professional literature, subscribe to professional periodicals, or to take professional coursework/trainings.
• We regularly schedule staff trainings to occur on summertime, Saturdays and after school to protect instructional time.
• Throughout the year, coordinators conduct additional in-service presentations on such topics as instructional programs, data analysis, and cooperative learning.
• Grade level coordinators are certified as trainer of trainers in different subject areas.
• We added two additional mandatory professional development days to our calendar.

The focus of the next renewal cycle will be to continue to strengthen our professional development in all academic areas to ensure that teachers have the capacity to deliver the educational program. We will continue to advertise for teacher openings through Edjoin and partner universities (UCLA, CSUN, Pepperdine, etc.). We will continue to hire only fully qualified teachers as defined by CA state law.

**Meeting the Needs of All Students**

**Meeting the Needs of our English Learners**

Pacoima Charter School meets the needs of our EL students by using evidence based instructional strategies that have proven to help EL students become proficient in the English language and are outlined in the 2014 CA ELA/ELD Framework.

**The Enrollment Process**

The enrollment process begins upon initial enrollment, parents complete the Home Language Survey (HLS) section in PCS’s Student Enrollment Form, as required by state and federal law. The purpose of the HLS is to determine if a language other than English is used in the student’s home. The survey is completed by the parent or guardian upon the student’s initial enrollment at PCS. The information provided on the HLS is maintained thereafter in our AERIES Student Information System (SIS) and the student’s Master Plan Folder, located in the child’s cumulative record. State and federal regulations require that if the student’s HLS indicates a language other than English is used at home, the student’s English language proficiency level must be assessed using the ELPAC. Students are assessed within 30 calendar days at the beginning of the school year, or within 2 weeks if a student enrolls during the school year. The purpose of the English language proficiency assessment is to officially determine a student’s language proficiency level in English. It is also used on an annual basis to measure progress in acquiring English. In California, the ELPAC is the state-adopted language proficiency assessment. Once a student is identified as an EL, the student is annually assessed with the ELPAC until he/she meets the eligibility criteria and is reclassified to Fluent English Proficient (RFEP).
Program for English Language Development

Structured English Immersion is the educational program that Pacoima charter uses for English language acquisition. The goal of the Structured English Immersion (SEI) program is acquisition of English language skills and access to core content so that English Learners can succeed in a Mainstream English classroom. The classroom teacher ensures that English Learners meet the ELD and grade level standards by providing high quality instruction that integrates ELD throughout the day while teaching specific lessons. The classroom teacher also provides grade level standards content instruction that is appropriately differentiated and scaffolded in English, with primary language support for clarification throughout the day. In addition, students are homogenously group for designated ELD and are provide targeted ELD instruction at their proficiency level by a classroom teacher at least 4 times a week. Teachers keep a portfolio to help monitor the progress students are making in ELD and to ensure their language and academic needs are being met. The Reach ELD curriculum is the common core aligned program teachers have been trained to use to help meet the needs of our EL students. The focus of our ELD program is to accelerate English language development in order to minimize academic deficits that may occur, as students are not yet proficient in the language of instruction. Teachers keep records of how our English learners progressing using ELD portfolios which help to track their progress. The ELD portfolio is updated before each reporting period. Individual student progress is communicated to parents during parent conferences.

Our ELD program is evaluated based on the success rate of the students it is intended to serve. Our Curriculum and Instruction Council monitors the progress of our English learners by reviewing their progress on internal benchmarks, annual assessments, and reclassification rate. The council reviews program progress quarterly. English learners and Reclassified students are also monitored by our Student Support and Progress. English learners who are not making adequate progress are referred by the teacher to SSPT where a meeting is held. During the meeting an intervention plan along with measurable learning goals are created for the student and strategies are suggested. The SSPT monitors the child’s response to intervention to determine if goals were met and next steps for further intervention if needed.

Criteria Used for Reclassification

ELs are reclassified to fluent English proficient based on the following multiple criteria that are identified in the California Education Code and recommended by the State Board of Education (SBE). The minimum criteria to be considered for reclassification are:

- Score of Basic or above on internal benchmark assessments in English-language arts
- English proficiency on the ELPAC: Overall level of well developed (level 4) or moderately developed (level 3)
- Teacher evaluation based on student grades/progress report marks*
- Parent consultation and approval

In the event that a student meets the ELPAC and internal benchmarks assessment criteria but not the grade/ progress report mark requirements, the Students Support and Progress Team must meet to analyze other student data that demonstrates grade-level proficiency. The following multiple measures may be considered:

- Score of Basic or higher on PCS-adopted standards-based ELA assessments
- REACH ELD Assessments
- Authentic student work samples, especially writing samples
Reclassification Process
The grade level coordinator responsible for ensuring that ELs who meet the eligibility criteria are reclassified in a timely manner. The grade level coordinator must generate rosters from the SIS database of EL students who have met the ELPAC criteria. This process begins when the official results of the ELPAC are released, as well as at the end of each reporting period (elementary)
1 Grade level Coordinators review the rosters for accuracy and missing data (e.g. missing ELPAC scores for a specific language domain).
2 Students who have met the reclassification criteria are identified and parents are informed of their proficiency, both orally and in writing.
3 Parents must review and sign the Notification of Reclassification.

Monitoring Progress of Reclassified Students
At least once yearly, a Student Support and Progress Team (SSPT) meets to review the performance and progress of RFEP students, using the RFEP Monitoring Roster. The SSPT includes the principal or designee, Curriculum Coordinator, the student’s classroom teacher(s), and other personnel as appropriate, such as counselors, resource teachers, intervention teachers, Director of Instruction, EL Experts, and/or parents of the student being reviewed. The review of students who have met reclassification criteria takes place in late summer/early fall after the release ELPAC scores and by teacher request for students not meeting proficiency benchmarks in Language Arts or Math. In addition to meeting for progress monitoring of students not meeting proficiency benchmarks, the SSPT will maintain a report to keep a record of RFEP student progress that will include, but is not limited to, periodic assessment results, curriculum embedded assessments and teacher evaluation reports.

The Director of Instruction coordinates the monitoring of reclassified students. All RFEP students are monitored at the end of each reporting period (elementary) for a minimum of two years following reclassification. If a student is not making satisfactory progress after reclassification, the SSPT must meet with the classroom teacher(s) to develop an intervention instructional plan with specialized support.
Appropriate intervention measures may include, but are not limited to, any of the following:
• Student/teacher/parent conference
• After school tutoring
• Specialized reading, writing, or math instruction
• Content-based language development support classes
• Primary language support
• Placement in reading, writing, or math support class
• After-school academic support
• Intervention/Intersession classes
• Extended day and year opportunities
**Reclassifying English Learners with Disabilities**
The reclassification criteria applies to EL Special Education students being considered for reclassification. The IEP team should be consulted when reclassifying an EL with disabilities. IEP teams should verify that in addition to meeting the criteria for reclassification, students with ELD goals in their IEPs have mastered those goals before the students are reclassified.

**Process for Annual Evaluation of the School’s EL Program(s)**
The Curriculum and Instruction Council is in charge of analyzing data and monitoring progress of English Learners. This data is reported to all stakeholders during our Leading for Success and Governance Board meetings every quarter. The English Language Advisory Committee reviews the student progress data and the effectiveness of our programs. They advise the School Site Council on the development of the Single Plan for Student Achievement.

