INTRODUCTION: ABOUT LET ME PLAY

WELCOME TO THE WORLD OF LET ME PLAY.

WHAT IS LET ME PLAY?
LET ME PLAY is Nike’s new global community effort to unleash human potential through sport. The initiative evolves our work around getting kids physically active through NikeGO, and focuses all new efforts around the power of sport to better communities and change lives. While the initiative will continue advocacy work around physical activity programs for kids, the focus of the initiative will be to get young people, who have typically been left on the sidelines, into sports and on to a better life.

WHY IS LET ME PLAY NEEDED?
National guidelines recommend that young people accumulate at least 60 minutes of physical activity each day for proper growth, development, and overall health. Many children participate in PE classes irregularly and/or choose to be inactive during recess or lunch breaks. Therefore, it cannot be assumed that children receive their recommended dose of daily activity from these traditional school-based sources. It is important to supplement them with PA opportunities at and away from school. Classroom activity breaks, after school programs, sport leagues and classes, and activities that can be done at home, must all contribute to a child’s accumulation of 60 minutes a day.

WHAT ARE THE GOALS OF LET ME PLAY?
The goals of Let Me Play are to encourage children to participate in physical activity opportunities, and to increase the quantity and quality of their movements in a variety of environments. To achieve these goals, NIKE is providing physical activity lesson plans (in written format, via CD, and online at www.letmeplay.com) hands-on staff development, and age-appropriate equipment to schools and after school programs in various regions of the country. After providing these tools and services, NIKE hopes each recipient makes a concerted effort to schedule more physical activity time into every day.

WHO ARE THE PARTNERS?
The SPARK (Sports, Play, and Active Recreation for Kids) Programs have teamed with NIKE to create this easy-to-use physical activity guidebook for teachers, activity leaders, and parents. SPARK is a research-based organization dedicated to creating, implementing, and evaluating programs that promote lifelong wellness. SPARK Certified Trainers will conduct hands-on workshops, and SPARK staff will provide extensive follow up support to schools, organizations, and individuals trained in Let Me Play (www.sparkpe.org).

The focus of Let Me Play is the development of motor skills, movement knowledge, and social and personal skills. It is our hope that physically educated children become lifelong movers and model the behaviors necessary to achieve healthy lifestyles.
WHAT ARE THE OBJECTIVES?

NIKE and SPARK advocate for quality, daily physical activity for children -- anywhere and anytime it is appropriate to provide it. The Let Me Play Playbook provides activities that can be taught in a classroom, gymnasium, on the playground or field, or at home – indoors or out.

It is expected that Let Me Play participants will:

- Enjoy and seek out physical activity
- Develop a variety of basic movement and manipulative skills so they will experience success and feel comfortable during present and future physical activity pursuits, particularly as they relate to individual and team sports
- Develop and maintain acceptable levels of physical fitness
- Develop the ability to get along with others in movement environments (e.g., share space and equipment, employ the golden rule of competition -- be a good sport, and demonstrate cooperative behavior)

HOW IS THE PLAYBOOK DESIGNED?

A focus of each Let Me Play session is to activity engage every child, regardless of her/his ability, in developmentally appropriate movement. However, Let Me Play is also designed to reach other outcomes, including the attainment of motor skills and knowledge, and social values. Active participation and practice are the means for improving a child’s skills, fitness, and enjoyment of physical activity.

The Playbook’s activity lesson plans are divided into two parts:

1. Grades K-2: Activities for children ages 5-7
2. Grades 3-5: Activities for children ages 8-11

Both the K-2 and 3-5 sections are divided into three themes:

1. (Let) ME Play: Ten activities that can be done by a single child; 5 in limited space (e.g., in a classroom, at home, in a small room at their after school program, etc.) and 5 when more space is available (indoors or outside).
2. WE Play: Six activities that can done in pairs; 3 limited space, 3 unlimited space.
3. 3 Play: Four activities that can be done with groups of 3 or more; 2 in limited space, 2 in unlimited space.
Let Me Play activity sessions (Playdays) are designed to be approximately 10-15 minutes long, not including warm-up and cool-down. However, some sessions, particularly sport activities, may be played for longer durations. Let Me Play lessons may be repeated anytime, and teachers are encouraged to modify and enhance them.

Warm-up and cool-down activities that require little explanation should be integrated into the session if activities are rigorous. For example, children can warm up for a tag game by walking, then progress to running. In this manner, Let Me Play reduces both the number of different activities a teacher needs to plan, and the possibility of child inactivity due to unnecessary transitions.

The Introduction section of the Playbook provides important information to help activity leaders provide physical activity sessions for individuals, pairs, and groups. These include: establishing a positive learning environment, instructing social skills, and strategies for session preparation.

**HOW DO I USE THE PLAYBOOK?**

The Let Me Playbook is designed to be used by a variety of people. Here are a few examples:

1. **Classroom Teacher:** A second grade teacher wants an “energizer” her students can do in the classroom. She would look under Grades K-2, 3’s Play, inside.

2. **After School Youth Leader:** A parks and recreation staff person wants to find an activity that 4th and 5th graders can pair up to do outdoors. He would look under Grades 3-5, WE outside.

3. **Parent:** A parent has a 7-year old who is home alone on a rainy Saturday afternoon. She would look under Grades K-2, ME, inside.

4. **Child:** Children should be encouraged to visit the Let Me Play website and find activities to do alone (ME), with a family member (WE), or with two or more friends (3).

SPARK presenters will demonstrate lessons during Let Me Play workshops, and show how they can be expanded to provide many enjoyable variations.

**IF I NEED ASSISTANCE, WHOM DO I CALL?**

SPARK wishes to assist those implementing concepts and lessons from the Let Me Playbook. Call or write SPARK with questions, concerns, and suggestions. With the opinions of those using this document, NIKE and SPARK hope to continue to improve the Let Me Play program in the years to come.

**Let Me Play Website:** [www.letmeplay.com](http://www.letmeplay.com)
**SPARK Website:** [www.sparkpe.org](http://www.sparkpe.org)
**SPARK Phone:** 800sparkpe
**SPARK e-mail:** spark@sparkpe.org
Holding children accountable for their behavior is not always an enjoyable task, but it is necessary. Creating an environment conducive to learning, playing, and enjoying movement is a priority. Consistent leadership and adherence to established protocols is necessary to maintain it.

**INCREASING APPROPRIATE BEHAVIOR**

First attempts at decreasing inappropriate behavior should be to increase appropriate behavior. Here are some techniques for doing so:

**Treat Everyone Fairly:** Although every group leader may feel this is being done, observations of activity sessions frequently tell otherwise.

Here are a few “do’s:”

- Use both girls and boys to demonstrate
- Have individuals of varying skill levels model activities
- Call on girls as often as boys
- Don’t favor some children over others
- Provide positive/specific comments to every participant
- Make comments that are non-gender specific (e.g., Good Sporting Behavior rather than Good Sportsmanship).

**Positive Interactions:** These may be verbal or non-verbal. For example:

<table>
<thead>
<tr>
<th>Verbal positive statements</th>
<th>Non-verbal positive interactions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Terrific</td>
<td>High 5</td>
</tr>
<tr>
<td>Right</td>
<td>Smiling</td>
</tr>
<tr>
<td>Nice job</td>
<td>Clapping</td>
</tr>
<tr>
<td>Way to go</td>
<td>Thumbs-up</td>
</tr>
<tr>
<td>You did it</td>
<td>Handshake</td>
</tr>
</tbody>
</table>

If a leader gives positive and specific verbal feedback, the behavior is more effectively shaped and/or reinforced. For example, “Jose, your wrist snap is perfect on that follow through; way to go.” Or, “Tameka, that high kick you added to your dance is terrific!”

Complimenting those doing well has also been shown to be effective. Leaders should give attention to those on task and following directions, rather than those that are not.
Prompts: Prompting is a leader behavior that reminds individuals what is expected of them. For example, it is better to say, “Remember to walk as you go to pick up equipment,” rather than, “I told you to WALK!”

Selective Ignoring: Children may misbehave to draw attention to themselves. If the learning/playing environment is not being disrupted, simply ignoring the child may be sufficient. Criteria for selective ignoring:

- Short duration and not likely to spread (e.g., child talking softly to friend)
- Minor deviation (e.g., looking away briefly during instruction)
- Your reaction to it would interrupt a lesson or call attention to the behavior

Proximity Control: If the behavior continues after selective ignoring, try moving physically closer to the child. This is best done when other participants are active and not aware of the misbehaving child.

Person to Person Dialogue: Arrange to meet with a child away from the session. You might say, “Rasheed, you don’t seem to be enjoying our activity time. I’d like to meet with you later to talk about it.” Away from the influence of others, it may be easier to find out why the child is disruptive. Once a leader understands why a child is reluctant to participate, an informed decision about the appropriate action can be made.

DECREASING INAPPROPRIATE BEHAVIOR

Although our first approach is to increase appropriate behavior, this does not always work. There are times when a leader must decrease inappropriate behavior. The following techniques may be useful:

Desists: A desist is a verbal statement that tells a child to stop doing something. A desist must be:

- Clear: “Leticia, stop doing that” isn’t enough. “Leticia, stop hitting the basketball with the softball bat; you’ll ruin the ball,” is clear and specific.
- Firm: Use body language that shows your seriousness -- move closer, look directly at the child, keep a straight face.
- Well Timed: Provide the desist immediately before it spreads.
- Appropriately Targeted: Direct desists at the original defender, not a second or third party.
- Time-outs: A time-out is like a penalty box in hockey. During a time-out, a child is removed from the group for a specified time. Time-out protocols should be explained at the beginning of the year.
An individual in time-out should:

- Leave the boundaries of the activity area and go to a location designated for a time-out
- Not have any equipment with her/him
- Be alone
- Continue to listen and observe

A leader giving a time-out should:

- Use it only when it will serve as a deterrent
- Ensure the time-out is in a designated place where contact with others is impossible
- Let the child know what the consequence will be if the behavior is repeated

Note: Time-outs are not an effective deterrent with the child who does not enjoy participating.

Planning Time: Planning time is a peer-directed alternative to time-outs, designed for inappropriate behavior involving two or more people. When children are separated in a time-out, they are alone, and do not have the opportunity to discuss and resolve their conflict. During planning time, pairs (or groups) go to a planning area where they are required to develop a resolution. To be allowed to join the others, they must present to the leader a verbal plan on how to work together or how to change their behavior. In other words, “No plan, no play.”

Behavior Contracts: A behavior contract is a formal agreement between a child and an activity leader. It should include a statement of the desired behavior, contingencies (e.g., how long, how much), and rewards that will be earned if the behavior and contingencies are met. Children must have a role in defining all aspects of the contract: behavior, contingencies, and rewards.

Contacting a Parent: Desists, time-outs, planning time, and behavior contracts work with some children but not with others. When a child continues to misbehave, a written report or phone call to a parent can be effective. This technique should be used only after other approaches have been unsuccessful. The report should list specific violations, be signed by a parent, and returned to the teacher. It is suggested that a phone call to the parent informing her/him that a report is coming home be done first.
Every physical activity session instructed should include these B-A-S-I-C-S:

**B** BOUNDARIES AND ROUTINES

Boundaries refer to the physical borders of the activity area. If no existing lines or clear area designations exist, cones or other objects may be used to identify perimeters. In the Playbook, this is often referred to as “Four cones for boundaries.”

An example of a routine is always allocating 2 to 3 minutes at the end of every session for cool-down/closure.

**A** ACTIVITY FROM THE GET-GO

Children should begin moving as quickly as possible. For example: “Pick up a beanbag, find your personal space, and explore safely while the music plays.”

**S** START-AND-STOP SIGNALS

Children must be taught to respond quickly and consistently to start and stop signals. Use music whenever appropriate (e.g., music begins, children move/practice; music stops, children stop) although other sound producing objects (e.g., tambourine, chimes) and visual signals (e.g., hand, number of fingers) may be used.

**I** INVOLVEMENT BY ALL

Are all children participating? Ensure LET ME PLAY sessions provide ample practice opportunities for everyone – regardless of size, gender, or ability.

**C** CONCISE INSTRUCTIONAL CUES

How few words can you use to initiate activity? “The object of the game is ________________; you do that by ________________; ready, go!” Use the 80/20 Rule: After instruction, assume 80% of the children “get it.” Instead of using valuable time to answer questions, get started. Then, once all are active, be a “plumber”— move and fix leaks.

**S** SUPERVISION

Once children are moving, teachers have much to do. In addition to being plumbers, an instructor should keep her/his back to the wall inside (to remain open and facing the group), and face the sun when giving instructions outside. Additionally, it is important to provide positive, specific feedback at least 4:1 over a corrective statement.
Teaching children how to pair and group quickly and equitably is an integral management skill for activity instructors. SPARK encourages using the following strategies:

1. **Back to Back**: Play Back to Back to pair children. E.g., “How quickly can you stand back to back with someone nearby? Hands at your sides; stand straight and tall.” Once Back to Back is learned, try toe to toe (two students touch toes); elbow to elbow, thumb to thumb, etc.

2. **Mingle-Mingle**: Play Mingle-Mingle to form groups. When you say Mingle-Mingle, children move within boundaries without bumping or touching until a number is called. Children hurry to form a group of that size (e.g., 3’s, 4’s, 5’s). SPARK encourages small size groups; try not to exceed 3’s unless necessary. Once Mingle-Mingle is learned, try Body Parts. As before, now teacher says a number and a body part. E.g., “Threes! Knees!” Children form a group of 3, then all touch knees in the middle. Finally, Hi-Low variation is “Three’s! Knees! Hi-Low!” Group of 3, touching one knee high and the other knee to the floor/ground.

3. **Other ways to group children include**:
   - Hand out sticks or cards that have characteristics to identify different groups.
   - Use specific characteristics to determine groups:
     - Birthdays: January-June vs. July-December
     - Names: First or last names A-L vs. M-Z
     - Clothing: White tops vs. colored tops
     - Pets: Those with pets vs. those without
     - Youth select partners. One squats, the other remains standing. Squatters go to one group, those standing are in the opposite group. Variations include: “A,” the other is “B,” “pitcher and catcher,” “chariot and driver,” “noun and verb,” etc.

**Tips**: When possible, use pre-existing pairs or groups to reduce inactive time and provide for a smooth transition. If pre-existing groups don’t exist, create your own. Do not let children choose groups. This takes time and causes many other problems.
Locomotor skills are used to move the body from place to place, or to project the body upwards (as in jumping or hopping). They form the foundation of gross motor coordination and involve large muscle movement.

**WALK:**

Feet move alternately, with one foot always in contact with the ground or floor. The stepping foot must be placed on the ground before the other foot is lifted. Body weight is transferred from the heel to the ball of the foot and then to the toes for a push-off. Toes point straight ahead, arms swing freely from the shoulders in opposition to the feet. Body is erect, eyes are looking ahead slightly below eye level. Marching is a rhythmic walk accompanied by lifted knees and swinging arms.

**RUN:**

In contrast to walking, running involves a brief time when both feet are off the ground. Running varies from a slow jog, to a trot, to a sprint.

**JUMP:**

Jumping is taking off from two feet and landing on two feet. Swinging the arms helps with the upswing, and the movement of the body combined with the force of the feet helps lift the weight. Jumpers should land lightly on the balls of the feet with knees bent.

**HOP:**

Hopping is done on one foot at a time. The body lean, the other foot, and the arms serve to balance the movement.

**GALLOP:**

Students face forward, lead with one foot, then bring the other up to it (step-together-step). The same foot always leads, so the movement should be practiced with students changing the lead foot.

**SKIP:**

Skipping is a series of step-hops done with alternate feet. To teach skipping, have children take a step followed by a small hop. Skipping is done on the balls of the feet with the arms swinging to shoulder height in opposition to the feet.

**SIDE-SLIDE:**

Similar to gallop, but the direction is sideways with a step-together-step movement. The same foot always leads, so side-slide must be practiced in both direction.

**LEAP:**

Leaping uses an elongated step used to cover distance or to go over a low obstacle. Leaping should emphasize graceful flight through space. To execute a leap, children take off and land on the opposite foot.
NON-LOCOMOTOR MOVEMENTS

Non-locomotor skills are performed without moving from place to place. Non-locomotor skills include bending and stretching, pushing and pulling, raising and lowering, twisting and turning, shaking, bouncing, and circling, among others.

LEVELS OF MOVEMENT

Students must understand the levels (or planes) in space in which movement may occur and be able to place their bodies at the appropriate level. Levels in the Playbook are referred to as low, medium, or high.

DIRECTIONS

When moving in general space, students need to develop the ability to avoid others and/or re-orient which way their bodies face and move. Directions include: right, left, forward, backward, up, and down.

RATES OF MOVEMENT/TEMPO

Controlling the rate of movement (or tempo) is important for demonstrating body control and transferring movement into games and activities which demand variations in speed and/or intensity. A few examples of words which describe the rate of movement are: quickly, slowly, fast, half-speed.

PATHWAYS

Pathways are specific movement patterns. Once children are taught locomotor skills, they should learn to change directions and move within established patterns. Sample pathways are: straight, curved, diagonal, and zigzag

MOVEMENT CHALLENGES

Use the chart below to create “Movement Challenges”. Sequence two, three, or four components together. Sample: “Can you…”

<table>
<thead>
<tr>
<th>LOCOMOTOR SKILLS</th>
<th>TEMPOS</th>
<th>PATHWAYS</th>
<th>LEVELS</th>
<th>DIRECTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>WALK</td>

<td></td>
<td></td>
</tr>
</tbody>
</table>

1 = “Skip?”  3 = “Skip quickly at a low level?”
2 = “Skip quickly?” 4 = “Skip quickly at a low level in a zigzag pathway?”
In order to maximize activity, provide age appropriate challenges, and increase session enjoyment, instructors are encouraged to progress to higher level sports and games when children are ready. (Remember: Keep groups small, minimize or eliminate score keeping, encourage switching positions, and ensure participants understand game rules.)

Tournaments offer a fun and exciting way to promote game play. Once children have a basic knowledge of the rules and strategies of the game or sport, their groups are selected/assigned, and they have received instruction regarding “good sporting behavior” (participating and having fun is the objective, not winning), they are ready for tournament play.

The following two types of tournaments are recommended because they do not eliminate teams, are easy to organize and supervise, and are fun.

