

Instructional Technology Student Related Information in Whole Child Integrated Data
(as of June 21, 2021)

The purpose of this guide is to provide users with a quick reference on where to find instructional technology related information in Whole Child. This document is updated as additional data types become available. In the system, product level data is provided when possible (e.g., Amplify includes products such as mCLASS, Amplify Reading, and Science Elementary). Also, in Tracking at a Glance, products are categorized as either “Core” (applicable only to students enrolled in courses that tie back to the product) or “Supplementary” (applicable to the school type and grade level). For details about each metric, click the Metric Catalog information icon in the top right corner of the applicable screen of the [Whole Child Integrated Data Platform](#).

Academic and achievement data for select instructional technology applications are now integrated into Whole Child. A summary appears in this table.

Academic and Achievement Data from Digital Learning Tools	At-A Glance (for administrators)	Classroom / School / CoS Performance Views	Student Monitoring	Assessment Analytics	Whole Child View > Educational Technology
Edulastic		1 Data Card	1 Data Panel		1 Report
Google Classroom	1 Widget		1 Data Panel		1 Report
IXL	2 Widgets		4 Data Panels	1 Widget	2 Reports
Renaissance	1 Widget	4 Data Cards	4 Data Panels	2 Widgets	1 Report

Usage, engagement, and other data types are listed in this table. The most recent additions are indicated with “(New)” next to the data source name.