**Meeting the Needs of Socio-Economically Disadvantaged Students**
All components of our educational program apply to our Title 1 students. Students are identified when they enroll by using the Household Income Data Collection (HIDC) and the Student Residency Questionnaire. The information is maintained thereafter in our AERIES Student Information System (SIS). Aeries allows us to generate reports that help to monitor our socio-economically disadvantaged students. The majority of PCS’ students fall into this category. Students who are not achieving grade level standards and/or are in need or socio-emotional support are referred to SSPT. SSPT determines an appropriate intervention plan and services which include, in-class intervention, tutoring, and socio-emotional support. Students are closely monitored by teachers and grade level coordinators and follow up meetings with the SSPT are held to evaluate impact of intervention and determine next steps. SSPT meets weekly to monitor and screen for students. The Social Work Department offers counseling, support groups and lead parent workshops

Meeting the Needs of Students Achieving Below Grade Level

Students who are not achieving grade level standards receive additional support through a series of intervention options. Underperforming students are identified using the iReady reading and math quarterly diagnostics, Reach quarterly assessments, and quarterly Writing Performance tasks. Students performing below grade level are identified by SSPT. Teachers can also refer students to SSPT. SSPT determines an appropriate intervention plan and services to be provided for each student. Students are closely monitored and follow up meetings are held to evaluate impact of intervention and determine next steps. SSPT meets weekly to monitor and screen for students.

Meeting the Needs of Foster Youth

Foster youth students are flagged into the Aeries SIS upon enrollment to PCS. Determination is made based on court papers presented at the time of enrollment. Students receive the same services and resources that all PCS’s students received. In addition, the Social Work Department monitors attendance, academics and behavioral data for all students in this group. They act as a bridge between DCFS and the school. The Department provides mental health services to both students and families.

A Typical Day at Pacoima Charter School

A typical day at Pacoima Charter School begins with staff and students eager and enthusiastic to begin their day. Every day at Pacoima Charter School begins by meeting basic needs of students and staff.

6:00-7:15 The Stage is Set for Learning
The Ready, Set, Go and YPI Programs open the auditorium and library to receive children. The plant and cafeteria managers are first to arrive and set the stage for learning. As early as 6:10 am children are dropped off by parents needing early supervision due to their job hours. Children assemble in the auditorium supervised by two assistants.

The plant manager makes his rounds, inspecting the campus for safety and cleanliness. The cafeteria manager fires up the ovens, and prepares a selection of a hot entree and 3 cold cereals for students to choose from. Likewise, the cafeteria staff prepares the staff dining room with warmth and smell of fresh food and hot coffee.

At 7:00 am, the office manager and two office assistants arrive and open the school’s information hub for business. Students and staff are provided with a safe, clean, and productive environment.

7:15-7:50 Health and Safe Mornings
Once the stage is set, the audience (students) arrives. Teachers arrive and prepare their classrooms for a productive day. Students are drawn to the cafeteria by smells of fresh breakfast options. After breakfast, they are ushered to the playground. Upbeat children songs coming from the yard speakers fill the atmosphere and help create a cheerful environment that encourages play in designated areas under supervision.

Additional players join the cast of staff keeping watch over our students. The outside, parent volunteers don their safety uniforms, lay out street cones, and welcome students to school through our School Valet Program on Herrick and Norris Ave. Each student is greeted with a smile and a kind word before he/she even steps out of their car. Inside, our campus security aide arrives and joins the crew of parent and supervision workers watching over our students. Administrators and coordinators are present facilitating the educational programs for the day.
7:50-8:05 Fresh Start
Promptly, the teachers join their class on the playground to escort them to their class to ensure students are in their seats by the time the bell rings ready for instruction. At 8:00 am the bell chimes 8 times. The day begins with the teacher taking roll, settling in and conducting a patriotic assembly.

At the Pacoima Enrichment Academy students are walked to the playground from the valet drop off. The teachers pick students up from the yard and escorts students to the classrooms at 8:30 am.

8:05- 8:25 Instructional Day begins
Students take out there favorite reading material to prepare to read silently. As the students are reading, the teacher conferences with selected students. Conferencing at this time is used for students to share about what they are reading and provide insight about their book. Fluency is also monitored at this time.

8:25-8:30am Transition Music begins
A classical musical selection is heard coming from the PA system and the students begin to transition to their reading class.

8:25-9:55am SFA Reading Time
This time is specifically set aside for the successful learning of reading strategies and skills. Directors and coordinators conduct classroom observations to monitor the effectiveness of teaching instructional and student practices.

9:55- 10:00 Transition Music signals the end of SFA reading time.

10:00am -12:00pm Recess and Instruction
After a 90 minute period of reading instruction, several activities or time blocks are planned to support the learning of students.
- Recess is utilized as a time of recreation and rejuvenation; a second chance breakfast is offered for those who missed eating the first time around. The other children are monitored and encouraged to participate in active play.
- The STEAM classes are conducted and provide standards based instruction in their specific content. Each STEAM specialist develops a schedule for students to participate in weekly classes.
- Classroom instruction continues and is focused on grade level standards and instruction driven by data analysis.
- Intervention throughout the day.
  - Daily tutoring is provided, one on one, for a solid twenty minutes for students reading below grade level by the SFA tutors
  - Full time positive behavior facilitator checks in and sees students in need of positive behavior intervention
  - Special education students receive their intervention through full inclusion and push in and pull out services.
I-ready and Imagine Learning, our computer based math and literacy interventions that are individually leveled for each child, is implemented in the classroom and are used to help facilitate differentiation. Teachers also used lessons generated by these programs for small group intervention instruction.

SFP meetings take place with specific staff members and parents to discuss the regular and special education needs of students in our school community.

12:00-1:30 Power Lunches and Instruction
After a reenergizing recess and healthy dose of instruction, children continue with their day.
- Three Healthy options for lunch are provided to the students. We believe that the healthier lunch choices students have, the more likely students will eat their lunch.
- Classroom instruction continues and is focused on grade level standards and instruction driven by data analysis.

1:30 -2:10 Physical Education and Instruction
- A structured, standards based Physical Education program is implemented once a week for each grade level by classroom teacher and P.E personnel. During this P.E period the specific grade level meets for grade level articulation.
- Classroom instruction continues and is focused on grade level standards and instruction driven by data analysis.

2:10-2:40 Extended School Focus and Dismissal
- Classroom instruction continues with an emphasis on integrating additional English Language Development and specially designed academic instruction in English.
- All intervention continues
- On Tuesdays, student instructional day end at 2:10 and teaching staff attend grade level or faculty meetings.

2:40-3:15 Dismissal and Extended Instruction in ELD for 4th and 5th grade students
- Teachers transition students to end the day
- Designated ELD instruction continues till 3:15 for students in grades 4 and 5
- Students are walked to the assigned dismissal gate,
- Administrators and coordinators report to dismissal gate to supervise safe exit.
- Students participating in after school programs line up with the assigned playground worker at the specified dismissal gates.

2:40-6:00pm Afterschool Programs, Planning, and Interventions
- Two after school programs offer safe haven for some 450 students enrolled in LA’s BEST and YPI.
- Council meetings are held on Wednesdays
- After school interventions take place in the library, offering intervention through online invention programs and providing assistance with homework.
- The STEAM specialists meet with students in after school clubs
- An instrument music teachers provide lessons in drumming, violin, and guitar.
- Enrichment Activities are also made available for GATE students
The Chef provides cooking classes for students that focus on social studies, geography and learning about different cultures around the world.

6:00-10:30 The Closing Act
- Afterschool program personnel wait for children to be picked up that are left after the close of the program,
- Building and Ground Workers clean classrooms and finish preparing the site for another day of learning, before securing the site and leaving for the evening.
Element 2– Measurable Pupil Outcomes
Element 3 – Method by which Pupil Progress Toward Outcomes will be Measured

“The measurable pupil outcomes identified for use by the charter school. “Pupil outcomes,” for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program. Pupil outcomes shall include outcomes that address increases in pupil academic achievement both schoolwide and for all groups of pupils served by the charter school, as that term is defined in subparagraph (B) of paragraph (3) of subdivision (a) of Section 47607. The pupil outcomes shall align with the state priorities, as described in subdivision (d) of Section 52060, that apply for the grade levels served, or the nature of the program operated, by the charter school.” (Ed. Code § 47605(b)(5)(B).)