**Round Robin:** In this format, each team plays each other once (single round robin) or twice (double round robin). EXAMPLE: For 30 participants, you may elect to have 6 groups of 5 players each. The rotation for 5 days would be as follows:

<table>
<thead>
<tr>
<th>DAY 1</th>
<th>DAY 2</th>
<th>DAY 3</th>
<th>DAY 4</th>
<th>DAY 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 vs 2</td>
<td>1 vs 3</td>
<td>1 vs 5</td>
<td>1 vs 6</td>
<td>1 vs 4</td>
</tr>
<tr>
<td>3 vs 4</td>
<td>5 vs 2</td>
<td>6 vs 3</td>
<td>4 vs 5</td>
<td>2 vs 6</td>
</tr>
<tr>
<td>5 vs 6</td>
<td>6 vs 4</td>
<td>4 vs 2</td>
<td>2 vs 3</td>
<td>3 vs 5</td>
</tr>
</tbody>
</table>

Group one “stays” while others rotate clockwise

**Royal Court:** (Also known as King’s Court) Participants attempt to progress to the Royal Court. Playing fields/courts are assigned and numbered with 1 being the highest, 2 the next highest, and so on. At the beginning of the tournament, teams are placed on all courts. At the end of the allocated time, whoever is *ahead* moves closer to the Royal Court (e.g., court 3 winner moves to court 2, court 5 winner moves to court 4, and so on). The team *behind* moves down, one court further away from the Royal Court. See diagram below:
<table>
<thead>
<tr>
<th>CONCERNS</th>
<th>SUGGESTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. “How can I manage set up if I don’t have time before the session starts?”</td>
<td>• Have one or two responsible children or volunteers set up (or assist with setup) for the session.</td>
</tr>
<tr>
<td>2. “Should I follow the Let Me Playbook lesson plans in any particular order?”</td>
<td>• Have one or two children lead a warm-up routine for the group while you (and a helper) set up.</td>
</tr>
<tr>
<td>3. “How can I minimize my prep time for Let Me Play sessions?”</td>
<td>• Have children “walk and talk with a friend” while you and a helper set up.</td>
</tr>
<tr>
<td>4. “I have some children who are very skilled, well coordinated and knowledgeable (in soccer, basketball, etc.). How do I keep them on task and motivated?”</td>
<td>• Because each PLAYBOOK section is written in a progression, try to follow the order established. However, do not hesitate to repeat a challenging skill drill to provide additional practice and foster students success, and/or lead an activity again just because it is popular with the students.</td>
</tr>
<tr>
<td>5. “How do I prevent children from complaining and arguing?”</td>
<td>• In conversations with hundreds of teachers and activity leaders, we have found that preparation time varies with the individual instructor. Speak with a SPARK Consultant: (800) SPARK PE or write <a href="mailto:spark@sparkpe.org">spark@sparkpe.org</a>. She/he will provide suggestions to streamline preparation.</td>
</tr>
<tr>
<td></td>
<td>• Recruit highly-skilled participants to be helpers and/or assistants. They can give individual attention to those in need. Also, explain that at all levels, fundamentals and review are done repeatedly. The best coaches say, “You can never be too good at the fundamentals.”</td>
</tr>
<tr>
<td></td>
<td>• Using inclusion strategies (e.g., choices of levels of participation within an activity: “nice and easy, recreational, hard core”) fosters differentiated learning and helps keep all children moving and challenged.</td>
</tr>
<tr>
<td></td>
<td>• Before introducing children to techniques that may raise the competitive level, speak with them about cooperative behavior, reinforce it with praise when you observe it, and reward individuals or groups who demonstrate it.</td>
</tr>
<tr>
<td></td>
<td>• Ensure participants know game rules. Appoint group leaders to briefly discuss any rule questions. No other youth may intervene. If they cannot agree within 15 seconds, they should speak with the activity leader.</td>
</tr>
<tr>
<td></td>
<td>• Be certain children have progressed through developmentally appropriate drills and lead-up routines before attempting more sophisticated sporting activities. Participation in even a simple game prior to proper skill development may cause frustration and lead to disagreements.</td>
</tr>
</tbody>
</table>
K-2 LET ME PLAY EQUIPMENT LIST

Based on class size of 30

- 60 balloons
- 60 scarves
- 30 beanbags (fruit and veggie preferred)
- 15 fluffballs
- 30 4” foamballs
- 30 8” utility balls
- 30 8” foamballs
- 30 scoops
- 30 scoop balls
- 30 hoops
- 4 6” cones
- 4 12” cones
- Whistle
- Ball pump
- Storage bags
- Music player

Music

“Toss It High, Let It Fly” in CAN COCKATOOS COUNT BY TWO’S CD
“Beanbag Boogie II” in KIDS IN MOTION CD
“Shadow Dancing” in KIDS IN MOTION CD
“Kuma San” in J.U.M.P. CD
“Kid Star” in J.U.M.P. CD
“Where Are You” in ALLIGATOR PURSE CD
“The Chicken” in ALL-TIME FAVORITE DANCES CD
“Hokey Pokey” in ALL TIME FAVORITE DANCES CD (optional)
“Sweet Georgia Brown” in ________________ (optional)

Optional (sites can supply)

- Variety of balls with different sizes, shapes, weights, textures, ones that bounce
- 15 additional fluffballs
- 10 tennis balls
3-5 LET ME PLAY EQUIPMENT LIST

Based on class size of 30

30 8” utility balls
15 8” foamballs
15 footballs
30 8” playground balls
30 rag softballs
30 beanbags
30 8' or 9’ ropes
90 scarves (3 different colors)
15 pinnies
1 Jump Bands Box (6 pairs of movement bands inc.)
1 Bonkerball set (6 bats and matching balls inc.)
30 hoops
12 18” cones
12 6” cones
Whistle
Ball pump
Storage bags
Music player

Music

“Pata Pata” & “Tinikling” in International Folk Dance Mixer; “Around the World” in Red Hot Peppers

Optional

15 foamballs
30 junior size basketballs
15 tennis balls
30 hockey sticks, 30 plastic pucks, 30 small hockey balls
30 balls of various shapes, sizes and weights (for juggling; throwing & catching; back-to-back activities; foot strike/trap)
30 junior size soccer balls
Trash cans, waste paper baskets
6 tees (for batting)

Training Tools

Stunt Cards 1-11
30 BINGO cards
Dance jigsaw cards
1 pencil/pen per person
# K-5 LET ME PLAY EQUIPMENT LIST

Based on class size of 30

- 90 scarves (3 different colors)
- 60 balloons
- 30 beanbags (fruit and veggie preferred)
- 30 fluffballs
- 30 4” foamballs
- 30 8” foamballs
- 30 8” utility balls
- 30 8” playground balls
- 15 rag softballs
- 30 scoops
- 30 scoop balls
- 30 hoops
- 30 8’ or 9’ ropes
- 15 pinnies
- 1 Jump Bands Box (6 pairs of movement bands included)
- 1 Bonkerball set (6 bats and matching balls included)
- 12 18” cones
- 12 6” cones
- 4 12” cones
- Whistle
- Ball pump
- Storage bags
- Music player

**Music**

- “Toss It High, Let It Fly” in CAN COCKATOOS COUNT BY TWO’S CD
- “Beanbag Boogie II” in KIDS IN MOTION CD
- “Shadow Dancing” in KIDS IN MOTION CD
- “Kuma San” in J.U.M.P. CD
- “Kid Star” in J.U.M.P. CD
- “Where Are You” in ALLIGATOR PURSE CD
- “The Chicken” in ALL-TIMEFAVORITE DANCES CD
- “Hokey Pokey” in ALL-TIMEFAVORITE DANCES CD (optional)
- “Sweet Georgia Brown” in ________________ (optional)
- “Pata Pata” & “Tinikling” in International Folk Dance Mixer
- “Around the World” in Red Hot Peppers (included in Jump Bands box)

## Optional

</table>

## Training Tools

- 6 12” cones
- 15 more rag softballs
- 15 footballs
- 25 footballs
- 30 fluffballs
- 30 junior size basketballs
- 30 junior size soccer balls
- 15 tennis balls
ORIENTATION
PURPOSE:
- Introduce the Let Me Play Program
- Explain activity session format and schedule
- Begin to establish a positive learning environment for physical activity (PA)
- Establish behavioral objectives
- Practice environmental transitions
- Solicit parental support

MATERIALS:
Let Me Play PLAYBOOK

ORGANIZATION:
Meet indoors in any comfortable room

1. INTRODUCE THE LET ME PLAY PROGRAM:
Speak with children about Let Me Play:
Let Me Play is a special physical activity (PA) program. Physical activity is important for everyBODY. We will schedule Let Me Play sessions ____ times per week from ______ to _______. Our Let Me Play days will be __________.

2. OUTLINE/DISCUSS THE BENEFITS OF PHYSICAL ACTIVITY:
Ask children, “Why is it important to be physically active?” After hearing their input, supplement with:
- Health benefits include improving muscular strength, heart and lungs (cardiovascular system), strong bones (bone density), body’s defenses against disease (such as heart disease, Type II diabetes, and some forms of cancer)
- Improves participation in lifetime sports and recreation (learn new sports, continue playing forever)
- Provides opportunities to play and get along with others, make new friends, and have fun
- Increases energy levels (more productive and alert)
- Better equipped to handle emergency situations
- Helps reduce stress levels and improves our mood
- Assists in weight control
- Helps people to look and feel better about themselves (increases self-confidence, self-esteem, and positive self-image)
3. SESSION FORMAT:
- What will we do in Let Me Play? Participate in active games and sports. Let Me Play sessions are designed to be really fun!
- What should you wear to a Let Me Play class? Athletic shoes and comfortable clothing.

4. RULES AND BEHAVIORAL REQUIREMENTS FOR CLASS:
Show the “Student Expectation Cards.” Lead an interactive discussion about your behavioral goals for students and the consequences for inappropriate actions.

5. TRANSITION TO ACTIVITY AREA (if necessary):
- Let your class know how you would like them to prepare for a Let Me Play session
- Escort children to the activity area
- “This is where we will meet for Let Me Play”
- If time, teach lesson one from the appropriate section

6. DISTRIBUTE PARENT/GUARDIAN LETTER FOR STUDENTS TO BRING HOME:
Sample copy master provided on the next page.
Dear parent(s),

A exciting, new, quality physical activity (PA) program is going to be offered to your child soon at (__________ school, or after school program). Nike has teamed up with SPARK (Sports, Play, and Active Recreation for Kids) to create a curriculum for Let Me Play. Let Me Play is Nike’s new global community effort to unleash human potential through sport. The initiative evolves our work around getting kids physically active through NikeGO, and focuses all new efforts around the power of sport to better communities and change lives. While the initiative will continue advocacy work around physical activity programs for kids, the focus of the initiative will be to get young people who have typically been left on the sidelines, into sports and on to a better life.

Nike and SPARK care about the health and learning readiness of children. SPARK research has shown that children who participate in SPARK classes at least three times per week for 30 minutes, are not only more active, more skilled, and physically fit, but also perform as well or better on standardized academic test scores. SPARK concepts and methods have been incorporated into Nike’s Let Me Play program.

Let Me Play evolved from years of research and field-testing with PE and after school programs nationwide. Let Me Play is designed to help teachers conduct activities for children that are inclusive, highly active, and fun. Additionally, Let Me Play lessons are designed to develop a child’s motor, personal, and social skills.

Let Me Play is different from traditional activity classes. Children will not stand in long lines waiting for a turn, or be a target for others to throw balls. The less skilled will have similar opportunities to learn and play as those that are very advanced. My goal will be for everyone to feel successful each time we meet and participate in Let Me Play.

Your child will participate in Let Me Play sessions on __________________________. Our first class will occur __________________________. In addition to regularly scheduled activity time, I will also be using Let Me Play activities for classroom activity breaks whenever I feel our children need a spark.

To provide the best possible activity experience for your child, we must all work together as a team. Please remind your child to dress appropriately for physical activity each scheduled Let Me Play day. For comfort and safety purposes, he/she should wear shoes with rubber soles and loose fitting clothing.

Physical activity must be done regularly to achieve the health benefits. Therefore, your child’s consistent participation is important. If she/he is sick or unable to participate in all/some activities, please let me know (via note or phone call) prior to the scheduled class. Inform me of the specific nature of the ailment and your recommended activity restrictions.

If you have any questions or concerns, please don’t hesitate to contact me at ____________.

Thank you very much,

__________________________________

(Teacher’s name here)
ESTIMADOS PADRES DE FAMILIA

Un Nuevo y emocionante programa de actividad física pronto será ofrecido a su hijo/hija en la _______________ escuela o en el programa de después de escuela. Nike a colaborado con la asociación SPARK (Sports, Play and Active Recreation for Kids) para crear un curriculum para el programa Let Me Play (Dejame Jugar). El programa Let Me Play (Dejame Jugar) es el esfuerzo de Nike en la comunidad global para desarrollar la mayor potencial humana por medio del deporte. Esta iniciativa desenvuelve nuestro trabajo en animar a los niños a participar en actividad física por medio de NikeGo y también enfoca todos los nuevos esfuerzos alrededor del deporte para mejorar a la comunidad y cambiar vidas. Aunque la iniciativa continuara su trabajo en crear programas de actividad física para niños, el enfoque de la iniciativa será en apoyar y ayudar a los jóvenes que tipicamente se queden sin participar en el deporte para que puedan participar y continuar con una manera de vida mas sana.

Para Nike y Spark la salud y preparación del aprendizaje de los niños es muy importante. Investigaciones sobre el programa SPARK han demostrado que niños que han participado en clases de SPARK tres días por treinta minutos, no nada mas son mas activos y saludables pero tambien anotan igual o mejor en examenes estandarizados academicos. Los conceptos y métodos de SPARK han sido incorporados en el programa Let Me Play (Dejame Jugar) de Nike.

El programa Let Me Play (Dejame Jugar) se a desarrollado después de años de investigaciones y pruebas en programas de educación física y programas de después de escuela en toda la nación. Let Me Play (Dejame Jugar) está diseñado para ayudar a los maestros conducir actividades para niños que incluyen a todos y que son altamente físicos y divertidos. Adicionalmente, las clases de Let Me Play (Dejame Jugar) estan diseñadas para desarrollar las habilidades mentales, personales y sociales de los niños.

Le Me play (Dejame Jugar) es diferente de programas tradicionales de actividad física porque incluye a niños de todo nivel físico sea alto o bajo. Los niños de nivel bajo tendrán las mismas oportunidades de aprender y jugar al igual como los niños de nivel avanzado. Mi meta es que todos se sientan exitosos cada vez que participen en el programa Let Me Play (Dejame Jugar).

Su hijo/hija participará en una sesión de Let Me Play (Dejame Jugar) el _______________.

Nuestra primer clase se llevará acabo el ____________. En adición del tiempo normalmente programado para actividad física, también estare usando actividades en el salon de Let Me Play (Dejame Jugar) cuando piense que sea necesario para motivar a los niños.

Tenemos que trabajar juntos para poder facilitar la mejor experiencia de actividad para sus niños. Favor de recordar a su hijo/hija de vestirse apropiadamente para actividad física cada dia programado para el programa Let Me Play (Dejame Jugar) cuando piense que sea necesario para motivar a los niños.

Actividad física se debe llevar acabo a diario para mantener una vida sana. Por eso mismo la participación de su hijo es importante. Si el o ella está enfermo o no puede participar en una o todas las actividades, favor de informarme por medio de una nota o por teléfono antes de la clase programada. Informeme la razon de la efermedad o de el problema y sus restricciones recomendadas.

Si tiene alguna pregunta o preocupación sobre este programa, porfavor no deje de llamar al ____________.

Muchas gracias,

______________________
(nombre del maestro)
Let Me Play Expectation Cards
Listen and follow directions
Keep all body parts to yourself
Respect others and equipment
Be a good sport
Let Me Play
Consequences

1. 1 MINUTE TIME-OUT
2. 3 MINUTE TIME-OUT
3. PHONE CALL HOME
A goal of all physical activity providers is to create a physically and emotionally safe and supportive environment; one in which children learn and have opportunities to practice positive social interactions. To achieve this goal, teaching social skills, not just during Let Me Play sessions, but school/program wide, is highly recommended.

There are two social skills per grade level in the Let Me Play program; a total of 12 from Kindergarten through 5th grade. It is recommended that teachers introduce a new social skill each semester (two per year). However, feel free to repeat and reinforce previously learned skills from any grade level.

**TIPS FOR TEACHERS:**

1. Introduce the social skill
   - Define/discuss the skill (e.g., Kindness)
   - Establish the need for the skill in society
   - Introduce the T-Chart by asking group, “What might “Kindness” sound like? What might it look like?” Be ready to offer several responses in each category. List student answers (with yours) on the chart. Post it and monitor their use of “Kindness.”

2. Process the social skill (after students have the opportunity to demonstrate they are kind during class)
   - “Who was kind to someone today?”
   - “How do you feel when someone is kind to you?”

**KINDERGARTEN (AGE 5)**

*Kindness*

“We like smiles! Will you share a smile with a friend? When someone is kind to you, how does that make you feel?”

*Caring*

“Everyone needs to know they are loved and cared for. How can you show others in our class YOU care about them?”

**GRADE 1 (AGE 6):**

*Courtesy*

“Will you remember to say please, excuse me, and thank you -- share and take turns?”

*Showing Appreciation*

When someone shares their beanbag, or invites you to join their group, how could you show your appreciation for them?

**GRADE 2 (AGE 7):**

*Self Control:*

“Will you stay calm in a stressful situation? Can you avoid using bad language?”
Respect for Others/Equipment:
“Can you treat each person and our PE equipment with great care?”

GRADE 3 (AGE 8):

Responsibility:
“What might your personal and group responsibilities be in this class?” (E.g., listen and follow directions, give your best effort, maintain a positive attitude even if the activity that day isn’t your favorite, etc.).

Helpfulness:
“Will you offer to be a partner to someone who needs one? Invite others into your group? Assist with putting away equipment after class?”

GRADE 4 (AGE 9)

Encouragement:
“Encouraging others is a sign of personal strength and confidence. See if you can make at least one encouraging statement every class.”

Acceptance of Personal Differences:
“Can you respect people that may be less skilled than you in an activity? Will you work to build them up instead of put them down?”

5TH GRADE (AGE 10):

Competition:
“Whether your group is ahead or behind when our time ends is not important. How you handle it is. What are appropriate ways to behave when ahead? When behind?”

Positive Disagreement:
“It’s easy to lose your cool. It takes courage and self-control to keep it. Can you settle differences by listening, talking, and compromising? Use rock, paper, scissors to decide.”

