We can help protect the community by practicing healthy behaviors that decrease the risk of getting COVID-19. COVID-19 is commonly transmitted in homes. We successfully make our communities safer when:

- We wear face coverings at school and outside the home.
- We avoid inviting people into the home, other than those who need to be there.
- We minimize close physical contact, which increases your exposure to the virus. (Close physical contact is being next to anyone less than 6 feet away for more than 15 minutes. People who don't have symptoms can still transmit the virus.)

Our goal is to have everyone back to school as safely as possible. **Do you agree to commit to the safest behaviors possible and in so doing, keeping the schools safer?**