“The method by which pupil progress in meeting those pupil outcomes is to be measured. To the extent practicable, the method for measuring pupil outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.” (Ed. Code § 47605(b)(5)(C).)

**MEASURABLE GOALS OF THE EDUCATIONAL PROGRAM**

Charter School shall meet all statewide content and performance standards and targets. (Ed. Code §§ 47605(c)(1), 60605.)

Charter School shall comply with all applicable laws and regulations related to AB 97 (2013) (Local Control Funding Formula) and AB 484 (2013), as they may be amended from time to time, including all requirements pertaining to pupil outcomes.

**STANDARDIZED TESTING**

Charter School agrees to comply with state requirements for participation and administration of all state-mandated tests, including computer-based assessments. Charter School shall submit and maintain complete, accurate, and up-to-date California Longitudinal Pupil Achievement Data System (CALPADS) data in accordance with the requirements of California Code of Regulations, title 5, section 861. Charter School hereby grants authority to the State of California to provide a copy of all test results directly to the District as well as Charter School. Upon request, Charter School shall submit, in the requested format (e.g., CD), a copy of the results of all state-mandated tests to the District.

**Methods of Assessment**

Pacoima Charter School will continue to disaggregate data and analyze the results to guide instructional decisions that will affect student outcomes. Most importantly, tests, exams, and classroom assessments will be aligned to the standards. In order to support our instructional program and meet our identified student outcomes, assessments provide a variety of methods to monitor progress.

- **IO Assessment** is a tool used to create standards-based tests in all curricular areas. Students are given weekly quizzes in math and ELA. Scores and item analysis reports are printed
immediately after scoring. The item analysis report shows the student score, percent correct/incorrect, and the selected answers. It also provides classroom and individual re-teaching sheets for standards which were not mastered. Other reports frequently used include Performance Band reports, Student Profile reports, and Class Summary reports.

- **Multiple Reading Assessments**, provided by Success for All, are formative, summative, standardized and authentic. Data received is used to evaluate student progress in reading, place students at their instructional level, focus teaching on the necessary language arts standards, and design staff development in areas of our pupil’s needs. Each student’s individual progress is documented and kept on file in a database called Member Center. Member Center is a database that organizes school and student data so teachers and school leaders can set goals, see progress, celebrate successes, and identify problem areas quickly. Member Center allows teachers to have an ongoing record of student progress to facilitate differentiated instruction, celebration of student success, and easily communicate reading progress with parents. Tools on Member Center allow instructors to track the quality of students’ written and oral responses to text related questions and their use of key reading comprehension strategies. SFA Assessments include: Standardized Quarterly Assessments, Weekly Story Tests, Weekly Team Score Sheets, Weekly Phonics Assessments (in 1st grade levels), and Stepping Stones quarterly assessments (Kinder).

- **Writing Assessments** (Performance Assignments) are scheduled three times during the school year to monitor the students’ progress and growth in writing. Data is collected using Write from the Beginning’s Writing Proficiency Class Report. Teachers use this report to gather data, determine writing targets, and set goals.

- **English Language Development (ELD) portfolios** are used to monitor progression towards mastery of ELD standards. Portfolios are completed by the classroom teacher after each reporting period (3 times a year) and are reviewed by the grade level coordinator and the SSPT.

- **The Implementation Self-Assessment Guide (ISAG)** is used to connect teacher instruction and student learning. It provides information on the desired student and teacher outcomes that should result from the instruction and learning activities. The ISAG is used by classroom teachers 3 times a year.

**Benchmarks**

- **Iready Reading and Math Quarterly Benchmark Diagnostic Assessments** are scored using technology. The results are used to monitor students’ progress of skills taught and target skills not mastered. Iready diagnostics also predict the students’ reading and math achievement on the SBAC test on a quarterly basis. These predictions allow time to revise instructional strategies, identify areas of difficulty and help teachers effectively target instruction. I-Ready reading and math Diagnostics are given quarterly.

- **English Language Development**: Students’ progress toward the ELD standards is monitored using the portfolios. Teacher meets with the grade level coordinator to review the student
progress and work samples, and make the decision to promote the student to the next ELD level. Students also take quarterly Reach ELD assessments that assess listening, speaking, reading, and writing development. Pretest is given at the beginning of the school to determine ELD achievement and determine areas of need. Midyear assessments are given midyear to assess progress in language development. A post-test is given at the end of the year to assess student achievement.

- **Roots assessments** are given to 1st grade students to assess phonemic awareness, decoding, reading comprehension. Results from assessments are used to determine instructional reading levels and mastery. Assessments are given every 8 weeks.
- **Solos Assessments** are given to Kinder and 1st grade students to assess receptive and expressive oral language. Student outcomes are used to monitor oral language proficiency and vocabulary development. Assessments are given every 8 weeks.
- **Stepping Stones Assessments** are given to Kinder students quarterly to assess phonemic awareness and decoding. Results from assessments are analyzed and used to develop reading goals for students. Assessments are given every 8 weeks.
- **Science Quarterly Assessments** are given to 4th and 5th grade students to determine mastery of science standards. Assessments are generated through IO Assessment system.

### Data Analysis and Reporting

Pacoima Charter School will continue to make data analysis a priority. Pacoima Charter School agrees to comply with the provisions of the Family Educational Rights and Privacy Act ("FERPA") regarding the release of students’ education records to organizations. The following actions will be used:

- Continue to follow the Goal Focused Implementation Process developed for Success For All Foundation to analyze student performance data to determine effective plans in meeting state content standards, to provide information on program effectiveness and evaluate the success of our instructional programs.
- Data meetings are conducted monthly to disaggregate, analyze data compiled, discuss root causes, determine targets, and set SMART goals.
- Compilation of the data are shared and reviewed with teachers and parents/guardians to further investigate and discuss instructional practices.
- Analysis of assessment data informs instruction, provides a basis for the allocation of resources and designs on-going professional development plan.
- Implementation visits by SFA and Math Solutions address instructional issues that have been identified through data collection and mini-workshops are conducted to increase the effectiveness of teaching strategies.
- The Student Support and Progress Team (SSPT) is used as a vehicle in developing a variety of systemic and school-wide interventions that utilize a cross section of the school community to address identified student needs. Members of the SSPT team represent all areas of the school (Attendance, Intervention, Language Appraisal, Behavior, community, parent, etc.).
- **Leading for Success** meetings are held quarterly to inform all stakeholders how the school is doing in regards to student progress. Each team is responsible for presenting their data, challenges and successes.
**Staff Communication**
Performance expectations and results are communicated to the staff through Faculty Meetings, weekly Grade Level Meetings, Professional Collaborations, and/or Council Meetings. These meetings are direct result of the continuous monitoring of data received from assessments and benchmarks. These meetings will share and receive suggestions for improvement to all interested parties (Councils, the Parent Leadership Advisory Committee, etc.). The outcomes of these meeting will dictate PCS’s Professional Developments.

**Parent Communication**
PCS will continue to educate and inform Families and Community stakeholders about student academic progress, achievement, and expectations. We will continue to hold Parent Academy meetings to explain the California Standards, show examples of proficient student work and communicate grade level expectations. Monthly reports will be provided to the Parent Leadership Advisory Committee (PLAC) for the continuous monitoring of our school’s educational program using data from assessments and benchmarks. Parents will in turn communicate any concerns and/or suggestions to the appropriate Council.

At the Back-to-School Night event, teachers will inform parents about the concepts and skills that students are expected to learn and the criteria that are used to evaluate student performance. During parent-teacher conferences, parents will be informed on how their child is progressing toward the achievement of the standards.

**Other Stakeholders Communication**
Pacoima Charter will continue to communicate academic achievements though our website and social media.