### ME: INSIDE - STRIKING BALLOONS

#### OBJECTIVES
- Striking
- Catching
- Levels
- Timing

#### EQUIPMENT
- 2 inflated balloons/student
- Music and player
- 4 cones for boundaries

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| BALLOON EXPLORATION AND CHALLENGES | • Scatter students within activity area (20x20 paces); each with a balloon. (Have 1 extra balloon per person.)  
• Give students 2–3 minutes to explore (play creatively) with their balloons.  
• Practice starting and stopping until learned.  
• Pose challenges, give students time to practice and improve.  
• Move to help those in need. | • Today, we’ll begin playing with balloons!  
• First, I’ll give you a few minutes to play with your balloon. Touch it gently so it doesn’t pop.  
• On music stop, hold your balloon between your knees (or feet), listen, and look at me. Let’s practice this a few times.  
**Challenges** – Can you keep your balloon in the air by touching it with:  
• The top of your hand?  
The top of your other hand?  
• The palm (explain) of your hand?  
The other palm?  
• Your arm?  The other arm?  
• Your elbow?  The other elbow?  
• Your knee?  The other knee?  
• Your thigh (point)?  Switch thighs.  
• Your head?  Your foot?  The other foot?  
• Two fingers?  3? 4?  Thumb only?  
• Each finger on 1 hand? Each finger on the other hand?  
• Without using your hands? |
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>

</thead>
<tbody>
<tr>
<td>BALLOON STRIKING CHALLENGES (CONTINUED)</td>
<td>• Explain/demonstrate striking. Show students how they can strike an object with their hand(s), with their feet (kicking a ball in soccer), and holding an implement (e.g., batting in baseball).</td>
<td>• Striking is moving a body part towards an object to send it into space. • We can strike with our hands (show with a balloon), our feet (show with a soccer style kick) and even with an object in our hands (show with a paddle).</td>
</tr>
<tr>
<td></td>
<td>• As before, now students strike the balloon with their hands.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>First, we’ll practice striking with our hands:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1. Hold the balloon in 1 hand around shoulder high.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. Reach back with your other hand.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3. Let go of the balloon and watch it drop slowly.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4. Swing your hand to strike the balloon up in the air.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Can you strike it up in the air a few feet?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Run under the balloon and catch it. Try again.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Try striking the balloon with your other hand.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Now try drop – strike – strike. Have your hand back, move under the balloon, strike it again, and catch it.</td>
<td></td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>----------</td>
<td>-------------</td>
<td>--------------</td>
</tr>
<tr>
<td>BALLOON STRIKING CHALLENGES (CONTINUED)</td>
<td>• Pose challenges, give students time to practice. • Move to offer help to those in need. • Encourage and allocate time near the end of the lesson for creative play.</td>
<td><strong>Challenges – Can you:</strong> • Strike the balloon from a low level? Medium level? High level? Squat position? Crab position? From your knees? • Strike your balloon up from a low level? Down from a high level? • Strike your balloon from hand to hand? • Toss your balloon in the air, then jump and strike it with 1 hand? The other hand? • Jump in the air and strike your balloon with a different body part? • Strike the balloon with an elbow, knee, shoulder, then catch it? What other combinations can you do? • Make your balloon go under a body part? 2? • What other ways can you strike your balloon? <strong>After Trials:</strong> • Play “Keep It Up.” How many times in a row can you strike your balloon up without a miss?</td>
</tr>
</tbody>
</table>
ME: INSIDE - BALANCE, TOSS AND CATCH WITH SCARVES

OBJECTIVES
- Tossing
- Catching
- Locomotor skills
- Rhythm and timing

EQUIPMENT
- 1 scarf/student
- Music and player: “Toss It High, Let It Fly” CAN COCKATOOS COUNT BY TWO’S CD
- 4 cones for boundaries
- Optional: 1 spot marker or hoop / student to establish homebase

ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
SCARF INTRODUCTION AND EXPLORATION
- Scatter students (within activity area 20x20 paces) each with a scarf.
- Introduce playing with scarves.
- Allow 2-3 minutes of exploration time while the music plays.
- Practice start and stop cues until learned.
- Today we’ll begin playing with scarves! Be careful not to step on a scarf; they can be slippery.
- Be gentle with your scarf; they are very delicate.
- You have a few minutes to play with your scarf while the music plays.
- When the music stops, show how well you freeze. Let’s practice that a few times.
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| SILLY SCARVES I | • Explain/demonstrate “Silly Scarves.”  
• Reference Locomotor Skills and Movement Challenges in Introduction section as needed.  
• Provide challenges and allow students to practice to music.  
• Change locomotor skills each time children move to new spots.  
• Change the movements children do when they arrive at their spots.  

Extension:  
• Teach “near” and “far.” Prompt students to find a new spot near them, or far from them.  
• Now we’ll play “Silly Scarves.”  
• I’ll give you a locomotor skill to do. While moving, wave and play with your scarf.  
• When you hear “Silly Scarves,” move safely to an open spot. Once you’re there, I’ll give you a challenge to do.  

Challenges – Can you:  
• Make giant circles in front of you? Over your head? To your side? The other side? Side to side in a big loop? Try it all again with the other hand!  
• Silly Scarves! Side-slide to a new spot.  
• Make a big square with your scarf? A triangle? A smaller triangle? A teeny, tiny triangle? Switch hands and try again.  
• Silly Scarves! Gallop to a new spot.  
• Make a zigzag with your scarf moving from low to high? High to low? Switch hands and try again.  
• Silly Scarves, skip to a new spot.  
• Place your scarf on top of your head and balance on 1 foot? Try the other foot. Huff and puff and blow it off? Swing it overhead side to side in the shape of a beautiful rainbow?  
• Silly Scarves, jump to a new spot.

</table>

**WHAT YOU SAY**

<table>
<thead>
<tr>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The song “Toss It High Let It Fly,” will tell us fun things to do with our scarves.</td>
</tr>
<tr>
<td>• Listen and follow along!</td>
</tr>
</tbody>
</table>

**LYRICS**

When you toss your scarf up high
Like a bird it rises to fly
Then gently it falls toward the floor, til’ you catch it and toss it once more.

Let it fly and land on your arm.
Let it fly and land on your leg.
Let it fly and land on your elbow.
Let it fly and land on your foot.

Toss it high, let it fly, and float down to the floor.
Now you leap and fly over the scarf.
Then fetch it and toss it once more.

Let it fly and land on your hand.
Let it fly and land on your head.

Let it fly, fly, as you turn underneath.
Toss it up high and spin, spin around.
Let it fly, fly as you turn underneath.
Now throw it and catch it and slowly sit down.

### ME: INSIDE - TOSS AND CATCH BEANBAGS

#### OBJECTIVES
- Rhythm and timing
- Tossing
- Catching
- Levels

#### EQUIPMENT
- 1 beanbag/student
- Music and player
- 4 cones for boundaries
- Optional: “Hokey Pokey” ALL TIME FAVORITE DANCES CD

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>EXPLORATION TIME</strong></td>
<td>Scatter beanbags (or crumple up newspaper) within activity area (30x30 paces). Send students to a beanbag; allow 2–3 min. of exploration time while you play music.</td>
<td>Can you skip quickly at a low level to a beanbag, then establish your home base? You have 2–3 minutes to explore while the music plays. When the music stops, show how quickly you can freeze and set your beanbag on the floor/ground.</td>
</tr>
</tbody>
</table>

| **HOKEY POKEY BEANBAG ROUTINE** | Teach moves to the tune of “The Hokey Pokey.” If the recording is not available, have a sing–along. Repeat several times, increasing the pace. **Extension:** Encourage students to move their feet during the routine, either with R ft. out and in, L ft. out and in, or jog in place to the beat. **Tip:** Use this routine anytime for a fun warm–up or cool–down. **Music Integration:** Do the “Hokey Pokey” dance from the ALL TIME FAVORITE DANCES CD. | Let’s warm up to our version of the “Hokey Pokey.” “You hold your beanbag high” Can you stretch on tip–toes and raise your beanbag high over head? “You hold your beanbag low” Can you squat and softly touch beanbag to floor/ground? “You place it on your head, then you shake it to and fro” Can you take the beanbag off your head and shake it left and right? “You do the Hokey Pokey and you turn yourself around” Can you shake your hips and move your arms while turning a full circle? “That’s what it’s all about” Can you “little (low) toss” your beanbag in the air and catch it? |

Continued on next page
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| SELF TOSS AND CATCH CHALLENGES | • Explain/demonstrate tips for tossing/catching as needed.  
• Show the difference between low (level), medium, and high tosses.  
\n• Give catching prompts as needed; students should:  
1. Have hands up, fingers spread, and be ready to catch.  
2. Watch the beanbag all the way into “soft” hands then close fingers around it.  
3. Reach to “capture” the beanbag and bring it into their body. | • Let’s keep practicing “low tosses” and catches with our beanbags.  
• Low tosses go no higher than the top of your head. Can you low toss side to side, hand to hand? Keep going – can you count your catches? How high can you count?  
• Raise 1 hand as high as you can. That’s as high as you can go on “medium tosses.” Try those, and watch your beanbag come down into both hands. Keep going.  
• How many 2–hand catches can you make before the music stops (or “Freeze!”)?  
• “High tosses” go just beyond your extended arm and fingertips (point and/or demonstrate). Be ready to move your feet to make the catch.  
• Start with low tosses, and if you make 2 catches in a row, you may toss a little higher. Can you keep going until you are practicing high tosses? |
### SELF TOSS AND CATCH CHALLENGES (CONTINUED)

**Activity:** ME: INSIDE - TOSS AND CATCH BEANBAGS CONTINUED

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>

</thead>
<tbody>
<tr>
<td>2–Hand Catch Challenges – Can you toss your beanbag:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Touch your ears, then catch it?</td>
<td></td>
<td>Touch your knees, then catch it?</td>
</tr>
<tr>
<td>Clap before you catch it? 2x? 5x?</td>
<td></td>
<td>And catch it at a very low level?</td>
</tr>
<tr>
<td>And show me others ways to catch it?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1–Hand Catch Challenges – Can you:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Low toss and catch with 1 hand? The other? How many can you do in a row?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Medium toss and catch with 1 hand? Try the other hand? How many can you do in a row?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>High toss and catch with 1 hand? The other?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Make 3–5 1–hand catches in 30 seconds? Ready, go!</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Hold your beanbag high, drop it, catch it below your waist? Below your knees? Just before it hits the floor/ground?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**For Advanced Learners:**
- Allow students to exchange their beanbag for a small, soft, ball if/when ready; then repeat challenges.

**Math Integration:**
- Students count when they catch.

---

**LET ME PLAY**

**LESSON: 3**
### OBJECTIVES
- Rhythm and timing
- Agility
- Rolling
- Catching from a bounce

### EQUIPMENT
- 1 4” ball/student
- Music and player
- 4 cones for boundaries
- Optional: Have a variety of balls available, different sizes, shapes, weights, textures

| BALL BOUNCE AND CATCH (CONTINUED) | • Pose challenges; move to help those in need. | **Challenges** – Can you drop, bounce and:  
• Clap your hands once, then catch the ball?  
• How many times can you clap your hands before you catch it? Count out loud.  
• Catch the ball with your eyes closed?  
• Can you hold the ball above your head, drop it, let it bounce once, then catch it?  
• How many times in a row can you do that without a miss? Count out loud.  
• Can you “low toss” the ball, no higher than your head, let it bounce once and catch it?  
• How many times in a row can you low toss, and catch it after it bounces? |
# ME: INSIDE - TOSS AND CATCH BALLS

## OBJECTIVES
- Agility
- Balance
- Tossing and catching
- Levels

## EQUIPMENT
- 1 8” utility ball/student OR 1 8” foamball/student
- Music and player
- 4 cones for boundaries
- Optional: Have a variety of balls available, different sizes, shapes, weights, textures (they do not need to bounce); and music: “Sweet Georgia Brown”

## ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**BALL EXPLORATION** | • Scatter students within activity area (30x30 paces), each with a ball. | • Explore with your ball at your home base (while the music plays).  
• When the music stops, show how well you freeze and place your ball between your feet on the floor/ground (model).  
• Let’s practice that a few times.  

*Tip:*  
• For safety indoors, a foam or very soft ball is recommended. It does not have to bounce.

**BALL ROUTINE** | • Instruct/lead ball routine 1 part (4 counts) at a time.  
• If suggested recording (Sweet Georgia Brown) is not available, whistle the tune, or choose a different 4-beat music selection.  
• After each part, add music for that segment. Practice until students can sequence all 4 parts.  
• Repeat several times.  

| Counts 1–4: Slap the ball 4x,  
Counts 5–8: Shake the ball 2x to the L, then 2x to the R,  
Counts 9–12: Bounce and catch the ball 2x,  
Counts 13–16: Toss the ball as high as your head and catch 2x.  

---

## Activity: Inside - Toss and Catch Balls

### Ball Challenges

- Provide challenges, start and stop activity with music (or “Go” and “Freeze”).

### What You Do

- Hold your ball in both hands and don’t let go!
- Can you step over it?
- Try to step backwards over it!
- Can you pin the ball behind your neck, let it roll down the middle of your back, then catch it before it hits the floor/ground?
- Keep practicing – can anyone do it 2x in a row?
- Can you toss the ball as high as your head, and catch it so softly that it hardly makes a sound? You have to “give” with the ball as it lands in very soft hands and fingers.

### What You Say

- Remember, “low tosses” are no higher than your head
- Can you low toss and catch your ball in the air?
- Keep going – can you make 2–3 catches in a row? Three–5? Five or more?
- “Medium tosses” go no higher than you can reach.
- Try those, and watch your ball come down into both hands softly.
- How many 2–hand catches can you make before the music stops (or “Freeze!”)? Start with low tosses, and if you make 2 catches in a row, try tossing a little higher.
- Can you keep going until you are doing medium tosses?
- “High tosses” are just above your extended arms. Can you practice them safely and stay near your homebase?

## Ball Toss and Catch

### Tip:

- Increase the distance between students before starting this activity.
- Review the difference between low tosses and medium tosses.
- Explain/demonstrate tips for tossing/catching as needed.

### Review Catching Prompts as Needed;

- Students should:
  1. Have hands up, fingers spread, and be ready to catch.
  2. Watch the ball all the way into “soft” hands then close fingers around it.
  3. Reach to “capture” the ball and bring it into their body.

### Literacy Integration:

- Read “Great Day For Up” by Dr. Suess.
ME – Outside

LESSON 1:
TOSS AND THROW TO TARGETS

LESSON 2:
BOUNCE AND CATCH BALLS

LESSON 3:
TOSS AND CATCH BALLS

LESSON 4:
DRIBBLING BALLS

LESSON 5:
TOSS AND CATCH WITH SCOOPS
### LESSON: 1

**WHAT YOU DO**

- Scatter beanbags along boundaries of activity area (30x30 paces).

**WHAT YOU SAY**

- On the music start (or “Go!”) walk quickly – in a zigzag pathway – to select a beanbag, and take it to your homebase.
- You have 1 minute to safely “explore” (play) with your beanbag around your homebase.
- On the music stop (or “Freeze!”) set your beanbag on the floor/ground next to you.

**ACTIVITY**

**BEANBAG EXPLORATION**

- Scatter beanbags along boundaries of activity area (30x30 paces).
- On the music start (or “Go!”) walk quickly – in a zigzag pathway – to select a beanbag, and take it to your homebase.
- You have 1 minute to safely “explore” (play) with your beanbag around your homebase.
- On the music stop (or “Freeze!”) set your beanbag on the floor/ground next to you.

**OLIVER TWIST BEANBAG ROUTINE**

- Teach the jingle, “Oliver Twist.”
  - Have children move their beanbag to touch each body part mentioned in the song.
  - Repeat several times increasing the pace.
  - Use this anytime for a fun warm-up or cool-down.

**Literacy Integration:**

- Read “From Head To Toe” by Eric Carle.
- Tip:
  - This activity may be taught indoors in limited space.

**EQUIPMENT**

- 1 beanbag/student
- Music and player
- All available hoops
- Whistle

**OBJECTIVES**

- Rhythm and timing
- Underhand toss
- Overhand throw
- Throwing accuracy
- Throwing for distance
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>TARGET BEANBAG</td>
<td>• Move students so they stand on a sideline of the activity area (30x30 paces), facing 3 rows of scattered hoops; beanbags on the floor/ground.</td>
<td>• Let’s practice the motion of the 1-hand underhand toss together.</td>
</tr>
<tr>
<td></td>
<td>• Explain/demonstrate 1-hand underhand toss without a beanbag and allow student practice.</td>
<td>Cues for 1-Hand Underhand Toss:</td>
</tr>
<tr>
<td></td>
<td>• Move to assist those tossing with wrong foot forward.</td>
<td>• Feet close together, hold bean bag with 1 hand.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Reach your throwing arm back behind your body.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Step towards target with your opposite foot.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Swing your arm forward.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Let go of the beanbag when your hand points at your target.</td>
</tr>
<tr>
<td></td>
<td>For safety, all students throw and retrieve on cue.</td>
<td>• The object of “Target Beanbag” is to (1-hand underhand) toss your beanbag into a hoop.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On “Throw!” underhand toss your beanbag to a target within the 1st row of hoops.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On “Go!” fast walk (gallop, skip) to retrieve your own beanbag and fast walk back.</td>
</tr>
<tr>
<td></td>
<td>After tosses to the first row of hoops, have students throw to next row, finally last row.</td>
<td>• The faster you retrieve your beanbag and get ready, the more tosses you get.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Let’s try the 1st row of hoops again.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>After Trials:</td>
</tr>
<tr>
<td></td>
<td></td>

**BALL CHALLENGES**
(CATCHING AFTER A BOUNCE)

- Scatter students, each with a ball, within activity area (30x30 paces).

- Provide challenges at a developmentally appropriate pace.

- Encourage and compliment students on task and doing their best; move to help those in need.

- Today, we’re focusing on ball skills. I’ll give you a challenge and turn on the music (or say “Go!”). Practice until the music stops (or “Freeze!”).

**Challenges – Can you:**
- Hold the ball with your elbows; let it drop and catch it with your hands before it hits the floor/ground?
- Hold the ball between your elbows and skip around general space without dropping it or touching anyone?
- Hold the ball between your knees and jump in general space?

</thead>
</table>
| BALL CHALLENGES  
(CATCHING AFTER A BOUNCE CONTINUED) | • Hold the ball between your knees and walk forward?  
• Drop your ball in front of you, let it bounce once, then catch it with both hands? Hug it. Move your arms underneath the ball to trap it and keep it from dropping.  
• Each student with a ball standing approx. 3–4 paces from a wall. | Tips for catching:  
• Students should:  
1. Have hands up and fingers spread ready to catch.  
2. Watch the ball into “soft” hands.  
3. Reach out to “capture” the ball and bring it into the body in a “relaxed” motion.  
Can you drop your ball, let it bounce once and:  
• Catch it with both hands?  
• Catch it twice in a row without missing? Three–5xs? Five–10xs?  
• Clap your hands once, then catch the ball? How many times can you clap your hands before you catch it? Count out loud.  
• Catch the ball with your eyes closed?  
• Can you toss the ball just above your head, let it drop, let it bounce, then catch it? If you make the catch, you may toss it a little higher the next time.  
Wall Challenges (if a wall is available) – Can you:  
• Underhand toss your ball against the wall, let it bounce once, then catch it?  
• How many times in a row can you toss, bounce, and catch?  
• How quickly can you toss, bounce, catch, 2–3xs? Five or more? |
## BRIDGES AND BALL CHALLENGES

- Pose challenges, give students ample time to practice.
- Move to help those in need.

**Challenges – Can you:**

- Make a bridge over your ball with your stomach pointed **down**? Now lower your body to touch your ball. Can you move your body up and down to touch the ball 3 times?
- Make a bridge over your ball with your stomach pointed **up**? Now, lower your body to touch your ball. Can you move your body up and down to touch the ball 3 times?
- Can you balance the ball on your stomach and move around on all fours (crab walk)? How far can you go?

## CRAB TAG

**TO PUT BALLS AWAY**

- Students in the crab position (stomach up, 4 pt. bridge on hands and feet) holding the ball between their knees.
- All students must crab walk (unless putting a ball away after being tagged).

**Extension:**

- Designate students to skip, gallop, sideslide, etc. instead of walking to put ball away.

