"Quality life skills instruction for greater independence"

WORK PROGRAMS

Our work strands offer a variety of job skills to ensure students maximize independence. Students learn skills such as: how to prepare food, proper customer service, equipment cleaning and maintenance, making purchases, harvesting vegetables, arranging merchandise, interacting with community members and supervisors, filling shipping orders, and more.

The following are benefits for students:

- Pre-Employment Prep
- Soft Skills Instruction
- Fading of Dependence
- Interview Techniques
- Independent Living Skills
- Social Skills
- Career Surveys
- Work Experience
- Job Search Skills
- Community Instruction
- MTA Training

WHY CTC?

As our students complete their four years of high school it is important to offer greater opportunity for vocational skills training with age appropriate peers. Career and Transition Centers offer a variety of work-based programs that help students to gain better social, life, soft, community, and job skills before completing their educational career at LAUSD. CTCs are working to prepare students for adult life by developing the skills necessary to become independent members of their communities.