**Grading, Progress Reporting, and Promotion/Retention**

Students receive a Progress Report three times a year (November, March, and June). Benchmark assessments for Reading are given every quarter and three times a year for math. Teachers maintain students’ grades and progress on an electronic grade book program. Teacher grade books are auditable documents and are maintained digitally by AERIES network services. Final grades for a school year are maintained in the student’s cumulative permanent record. Grades serve as an evaluation of content mastery. The on-line progress reports generated by AERIES report system are used to record student progress and communicate expectations for learning every trimester.

The following is our school’s grading scale that was adopted by PCS Curriculum and Instruction Committee:

Retention Policy

Pacoima Charter School follows the Retention Policy as outlined by the Californian Department of Education (CDE). The general education teacher provides additional (in classroom) interventions for students not meeting grade level standards. Parents are contacted and notified as soon as possible whenever a student is not meeting grade level standards and must be notified by the first reporting period with an Unsatisfactory Notice.

General education teacher will follow the Student Support and Progress Team (SSPT) referral process for Elementary School. Through the SSPT process, additional supports are put in place. Supports can be in class or outside of the classroom interventions (Tier2). If student continues to not meet grade level standards, parents are informed of the risk of retention by the second reporting period via a second Unsatisfactory Notice.

A student not making appropriate growth through the SSPT process is recommended for retention. The Retention Committee meets to conduct a case study and the Retention Committee determines if a student is promoted or retained.

When a parent does not agree to retention, the Retention Committee will revisit the case study of said student, but the final decision lies with the Committee. If parent continues to disagree with the retention decision after it is revisited by the Retention Committee, the parent can appeal the decision to the Pacoima Charter School Board.

Parents requesting an appeal must contact the Director of Instruction and request that their case be heard by the Board at the nearest (upcoming) Board Meeting. The Director of Instruction places the request for appeal on the Agenda and a member of the Retention Committee is invited to attend said meeting to present an overview/summary of the reasons that the student was recommended for retention. The parent is given time to argue their case against retention in front of the Board. Based on the information presented to the Board, the Board makes a decision for promotion/detention.

Charter School shall comply with the federal Gun-Free Schools Act.

School Climate and Student Discipline Policy

This Pupil Suspension and Expulsion Policy has been established in order to promote learning and protect the safety and well-being of all students at Pacoima Charter School. When the policy is violated, it may be necessary to suspend or expel a student from regular classroom instruction. This policy shall serve as PCS’s policy and procedures for student suspension and expulsion.

Staff shall enforce disciplinary rules and procedures fairly and consistently among all students. This Policy and its Procedures will clearly describe discipline expectations, and it will be printed
and distributed as part of the Parent-Student Handbook. The handbook is sent home with students and it is posted on the website.

Discipline includes but is not limited to advising and counseling students, conferring with parents/guardians, use of alternative educational environments, suspension and expulsion. Each year the Curriculum and Instruction Council reviews and modifies the student behavioral policies. The climate and culture information presented during our parent meetings includes the school’s expectations in regards to attendance, mutual respect, responsibility, safety, work habits, substance abuse, and violence. Parents are required to review the information and complete a form indicating that they reviewed and understand the policies.

The Discipline Sub-Committee which is part of the Curriculum and Instruction Council has designed a referral process for students who violate the school behavior expectations. The process outlines three levels of referral indicating the staff member responsible in addressing the behavior. We implement the Getting Along Together schoolwide. This program helps students build social and emotional skills and apply them both in and out of the classroom. Students learn skills and strategies to create a peaceful school environment where they are empowered to manage their own behavior, decrease conflict, and increase receptivity to learning. Getting Along Together helps students with focus, memory, and self-control, as well as building empathy, friendship skills, cognition, and coping skills for common social problems.

Positive Solutions Room (PSR) is a special classroom supervised by the Positive Solutions Facilitator for students whose behavior interferes with the instructional process. The PSR is equipped with a multitude of books on various themes regarding self-esteem and bullying. The Positive Solutions Facilitator assists the staff with information and management strategies to modify various behaviors that the child is exhibiting and supports teachers in contacting and conferencing with parents.

Corporal punishment shall not be used as a disciplinary measure against any student. Corporal punishment includes the willful infliction of or willfully causing the infliction of physical pain on a student. For purposes of the Policy, corporal punishment does not include an employee’s use of force that is reasonable and necessary to protect the employee, students, staff or other persons or to prevent damage to school property.

The Pacoima Charter School administration shall ensure that students and their parents/guardians are notified in writing upon enrollment of all discipline policies and procedures. Policies and Procedures are outlined in the Parent and Student Handbook.

Suspended or expelled students shall be excluded from all school and school-related activities unless otherwise agreed during the period of suspension or expulsion.

Pacoima Charter School will implement operational and procedural guidelines ensuring federal and state laws and regulations regarding the discipline of students with disabilities are met. PCS will also ensure staff is knowledgeable about and complies with the district’s Discipline Foundation Policy. If the student receives or is eligible for special education, the Charter School shall identify and provide special education programs and services at the appropriate interim
educational placement, pending the completion of the expulsion process, to be coordinated with the LAUSD Special Education Service Center.

Pacoima Charter School shall document the alternatives to suspension and expulsion the school utilizes with students who are truant, tardy, or otherwise absent from compulsory school activities. Alternatives to suspension and expulsion include:

- Proactive school wide activities:
  - Attendance incentives
  - Classroom recognition and motivation
  - Reinforcing Positive Behavior
- Quick and accurate attendance Data Collection through Aeries Information System by the attendance clerk
- Timely communication between the Attendance clerk and the school Social Worker
- Intervention to attendance by the school social worker
  - Individual contracts
  - Parent Meetings and Training
  - Check-In / Check-out
  - Mentoring

The Director of Instruction and the Director in charge of Special Education may authorize an Out-of-School suspension or an In-School Suspension. In-school suspensions will be implemented if there was no egregious act (such as exceedingly violent or offensive) performed during the student’s conduct, but rather a poor choice that fell under the categories under EDC 48900. The maximum number of in-school suspension shall not exceed 20 days, as stated in EDC 48903:

(a) Except as provided in subdivision (g) of Section 48911 and in Section 48912, the total number of days for which a pupil may be suspended from school shall not exceed 20 schooldays in any school year
(b) For the purposes of this section, PCS may count suspensions that occur while a pupil is enrolled in another school district toward the maximum number of days for which a pupil may be suspended in any school year.

No pupil at Pacoima Charter School may be suspended for a total of 20 days, unless a pupil enrolls in or is transferred to another school, in which case the total number shall not exceed 30 days in a school year.

**Suspension Procedures**

**In-School Suspension**

The Directors in charge of Special Ed and Instruction or designee may assign a student who was suspended for any of the acts enumerated above to a supervised suspension classroom for the entire period of suspension if the pupil poses no danger or threat to the campus, pupils, or staff, or if an action to expel the student has not been initiated.

A student with an “In-School Suspension” shall spend a meaningful day in the Positive Behavior Room with the Positive Behavior Facilitator. That student will spend the day learning exactly why they were suspended and how they could find a restorative justice solution for the act that was committed. The purpose of the suspension is to learn about what went wrong and apply that lesson to his or her life, in order to seek a positive outcome. The maximum number of in-school suspension shall not exceed 20 days, as stated in EDC 48903:
**Out-of-School Suspensions**

Just as in “In-School Suspensions”, The Directors in charge of Special Ed and Instruction or designees may assign a student to Out-of-School suspension, if the reason for the suspension seem, in the professional judgement of the director/designee, more serious or heinous. For example, a physical prank that may hurt a child but leave no mark may be considered an In-School Suspension, but a physical prank that leaves a black eye, or cuts the flesh, or breaks a bone may lead to an Out-of-School Suspension.