**This game is called “Crab Tag.”** Everyone will walk like a crab.
- All “crabs” will hold a ball (“oyster”) between their knees.
- I will select 3 people to be “fisherpersons.” They DO NOT have a ball and will try to safely tag (with 2 fingers) 1 crab at a time.
- When tagged, crabs **stand** and **walk** to place their oyster in the “tank” (ball cart or bag), then become fisherpersons and help tag others.
- When all oysters are in the tank, the game is over, and we will begin our cool-down.
### OBJECTIVES
- Object manipulation
- Eye–hand coordination

### EQUIPMENT
- 1 8” foamball/student
- 4 cones for boundaries
- Music and player

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>BALL EXPLORATION</td>
<td>Scatter balls along boundaries of activity area (30x30 paces). Tip: Have both foam and utility balls available to offer students choices. Begin catching activities with foamballs and progress.</td>
<td>On the music start (or “Go!”) gallop slowly – at a high level – to select a ball, and take it to your homebase. You have 1 minute to safely “explore” (play) with your ball around your homebase. On the music stop (or “Freeze!”) hold your ball in the Ready Position.</td>
</tr>
</tbody>
</table>

| BALL CHALLENGES (CATCHING WITHOUT A BOUNCE) | Review/demonstrate tips for catching, then pose challenges. Students should: 1. Have hands up, fingers spread, and be ready to catch. 2. Watch the ball all the way into their “soft” hands. 3. Reach to “capture” the ball and bring it into the body in a “relaxed” motion. | Today, we’ll practice catching a ball in the air – without a bounce. Challenges: 1. Can you low toss your ball as high as your head and catch it? Twice in a row? 2. If you catch it twice in a row, try for 3–5x. 3. If you catch the ball 3x in a row or more, you can try tossing it as high as you can reach. 4. Move under the ball to get in position. Show how well you move your feet. 5. Can you catch it twice (without it dropping)? Three–5xs? Five–10x? How many times in a row? Count out loud. |

Continued on next page
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| BALL CHALLENGES (CATCHING WITHOUT A BOUNCE CONTINUED) | • Pose challenges, give students ample time to practice.  
• Move to help those in need. | • For these next challenges, only toss the ball as high as you can catch.  
Can you toss your ball:  
• Touch your ears, then catch it? Touch your toes?  
• Clap before you catch it? Two–xs? Five–xs?  
• Progressively (define/emonstrate) higher and catch it?  
• And catch it at a very low level?  
• Can you think of other ways to toss and catch your ball? |

| BALL CHALLENGES | Tip:  
• Challenges where students turn to catch should only be attempted after many practice opportunities and/or with advanced learners.  
• After each challenge allow ample time (2–3 minutes) for student practice. | Can you toss your ball:  
• Above your head, turn to a side (quarter turn), and catch it? Keep going until you are back where you started from?  
• Above your head, turn to face the other direction (half turn), and catch it? Do it again and you will be back in your original position!  
• Above your head, turn in a circle (full turn) and still catch the ball?  
• And catch it in the air 2xs in a row? Each toss must go at least a body length (explain/demonstrate) in the air. Don’t let the ball hit the ground. Three–5xs? 5 or more?  
• Each time you catch it twice in a row you may toss it a little higher. If you drop it, try again with a toss of the same height. |

| Each student with a ball standing approx. 3–4 paces from a wall. | Wall Challenges (If a wall is available):  
- Can you toss your ball to the wall and catch it in the air? Try not to let it bounce.  
- How many times in a row can you toss and catch your ball?  
- How many times can you toss and catch your ball in 15 seconds? Count the catches only!  
- Let’s try it again; see if you can beat your score! Remember, count only catches. | |
| Literacy Integration:  
- Play “Alphabet Step Up:” Students on a line, facing forward. After each successful catch, students take 1 step forward. Pose the challenge, “How far forward can you get in 1 minute?” | | |
| **THE BEE CATCHERS**  
* (TO PUT BALLS AWAY) | Students hold ball in front of stomachs, pretending it is a “honey pouch.” | This game is called “The Bee Catchers!”  
- Everyone will pretend they are a “bee.” Each bee has their own “honey pouch” (ball).  
- I will select 3 people to be “bee catchers.” They will attempt to safely 2–finger tag 1 bee at a time.  
- Tagged bees carefully place their honey pouch (ball) in the “hive” (ball cart or bag) and then become bee catchers.  
- When all honey pouches are in the hive, the game is over and we will begin our cool–down. | |
| | Continue until all balls are put away. | |

<tr>
<td>DASH AND DRIBBLE</td>
<td>• Students dribble (“dash”) in general space, then return to homebase on cue.</td>
<td>• This activity is called “Dash and Dribble!” Where you’re standing right now is your homebase.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On music (or “Go!”), everyone will “dash” to practice dribbling basketball style with 1 hand</td>
</tr>
<tr>
<td></td>
<td></td>
<td>anywhere within the boundaries of our activity area.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you hear “GO HOME!” dribble back to homebase, then dribble in place.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Watch where you’re going! Try to dribble low to the ground when in general space.</td>
</tr>
<tr>
<td>Extensions:</td>
<td>• Students dash for 8 counts, then stop and dribble the ball in place for 8 counts.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Play again, this time with soccer style dribbling.</td>
<td>• Try dribbling with the other hand. Change directions. Stop moving, but keep your dribble going.</td>
</tr>

### ME: OUTSIDE - TOSS AND CATCH WITH SCOOPS

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SCOOP AND BALL INTRODUCTION AND SELECTION</strong></td>
<td>• Scatter scoops and plastic balls (1/student) along boundaries of activity area (30x30 paces).</td>
<td>• Playing with scoops and balls is fun! Before we begin, there are some things everyone should know:</td>
</tr>
<tr>
<td></td>
<td>• Share your expectations with the class before sending them to select a scoop and ball.</td>
<td>1. On music start (or “Go”) you may begin playing with your scoop and ball.</td>
</tr>
<tr>
<td></td>
<td>• Review safety, boundaries, and start and stop cues.</td>
<td>2. When you hear the music stop (or “Freeze”) place your scoop on the floor and the ball between your feet; stop, look, and listen.</td>
</tr>
<tr>
<td></td>
<td>• Send students to select a scoop and ball, and establish their homebases.</td>
<td>3. What other things can we do to be safe when we play with scoops? (Stay within our boundaries, be far from others, look before we toss our ball, watch where we’re going, etc.)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On music start, side-slide quickly to select a scoop and ball and take them to a homebase.</td>
</tr>
</tbody>
</table>

**OBJECTIVES**
- Eye–hand coordination
- Balance
- Bouncing
- Throwing
- Catching

**EQUIPMENT**
- 1 scoop and ball/student
- Music player and music
- 4 cones for boundaries
- Optional: 1 beanbag or fluffball/student
## SCOOP AND BALL CHALLENGES I

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Have beanbags and fluffballs available for students to use.</td>
<td><strong>Challenges – Can you:</strong></td>
</tr>
<tr>
<td></td>
<td>• Allow students to practice each challenge for 1–2 minutes before posing the next one.</td>
<td>• Pick up your ball from the ground with your scoop?</td>
</tr>
<tr>
<td></td>
<td>• During play, it is not necessary for students to set the scoop and ball down each time.</td>
<td>• Hold the ball in your scoop and move slowly in general space without dropping it? If you hear, “Go Home!” return to home base.</td>
</tr>
<tr>
<td></td>
<td>• When posing a new challenge, have students hold ball in 1 hand, scoop in the other; stop, look, and listen.</td>
<td>• Toss your ball, let it bounce (once or twice), catch it with your scoop? Do it twice in a row? 3? 4?</td>
</tr>
<tr>
<td></td>
<td>• Direct students to switch hands (both ball and scoop in non–dominant hands) and repeat challenges.</td>
<td>• Toss low, let ball bounce, catch it at a low level?</td>
</tr>
<tr>
<td></td>
<td>• Repeat challenges, this time students catch the ball before it bounces.</td>
<td>• Toss high, let ball bounce, catch it at a high level?</td>
</tr>
<tr>
<td></td>
<td>• Toss your ball a little higher, let it bounce twice, catch it?</td>
<td>• Toss your ball, turn around, let it bounce, catch it? Can you do it twice in a row?</td>
</tr>
<tr>
<td></td>
<td>• Toss your ball, turn around, let it bounce, catch it? Can you do it twice in a row?</td>
<td><strong>After Trials:</strong></td>
</tr>
<tr>
<td></td>
<td>• Now we’re ready to try the challenges again; this time, toss and catch with the other hand!</td>
<td>• Now we’ll try catching the ball with the scoop before it bounces.</td>
</tr>
</tbody>
</table>

**After Trials:**

• Can you toss with 1 hand, change the scoop to the other hand, and catch it?

• Can you toss, spin around 1 time, catch the ball after 1 bounce?

• Try again, this time catch it in the air!
### SCOOP AND BALL CHALLENGES II

**WHAT YOU DO**
- Prompt return to dominant hand and pose new challenges; this time, using the scoop to toss.

**WHAT YOU SAY**
- **Challenges Using Scoop To Toss**
  - Can you place the ball in your scoop, toss ball low, let it bounce, catch it?
  - Can you catch it at a low level? Medium level? High level? How low can you go?
  - Put ball in scoop, toss it high, let it bounce, catch it? After each successful catch, try tossing it higher.
  - Ball in scoop, toss it, catch it in the air before it bounces?
  - How many times can you toss and catch your ball before a miss?
  - How quickly can you toss and make 5 catches?
  - How many catches can you make in 15 sec.?
  - What new ways can you toss and catch with your ball and scoop?

**Extensions**
- If a wall is available, student’s toss their ball against the wall, let it bounce, then catch it with the scoop.
- Have students switch hands, repeat challenges.

### SCOOP EM’ UP

**WHAT YOU DO**
- After everyone sets their ball down, students move within general space to pick up someone else’s ball with their scoop.

**WHAT YOU SAY**
- Place your ball on the floor/ground.
- On music start, move and pick up someone else’s ball with your scoop.
- Watch where you step and look around before you change directions.
- Safely and carefully put your equipment away.
WE – Inside

LESSON 1: 
STRIKING BALLOONS

LESSON 2: 
BALANCE, TOSS AND CATCH WITH SCARVES

LESSON 3: 
BEANBAG GAMES
WE: INSIDE - STRIKING BALLOONS

### OBJECTIVES
- Striking
- Agility
- Timing
- Cooperation

### EQUIPMENT
- 2 inflated balloons/student
- Music and player: “Shadow Dancing”
- KIDS IN MOTION
- 4 cones for boundaries

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
---|---|---
**BALLOON EXPLORATION AND CHALLENGES IN PAIRS** | | |
- Scatter pairs within activity area (20x20 paces); each with a balloon. (Have 1 extra balloon per person.) | Today, you and your partner will play with balloons. Show how well you take turns and share. |
- Give students 2–3 min. to explore (play creatively) with their balloons. | First, I’ll give you a few minutes to play with your balloon together. Touch it gently so it doesn’t pop. |
- Practice starting and stopping until learned. For more control, have children hold the balloon between knees/feet or place it on the floor nearby. | When the music stops, hold your balloon, listen, and look at me. Let’s practice this a few times. |
- Pose challenges, give students time to practice and improve. | Challenges – Can you and your partner take turns keeping your balloon in the air by touching it with: |
- Move to help those in need. | - The top of your hand? The top of your other hand? |
- Change partners and play again. | - The palm (explain) of your hand? Other palm? |
- | - Your arm? The other arm? |
- | - Your elbow? The other elbow? |
- | - Your knee? The other knee? |
- | - Your thigh (point)? Switch thighs. |
- | - Your head? Your foot? The other foot? |
- | - Two fingers? Three? Four? Thumb only? |
- | - Each finger on 1 hand? Each finger on the other hand? |
- | - Without using your hands? |

<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>KEEP IT UP</td>
<td>• Pairs take turns striking the balloon up in the air, then back and forth.</td>
<td>• Time to play Keep It Up!</td>
</tr>
<tr>
<td></td>
<td>• Switch partners every 3–5 minutes.</td>
<td>• Using any body part, how many times in a row can you and partner take turns striking the balloon up in the air?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Count each touch out loud. If you miss, begin again!</td>
</tr>
<tr>
<td></td>
<td><strong>Extensions:</strong></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Double Trouble: Add a 2nd balloon and challenge pairs to keep both in the air.</td>
<td><strong>After Trials:</strong></td>
</tr>
<tr>
<td></td>
<td>• Over the Line: As pairs back up, place a line between them (to stay behind and hit over i.e., striking back and forth over a tennis net).</td>
<td>• Each of you take a step back and try again.</td>
</tr>
</tbody>
</table>
### SHADOW DANCING

**Activity:**
- Send children to put their balloons away, then scatter everyone within the activity area.
- Caution children not to follow their partner too closely.

**Tip:**
- Change switch signals (e.g., drum, tambourine, soft whistle, hand signal, etc.).
- Use this dance as a warm-up any time children are paired.

**Science Integration:**
- In the classroom, discuss how shadows are created. Take children near the window or outside and ask if they can see their own shadow. Allow time for exploration and using their shadows to make different shapes.

**Lyrics**

We’re gonna play a game called “Shadow Dancing.”

All you have to do is follow me.

Just watch me closely and be my shadow.

Can you move your body just like me?

**Chorus**

Shadow Dancing… do what you see.

Shadow Dancing… exactly.

Shadow Dancing… do what you see.

Shadow Dancing… do it just like me.

**Instrumental Verse**

**Chorus**

Come on, let’s play a game called “Shadow Dancing.”

All you have to do is follow me.

Well, you’re to watch me closely and be my shadow. Can you move your body just like me?

1987 Youngheart Records
OBJECTIVES
- Tossing
- Catching
- Locomotor skills
- Rhythm
- Timing
- Cultural awareness

EQUIPMENT
- 2 scarves/student
- Music and player: “Toss It High, Let It Fly”
  CAN COCKATOOS COUNT BY TWO’S &
  “Kuma San” J.U.M.P.
- 4 cones for boundaries
- Optional: If no scarves, substitute plastic bags

ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
SCARF INTRODUCTION AND EXPLORATION | • Scatter pairs within the activity area (20x20 paces) each with a scarf. | • Today we’ll play with scarves! Be careful not to step on a scarf; they can be slippery.  
• Be gentle with your scarf; they are very delicate.  
• You and your partner have a few minutes to play with your scarf while the music plays.  
• When the music stops, show how well you freeze. We’ll practice that a few times.  
• Allow 2–3 minutes of exploration time while the music plays.  
• Practice start and stop cues until learned.  

SILLY SCARVES II | • Have 2nd scarves available nearby for children to pick up. | • Now we’ll play “Silly Scarves.”  
• You and your partner will stand by one another and listen for my challenges. Perform those challenges while the music plays.  
• When you hear “Silly Scarves!” it’s time for the 2 of you to find a new place to play. I’ll give you a locomotor skill to get your there.  
• While moving, wave and play with your scarves. When you arrive at your new play space, I’ll give you different challenges to do.  
• Explain/demonstrate “Silly Scarves.”

</thead>
</table>
| SILLY SCARVES II (CONTINUED) | 1. Provide challenges and allow students to practice to music. | Challenges:  
  - Can you toss your scarf and catch it with the same hand you tossed it with? While you march in place?  
  - How many times in a row can you toss and catch it?  
  - Who can toss and catch 3–5x? More than 5?  
  - *Silly Scarves!* Side–slide together to a new spot.  
    - Can you toss your scarf and catch it with your opposite hand? While you jog in place?  
    - Can you and your partner toss your scarves and catch the others person’s scarf? While jogging in place?  
    - *Silly Scarves!* Gallop to a new spot.  
    - How quickly can each of you select another scarf and change partners?  
    - Can you toss R-L, and catch R-L? Can you toss L-R and catch L-R?  
    - Can you work with your partner so you toss and catch your scarves at the same time? Try it facing each other. How well can you time your tosses and catches?  
    - *Silly Scarves!* Skip to a new spot.  
  - 2. Change locomotor skills each time children move to new spots.

</thead>
<tbody>
<tr>
<td><strong>SILLY SCARVES II</strong></td>
<td></td>
<td>• Face your partner. Can you work with your partner so you catch each other’s scarves? One person tosses, the other catches that scarf. Take turns until you’ve used all 4 scarves and repeat the same pattern.</td>
</tr>
<tr>
<td>(CONTINUED)</td>
<td></td>
<td>• Can you keep it going? Count your catches out loud.</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>After Trials:</strong></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Try again, this time side by side.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Try again, this time one behind the other.</td>
</tr>
<tr>
<td><strong>KUMA SAN</strong></td>
<td>• Play Back to Back for children to find a new partner. Each partner with 2 scarves.</td>
<td>• The name of this song is, “Kuma San.” Kuma San is Japanese for “teddy bear.”</td>
</tr>
<tr>
<td>(SONG FROM JAPAN)</td>
<td>• Cues in the song will explain what to do; however, have students practice moves without the music first.</td>
<td>• The music is soft and low.</td>
</tr>
<tr>
<td>(LYRICS ON FOLLOWING PAGE)</td>
<td>Tip:</td>
<td>• We will use our scarves to help us tell the story of the dance.</td>
</tr>
<tr>
<td></td>
<td>• Practice first with students staying near their home bases; if/when ready, allow them to move within activity area boundaries.</td>
<td></td>

<tr>
<td>KUMA SAN</td>
<td></td>
<td>Let’s practice the movements together:</td>
</tr>
<tr>
<td>(SONG FROM JAPAN) (CONTINUED)</td>
<td></td>
<td>“Turn around”</td>
</tr>
<tr>
<td>LYRICS</td>
<td></td>
<td>• At your home base, can you and your partner turn and move your streamer in giant circles?</td>
</tr>
<tr>
<td>VERSE 1</td>
<td></td>
<td>“Touch the ground”</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you turn around?</td>
<td></td>
<td>• Can you both sweep your scarves along the floor in a figure 8 (model)?</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you touch the ground?</td>
<td></td>
<td>“Move your feet”</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you move your feet?</td>
<td></td>
<td>• Can you walk together forward and back a few feet while moving your scarves up and down?</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you keep the beat?</td>
<td></td>
<td>“Keep the beat”</td>
</tr>
<tr>
<td>VERSE 2</td>
<td></td>
<td>• Move your scarves any way you wish. Try and keep the beat.</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you turn around?</td>
<td></td>
<td>• Let’s try the first verse with the music.</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you touch the ground?</td>
<td></td>
<td>After Trials:</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you jump up high?</td>
<td></td>
<td>• Try coordinating your movements and adding drama to them. Can you make big sweeping turns, add big leaps, or wave your arms high?</td>
</tr>
<tr>
<td>Kuma San, Kuma San, can you touch the sky?</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Extension:
• Use pairs of chopsticks (or streamers) instead of scarves. Children tap them together while performing moves to produce a quiet and delicate sound.

© 1995 music & lyrics, Lee Campbell-Towell, Cat Paws in Motion™
**OBJECTIVES**
- Hand–eye coordination
- Reaction time
- Rhythm
- Upper body strength

**EQUIPMENT**
- 1 beanbag/student
- Music and player: “Kid Star” J.U.M.P.
- 4 cones for boundaries
- **Optional:** Assortment of balls and fluffballs

**ACTIVITY**
**WHAT YOU DO**
- Scatter beanbags in activity area (30x30 paces).
- Pairs sitting cross-legged on floor facing each other, hands on knees. Beanbag between them.
- Lead activity by giving group a task then playing music. When you stop the music, each person tries to grab the 1 beanbag.
- Repeat each challenge with a cue to use the other hand.

**WHAT YOU SAY**
- The object of Grab the Apple is to take the beanbag before your partner does.
- I’ll give you different things to do while the music plays. When it stops, reach quickly for the beanbag.
- In this game, the beanbag represents a serving of fruit. Five servings of fruits and vegetables a day are recommended. How quickly can you get your 5 servings?

