Project Based Learning (PBL) in Dual Language and World Languages—Secondary 6-12

This module provides an overview of Project Based Learning and its application in Dual Language Education and World Language classrooms. Practitioners can apply the elements and teaching practices of PBL to engage students in standards-based, real-world projects to develop linguistic literacy and 21st century competencies.

OBJECTIVES

- Understand the essential elements and teaching practices of PBL
- Explore the components of a PBL unit planning guide
- Apply digital tools to support PBL in distance learning and beyond

First 500 participants will receive a compensation for 2 hours of training rate ($25/hr)

Once the funding has been depleted, the module will remain available

Participants MUST complete the entire 2 hour module, complete the comprehension check questions, and certify that this course is taken outside of regular designated work hours