**Conference**

Suspension shall be preceded, if possible, by a conference conducted by the Directors in charge of Special Ed and Instruction or their designee with the student and his or her parent and, whenever practical, the teacher, supervisor or school employee who referred the student to the Directors in charge of Special Ed and Instruction. The conference may be omitted if the Director or designee determines that an emergency situation exists. An “emergency situation” involves a clear and present danger to the lives, safety or health of students or school personnel. If a student is suspended without this conference, both the parent/guardian and student shall be notified of the student’s right to return to school for the purpose of a conference. At the conference, the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense. This conference shall be held within two school days, unless the pupil’s parent/guardian waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization.

No penalties may be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with school officials. Reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent or guardian at the conference.

Teachers will provide assignments to be completed while the pupil is assigned to the supervised suspension classroom. The teacher shall provide all assignments and tests that the pupil will miss while suspended.

**Suspension Appeals Process Timeline**

**Timeline:**

1. The child is suspended
2. An informal conference is conducted to inform the pupil of the reason for suspension, unless an “Emergency Situation” exists as described by EDC 48911
3. At the time of suspension, a school employee shall make a reasonable effort to contact the pupil’s parent/guardian in person or by telephone. No penalties shall be imposed on a pupil for failure of the pupil’s parent or guardian to attend a conference with school officials.
4. If there is contact, then the parent/guardian is informed of the reasons for the suspension.
5. At this time, during this Pre-Suspension Conference, the parent/guardian has the opportunity to appeal the suspension. They may discuss it on the telephone, in person, or in writing.
6. The administrator will take into consideration what the parent has to say and make a final decision.
7. The parent/guardian has the right to appeal the decision to the Executive Director within 5 business days.
8. If the suspension is not resolved, then the parent has the right to appeal to the Governance Board within 5 business days.

**Notice to Parents/Guardians**

At the time of suspension, the Directors in charge of Special Ed and Instruction or designee shall make a reasonable effort to contact the parent/guardian by telephone or in person. Whenever a student is suspended, the parent/guardian shall be notified in writing of the suspension and the date of return following suspension. This notice shall state the specific offense committed by the student. In addition, the notice shall also state the date and time when the student shall return to school. If the Director of Instruction and Special Ed wish to ask the parent/guardian to confer regarding matters pertinent to the suspension, the notice shall request that the parent/guardian respond to such requests without delay.

**Suspension Time Limits/Recommendation for Placement/Expulsion**

Suspensions, when not including a recommendation for expulsion, shall not exceed five (5) consecutive school days per suspension. The maximum number of out of school suspension shall not exceed 20 days, as stated in EDC 48903:

(a) Except as provided in subdivision (g) of Section 48911 and in Section 48912, the total number of days for which a pupil may be suspended from school shall not exceed 20 schooldays in any school year,

(b) For the purposes of this section, a school district may count suspensions that occur while a pupil is enrolled in another school district toward the maximum number of days for which a pupil may be suspended in any school year.

Upon a recommendation of Placement/Expulsion by the Director of Instruction, the pupil and the pupil’s parent or guardian or representative will be invited to a conference to determine if the suspension for the pupil should be extended pending an expulsion hearing. This determination will be made by the Director of Instruction or designee upon either of the following determinations: 1) the pupil’s presence will be disruptive to the education process; or 2) the pupil poses a threat or danger to others. Upon either determination, the pupil’s suspension will be extended pending the results of an expulsion hearing.

**Authority to Expel**

A student may be expelled either by the decision of the Administrative Panel, an impartial body following a hearing before it or by the Pacoima Charter School Governance Board on appeal. The Administrative Panel should consist of at least three members who are certificated and neither a teacher of the pupil or a Council member of the Pacoima Charter School’s Governance Board. The Administrative Panel may expulsion decision of any student found to have
committed an expellable offense. The decision to expel a pupil shall be based on the finding of one or both of the following:

- Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
- Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others.

### Expulsion Procedures

Students recommended for expulsion are entitled to a hearing to determine whether the student should be expelled. Unless postponed for good cause, the hearing shall be held within thirty (30) school days after the Director of Instruction and Special Ed. determines that the Pupil has committed an expellable offense. The student who are suspended from the classroom and are awaiting an expulsion hearing will continue to have access to education via our blended learning program I-Ready and Imagine Learning.

The hearing will be conducted by the Administrative panel and shall be held in closed session unless the pupil makes a written request for a public hearing three (3) days prior to the hearing.

Written notice of the hearing shall be forwarded to the student and the student’s parent/guardian at least ten (10) calendar days before the date of the hearing. Upon mailing the notice, it shall be deemed served upon the pupil. The notice shall include:

1. The date and place of the expulsion hearing;

2. A statement of specific fact(s), charge(s) and offense(s) upon which the proposed expulsion is based;

3. A copy of Pacoima Charter School’s disciplinary rules which relate to the alleged violation;

4. Notification of the student’s or parent/guardian’s obligation to provide information about the student’s status at the school to any other school district or school to which the student seeks enrollment;

5. The opportunity for the student or the student’s parent/guardian to appear in person or to employ and be represented by counsel or a non-attorney advisor;

6. The right to inspect and obtain copies of all documents to be used at the hearing;

7. The opportunity to confront and question all witnesses who testify at the hearing;

8. The opportunity to question all evidence presented and to present oral and documentary evidence on the student’s behalf including witnesses.
9. The right to have representation by counsel or other advocate

10. The right to have a translator present “reasonable accommodations”

**Special procedures for Expulsion Hearings Involving Sexual Assault or Battery Offences**
Pacoima Charter School may, upon finding a good cause, determine that the disclosure of either the identity of the witness or the testimony of that witness at the hearing, or both, would subject the witness to an unreasonable risk of psychological or physical harm. Upon this determination, the testimony of the witness may be presented at the hearing in the form of sworn declarations which shall be examined only by the Pacoima Charter School Governance Board, administrative panel, or the hearing officer. Copies of these sworn declarations, edited to delete the name and identity of the witness, shall be made available to the pupil.

1. The complaining witness in any sexual assault or battery case must be provided with a copy of the applicable disciplinary rules and advised of his/her right to (a) receive five days notice of his/her scheduled testimony, (b) have up to two (2) adult support persons of his/her choosing present in the hearing at the time he/she testifies, which may include a parent, guardian, or legal counsel, and (c) elect to have the hearing closed while testifying.

2. Pacoima Charter School must also provide the victim a room separate from the hearing room for the complaining witness’ use prior to and during breaks in testimony.

3. At the discretion of the Administrative Panel conducting the hearing, the complaining witness shall be allowed periods of relief from examination and cross-examination during which he or she may leave the hearing room.

4. The Administrative Panel may also arrange the seating within the hearing room to facilitate a less intimidating environment for the complaining witness.

5. The Administrative Panel may also limit time for taking the testimony of the complaining witness to the hours he/she is normally in school, if there is no good cause to take the testimony during other hours.

6. Prior to a complaining witness testifying, the support persons must be admonished that the hearing is confidential. Nothing in the law precludes the person presiding over the hearing from removing a support person whom the presiding person finds is disrupting the hearing. The Administrative Panel may permit any one of the support persons for the complaining witness to accompany him or her to the witness stand.
7. If one or both of the support persons is also a witness, Pacoima Charter School must present evidence that the witness’ presence is both desired by the witness and will be helpful to Pacoima Charter School. The Administrative Panel shall permit the witness to stay unless it is established that there is a substantial risk that the testimony of the complaining witness would be influenced by the support person, in which case the presiding official shall admonish the support person or persons not to prompt, sway, or influence the witness in any way. Nothing shall preclude the presiding officer from exercising his or her discretion to remove a person from the hearing whom he or she believes is prompting, swaying, or influencing the witness.

8. The testimony of the support person shall be presented before the testimony of the complaining witness and the complaining witness shall be excluded from the hearing room during that testimony.