**Ready:**
1. Hands on knees! Listen carefully, as soon as the music stops, grab the apple!
2. Same thing, opposite hand!
3. Hands on shoulders!
4. Thumbs in ears!
5. Snap your fingers to beat!
6. Slap your palms on floor on the beat!
7. Slap hands to floor twice, then clap twice.
8. Slap hands to floor twice, then with partner twice. Stay on the beat!

**Extension:**
- Add other tasks for students to do before they grab the apple.
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **GRAB THE APPLE**  
(CONTINUED) | Social Studies Integration:  
- Discuss where fruits and vegetables are grown in the world. | • How quickly can you find a new partner? Sit and place the beanbag between you.  
• When I see everyone is ready, we’ll play again. |
| **BEANBAG HOCKEY** | • Pairs on hands and knees facing each other; 3–4 paces away.  

**Tips:**  
- Play with a beanbag (plastic hockey puck, fluffball, or similar) indoors on a smooth service; and balls small enough to grasp on dirt or grass.  
- Switch partners every 1–2 minutes. | • The object of Beanbag Hockey is to score a goal. You do that by sliding the beanbag through the arms of your partner.  
• You may defend your goal with 1 hand.  

**After Trials:**  
• Increase the distance between your partner and you.  
• Let’s play again. This time you may continue to play on hands and knees, or try holding a 4pt bridge (pushup position). |
### KID STAR

**LYRICS**

**KID STAR! KID STAR!**

**CHORUS**

Kid Star shaking it, everybody’s making a sound, Kid Star shaking it, everybody’s moving around.

I’ve got a serious devotion to motion, I’ve got a habit it’s true, I’ve gotta keep my body physically fit and my mind will be there too!

**VERSE**

Gonna shake it high, gonna shake it low, shake it in the middle, shake it to and fro!

**CHORUS REPEATS**

Gonna shake it to the East gonna shake it to the West, shake it with the one that you love the best! Instrumental and Kid Star 8xs.

1995 Lee Campbell towel, Cat Paws in Motion

WE – Outside

LESSON 1:
ROLL AND TRAP HOOPS

LESSON 2:
THROW AND CATCH BEANBAGS AND BALLS

LESSON 3:
ROLL, TOSS AND CATCH BALLS WITH SCOOPS
## OBJECTIVES
- Cooperative behavior
- Rolling
- Trapping
- Spinning
- Locomotor skills
- Agility
- Large object manipulation

## EQUIPMENT
- 1 hoop/student
- 4 cones for boundaries
- Music and player
- Whistle

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**HOOP EXPLORATION** | Scatter hoops within activity area (30x30 paces). | Can you side-slide slowly in a curved pathway to a hoop? You have 1 minute to safely explore and play with your hoop.

### CHARIOT DRIVERS
- Pair students. Have them identify 1 as a “Chariot,” the other a “Driver.”
- Chariots stand in both hoops for extra rigidity.

<table>
<thead>
<tr>
<th>This game is called, “Chariot Drivers!” Who will tell us what a Chariot is?</th>
<th><strong>Chariots:</strong> Stand inside both hoops and hold the front of them with both hands.</th>
<th><strong>Drivers:</strong> Stand outside the hoops, behind your partner, facing in the same direction. Hold the back of the hoops with both hands.</th>
</tr>
</thead>
<tbody>
<tr>
<td>On music, drivers begin moving their chariots slowly and safely within our activity area.</td>
<td>When you hear, “New drivers!” switch roles.</td>
<td></td>
</tr>
</tbody>
</table>

Continued on next page
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **CHARIOT DRIVERS**  
(CONTINUED) | Give challenges while all are moving.  
Vary locomotor skills, levels, tempos, and pathways.  
**History Integration:** Teach Roman history; tell stories and show pictures of Chariot racing. | **Challenges – Can you move:**  
In a different direction?  
Slower? Faster?  
In a low level in a zig-zag pathway?  
At a high level in a curved pathway?  
Galloping in step with one another?  
Jumping at the same time? |

| **PARTNER ROLL AND TRAP (CATCH)** | Change partners quickly.  
Have partners face each other standing 5 paces apart.  
Students roll hoop back and forth at own pace. | How quickly can you find a new partner?  
One is a Chicago Cub, the other a New York Yankee, decide now.  
Yankees, return your hoop to _____. We’ll only need 1 hoop per pair.  
We’ll practice rolling and catching our hoop with partners!  
Try the “Alligator catch” to stop the rolling hoop. Clasp your hands together (like an alligator’s jaws) around the hoop before it rolls past you.  
Can you roll the hoop to your partner without making them move to catch it? |
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **PARTNER ROLL AND TRAP (CATCH)** | • Repeat challenges encouraging students to improve their previous totals. | Challenges:  
• Rolling the hoop only, how many catches can you and your partner make in 15 seconds? Count your clean catches!  
• How long does it take you and your partner to make 10 catches? When finished, create a new trick!  
• Practice catching with 1 hand! Now try the other hand. Use whichever is closest to the rolling hoop.  
• Now we’ll play “Partner Step Back.” When each of you catches the hoop 1 time, both take a step back and try again. If you miss, continue at that distance until you make 2 catches in a row.  
• How far back can you and your partner get in 2 minutes? |
| **BOOMERANG (REVERSE SPIN)** | • Explain/demonstrate how to put reverse spin on a hoop. | • This trick is called the “Boomerang.”  
• You toss your hoop away, but when you spin the hoop backwards, it comes back to you!  
• Hold your hoop on top. Reach back, then swing your arm forward. As you let go, keep the hoop low and pull down with your wrist.  
• The more backwards spin on the hoop, the further away you can toss it and still have it come back.  
Challenges – Can you:  
• Catch your hoop when it returns?  
• Move through it before it falls?  
• Catch your hoop 3 times in a row?  
• How many boomerang catches can you make in 30 seconds? |

**Language Arts Integration:**  
• Read “Wheel Away” by Dayle Ann Dodds.
**OBJECTIVES**
- Small object manipulation
- Eye–hand coordination
- Throwing and catching

**EQUIPMENT**
- 1 beanbag/2 students
- 1 fluffball/2 students
- Other small soft balls to throw and catch
- Music and player
- 4 cones for boundaries

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| BALL SELECTION | • Scatter balls along boundaries of activity area.  
• After having pairs select 1 fluffball and 1 beanbag, move them to partners face off, 5 paces apart, within activity area (30x30 paces). | • How quickly can you find a partner?  
• On “Go!” skip at a low level with your partner to select 1 fluffball and 1 beanbag; then take them to your homebase. |

| PARTNER THROW AND CATCH | • Students practice safe tossing and catching the fluffball (or beanbag) in the air; no bounce in between.  
• On 1–hand tosses/throws, reinforce students stepping with 1 foot towards their target (opposite foot to hand, e.g., throw R, step L.).  
• Play “Step Back” for 2–3 minutes. Move to provide feedback and help those in need. | • When the music starts (or “Go!”) practice tossing and catching the fluffball or beanbag. You choose the “tossable” with your partner.  
• Make your throws soft and easy to catch. Aim for your partner’s hands.  
• Watch the ball; have your hands up and ready to catch! |

1–Hand Underhand Throws
- Feet close together, hold the ball with 1 hand.
- Reach your throwing arm back behind your body.
- Step towards your target with your opposite foot.
- Swing your arm forward.
- Let go of the ball when your hand points at your target.
- When you and your partner each make a catch, take 1 step back and try again.

<td>(CONTINUED)</td>
<td></td>
<td>• Now let’s practice the (1-hand) overhand throw:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>1 – Hand Overhand (baseball throw):</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Stand sideways to your target. Feet shoulder width apart.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Point at the target with your opposite hand, reach back and point the ball directly behind you.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Step towards your target with your opposite foot.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Turn to face your target, bring throwing arm forward, extend it, and release the ball when it points at your target.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Follow through.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you and your partner each make a catch, take a step back and try again.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• You can try throwing and catching another tossable anytime.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Play Step Back, this time with overhand throws.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Switch partners every 3–5 min.</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>---------------------</td>
<td>-----------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>PARTNER THROW AND CATCH CHALLENGES</td>
<td>• Vary the type of throw students use to practice or allow them to choose.</td>
<td>Challenges – Can you:</td>
</tr>
<tr>
<td></td>
<td>• Allow 10 or more attempts before presenting the next challenge.</td>
<td>• Toss the ball above your partner’s waist? Be ready to catch! Below their waist? At their knees? Chest? Nose? Right shoulder? Left shoulder?</td>
</tr>
<tr>
<td></td>
<td>• Prompt students to try throwing and catching different objects. Have other small, round balls available for children to practice with (e.g., wiffle ball, rag softball, small foam ball, etc.).</td>
<td>• Toss to 1 side of your partner? The other side?</td>
</tr>
<tr>
<td></td>
<td>• Switch partners every 3–5 min.</td>
<td>• Toss your ball high so your partner has to jump to catch it?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Toss it very low by your partner’s feet? Try not to let it hit the ground!</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Throw the ball from under your leg?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• What other ways can you toss or throw your ball?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>After Trials:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How many catches can you and your partner make in 10 seconds? Count the catches out loud.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Try again; see if you can beat your score.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How quickly can you and your partner make 5 catches? March in place when you’re finished.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you make 2 catches in a row, each take a step back. How far back can you and your partner get in 2 minutes?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• One slide the beanbag, the other throw it back in the air. Do 5 slides and throws in a row, then switch.</td>
</tr>
<tr>
<td>Extension:</td>
<td>• If walls are available: Have 1 partner throw ball against the wall for the other to catch it, first after a bounce, then in the air.</td>
<td></td>
</tr>
</tbody>
</table>
## OBJECTIVES
- Eye–hand coordination
- Balance
- Agility

## EQUIPMENT
- 1 scoop and ball/student
- Music and player
- 4 cones for boundaries
- Optional: 1 beanbag and 1 ball/student

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**SCOOP AND BALL SELECTION** | • Scatter scoops and balls (1 scoop for each student, every other scoop with a ball inside) along boundaries of activity area (30x30 paces).  
• This lesson is best on a smooth surface (to roll balls). Avoid grass if possible. | • How quickly can you find a partner?  
• On “Go” gallop quickly in a zig-zag pathway with your partner to select your scoops. Take your scoops to a homebase.  
• Set your equipment down near your feet.

**PARTNER SCOOP AND BALL CHALLENGES I** | • Have partners face off, (3–4 paces from each another).  
• Allow 2–3 minutes for student practice after each challenge. | Challenges – Can you:  
• Roll the ball back and forth catching it in your scoop? Each time you and your partner make a successful catch, both take 1 step back.  
• Toss your ball so it bounces (1 or 2 bounces) to your partner who catches it in scoop?  
• Toss your ball a little higher – now try catching the ball in your scoop before it bounces.

Continued on next page
### PARTNER SCOOP AND BALL CHALLENGES II

**What You Do**
- When posing a new challenge, have students hold ball in 1 hand, scoop in the other; stop, look, and listen.
- Pose additional challenges and play “Step Back” after student practice.

**What You Say**

**Challenges – Can you:**
- Toss your ball low, partner catches ball in scoop?
- Toss your ball high, partner catches it while kneeling?
- Toss your ball from a sitting position, partner catches ball?
- Find a different way to throw and catch using scoop and ball?
- How many catches can you and your partner make in 15 seconds?
- How quickly can you and your partner make 10 catches?
- When each of you make a catch, both may take 1 step back. How far back can you get in 2 minutes?
- Stand back to back with your partner – then both take 1 step forward!
- Toss the ball back and forth overhead (without looking back) with your partner. Try to catch it in your scoops!
- Can you and your partner pass your ball back and forth while slow jogging around the outside of our activity area?

**Tip:**
- Have pairs spread out further before tossing overhead.

### SCOOP EM’ UP

**What You Do**
- Students move within general space to pick up someone else’s ball with their scoop.

**What You Say**

- Place your ball on the floor.
- On music start (or “Go!”) move and pick up someone else’s ball with your scoop. Watch where you step!
- Safely and carefully put your equipment away.
3’s – Inside

LESSON 1:
DANCE AND RHYTHMS

LESSON 2:
STRENGTH AND SKILL CIRCUITS
### OBJECTIVES
- Rhythm
- Timing
- Cooperative behavior
- Cultural awareness

### EQUIPMENT
- Music and player: “Where Are You”
  - ALLIGATOR PURSE CD; “The Chicken”
  - ALL-TIME FAVORITE DANCES CD
- 4 cones for boundaries

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
WHERE ARE YOU? | Scatter groups of 3 in activity area (20x20 paces) facing instructor. | Today we’ll warm up with “Where Are You?”
 | Explain/demonstrate the basic movements before playing the music. | Let’s practice the movements together.
 | Practice movements with the music. | When you hear:
 | The last repetition slows so everyone feels successful. | “Here I Am” Wave your hands in the air.
 | **LYRICS**
Where are you? Here I am!
Are you ready? You bet!
How ya’ doing? Better and better!
Give yourself a hand!
Head, shoulders, knees, toes, legs, waist, chin, nose, head, shoulders, knees, toes, legs, waist, chin, nose (and you freeze!)
 | Literacy Integration:
 | Read “Here Are My Hands” by Bill Martin & John Archambault.

</table>
| FUN AND FITNESS STATIONS | • Select several fitness cards from the set provided. (Make copies and laminate or place them in plastic sheets.)
• Create a circuit with existing stations and/or cards.
• Explain Fitness Circuits and show students course and direction they will move from station to station.
• Describe station activities (if needed) while a student demonstrates.
• Create as many groups of students as there are stations. Assign each group a station and begin.
| Station Examples:
• Basketball dribble
• Imaginary soccer shoot on goal
• Curl–ups
• Push–ups
• Beanbag toss to targets (e.g., hoops, trash cans).
• What other active and fun stations can you and the students create? |
| Today, we’ll do “Fun and Fitness Stations!”
• I’ve established a health circuit with many stops along the way.
• The object is to move quickly to each station and be active with your group until you hear the music stop.
• When it does, move to the next station; and begin the activity when the music starts.
• We have 6 stations, so, how quickly can we form 6 groups? When your group is ready, jog in place.
• I’ll send each group to a station. Read the card and be active until the music stops.
• Before moving on, prepare your station for the next group (put things away). |

DRIBBLING AND ALL–RUN GAMES
## LESSON: 1

**OBJECTIVES**
- Eye-hand coordination
- Cooperative behavior
- Tossing
- Catching with an implement

**EQUIPMENT**
- 1 scoop/student
- 1 fluffball or tennis ball/3 students
- 4 cones for boundaries
- Music and player
- Whistle

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SCOOP AND BALL SELECTION</strong></td>
<td>Scatter scoops and balls along boundaries of activity area (20x30 paces).</td>
<td>• How quickly can you form a group of 3? Squat together when your group is ready.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On my “Go!” groups skip together to select scoops, then find a homebase.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you have found your home base, set your scoops down. I will give a ball to the group’s that are ready.</td>
</tr>
<tr>
<td><strong>GROUP SCOOP CHALLENGES I</strong></td>
<td>Groups of 3 in a triangle, (3–4 paces from each other). Use a group to demonstrate rolling the ball (underhand throw) around a triangle and catching it with a scoop.</td>
<td>• Can you roll the ball around your triangle and catch it in your scoop? Change directions when you hear “Switch!”</td>
</tr>
<tr>
<td></td>
<td>Use a group to demonstrate how to underhand toss the ball around the triangle and catch it with a scoop after it bounces</td>
<td>After Trials:</td>
</tr>
<tr>
<td></td>
<td>• Each time the ball goes all the way around, <strong>everyone</strong> takes 1 step back. How far back can your group get in 1 minute?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Now, underhand toss the ball up so it bounces 1 or 2 times before someone else in the group catches it.</td>
<td></td>
</tr>
<tr>

### GROUP SCOOP CHALLENGES II

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students (still in groups of 3) catch the ball in the air with a scoop.</td>
<td>Underhand toss the ball a little higher. Try to catch it before it bounces!</td>
<td></td>
</tr>
<tr>
<td>After practice, have them begin playing “Step Back.”</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**For Advanced Learners:**
- If time, encourage creative moves; challenge groups to make up a routine or a dance using their scoops and balls.

**After Trials:**
- Each time everyone in your group makes a successful catch, all may take 1 step back. You may catch it with 2 bounces, 1 bounce, or no bounces.
- How far back can your group get in 2 minutes?
- Passing in any direction you want, how many catches can your group make in 15 seconds? Count together out loud.
- Let's play again and see if you can improve your score.

**For Advanced Learners:**
- What other kind of tosses and catches can your group do? Can you think of some new ones? (High toss/catch, low toss/catch, catch behind the back, under the leg, etc.)
- Can your group pass the ball while jogging slowly around our activity area?
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>2 CATCHES UP</strong></td>
<td>• Groups of 3, facing a wall or backboard.</td>
<td>• This game is called “2 Catches Up!”</td>
</tr>
<tr>
<td><em>(IF A WALL IS AVAILABLE)</em></td>
<td>• Use a group to explain/demonstrate.</td>
<td>• Those with the ball will be the first “throwers.” They will stand close to the wall and face it. Their group-mates are called “catchers.” They face the wall too, but are further away (approx. 5 paces back).</td>
</tr>
<tr>
<td></td>
<td>• Compliment groups working well; help as needed.</td>
<td>• Throwers: Toss ball – 2-hand underhand – against the wall for others to catch in their scoops. Show how well you throw!</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Catchers: Try to catch the ball after 2 bounces, 1 bounce, or no bounces.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Whoever catches the ball in their scoop twice becomes the thrower (“2 Catches Up”).</td>
</tr>
</tbody>
</table>

| SCOOP EM’ UP                  | • After everyone sets their ball down; students move within general space to pick up someone else’s ball with their scoop.                                                                                                                                                                                                                                                                                                                                                           | • Place your ball on the floor/ground.                                                                                                                                                                                         |
|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | • When the music starts (or “Go!”) move and pick up someone else’s ball with your scoop. Watch where you step!                                                                                                                                                                                |
|                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | • Safely and carefully put your equipment away.                                                                                                                                                                                  |
### 3’s: OUTSIDE - DRIBBLING AND ALL-RUN GAMES

#### OBJECTIVES
- Hand and foot–eye coordination
- Agility
- Cooperative behavior
- Kicking
- Passing
- Trapping
- Running bases

#### EQUIPMENT
- 1 basketball (or any type of ball that bounces)/student
- 1 soccer ball (or any type of ball that can be kicked)/student
- Variety of other size/shape balls to throw/catch
- 4 large cones, 6 hoops and 4 bases
- Whistle

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **DRIBBLE KEEP AWAY** | • Scatter students within activity area (30x30 paces) each with a basketball (or any ball that bounces).  
• Repeat several times. | • The object is to basketball style dribble your own ball within boundaries.  
• Use your off hand to try and tap someone else’s ball out of bounds while keeping yours under control.  
• If your ball goes out of bounds, retrieve it quickly and re-join the game.  
• Keep your ball close; dribble low; keep your head up; stay within our boundaries! |

**Extension:**  
• Same game, now dribbling soccer style (controlling ball with feet only).  

**ALL–RUN KICKBALL**  
(*Note: May be too difficult for K’s and 1’s.*)

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **ALL–RUN KICKBALL** | • Set up a softball–type diamond and scatter 6 hoops in the outfield.  
• Pair students; divide pairs into kicking and fielding groups.  
• Game is similar to kickball/baseball but outs are earned differently and entire batting group runs bases.  
• Change sides after 3 kickers.  
• Have children play different positions each inning.  
• Once game rules are understood, divide group into 2 or more groups (10–15) on 2 fields. Smaller groups allow the game to be played with everyone having a turn “at bat” before other group is up. | • In “All–Run Kickball” the fielding group gets the batter “out” by throwing the kicked ball to a different player in each of the 6 hoops.  
• The first batter kicks either a rolled (pitched) or stationary ball into fair territory and runs around the bases without stopping.  
• All members of the kicking group follow in single file (no passing allowed).  
• Each player reaching home plate before an “out” is declared, scores 1 run for the group (score keeping optional).  
• Fielders, don’t stand in the baseline. |

- Cardio Fitness

## Equipment
- 1 rope (8’ or 9’) per student
- Music and player
- 4 cones for boundaries

## Activity | What You Do | What You Say
--- | --- | ---
**Establishing Expectations**
- Scatter/spread ropes on floor of activity area (30x30 paces).
- Send students to stand by a rope.
- Always make sure you have plenty of space around you before picking up a rope.
- Use ropes for jumping only.

