The Academic English Mastery Program will host world-renowned author Pamela Allyn as the keynote speaker at the 2020 AEMP CLR Winter Institute. All AEMP schools have received the Scholastic 7 Strengths Library curated by Pam Allyn and will receive her book *Every Child a Super Reader*. The focus of this professional learning is how to effectively engage students in independent reading and utilize the resources provided by the Academic English Mastery Program.

This professional development is offered to K-5 teachers of Mainstream English Language Development (MELD) and ELA teachers in grades 6-12 at Academic English Mastery Program schools. There will also be a principal breakout session with Pam Allyn. Participants will be compensated at their hourly rate.