9. Especially for charges involving sexual assault or battery, if the hearing is to be conducted in the public at the request of the pupil being expelled, the complaining witness shall have the right to have his/her testimony heard in a closed session when testifying at a public meeting would threaten serious psychological harm to the complaining witness and there are not alternative procedures to avoid the threatened harm. The alternative procedures may include videotaped depositions or contemporaneous examination in another place communicated to the hearing by means of closed-circuit television.

10. Evidence of specific instances of a complaining witness’ prior sexual conduct is presumed inadmissible and shall not be heard absent a determination by the person conducting the hearing that extraordinary circumstances exist requiring the evidence be heard. Before such a determination regarding extraordinary circumstances can be made, the witness shall be provided notice and an opportunity to present opposition to the introduction of the evidence. In the hearing on the admissibility of the evidence, the complaining witness shall be entitled to be represented by a parent, legal counsel, or other support person. Reputation or opinion evidence regarding the sexual behavior of the complaining witness is not admissible for any purpose.

Record of Hearing
A record of the hearing shall be made and may be maintained by any means, including electronic recording, as long as a reasonably accurate and complete written transcription of the proceedings can be made.
Presentation of Evidence
While technical rules of evidence do not apply to expulsion hearings, evidence may be admitted and used as proof only if it is the kind of evidence on which reasonable persons can rely in the conduct of serious affairs. A decision by the Administrative Panel to expel must be supported by substantial evidence that the student committed an expellable offense.

Findings of fact shall be based solely on the evidence at the hearing. While hearsay evidence is admissible, no decision to expel shall be based solely on hearsay and sworn declarations may be admitted as testimony from witnesses of whom the Administrative Panel or designee determines that disclosure of their identity or testimony at the hearing may subject them to an unreasonable risk of physical or psychological harm.

If, due to a written request by the accused pupil, the hearing is held at a public meeting, and the charge is committing or attempting to commit a sexual assault or committing a sexual battery as defined in Education Code Section 48900, a complaining witness shall have the right to have his or her testimony heard in a session closed to the public.

The decision of the Administrative Panel shall be in the form of written findings of fact. The decision by the Administrative Panel shall be made within ten (10) school days following the conclusion of the hearing.

If the Administrative panel decides not to recommend expulsion, the pupil shall immediately be returned to his/her educational program.

Written Notice to Expel
The Director or designee following a decision of the Administrative Panel to expel shall send written notice of the decision to expel, including the Administrative Panel adopted findings of fact, to the student or parent/guardian. This notice shall also include the following:

1. Notice of the specific offense committed by the student

2. Notice of the student’s or parent/guardian’s obligation to inform any new district in which the student seeks to enroll of the student’s status with the Pacoima Charter School.

3. The notice will include the appeal process, reasonable accommodations, the right to have counsel and/or translator present and other due process protections and rights on appeal.

The Director or designee shall send a copy of the written notice of the decision to expel to the student’s district of residence. This notice shall include the following:

1. The student’s name
2. The specific expellable offense committed by the student

3. Information on the appeal’s process, rights and other due process protections.

4. Information about the readmission eligibility date

**Disciplinary Records**

Pacoima Charter School shall maintain records of all student suspensions and expulsions at Pacoima Charter School. Such records shall be made available to the District upon request.

**Expulsion Appeals**

**Expelled Pupils/Alternative Education**

Pacoima Charter School shall work with students who are expelled from the charter school to locate alternative education programs including, but not limited to, programs within the County or their school district of residence.

**Rehabilitation Plans**

Pupils who are expelled from Pacoima Charter School will be given a rehabilitation plan upon expulsion as developed by PCS’s governing board at the time of the expulsion order, which may include, but is not limited to, periodic review as well as assessment at the time of review for readmission. Terms of expulsion should be reasonable and fair with the weight of the expelling offense taken into consideration when determining the length of expulsion. Therefore, the rehabilitation plan should include a date not later than one (1) year from the date of expulsion when the pupil may reapply to PCS for readmission.

**Readmission**

Pacoima Charter School’s governing board shall adopt rules establishing a procedure for the filing and processing of requests for readmission and the process for the required review of all expelled pupils for readmission. Upon completion of the readmission process, PCS’s governing board shall readmit the pupil, unless the governing board makes a finding that the pupil has not met the conditions of the rehabilitation plan or continues to pose a danger to campus safety. A description of the procedure shall be made available to the pupil and the pupil’s parent or guardian at the time the expulsion order is entered and the decision of the governing board, including any related findings, must be provided to the pupil and the pupil’s parent/guardian within a reasonable time.
**Reinstatement**
PCS’s governing board shall adopt rules establishing a procedure for processing reinstatements, including the review of documents regarding the rehabilitation plan. PCS is responsible for reinstating the student upon the conclusion of the expulsion period in a timely manner.

**Special Education Students**

This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

**Disposition of Liabilities and Assets**

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District’s personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 or to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.
Additional Provisions

Facilities
Charter School shall comply with all geographic and site limitations and related requirements set forth in Education Code sections 47605.1, 47602(a), and 47605(a).

District-Owned Facilities
If Charter School is using District facilities as of the date of the submission of this charter petition or takes occupancy of District facilities prior to the approval of this charter petition, Charter School shall execute an agreement provided by the District for the use of the District facilities as a condition of the approval of the charter petition. If at any time after the approval of this charter petition Charter School will occupy and use any District facilities, Charter School shall execute an agreement provided by the District for the use of the District facilities prior to occupancy and commencing use. Charter School shall implement and otherwise comply with the terms of any and all applicable facilities use agreements between Charter School and the District.

The circumstances of Charter School’s occupancy of District facilities may change over time such as, but not limited to, enrollment, programs, and the conditions of facilities, and the District has a vested interest in having an agreement that is appropriate for the situation.

For a Sole Occupant Agreement or any other use agreement that is not a Proposition 39 Single Year Co-location Use Agreement or a lease issued through the Notice of Intent and bid process, the term may be co-terminous with the approved Charter, as permitted by law. Charter School and the District shall negotiate any modifications of the agreement with the goal of such amendment or new agreement being considered by the LAUSD Board of Education with the renewal of the charter petition. If Charter School and the District cannot execute an agreement in time for such to be considered by the Board of Education with the renewal of the charter petition, the approval of the renewal of the charter petition shall be conditioned upon Charter School and the District executing an amendment to the existing use agreement or a new agreement no later than May 1st or within nine (9) months of the date of the Board of Education’s approval of the renewal of the charter petition. During such time period Charter School shall be permitted to remain in occupancy of the District facilities under the terms and conditions of the immediately preceding, executed use agreement; provided, that if Charter School and the District cannot agree upon and execute an amendment or new use agreement by said deadline, Charter School shall vacate the District facilities on or before June 30th of said school year.

Charter School acknowledges and agrees that occupancy and use of District facilities shall be in compliance with applicable laws and District policies for the operation and maintenance of District facilities and furnishings and equipment. Charter School shall comply with all District health, safety, and emergency procedures and requirements and shall be subject to inspection by the District’s Facilities Services Division, OEHS, and other District offices in the same manner as other LAUSD campuses. All District facilities (i.e., schools) will remain subject to those laws applicable to public schools.
In the event of an emergency, all District facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations, which may disrupt or prevent Charter School from conducting its educational programs. If Charter School will share the use of District facilities with other District user groups, Charter School agrees that it will participate in and observe all District safety policies (e.g., emergency chain of information and participation in safety drills).

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:

- **Use**: Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. Separate and apart from its right as authorizer to observe and inspect any part of the charter school at any time pursuant to Education Code 47607(a)(1), the District shall have and reserves the right to inspect District facilities upon reasonable notice to Charter School.

- **Furnishings and Equipment**: The District shall retain ownership of any furnishings and equipment, including technology, (“F&E”) that it provides to Charter School for use. Charter School, at its sole cost and expense, shall provide maintenance and other services for the good and safe operation of the F&E.