**Free Jumping**
- Allow students to play with their ropes and warm themselves up (2-3 min.).
- Use this time to assess skills. Watch for those that are proficient; use them to demonstrate rope tricks and help others.
- While the music plays, free jump in open space.
- Use this time to warm up and practice. Have fun!
- When the music stops (or 1 whistle, or “Freeze!”) set your rope on the floor next to you.
- I’ll give you a challenge or a trick to do; practice while the music plays.

**Flat-Rope Jumping**
- Ropes on the floor. Cue students with different locomotor skills.

### Challenges – Can you:
- Jump from side to side down the rope and back?
- Hop on 1 foot down 1 side and up the other?
- Straddle and jump down the rope and back?
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>DOUBLE SIDE SWING</strong></td>
<td>• Select demonstrators to stand in front of class and show tricks.</td>
<td>• Hold a handle in each hand; swing your rope twice to 1 side, cross the rope over in front of your body, then twice to the other side.</td>
</tr>
<tr>
<td></td>
<td>• Call each trick by name at the beginning (&quot;This is the Double Side Swing; say that with me ___&quot;) and after practicing it, ask students the name (&quot;What was the name of this trick?&quot;).</td>
<td>• Can you bend your knees each time the rope touches the ground?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Keep it going, don't stop. Remember, 2 swings on each side.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Use your wrist to turn the rope, not your entire arm.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you turn the rope slowly? Even slower? Faster? Even faster?</td>
</tr>
<tr>
<td><strong>SINGLE SIDE SWING</strong></td>
<td>• First clap a steady rhythm; then different speeds so students adjust their pace.</td>
<td>• Now try 1 swing per side.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Cross the rope over in front of your body each time.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you swing your rope to the beat of the music (or on my clapping)?</td>
</tr>
<tr>
<td><strong>DOUBLE SIDE SWING JUMP</strong></td>
<td>• Allow sufficient time for student practice.</td>
<td>• Now we'll add a jump to the Double Side Swing.</td>
</tr>
<tr>
<td></td>
<td>• Move to help those in need.</td>
<td>• Swing twice to 1 side, then open your rope and jump through.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Swing twice to the other side, then open your rope and jump through.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you jump through 2x in a row? Three–5x? Five or more without a miss?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Now try it slowly – slower – faster – faster!</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>-------------------------------</td>
<td>-----------------------------------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>SINGLE SIDE SWING JUMP</td>
<td></td>
<td>• After 1 side swing on each side, open the rope and step or jump over it.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you do it 2x in a row? Three–5x? Five or more without a miss?</td>
</tr>
<tr>
<td>CHALLENGE REVIEW</td>
<td></td>
<td>I’ll call the name of a trick; practice it while the music plays:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Double Side Swing</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Single Side Swing</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Double Side Swing Jump</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Single Side Swing Jump</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Now I’ll call on one of YOU to name a trick for everyone to practice.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Challenges:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Using any trick we’ve learned, how many can you do in 15 seconds? If you miss, keep going!</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How quickly can you do 5–10 Double Side Swing jumps?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How many Single Side Swing jumps can you do in 30 seconds?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>While doing the Single Side Swing jump:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How s l o w l y can you jump?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How fast can you jump?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How HIGH can you jump?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How low can you jump?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How long can you jump? I’ll turn the music on. Can you jump continuously until the song ends?</td>
</tr>
</tbody>
</table>

Math Integration:                                                                                                                            |
• Students perform number of jumps to solve math problems (e.g., jump 32 divided by 4 = 8 times).
### OBJECTIVES
- Agility
- Balance
- Rhythm and Timing
- Endurance

### EQUIPMENT
- 1 rope (8’ or 9’) per student
- Music and player
- 4 cones for boundaries

## ACTIVITY | WHAT YOU DO | WHAT YOU SAY
---|---|---
FREE JUMPING
- Spread ropes on floor of activity area (30x30 paces). Send students to a rope.
- Students free jump and warm up (2–3 min.) on music start.
- Select/use students to demonstrate tricks.
- Time for your warm-up. Begin slowly; then increase your pace.
- While the music plays, practice the tricks you learned last time.
- When the music stops, set your ropes down.

SINGLE BOUNCE FORWARD
- Ask students to remember the name of each jump rope trick.
- Students and teacher move to help those in need
- Can you perform 1 jump with each rope turn?
  **After Trials:**
  - Can you do 2–3x in a row? Five or more?
  - How many times can you go without a miss?
  - Can you keep it going? How many Single Bounce Forwards can you do?

HOT PEPPERS
- How fast can you go?
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| SINGLE BOUNCE RIGHT FOOT | • Same as a Single Bounce Forward, but land on your R foot with each rope turn.  
• Which locomotor skill is a 1 foot take off and same foot landing? Hop! |  |
| SINGLE BOUNCE LEFT FOOT | • Same, but hop on L foot. |  |
| SINGLE BOUNCE RIGHT FOOT/LEFT FOOT | • Can you land R foot then L foot changing with each rope turn?  
• It looks like you are jogging in place! |  |
| SLOW JOG WITH ROPE | Tip:  
• This activity is dependent on having small numbers of students and/or room to move safely. | • Same as the Single Bounce Right/Left, but take a step forward with each rope turn.  
• Can you jump rope while moving safely? |
### ME: INSIDE - JUMPING ROPE II CONTINUED

<table>
<thead>

<tbody>
<tr>
<td><strong>SKIER</strong></td>
<td><img src="image" alt="Skier Illustration" /></td>
<td>• Begin with Single Bounce Forward, keep your feet together and move them side to side like a snow skier.</td>
</tr>
<tr>
<td><strong>BELL</strong></td>
<td><img src="image" alt="Bell Illustration" /></td>
<td>• Single Bounce Forward, keep your feet together and move them forward and back.</td>
</tr>
<tr>
<td><strong>CHALLENGES</strong></td>
<td><img src="image" alt="Challenge Illustration" /></td>
<td>• Offer challenges on all tricks learned thus far. Ask how many they can do in a certain amount of time; how quickly they can do a certain jump. How many of a jump they can do before they miss?</td>
</tr>
</tbody>
</table>

**Health Integration:**

- In the classroom, ask students what sports should use rope jumping to train.

**LESSON: 2**
## OBJECTIVES
- Ball handling
- Pivoting
- Dribbling

## EQUIPMENT
- 1 8” utility or junior size basketball/student (foamballs may provide greater safety for ball handling drills but do not bounce)
- Music and player or whistle
- 4 cones for boundaries

### Activity | What You Do | What You Say
--- | --- | ---
**ESTABLISHING EXPECTATIONS** | - Scatter students within activity area (30x30 paces) each with a ball. | - Starting and stopping on cue enables us to practice basketball skills safely.  
- Practice whistle cues until learned. | - When you hear 1 whistle (or music stop, 1 clap, etc.) get in the “Ready Position”: Hold your ball with both hands in front of your chest, elbows out, feet shoulder width apart, knees bent.  
- Give students’ tasks (e.g., dribble in place with right hand, switch hands, etc.). On your stop cue, have them return to ready position. | - When you hear 2 whistles: Dribble your ball basketball style (by bouncing it on the floor/ground) in to me.  
- When everyone is responding quickly each time, we’ll begin our basketball activities. |
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>BALL HANDLING DRILLS</td>
<td>• Pose ball handling challenges, giving students 30 sec. practice time for each before prompting a change in direction.</td>
<td>• Ball handling drills help everyone become a better player.</td>
</tr>
<tr>
<td></td>
<td>• Use a “10 second time-out” whenever you deem appropriate.</td>
<td>• Try not to drop the ball. If you do, it’s OK; just pick it up and keep practicing.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Keep your head up; don’t look at the ball.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Follow my directions and return to ready position on signal (music stop, whistle, “Freeze”).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Can you move your ball:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around your head? Change direction. Was one direction easier than the other? Practice both. If I say “Switch!” change directions; see if you can do it without dropping your ball.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around your neck? Change direction.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around your waist? Change direction.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around your hips? Change direction.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Pin the ball between your knees and clap your hands! We’re on a 10 second timeout. Shake out your hands and we’ll start again.</td>
</tr>
</tbody>

### BALL HANDLING DRILLS CONTINUED

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td><strong>Can you move your ball:</strong></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around a knee? Other knee?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Around an ankle? Other ankle?</td>
</tr>
<tr>
<td></td>
<td></td>
<td><strong>Can you roll your ball:</strong></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• In figure 8 around your ankles without looking at the ball? Just use your fingerpads to feel the way.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Pick up your ball; can you do a figure 8 with the ball off the floor/ground; exchanging the ball hand to hand? Only go as fast as you can without dropping the ball.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you do a figure 8 in the other direction?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Ten second time-out! Shake out your hands and we’ll start again.</td>

<tr>
<td></td>
<td></td>
<td><strong>Ball Handling Tricks:</strong></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• <strong>Squeeze The Banana:</strong> Hold the ball in both hands just about eye level. Use your fingers to “squeeze” the ball out of 1 hand to the other, and back.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• <strong>Tap Drill:</strong> Hold the ball above your head with both hands. Keep your elbows straight. Using your fingerpads, can you tap the ball back and forth? Start moving your hands down; remember to keep your elbows straight! Move down and back up trying not to drop the ball.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• <strong>Quick Draw:</strong> Hold the ball with both hands on the back of your neck. Let it drop and try and catch it behind your back.</td>
</tr>
</tbody>
</table>

**Extensions:**

• After teaching 3 tricks, call them in sequence. Students react quickly, linking tricks without stopping.
• Add 1 For Fun: Allow 30 seconds for students to create their own trick; then teach their trick to a partner.

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>PIVOTING</td>
<td>• Explain/demonstrate a pivot.</td>
<td>• A person with the ball uses a pivot to keep the ball from a defensive player. <strong>Establishing a Pivot Foot:</strong> • Pretend someone drove a nail through your shoe, between your toes, and it’s stuck in the ground. You can twist and turn on that foot, but you cannot lift it off the floor. This is your “pivot foot.” • Take quick, short steps with your free foot. • Keep your head up, elbows out and hold the ball tightly. • On music start (or “Go!”) dribble your ball in place. On music stop (or 1 whistle, or “Freeze!”) assume the Ready Position, establish a pivot foot, and move your free foot around. • There are 2 types of pivots – front and reverse. A front pivot is when your free foot moves forward and you face straight ahead. When it moves behind and you face backwards, it is a reverse pivot. • Practice both pivots on your own; then react to my cues: Dribble in place – Ready Position – front pivot – reverse pivot.</td>
</tr>
<tr>
<td></td>
<td>• Cue students to dribble, stop and pivot several times or until learned.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Teach, then have students practice both types of pivots.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Repeat and vary the cueing sequence. Teach children that once they stop their dribble, they may not dribble again.</td>
<td></td>
</tr>
<tr>
<td>FREE DRIBBLING</td>
<td>• Students walk (if sufficient space) and dribble paying attention to their own ball.</td>
<td>• We’ll practice walking slowly and dribbling the basketball.</td>
</tr>
<tr>
<td></td>
<td>• Encourage them to look for open space to avoid crowding.</td>
<td>• Use the pads of your fingers to push the ball down with 1 hand. Dribble low, around waist level.</td>
</tr>
<tr>
<td></td>
<td>• Stop students several times to give specific feedback on their skills.</td>
<td>• Bend your knees; keep a straight back.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On stop cue, return to your Ready Position.</td>
</tr>
</tbody>
</table>
ME: INSIDE - SHOOTING A BASKETBALL

OBJECTIVES

- Basketball shooting

EQUIPMENT

- 1 8” foam (or utility ball or basketball)/student
- 4 cones for boundaries

ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
ONE-HANDED SHOT (SHADOW) | • Scatter students within activity area, (20x20 paces) without a ball. | • We can practice shooting a basketball anywhere, anytime.
• Describe and demonstrate shot; students “shadow” technique (doing the movements, but without a ball). | • What hand do you use to shoot a basketball? Usually it’s the same hand you throw a ball with, or write with; but not always. Choose the hand you feel comfortable with.
• Your shooting foot is the same as your hand. Right hand shooters, right foot slightly forward.

Let’s learn the proper way to shoot a basketball:

- Stand with your feet shoulder width apart, bend your knees, move your shooting foot slightly ahead of the other.
- Raise your shooting arm so your hand is as high as your head; your palm facing up and flat like a table. Is your arm in the shape of an L?
- Pretend your (imaginary) ball is a book. Put the book on the table. Balance it there.
- Place your other hand on the side of ball; like a bookend. It keeps the book from falling off the table.
- Repeat after me: L, I, goodbye! This is the way we shoot the ball. Let’s practice in parts, then put it all together in one fluid motion.
<table>
<thead>
<tr>
<th>Activity</th>
<th>What You Do</th>
<th>What You Say</th>
</tr>
</thead>
</table>
| **ONE-HANDED SHOT**<br>(SHADOW CONTINUED) | *After teaching, L – I – Goodbye, move to help students as they practice.*<br><br>*Remind students to bend knees when holding their L and shoot with legs, L, I, goodbye.* | *L: Is your shooting arm bent at the elbow and making the shape of an L? Hold that L and extend your legs so your body is moving upward. You’re starting your shot!*

*I: Extend your arm until it’s straight and in the shape of an I.*

*Goodbye: Wave goodbye by snapping your wrist after the ball leaves your hand.*

*Hold your “finish” (follow-through).*

*Are the fingers on your other hand, your bookend, pointing straight up? Check yourself.*

*Keep practicing L, I, Goodbye. Bending your knees more, then extend your legs for more power.* |
| **ONE-HANDED SHOT**<br>(WITH THE BALL) | *Send students to select a ball.*<br><br>*Students continue practicing L, I, goodbye, now with the ball and confined to small space.*<br><br>*Move to offer feedback on shooting technique.* | *Put the book on your table top, add your bookend, and practice L, I, goodbye.*

*Pretend you’re in a small space, like a very skinny elevator. You have no room on your sides so you can only extend your legs and arms up.*

*Practice good shooting form in this small space.* |
| **BUCKETBALL** | *If a real basket(s) is not available, have students practice shooting crumpled paper into buckets, trash cans, waste paper baskets, hoops, etc.*<br><br>*Arrange these in sizes, then have students progress to the smaller size target after they have demonstrated good shooting form and accuracy.* | *I have arranged targets from easier to more difficult.*

*Start where you think you’ll be successful. Focus on shooting form.*

*Begin 3 steps away from your target, then try to make 2 baskets in a row. If you do, take 1 step back.*

*When you step back 3x, you may continue at that target or move to one more challenging.*
### ME: INSIDE - JUGGLING SCARVES AND BALLS

#### OBJECTIVES
- Hand-eye coordination
- Timing

#### EQUIPMENT
- 3 different colored scarves/student
- Music and player
- 4 cones for boundaries

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**JUGGLING LEAD-UPS**<br>• Scatter students, each with 3 scarves, within activity area (20X20 paces). If scarves are not available, use plastic grocery bags.<br>• Practice each step to mastery before moving on.<br>• If possible, use different colored scarves to identify which scarf is tossed next.<br>• Emphasize reaching and tossing high so scarves have more falling time.<br>• Who has seen someone juggle before? Today, it’s our turn to learn how to juggle.<br>• Can you toss 1 scarf in the air and catch it? Twice in a row? Three–5x? Try again with the other hand.<br>• Try tossing with 1 hand and catching with the other.<br>• Hold 2 scarves in 1 hand. Can you toss them in the air and catch them with 2 hands?<br>• Can you toss both scarves and catch them in 1 hand?<br>• Hold 2 scarves, 1 in each hand; and toss them both in the air at the same time. Can you catch each in the hand that tossed it?<br>• Explain/demonstrate 1 scarf juggling.<br>• Hold 1 scarf, bring that arm across your body then toss the scarf high in the air. Can you catch it with your opposite hand? Keep practicing. Can you make 2 catches in a row? Three or more?<br>• Now try tossing with your other hand.

Continued on next page
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **JUGGLING PRACTICE** (CONTINUED) | • Explain/demonstrate 2 scarf juggling.  
• Explain/demonstrate 3 scarf juggling. | • Hold 2 scarves, 1 in each hand, at waist level. Lift your R arm up and across your body and release the scarf. Lift your L arm up and across your body and release the scarf; your arms make an “X”.  
• Catch the scarves at waist level, first with your L hand, then with your R (up, up, catch, catch).  
• Keep practicing that while I move around to help.  
• Hold 2 scarves in your R hand (hold the 2nd scarf with your 4th finger and pinky). Hold a 3rd scarf in your L hand.  
• Lift R hand up and across your body to release the 1st scarf (front scarf). Lift and release the scarf from the opposite hand (#2). Lift and release the 3rd scarf.  
• Let all the scarves fall to the ground (R, L, R). Try that again several times.  
• Now, toss 1 R hand scarf, toss the L hand scarf, catch the R hand scarf with the L hand, toss up the other R hand scarf, and catch the scarf originally in your L hand, with your R hand.  
• This is the juggling pattern we have to practice over and over again!  
Say this with me:  
• Up-up-catch-up-catch-up, catch-up, etc.  
• You must toss a scarf before you can catch one. |

**Advanced Learners:**  
• Progress to beanbags, then balls of various sizes and weights.

**Literacy Integration:**  
• Read *Olivia Saves the Circus* by Ian Falconer.
LEsson 1: Toss and throw for accuracy and distance

LESSON 2: SPRINTING

LESSON 3: STANDING AND RUNNING LONG JUMPS

LESSON 4: BASKETBALL DRIBBLING AND SHOOTING

LESSON 5: WALLBALL
### OBJECTIVES
- Underhand toss
- Overhand throw
- Throwing accuracy
- Throwing for distance

### EQUIPMENT
- 1 beanbag/student
- 1 softball/student
- Assorted other balls to throw
- 10-30 hoops
- 4 cones for boundaries
- Whistle

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**BULLS-EYE** | Scatter hoops in activity area (40x40 paces). Arrange them in 3 rows: Close, mid-range, far. | Throwing for accuracy and distance is important to many sport activities. |
  | Move students to a line facing hoops, each with a beanbag; explain/demonstrate game. | The object is to toss your beanbag into a hoop. Make a bulls-eye! |
  | For safety, have students throw and run to retrieve at same time. | When you hear me say “Throw!” toss your beanbag to any 1st row hoop. |
  | Scoring is optional. If playing for points, de-emphasize their importance. | On my “Go!” run to retrieve your own beanbag then run back. |
  | Students that cannot reach furthest row continue tossing to 2nd or 1st | The faster you return, the more turns you’ll have. |

**We have a point system:**

**Award yourself:**
- 3 points if your beanbag lands completely in a hoop.
- 1 point if your beanbag lands partially in a hoop.
- We’ll do 5 tosses to row 1, then move on to rows 2 and 3.

