

YOUR CHILD HAS TESTED POSITIVE OR BEEN EXPOSED TO COVID-19. WHAT'S NEXT?

Together We Can Help Stop the Spread

Your child has tested positive for COVID-19.

Now what?

Day 1

- Your child will be escorted to a designated space and you will be contacted by the principal for pickup.
- Your school will notify you with additional instructions.
- Teachers will work to provide ongoing learning as soon as the student is well enough to participate.

Your unvaccinated child has been identified as a close contact of a confirmed case.

What happens now?

- Your child will be escorted to a designated space and you will be contacted by the principal for pickup.
- Check in with your child to see if they are experiencing symptoms.
 - Asymptomatic students will be instructed to quarantine **even if they remain asymptomatic.**
- Teachers will work to provide ongoing learning as soon as the student is well enough to participate.

Day 5

- Monitor your child's symptoms. Your child should be fever-free, without the use of medication, for a full 24 hours before returning to school.
- You and your child will engage with teachers to complete classwork.

- Your child has been quarantined for 5 days.
- Get a [COVID-19 test](#) for your child after day 5.
- If your child tests positive:
 - Refer to the instructions for confirmed positive tests.
- If your child tests negative:
 - Monitor symptoms. Your child should be fever-free, without the use of medication, for a full 24 hours before returning to school.
 - Your child can return to school on day 8 with proof of a negative test and if they remain asymptomatic.
- You and your child will engage with teachers to complete classwork.

Day 10

- Your child has been isolated for 10 days and is cleared.
- Your school will notify you about your child's return to school.
- Plan for your child to return to school by checking the Daily Pass.
 - Your child won't have to retest for 90 days after the confirmed positive test.
- Continue to monitor for symptoms through day 14.

Your vaccinated child has been identified as a close contact of a confirmed case.

What's next?

- Check in with your child to see if they are experiencing symptoms.
- As long as they remain asymptomatic, students will not be instructed to quarantine.

- Your child has been asymptomatic for 5 days. At this point, continue testing in the school's regular testing program.
- Continue to monitor your child for symptoms.
- If your child starts experiencing symptoms, refer to steps for positive cases.

- Your child has been asymptomatic for a full 14 days.
- No further action is required.