**SELPA Reorganization**
The Los Angeles Unified School District is approved to operate as a single-District SELPA under the provisions of Education Code section 56195.1(a). As a single-District SELPA, the District has created two charter school sections (District-operated Programs and Charter-operated Programs) under the administration of one single Administrative Unit pursuant to a reorganization plan approved by the Board of Education on January 4, 2011 (149/10-11). Full implementation of the reorganized LAUSD SELPA commenced in the 2013-2014 school year requiring all District-authorized charter schools to elect one of the three options available under the LAUSD SELPA. Prior to an option election, all District-authorized charter schools were required to participate as a school of the District under the District-Operated Programs Unit. Prior to the beginning of the 2013-2014 school year, all District-authorized charter schools, other than those that had previously executed an Option 3 Memorandum of Understanding (“MOU”), were required to execute a new MOU setting forth the LAUSD SELPA option election for the remainder of the charter petition term. The Charter-operated Program schools do not have LEA status for the purposes of special education but will function in a similar role in that each charter school will be responsible for all special education requirements, including but not limited to services, placement, due process, related services, special education classes, and special education supports. Charter schools that have elected to participate in a District-operated programs option may apply for membership in the Charter-operated Program section of the SELPA. Charter schools accepted for participation in the Charter-operated Programs section receive support from a Special Education Director for the Charter-operated Programs.

**Modified Consent Decree Requirements**
All charter schools approved by the LAUSD Board of Education are bound by and must adhere to the terms, conditions and requirements of the *Chanda Smith* Modified Consent Decree (“MCD”) and other court orders imposed upon the District pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes nineteen statistically measureable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online Individualized Education Programs (“IEPs”) and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the MCD, student level data requests from District-operated and Charter-operated charter schools are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s (“OIM”) required format in accordance with the OIM’s required timelines and as follows:

MiSiS is a suite of applications which is designed to capture all District student data. All charter schools are required to utilize MiSiS directly or interface with MiSiS via a web based Application Programming Interface (API) in compliance with the requirements of the MCD and applicable timelines. Upon charter school full utilization of MiSiS either directly or via a web based API, the list of required data above will automatically be captured within MiSiS.

**Financial Close-Out**

After receiving notification of closure, the California Department of Education (CDE) will notify Charter School and the authorizing entity of any liabilities Charter School owes the state, which may include overpayment of apportionments, unpaid revolving fund loans or grants, and/or similar liabilities. The CDE may ask the county office of education to conduct an audit of the charter school if it has reason to believe that the school received state funding for which it was not eligible.

Charter School shall ensure completion of an independent final audit within six months after the closure of Charter School that includes:

1. An accounting of all financial assets. These may include cash and accounts receivable and an inventory of property, equipment, and other items of material value.

2. An accounting of all liabilities. These may include accounts payable or reduction in apportionments due to loans, unpaid staff compensation, audit findings, or other investigations.

3. An assessment of the disposition of any restricted funds received by or due to Charter School.

This audit may serve as Charter School’s annual audit if it meets all of the requirements of the annual audit.

Charter School shall pay for the financial closeout audit of Charter School. This audit will be conducted by a neutral, independent licensed CPA who will employ generally accepted accounting principles. Any liability or debt incurred by Charter School will be the responsibility of Charter School and not LAUSD. Charter School understands and acknowledges that Charter School will cover the outstanding debts or liabilities of Charter School. Any unused monies at the time of the audit will be returned to the appropriate funding source. Charter School understands and acknowledges that only unrestricted funds will be used to pay creditors. Any unused AB 602 funds will be returned to the District SELPA or the SELPA in which Charter School participates, and other categorical funds will be returned to the source of funds.

Charter School shall ensure the completion and filing of any annual reports required. These reports include but are not necessarily limited to:

1. Preliminary budgets
2. Interim financial reports
3. Second interim financial reports
4. Final unaudited reports

These reports must be submitted to the CDE and the authorizing entity in the form required. These reports should be submitted as soon as possible after the Closure Action, but no later than the required deadline for reporting for the fiscal year.
For apportionment of categorical programs, the CDE will count the prior year average daily attendance (ADA) or enrollment data of the closed Charter School with the data of the authorizing entity. This practice will occur in the first year after the closure and will continue until CDE data collection processes reflect ADA or enrollment adjustments for all affected LEAs due to the charter closure.

**Disposition of Liabilities and Assets**

The closeout audit must identify the disposition of all liabilities of Charter School. Charter School closure procedures must also ensure appropriate disposal, in accordance with the District Required Language provisions in Element 11 of this Charter, Charter School’s governing board bylaws, fiscal procedures, and any other applicable laws and regulations, of any net assets remaining after all liabilities of Charter School have been paid or otherwise addressed. Such disposal includes, but is not limited to:

1. Charter School, at its cost and expense, shall return to the District any and all property, furniture, equipment, supplies, and other assets provided to Charter School by or on behalf of the District. The District discloses that the California Education Code sets forth the requirements for the disposition of the District’s personal property and Charter School shall bear responsibility and liability for any disposition in violation of statutory requirements.

2. The return of any donated materials and property in accordance with any terms and conditions set when the donations were accepted.

3. The return of any grant and restricted categorical funds to their sources according to the terms of the grant or state and federal law.

4. The submission of final expenditure reports for any entitlement grants and the filing of Final Expenditure Reports and Final Performance Reports, as appropriate.

If Charter School is operated as or by a nonprofit corporation, and if the corporation does not have any functions other than operation of Charter School, the corporation shall be dissolved according to its bylaws.

Charter School shall retain sufficient staff, as deemed appropriate by the Charter School governing board to complete all necessary tasks and procedures required to close the school and transfer records in accordance with these closure procedures.

Charter School’s governing board shall adopt a plan for wind-up of Charter School and, if necessary, the corporation, in accordance with the requirements of the Corporations Code.

Charter School shall provide LAUSD within fourteen (14) calendar days of the Closure Action with written notice of any outstanding payments due to staff and the time frame and method by which Charter School will make the payments.

Prior to final close-out, Charter School shall complete all actions required by applicable law, including but not limited to the following:
a. File all final federal, state, and local employer payroll tax returns and issue final W-2s and Form 1099s by the statutory deadlines.

b. Make final federal tax payments (employee taxes, etc.)

c. Complete and submit all required federal and state filings and notices to the State of California, the Internal Revenue Service, and the Department of the Treasury, including but not limited to final tax returns and forms (e.g., Form 990 and related Schedules).

This Element 15 shall survive the revocation, expiration, termination, cancellation of this Charter, or any other act or event that would end Charter School’s authorization to operate as a charter school or cause Charter School to cease operation. Charter School agrees that, due to the nature of the property and activities that are the subject of this Charter, the District and public shall suffer irreparable harm should Charter School breach any obligation under this Element 15. The District therefore reserves the right to seek equitable relief to enforce any right arising under this Element 15 or any provision of this Element 15 to prevent or cure any breach of any obligation undertaken, without in any way prejudicing any other legal remedy available to the District. Such legal relief shall include, without limitation, the seeking of a temporary or permanent injunction, restraining order, or order for specific performance, and may be sought in any appropriate court.

**Additional Provisions**

**Facilities**

Charter School shall comply with all geographic and site limitations and related requirements set forth in Education Code sections 47605.1, 47602(a), and 47605(a).

**District-Owned Facilities**

If Charter School is using District facilities as of the date of the submission of this charter petition or takes occupancy of District facilities prior to the approval of this charter petition, Charter School shall execute an agreement provided by the District for the use of the District facilities as a condition of the approval of the charter petition. If at any time after the approval of this charter petition Charter School will occupy and use any District facilities, Charter School shall execute an agreement provided by the District for the use of the District facilities prior to occupancy and commencing use. Charter School shall implement and otherwise comply with the terms of any and all applicable facilities use agreements between Charter School and the District.