---

= Hoop
Every student with a bean bag
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| BULLS-EYE (CONTINUED) | **Extensions:**  
  - Use flying discs, softballs, footballs; roll a foamball, kick a soccer ball, etc.  
  - **Target Toss:** The object is to remove all hoops from the area. Remove a hoop when 2 (or more) beanbags land inside it. Encourage students to strategize (e.g., if a hoop has 1 beanbag in it, aim for that hoop).  
  - Have students remove hoops after each series of throws.  
  - Use waste paper baskets or buckets as targets too.  
  - Mount hoops vertically. | **After we play with beanbags, we’ll try throwing/rolling/kicking other objects!**                                                                                                                                 |

Continued on next page
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| ____ | • Have each student exchange a beanbag for a softball.  
• Have students help you remove hoops; then have them form a circle.  
• Students throw as far as they can no longer striving for accuracy.  
• Continue having students throw and retrieve at same time. | • Let’s throw for distance. First, with a softball.  
• Throw upwards at a 45 degree angle (demonstrate 45 degrees).  
• When you hear me say “Throw!” all throw at the same time.  
• On “Go!” run after your ball, count how many paces it takes to reach it, pick it up and run back.  
• Can you improve your distance on each throw? |

Extensions:

- **Estimation:** Have students estimate how many throws it might take them to reach a fence (or object in distance).

- **Kick For Distance:** Using soccer (or utility) balls, students foot strike (kick) for distance. Have them drop a beanbag where their ball stops rolling, then try and kick the ball past it.
## LESSON: 2

### OBJECTIVES
- Sprinting
- Lower body strength
- Power

### EQUIPMENT
- Whistle
- 4 cones for boundaries

### ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**TRACK AND FIELD STRETCH** | • Have students fast walk/jog around perimeter for 2 minutes (prior to stretching).<br>• Students form a circle (or scatter formation) and follow student/teacher led stretches | Stretch slowly and smoothly:<br>• **Necks**: Side, front, side.<br>• **Shoulder circles**: Reach up, out, and around.<br>• **Trunk Twist**: Bend to side, switch; twist, turn.<br>• **Hamstrings**: Bend knees, bend at waist.<br>• **Quadriceps**: Step forward, bend front knee. Switch legs.

**SPRINT (FROM STANDING START)** | • Use cones (or existing lines) to establish start and finish.<br>• Explain/demonstrate good running form.<br>• Have students practice arm movements before running. | Today we’ll practice running fast. In the sport of track and field, it’s called “Sprinting.”

**Tips for sprinting:**
1. Drive your knees up high.<br>2. With elbows bent, move your arms rapidly.<br>3. Lean forward.<br>4. Look straight ahead.<br>5. Do not swing your hands across the midline of your body.
<table>

<td>-----------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>5 SECOND SPRINT</td>
<td>• Have students start on your command, then stop 5 seconds later on the whistle.</td>
<td>• Let’s practice the sprint start and sprint for 5 seconds.</td>
</tr>
<tr>
<td></td>
<td>• Do 4-5 times.</td>
<td>• When you hear the whistle, stop running and walk to the next line.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• “Runners take your marks, set, GO!”</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you go further in 5 sec. than last time?</td>
</tr>
<tr>
<td></td>
<td>• Students sprint to a line approximately 20 yards away.</td>
<td></td>
</tr>
<tr>
<td>10-20 YARD SPRINT</td>
<td>• Finish line becomes starting line.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Continue until time is up.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Now you’re ready to sprint all the way to the next line.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Run through the finish line; don’t slow down too soon.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• “Runners take your marks, set, GO!”</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Line up again and we’ll sprint back on my start.</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>what you say</td>
</tr>
<tr>
<td>--------------------------</td>
<td>-------------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>TRACK AND FIELD STRETCH</td>
<td>• Have students fast walk/jog around perimeter for 2 minutes (prior to stretching).&lt;br&gt;• Students form a circle (or scatter formation) and follow student/teacher led stretches.</td>
<td>Stretch slowly and smoothly:&lt;br&gt;• Necks: Side, front, side.&lt;br&gt;• Shoulder circles: Reach up, out, and around.&lt;br&gt;• Trunk Twist: Bend to side, switch; twist, turn.&lt;br&gt;• Hamstrings: Bend knees, bend at waist.&lt;br&gt;• Quadriceps: Step forward, bend front knee. Switch legs.</td>
</tr>
<tr>
<td>STANDING LONG JUMP</td>
<td>• Move students to a line facing you.&lt;br&gt;• Explain/demonstrate standing long jump.&lt;br&gt;• Have students jump 5-6 times on their own.</td>
<td>• Today we’re going to practice Track and Field jumps. First, the “Standing Long Jump” 2 foot takeoff, 2 foot landing.&lt;br&gt;• Stand with your feet shoulder width apart.&lt;br&gt;• Swing arms forward and backward while bending your knees.&lt;br&gt;• When ready to jump, swing arms forward and extend your legs. Jump with all your power.&lt;br&gt;• Land on the balls of both feet, leaning forward.</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------</td>
</tr>
</tbody>
</table>
| **STANDING LONG JUMP CHALLENGES** | • As before, each student with a beanbag.  
• Have students mark each jump by placing a beanbag at the back of their heels, or closest point to takeoff line. | • Lie on your back with feet touching the line. Measure your height and mark it on the ground with your beanbag.  
Challenges:  
• Can you jump your own height (landing on both feet)?  
• How far can you go using 2 jumps in a row? Set your beanbag there and try again. Can you jump past the beanbag?  
• How far can you go doing 3 jumps in a row? |
| **RUNNING LONG JUMP CHALLENGES** | • Move students to an area where they can sprint at least 10 paces before jumping.  
Tips:  
• Practice where students can land safely in a sand pit — if available.  
• If you don’t have a takeoff board, use a chalk line (or use an existing line).  
• Move to give positive specific feedback. | • The “Running Long Jump” uses a 1 foot take off, 2 foot landing.  
• Run about 90% of your top speed. When you reach the takeoff board, jump up and out.  
• Stay in the air as long as you can and land with both feet extended forward.  
• How far can you jump? Mark the distance with your beanbag. Try again, see if you can go past it.  
After Trials:  
• With a running start, how far can you go in 2 jumps? |
### OBJECTIVES
- Dribbling
- Shooting
- Rebounding

### EQUIPMENT
- 1 utility ball/student
- 12 cones for goals, player and music.
- Optional: 1 junior size basketball and/or soccer ball/student

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>AROUND THE WORLD (BASKETBALL STYLE)</strong></td>
<td>• Explain/demonstrate game; then scatter students around activity area (blacktop or gym with baskets to shoot at) to begin.</td>
<td>• The object of Around the World is to dribble basketball style and shoot at each basket (or target).</td>
</tr>
<tr>
<td></td>
<td>• Second player in each line begins when the first has rebounded and left the key (explain key).</td>
<td>• On music start (or “Go!”) move in this direction (point counterclockwise) and use your right hand to dribble the ball.</td>
</tr>
<tr>
<td></td>
<td>• Have students remain in original order; no passing.</td>
<td>• Take 1 very close in shot per basket.</td>
</tr>
<tr>
<td></td>
<td>• If a traffic jam occurs, move players to less crowded baskets.</td>
<td>• Wait behind the free-throw line for the shooter in front of you to finish and dribble out of the key.</td>
</tr>
<tr>
<td></td>
<td>• Allow the same amount of time for students to practice dribbling with the opposite hand.</td>
<td>• Dribble between baskets and when waiting in line.</td>
</tr>
</tbody>
</table>

**Advanced Learners:**
- Challenge students to shoot with their opposite hand when appropriate (e.g., left side of basket, left hand layup).
### AROUND THE WORLD
**(SOCCER STYLE)**

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use cones to create goals around the perimeter.</td>
<td>Time for Around the World – soccer style!</td>
<td></td>
</tr>
<tr>
<td>Pairs of cones can be 3-5 paces apart. Make some pairs closer (more difficult to score) than others.</td>
<td>On music start (or “Go!”) move in this direction (point counterclockwise) dribbling the ball with your feet.</td>
<td></td>
</tr>
<tr>
<td>Play as before, now students dribble continuously soccer style until they near a goal and try to kick the ball through.</td>
<td>Can you keep the ball within 3’ of your body and under control?</td>
<td></td>
</tr>
</tbody>
</table>

**After Trails:**
- Stop dribbling, turn around.
- When I say “Go!” begin moving in this direction (point clockwise).
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **SPEED SHOOTER** | • Explain/demonstrate game; then scatter students within boundaries; each with a ball.  
• Direct students so the fewest possible play at a basket.  
• If time allows, play several times.  
**Extensions:**  
• Designate a specific area to shoot from (e.g., free throw line, layup, etc.).  
• Play in shooting zones, 1 is closest to basket, 2 further away, 3 further still.  
• Play Speed Shooter with soccer skills. Goals only count if they are shot from at least 5 paces away but may be scored in either direction!  
**History Integration:**  
• Ask students, which sport, basketball or soccer, was “invented” in the U.S.? (Answer: Basketball at Springfield College in Massachusetts.) | • We’re back to practicing basketball skills.  
• The object of Speed Shooter is to make as many baskets as possible in the designated time period.  
• Shoot and rebound your OWN ball.  
• We’ll begin with 30 seconds on the clock.  
• When time is running out, I’ll count down, 5, 4, 3, 2, 1, and call, “That’s the ballgame!”  
• Total your own score; 2 points per basket. |
## Equipment
- 1 8” playground ball/student
- Whistle

## Objectives
- Striking

WE – Inside

LESSON 1:
STUNTS IN PAIRS

LESSON 2:
COOPERATIVE FITNESS

LESSON 3:
LOW COMPETITION FITNESS
## OBJECTIVES
- Agility
- Balance
- Strength
- Flexibility
- Cooperation

## EQUIPMENT
- Stunt Cards 1-11
- Music and player
- 4 cones for boundaries

## ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---
**PARTNER STUNTS** | • Scatter pairs in activity area (30x30 paces).  
• Have a pair demonstrate movements, then allow sufficient time for student practice.  
• Encourage pairs working together and communicating.  
• Move to help those in need. | • Today we will learn and play in pairs. How quickly can you find a partner about your size?  
• March in place together when you’re ready.  

1. **Shadow Walk** | • Stand behind your partner. Begin walking very slowly together.  
• Can you move your legs and arms at the same time?  
• How closely can you walk behind your partner?  
• Switch places; now the other partner leads. |  

2. **Shadow Hop and Skip** | • Freeze! Face each other. Move an arm’s distance apart, place your hands on your partner’s shoulders.  
• Hop (on 1 foot) together. Can you take off and land at the same time?  
• Turn so you both face in the same direction; then join hands.  
• Can you skip together making the same size steps? |
### PARTNER STUNTS

#### (CONTINUED)

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| 3. Shadow Back-to-Back | - Stand back-to-back with your partner, then lock your elbows together.  
- Can you walk and stay connected?  
- Which different directions can you go? | |
| 4. Seesaw | - Face your partner; join hands.  
- One partner squats while the other stands. Can you move up and down together like a seesaw. | |
| 5. Wring The Dishrag | - Turn and face your partner; join hands and don’t let go.  
- Raise your arms and turn under together. Continue turning until you both return to the starting position. | |
| 6. Double Top | - Stand and face your partner; join hands. Lean back and away from each other until your arms are out straight; don’t let go. Try it again, this time slowly spinning. | |
### PARTNER STUNTS (CONTINUED)

</tbody>
</table>
OBJECTIVES
- Flexibility
- Lower and upper body strength
- Cooperation
- Balance

EQUIPMENT
- 1 8" foamball/2 students
- Assortment of other balls (varying sizes, shapes, weights)
- Music and player

ACTIVITY

TWIST-N-TURN

WHAT YOU DO
- Pairs with 1 ball, scattered within boundaries.
- Call switch to prompt students to exchange the ball in the other direction.

WHAT YOU SAY
- “Twist and Turn” is a cooperative ball activity.
- The object is to work with your partner so you don’t drop the ball!
- Back-to-back; bend knees slightly, point hips forward.
- Turn to 1 side, hand the ball to your partner. Partner receives the ball, turns in the opposite direction, and gives it back to you on other side.
- When you hear, “SWITCH!” pass the ball in other direction.
- Begin slowly for a warm up. We’ll increase the pace quickly and allow you to select a different ball to play with.

Challenges:
- How many handoffs can you do in 20 seconds? Count them. Ready, go!
- How quickly can you do 10 handoffs?
- Choose a different ball and we’ll try the challenges again.

Health Integration:
- In the classroom, discuss the importance of warming up before activity; and how being active helps all subjects (e.g., healthy students are better learners).

Continued on next page
### BEND-N-STRETCH

**Activity:** (WITH SEQUENCING)

<table>
<thead>
<tr>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Remind students the object is to not drop the ball.</td>
<td>• Choose a different ball, then stand back to back, now 2’ from your partner.</td>
</tr>
<tr>
<td>• Challenge pairs to work on a smooth exchange.</td>
<td>• Exchange the ball with arms extended overhead, then bend at the waist and exchange the ball again between your legs.</td>
</tr>
<tr>
<td>• Acknowledge pairs working well together and solving problems.</td>
<td>• Practice slowly first; be careful to not bump heads.</td>
</tr>
<tr>
<td>• Explain the term sequence during cool down</td>
<td>After Trials:</td>
</tr>
<tr>
<td></td>
<td>• You’ve learned 4 moves: Twist, turn, bend, and stretch.</td>
</tr>
<tr>
<td></td>
<td>• On my “Go,” you and your partner will have 1 minute to sequence the 4 moves. Mix up the order and have fun.</td>
</tr>
<tr>
<td></td>
<td>• Be ready to perform your sequence without any stops or drops.</td>
</tr>
</tbody>
</table>

### GIVE AND TAKE

<table>
<thead>
<tr>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Have students do this activity on a soft surface. No cement or tile flooring.</td>
<td>• Sit on the floor, face your partner with knees bent, feet flat on the ground.</td>
</tr>
<tr>
<td>• After practice and challenges, instruct Partner Scoot Back.</td>
<td>• Give the ball to your partner, then, both lie down at the same time. Return to starting position together and take the ball back.</td>
</tr>
<tr>
<td></td>
<td>• How many times can you and your partner exchange the ball in 15 seconds?</td>
</tr>
<tr>
<td></td>
<td>• How quickly can you and your partner exchange the ball 10 times?</td>
</tr>
<tr>
<td></td>
<td>• We’re ready for Partner Scoot Back.</td>
</tr>
<tr>
<td></td>
<td>• When you and your partner make 2 successful exchanges, each scoot back.</td>
</tr>
<tr>
<td></td>
<td>• How far back can you go in 1 minute?</td>
</tr>
</tbody>
</table>
**PARTNER PINBALL**

- Pairs standing with a ball.
- Challenge pairs to add-on until they can sequence squat and stand; squat and touch 10; squat, touch 10, bridge; squat touch 10, bridge, pushup!

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PARTNER PINBALL</strong></td>
<td>- This activity has 4 parts and each one is more challenging. We’ll learn one part at a time and keep adding on.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>1. <strong>Squat and Stand:</strong> Can you pin in the ball between your foreheads and hold it for 5 seconds? Can you squat and stand without dropping the ball? Three – 5x? Five or more?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• If you’re ready for another challenge, try Touch 10! If not, keep practicing Squat and Stand.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>2. <strong>Touch 10:</strong> Can you and your partner pin the ball, squat together, then touch all 10 finger-pads to the floor without dropping the ball?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• If you’re ready for another challenge, try the 4-Point Bridge! If not, keep practicing Touch 10.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>3. <strong>Four – Point Bridge:</strong> Can you and your partner squat, touch 10, extend your legs to create a 4-point bridge, bring them in, and stand without dropping the ball?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• If you’re ready for another challenge, try the Pushup! If not, keep practicing the 4-Point Bridge.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>4. <strong>Partner Pushup:</strong> Can you and your partner squat, touch 10, bridge, then do a pushup together and stand; all without dropping the ball?</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Keep practicing and try and move up a level.</td>
<td></td>
</tr>
</tbody>
</table>
OBJECTIVES
- Hand-eye coordination
- Reaction time
- Upper-body strength
- Nutrition integration

EQUIPMENT
- 4 hoops
- 1 beanbag/2 students
- 1 rag softball or tennis ball/2 students
- Assortment of small, soft balls and/or beanbags, misc. other equipment for stations
- Music and player

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| TAKE 5   | • Place a hoop in each corner of the activity area (20x20 paces). Set softballs in each hoop.  
• After instruction, pair students, and send 1 to select a ball and return to partner.  
• Scatter pairs inside boundaries on hands and knees facing each other; their ball between them, and within reach.  
• Lead activity first with everyone on hands and knees (level 1). Play 3-5x, then cue opposite hands.  
• Challenge students by introducing 2 more levels: a 4pt bridge (level 2) and a 4pt bridge with 1 hand behind their back (level 3). They choose their level of play. | • In “Take 5”, the beanbag represents a serving of fruit. Five servings of fruits and vegetables a day are recommended.  
• I’ll give you different things to do while the music plays. When it stops, reach quickly for the beanbag. Try and take it before your partner does!  
• First partner to “take 5” shout your favorite fruit or veggie!  
• Here we go! Everyone on hands and knees, that’s our level 1. You know what to do when the music stops.  
• Who’s ready to challenge themselves with another level? Level 2 is a 4pt bridge – the pushup position. Can you hold a straight back while the music plays?  
• Level 3 is the 4pt bridge, but with 1 hand behind your back! That’s the hand you take the ball with when the music stops. Choose your level, here we go! |
### TAKE 5 (CONTINUED)

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Allow students to exchange their beanbags for different size, shape, weight, balls.</strong></td>
<td><strong>After Trials:</strong> (and with new partner):  &lt;br&gt;1. Lay side by side facing opposite directions; in “curl-up” position with the beanbag between and within reach of your inside hands.  &lt;br&gt;• Can you curl-up to the beat of the music?  &lt;br&gt;• When it stops, see who can take the beanbag first.</td>
<td></td>
</tr>
<tr>
<td><strong>Tip:</strong></td>
<td><strong>Add 1 for Fun:</strong>  &lt;br&gt;• You and your partner have 1 minute to create your own move and be ready to show it!  &lt;br&gt;• We’ll divide the class in half. One group will show their way to Take 5 while the other observes and encourages. Then we’ll switch.</td>
<td></td>
</tr>
<tr>
<td><strong>Have students practice “Fitnessgram Style” abdominal curls.</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Extensions:</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>• <strong>Beanbag Hockey:</strong> Pairs on hands/knees or push-up position facing each other. They score a goal by sliding the ball through the arms of their opponent (level 1 or 2). Partner can defend goal with 1 hand.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• <strong>Cooperate or Compete?:</strong> Students play in level 1 or 2 and either shake hands (cooperate), or grasp hands and try to pull the other one over (compete).</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### TRAVELING TAG TEAM

- Scatter 1 piece of equipment (1/2 students) inside the perimeter of the activity area, creating a home base for each pair.
- Pair students; then send them to stand by a piece of equipment.