The circumstances of Charter School’s occupancy of District facilities may change over time such as, but not limited to, enrollment, programs, and the conditions of facilities, and the District has a vested interest in having an agreement that is appropriate for the situation. For a Sole Occupant Agreement or any other use agreement that is not a Proposition 39 Single Year Co-location Use Agreement or a lease issued through the Notice of Intent and bid process, the term may be co-terminous with the approved Charter, as permitted by law. Charter School and the District shall negotiate any modifications of the agreement with the goal of such amendment or new agreement being considered by the LAUSD Board of Education with the renewal of the charter petition. If Charter School and the District cannot execute an agreement in time for such to be considered by the Board of Education with the renewal of the charter petition, the approval of the renewal of the charter petition shall be conditioned upon Charter School and the District executing...
an amendment to the existing use agreement or a new agreement no later than May 1st or within nine (9) months of the date of the Board of Education’s approval of the renewal of the charter petition. During such time period Charter School shall be permitted to remain in occupancy of the District facilities under the terms and conditions of the immediately preceding, executed use agreement; provided, that if Charter School and the District cannot agree upon and execute an amendment or new use agreement by said deadline, Charter School shall vacate the District facilities on or before June 30th of said school year.

Charter School acknowledges and agrees that occupancy and use of District facilities shall be in compliance with applicable laws and District policies for the operation and maintenance of District facilities and furnishings and equipment. Charter School shall comply with all District health, safety, and emergency procedures and requirements and shall be subject to inspection by the District’s Facilities Services Division, OEHS, and other District offices in the same manner as other LAUSD campuses. All District facilities (i.e., schools) will remain subject to those laws applicable to public schools.

In the event of an emergency, all District facilities (i.e., schools) are available for use by the American Red Cross and public agencies as emergency locations, which may disrupt or prevent Charter School from conducting its educational programs. If Charter School will share the use of District facilities with other District user groups, Charter School agrees that it will participate in and observe all District safety policies (e.g., emergency chain of information and participation in safety drills).

The use agreements provided by the District for District facilities shall contain terms and conditions addressing issues such as, but not limited to, the following:

- **Use:** Charter School will be restricted to using the District facilities for the operation of a public school providing educational instruction to public school students consistent with the terms of the Charter and incidental related uses. Separate and apart from its right as authorizer to observe and inspect any part of the charter school at any time pursuant to Education Code 47607(a)(1), the District shall have and reserves the right to inspect District facilities upon reasonable notice to Charter School.

- **Furnishings and Equipment:** The District shall retain ownership of any furnishings and equipment, including technology, (“F&E”) that it provides to Charter School for use. Charter School, at its sole cost and expense, shall provide maintenance and other services for the good and safe operation of the F&E.

- **Leasing; Licensing:** Use of the District facilities by any person or entity other than Charter School shall be administered by the District. The parties may agree to an alternative arrangement in the use agreement.

- **Programs, Services, and Activities Outside Instructional Program; Third Party Vendors**
  
  (i) Any program, service, or activity provided outside the instructional program shall be subject to the terms and provisions of the use agreement, and, additionally, may require a license, permit, or additional agreement issued by the District. The term “instructional program” is defined, per Education Code section 47612 and 5 CCR section 11960, as those required educational activities that generate funding based on “average daily attendance” and includes those extracurricular programs, services,
and/or activities that students are required to participate in and do not require the payment of any consideration or fee.

(ii) Any program, service, or activity requiring the payment of any consideration or fee or provided by a third party vendor (defined as any person or entity other than Charter School), whether paid or volunteer and regardless of whether such may be within the instructional program, shall be subject to the terms and provisions of the use agreement and such third party vendor shall be required to obtain a license, permit, or additional agreement from the District.

- **Minimum Payments or Charges to be Paid to District Arising From the Facilities:**
  (i) **Pro Rata Share:** The District shall collect and Charter School shall pay a Pro Rata Share for facilities costs as provided in the Charter Schools Act of 1992 and its regulations. The parties may agree to an alternative arrangement regarding facilities costs in the use agreement; and

  (ii) **Taxes; Assessments:** Generally, Charter School shall pay any assessment or fee imposed upon or levied on the LAUSD facilities that it is occupying or Charter School’s legal or equitable interest created by the use agreement.

- **Maintenance & Operations Services:** In the event the District agrees to allow Charter School to perform any of the operation and maintenance services, the District shall have the right to inspect the District facilities, and the costs incurred in such inspection shall be paid by Charter School.

  (i) **Co-Location:** If Charter School is co-locating or sharing the District facilities with another user, the District shall provide the operations and maintenance services for the District facilities and Charter School shall pay the Pro Rata Share. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such in the use agreement.

  (ii) **Sole Occupant:** If Charter School is a sole occupant of District facilities, the District shall allow Charter School, at its sole cost and expense, to provide some operations and maintenance services for the District facilities in accordance with applicable laws and LAUSD’s policies on operations and maintenance services for facilities and F&E. NOTWITHSTANDING THE FOREGOING, the District shall provide all services for regulatory inspections which as the owner of the real property it is required to submit, and deferred maintenance, and Charter School shall pay LAUSD for the cost and expense of providing those services. The parties may agree to an alternative arrangement regarding performance of the operations and maintenance services and payment for such services in the use agreement.

- **Real Property Insurance:** Prior to occupancy, Charter School shall satisfy requirements to participate in LAUSD’s property insurance or, if Charter School is the sole occupant of LAUSD facilities, obtain and maintain separate property insurance for the LAUSD facilities. Charter School shall **not** have the option of obtaining and maintaining separate property insurance for the LAUSD facility IF Charter School is co-locating or sharing the LAUSD facility with another user.
Non-District-Owned Facilities

**Occupancy and Use of the Site:** Prior to occupancy or use of any school site or facility, Charter School shall provide the CSD with a current Certificate of Occupancy or equivalent document issued by the applicable permitting agency that allows Charter School to use and occupy the site as a charter school. Charter School shall not exceed the operating capacity of the site and shall operate within any limitations or requirements provided by the Certificate of Occupancy and any applicable permit. Charter School may not open or operate without providing a copy of an appropriate Certificate of Occupancy to the CSD. If Charter School intends to move or expand to another facility during the term of this Charter, Charter School shall adhere to any and all District policies and procedures regarding charter material revision and non-material amendment. Prior to occupancy or use of any such additional or changed school site, Charter School shall provide an appropriate Certificate of Occupancy to the CSD for such facility. Notwithstanding any language to the contrary in this Charter, the interpretation, application, and enforcement of this provision are not subject to the Dispute Resolution Process outlined in Element 14.

**Facility Compliance:** Prior to occupancy or use of any non-District-owned school site and/or facility, Charter School shall ensure that the site and/or facility complies with all applicable building codes, standards and regulations adopted by the city and/or county agencies responsible for building and safety standards for the city in which Charter School is to be located, federal and state accessibility requirements (including the Americans with Disabilities Act (ADA) and Section 504), and all other applicable fire, health, and structural safety and access requirements. This requirement shall also apply to the construction, reconstruction, alteration of or addition to the facility. Charter School shall resolve in a timely manner any and all corrective actions, orders to comply, and notices issued by any authorized building and safety agency. Charter School cannot exempt itself from applicable building and zoning codes, ordinances, and ADA/Section 504 requirements. Charter School shall maintain on file readily accessible records that document facilities compliance and shall promptly provide such documentation to the CSD upon request.

**Pest Management:** Charter School shall comply with the Healthy Schools Act, Education Code section 17608, which details pest management requirements for schools.

**Asbestos Management:** Charter School shall comply with the asbestos requirement as cited in the Asbestos Hazard Emergency Response Act (AHERA), 40 C.F.R. part 763. AHERA requires that any building leased or acquired that is to be used as a school or administrative building shall maintain an asbestos management plan.

**INSURANCE**