#### Sample home base activities:
1. **Beanbag**: Toss and catch 1-handed, figure 8 around legs, kick up from foot to hands, toss to self under leg, toss to self behind back, toss-clap-catch, etc.
2. **Foamball**: Ball handling drills. See ME INSIDE, lesson 3.
3. **Stunts and Tumbling**: See WE INSIDE, lesson 1.
4. **Fitness**: See Fun and Fitness Station cards, K-2 section, 3's INSIDE, lesson 2.

#### Sample traveler activities:
1. Vary the locomotor skill.
2. If room, add an object to walk and dribble (basketball and/or soccer style) self-toss small foamball or beanbag, jump rope, etc.

- How quickly can you stand back to back with someone?
- One of you is a “traveler”, one of you a “homebody”; decide now.
- Homebodies: Stay at home base and play safely with whatever object is there.
- Travelers: On my “Go,” fast walk around our perimeter in this direction (point). When you return home, high 5 your partner and switch roles.
- Pairs: When you both finish, move to another piece of equipment and continue.

**After Trials:**
- Travelers: Safe and slow skipping!

<td>TRAVELING TAG TEAM</td>
<td>• Scatter 1 piece of equipment (1/2 students) inside the perimeter of the activity area, creating a home base for each pair. • Pair students; then send them to stand by a piece of equipment.</td>
<td>• How quickly can you stand back to back with someone? • One of you is a “traveler”, one of you a “homebody”; decide now. • Homebodies: Stay at home base and play safely with whatever object is there. • Travelers: On my “Go,” fast walk around our perimeter in this direction (point). When you return home, high 5 your partner and switch roles. • Pairs: When you both finish, move to another piece of equipment and continue.</td>
</tr>
</tbody>
</table>

**Sample home base activities:**
- **Beanbag**: Toss and catch 1-handed, figure 8 around legs, kick up from foot to hands, toss to self under leg, toss to self behind back, toss-clap-catch, etc.
- **Foamball**: Ball handling drills. See ME INSIDE, lesson 3.
- **Stunts and Tumbling**: See WE INSIDE, lesson 1.
- **Fitness**: See Fun and Fitness Station cards, K-2 section, 3’s INSIDE, lesson 2.

**Sample traveler activities:**
- Vary the locomotor skill.
- If room, add an object to walk and dribble (basketball and/or soccer style) self-toss small foamball or beanbag, jump rope, etc.
WE – Outside

LESSON 1:
THROWING & CATCHING

LESSON 2:
BASKETBALL PASSING

LESSON 3:
WALLBALL
**OBJECTIVES**
- Hand-eye coordination
- Underhand/overhand throwing
- Catching

**EQUIPMENT**
- One rag softball/2 students
- 1 football/2 students
- Assortment of different size/shape/weight balls to throw and catch
- 4 cones for boundaries
- Music and player or whistle

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>UNDERHAND THROW AND CATCH</td>
<td>• Scatter a variety of soft balls (use a variety of sizes, shapes, and weights) outside the perimeter of the activity area (30x30 paces).</td>
<td>• Today, we’ll be throwing and catching objects of different sizes and shapes.</td>
</tr>
<tr>
<td></td>
<td>• Ensure pairs spread out safely before throwing and catching (5 paces apart).</td>
<td>• Who remembers that we never toss a ball to someone unless we have their attention first?</td>
</tr>
<tr>
<td></td>
<td>• Give instructions, then play Back to Back to pair students. Send both to select 1 ball.</td>
<td>• Who will demonstrate an underhand throw?</td>
</tr>
<tr>
<td></td>
<td>• Let children toss and catch for 2-3 minutes. Watch for skill, provide instruction and give feedback as needed.</td>
<td>Underhand Throwing Cues:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Square your shoulders and face your partner, reach your arm back, step towards your partner, then slow toss from low to high.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• We have different balls scattered around the perimeter. On “Go!” skip together to select 1, take it to open space, then practice safe, short, underhand tosses.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• On “Freeze!” whoever has a ball, place it between your feet.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Who knows the “alligator catch”? Use that 2-hand catch to begin today.</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>---------------------</td>
<td>-----------------------------------------------------------------------------</td>
<td>----------------------------------------------------------------------------</td>
</tr>
<tr>
<td>THROW AND CATCH CHALLENGES</td>
<td>• Pose challenges after students warm up for 2-3 minutes.</td>
<td>• I have challenges for you; continue throwing underhand for all of them.</td>
</tr>
<tr>
<td></td>
<td>• Allow students 1-2 minutes to practice before presenting next challenge.</td>
<td>• Challenges – Can you:</td>
</tr>
<tr>
<td></td>
<td>• Change partners every 3-5 minutes. Have new pairs choose a different size/shape ball.</td>
<td>• Toss the ball so your partner can catch it without moving feet?</td>
</tr>
<tr>
<td></td>
<td>• Allow advanced learners to practice catching with 1 hand.</td>
<td>• Toss it just above your partner’s waist? Below their waist? At their knees? Right shoulder? Lt. shoulder?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Toss to 1 side of your partner? The other side? If you catch it 3 times in a row with 2 hands, you can try 1.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Try this sequence: 1st toss high right side, second toss low right side, then high left, finally high right. Catchers, give your partner a target.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Toss high so your partner has to jump to catch it?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Throw so the ball bounces along on ground? Stay low, move your body in front.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How many catches can you and your partner make in 20 seconds? Count (only catches!) out loud.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• How quickly can you and your partner make 20 catches? Count; when finished, get to a low level and begin again!</td>
</tr>
<tr>
<td>ACTIVITY</td>
<td>WHAT YOU DO</td>
<td>WHAT YOU SAY</td>
</tr>
<tr>
<td>--------------------------</td>
<td>------------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>HIKING</strong></td>
<td>• Teach/demonstrate hiking a ball. (Footballs AND other objects should be used.)</td>
<td>• Stand with your back to your partner. Spread your legs (straddle position). Touch the ball to the ground in front of you and look back through your legs at your partner.</td>
</tr>
<tr>
<td></td>
<td>• Play Step Back: If 2 hikes in a row are caught, catching partner takes 1 step back. Remember to switch roles.</td>
<td>• Gently toss the ball back to your partner. This is called “hiking.” In which sport do players hike? (Football)</td>
</tr>
<tr>
<td><strong>OVERHAND THROW AND CATCH</strong></td>
<td>• Prompt students to throw overhand, watch to see skill levels and provide feedback as needed.</td>
<td>• Let’s try throwing overhand now. <strong>Overhand Throwing Cues:</strong></td>
</tr>
<tr>
<td></td>
<td>• Repeat the challenges used for underhand throwing.</td>
<td>• Point opposite shoulder towards partner; reach back with throwing arm, step forward with front foot, swing arm forward and overhead, release ball when it points to your target.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Let’s try our challenges again, this time throwing overhand and catching with both hands.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Stop and choose a different ball to play with for our next series of challenges.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you and your partner each make a catch, stop, pat yourself on the back, and take a big step back.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Two catches in a row earns you both 1 step back. How far back can you and your partner get in 2 minutes?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• If you drop the ball don’t worry; there’s isn’t a penalty. Just keep practicing from that distance until you make 2 catches; then you can step back and try again!</td>
</tr>
<tr>
<td><strong>Extensions:</strong></td>
<td>• Encourage students to try throwing and catching different objects. Have other balls available to them (e.g., wiffle ball, tennis ball, small foamball, etc.).</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Step Back. When both partners make a successful catch, they take 1 step back and try again.</td>
<td></td>
</tr>
</tbody>
</table>
### OBJECTIVES
- Basketball style passing and catching
- Passing and catching other types of balls
- Moving without the ball

### EQUIPMENT
- 1 utility ball or junior size basketball/2 students
- Assortment of balls to throw/catch or foot strike/trap
- 4 cones for boundaries
- Whistle

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| **BASKETBALL PASSES** | - Play Back-to-Back for pairs; move students to “Partners Face Off” 5 paces apart.  
- Partners practice basketball style passes back and forth.  
- Move to instruct and assist those in need. | - Today we’ll learn and practice passes used in basketball.  
1. **Chest Pass**: Use it when a group-mate is 5 paces (or less) away from you.   
   - Hands on sides of ball, fingers spread, elbows out, ball in middle of chest.  
   - Step towards your target, then extend your arms to push the ball away from you; snap wrists outward.  
2. **Catching a Pass**: To receive the ball, call for it by extending your arms in front, showing you’re ready.  
   - When the ball contacts your hands, bend elbows to absorb the force of the pass.  
3. **Bounce Pass**: Use it to get around a defender in front of you, and when you’re passing to someone nearby.  
   - Like a chest pass except the ball bounces once.  
   - Extend your arms downward and push the ball towards the floor so it bounces a little more than halfway to your partner.  
4. **Overhead Pass**: Use it to go over defenders, or for a longer pass.  
   - Extend your arms overhead. Step towards your target, release the ball when your hands point at the target. |
<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| BASKETBALL PASSES | • Pose challenges designating type of pass. After trials, have students choose pass to use.  
| (CONTINUED)       | • Change partners often.                                                    | Challenges:                                                                  |
|                   | • Review/begin Step Back.                                                   | • How many catches can you/your partner make in 15 seconds?                    |
|                   |                                                                            | • We’ll do it again; which pairs will improve their scores?                   |
|                   |                                                                            | • Now, before passing, wrap the ball 1x around waist.                         |
|                   |                                                                            | • How quickly can you/your partner make 10 catches? When finished, change passes, start again. |
|                   |                                                                            | • Play Step Back! 2 catches in a row, take a step back. How far back can you/your partner get in 2 minutes? |
We're going to learn and practice the “Give and Go.” This drill teaches us how to get open and move without the ball.

Stand 5 paces from your partner.

Throw the ball into open space ahead of your partner so she/he has to run to catch it.

After you “give,” you “go!” Move into open space and get ready to catch the ball on the run.

After you catch the ball, stop and pivot.

Keep alternating throws. When you've made 3 catches in a row, turn around and continue back the other way.

Now we'll try Give and Go as it's used in many other sports.

With your partner, select a different ball. Practice the skill from that sport.

For example, if you choose a soccer ball, pass and receive (trap) controlling the ball with your feet.

Tip:

Play first with a small foam ball.

Change from a utility ball to a variety of balls and objects students can throw and catch (e.g., flying disc, football, basketball) or pass and trap (soccer ball, hockey, lacrosse) and continue playing.

Extensions:

Teach 45 degree angle cut: Person with ball is stationary, partner without ball moves at 45 degree angle (diagonal right or left) towards passer.

Teach head/body fake: Person without ball fakes going in 1 direction, then moves opposite to get open and receive pass.
### OBJECTIVES
- Striking
- Agility
- Cooperation

### EQUIPMENT
- 1 8-10” playground ball/2 students
- Music and player or whistle

<table>

<tr>
<td>HAND STRIKING</td>
<td>• Scatter pairs within boundaries of activity area (near walls or backboards) 4 paces apart.</td>
<td>• Today we’re practicing ball striking skills.</td>
</tr>
<tr>
<td></td>
<td>• Explain/demonstrate striking.</td>
<td>• Who can name a sport where the players strike a ball with their hand, or with an object in their hand? (Baseball, volleyball, handball, racquetball, tennis, etc.).</td>
</tr>
<tr>
<td></td>
<td>• Students “shadow” (without a ball) correct striking form.</td>
<td>• First, we’ll practice striking technique without a ball.</td>
</tr>
<tr>
<td></td>
<td>• Distribute equipment for practice, scatter pairs, and move partners 4-5 paces apart.</td>
<td>To execute a proper overhead strike:</td>
</tr>
<tr>
<td></td>
<td>• Move to “fix leaks” and provide positive-specific feedback.</td>
<td>1. Stand with your opposite foot forward.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>2. Strike the ball with cupped hand fingers tightly together, not in a fist.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>3. Contact the ball primarily with the heel of your hand.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>4. Motion is like throwing overhand, but with less “backswing.”</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Strike down on the ball so it bounces first, then up to your partner.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Can you strike so accurately that your partner catches the ball in the air?</td>
</tr>
<tr>
<td></td>
<td></td>
<td>After Trials:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• When you and your partner each make a catch, pause and take a step back. Try again from that distance.</td>
</tr>

<th>WHAT YOU SAY</th>
</tr>
</thead>
</table>
| WALLBALL (1 ON 1) | • Move pairs to a wall(s).  
• Give each pair 5-10 paces of wall space.  
• Players alternate hits, playing cooperatively, trying to keep a rally going.                                                                 | • Now, we’re ready to strike the ball against a wall.  
• As before, strike down on the ball so it bounces first, then hits the wall. You must contact the ball in the air.  
• With your partner, take turns striking your ball to the wall. How many in a row can you do?  
• I’ll give you 5-7 minutes to practice, then ask what your longest rally was.  

Challenges:  
• “How many times can you and your partner strike the ball in 30 seconds?”  
• “How far from the wall can you and your partner stand and still keep a rally going?”  

After Trials:  
• Now, after 2 successful hits each, you may try and make your opponent miss.  

Extension:  
• Straddleball: Combine students to create a circle of 8. Students stand in legs wide (straddle) and sides of feet touching. Object is to score a goal. They do that by striking the ball through the legs of others. Play with 1-3 foamballs at a time. |
3’s – Inside

LESSON 1: BINGO AND DANCE JIGSAW

LESSON 2: FOOTWORK WITH BANDS AND BALLS
### OBJECTIVES

**BINGO**
- Sport trivia
- Activity away from school
- Fitness knowledge

**PATA PATA JIGSAW**
- Rhythm
- Timing
- Cultural awareness

### EQUIPMENT

- 1 Bingo card/student
- Pencils/pens
- Music and player
- “Pata Pata,” INTERNATIONAL FOLK DANCE MIXER
- Dance cards
- 4 cones for boundaries

### ACTIVITY

<table>
<thead>
<tr>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>HEALTHY BINGO</strong></td>
<td></td>
</tr>
<tr>
<td>- Call students near; distribute writing tools and Bingo cards to each standing in activity area (20x20 paces).</td>
<td>- Today we’ll play a game called Healthy BINGO!</td>
</tr>
<tr>
<td>- Explain game; give students 10 minutes to complete their cards.</td>
<td>- The object of the game is to see how many squares on your BINGO card you can fill in 10 minutes; 1 square at a time.</td>
</tr>
<tr>
<td>- Not all will finish at the same time; have an activity station ready.</td>
<td>- Approach anyone in class and pose a question from your card, then do the activity with her/him.</td>
</tr>
<tr>
<td>- Give Bingo answers during cool-down.</td>
<td>- When you finish, initial each other’s cards and move to another person.</td>
</tr>
<tr>
<td>- Change Bingo card activities and play again anytime.</td>
<td>- A person may sign your card only once.</td>
</tr>
<tr>
<td></td>
<td>- If you have a different person’s initial in every square, say “BINGO!” I’ll check your work for accuracy.</td>
</tr>
<tr>
<td></td>
<td>- I’ll have a task for people to do when they finish.</td>
</tr>
</tbody>
</table>

Continued on next page
LET ME PLAY HEALTHY BINGO

The object of the game is to fill your Bingo card! You do that by doing an activity with a classmate. When you finish, sign each other’s squares. **Each person may sign your card only once.** Can you fill all your squares before time is up? Good luck and have fun!

<table>
<thead>
<tr>
<th>Show each other your home run swing. Batter up!</th>
<th>Jog together around our activity area 1 time.</th>
<th>Both do 10 push-ups each (best form).</th>
<th>One strike a muscle pose while the other takes a picture! Switch.</th>
<th>Do 15 curl-ups or crunches together.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power-walk together and visit all 4 corners of our activity area.</td>
<td>Each name 2 healthy breakfast foods.</td>
<td>Together, fast walk the width of our activity area.</td>
<td>Shout how many servings of fruits and vegetables are recommended each day!</td>
<td>Show what downhill skiers look like. Now cross country ski.</td>
</tr>
</tbody>
</table>
| Tell each other your favorite sport or activity and say why it’s your favorite. | Together, do 10 jumping jacks starting and stopping at the same time. | **FREE SPACE**
**ANYONE CAN SIGN THIS SPACE!** | Each say 1 place you like to play and be active – away from school. | Each name 1 important safety tip for bike riding. |
| Together, skip or side-slide to each corner of our activity area and back. | Each balance on 1 foot, opposite leg resting on knee, for 15 seconds. Switch feet | You’re both on a swim team; pretend your swimming for a Gold medal for 15 seconds! | Together, pretend rope jump 20 times. | Each of you dance and leap gracefully for 15 seconds. |
| Tell each other 2 favorite fruits and 2 favorite vegetables. | Gallop the width of our activity area at a low level. | Together, name 5 benefits of physical activity. | Skip to touch all 4 sidelines of our activity area then high 5 each other. | Each say a favorite healthy thing to eat for lunch at school. |
**ACTIVITY** | **WHAT YOU DO** | **WHAT YOU SAY**
--- | --- | ---
**PATA PATA JIGSAW**  
(DANCE FROM AFRICA) | Play Mingle-Mingle to create groups of 3. Scatter them within activity area 20x20 paces.  
Have students number themselves 1, 2, or 3 (in each group).  
Send the 1’s to a corner with a dance card (pages to follow). They read and practice the first part of the dance. Do the same with the 2’s and 3’s. | This dance is called “Pata Pata” It comes from Africa.  
You will actually teach the dance to one another using the “jigsaw” technique. It’s like putting the pieces of a puzzle together!  
When I say “Go!” all the wonderful 1’s go to this corner (point) with your dance card. Learn the steps and be ready to go back and teach them to your group of 3.  
Terrific 2’s go here (point), tremendous 3’s there (point).  
I’ll move to help any groups that need it.  
After 5 minutes or so, I’ll call everyone in; we’ll put the pieces of our puzzle together and do Pata Pata with the music.  
Facing a new direction, the dance begins again from the first part!  
Social Studies Integration:  
In the classroom, find the African continent on the world map; and show the location of South Africa. |
PATA PATA PART 2

POINT TOES OUT
MOVE HEELS OUT
MOVE HEELS IN
MOVE TOES IN
FIRST PART

1. STAND WITH YOUR FEET TOGETHER. MOVE YOUR RIGHT FOOT OUT TO
2. YOUR RIGHT SIDE AND BACK 2XS.
3. DO THE SAME WITH YOUR LEFT FOOT: OUT, IN, OUT IN.

NOW, PRACTICE BOTH TOGETHER, RIGHT FOOT FIRST.
CAN YOU ADD A MOVEMENT FOR YOUR ARMS?
THINK OF HOW YOU’RE GOING TO TEACH IT TO YOUR ORIGINAL GROUP OF 3.
SECOND PART

1. STAND WITH YOUR FEET TOGETHER.
2. POINT YOUR TOES OUT LIKE A DUCK.
3. GO UP ON YOUR TOES, THEN MOVE YOUR HEELS OUT
4. MOVE YOUR HEELS BACK IN
5. MOVE YOUR TOES BACK IN.
6. YOU’RE STANDING WITH YOUR FEET TOGETHER AGAIN!

KEEP PRACTICING UNTIL YOU CAN DO IT SMOOTHLY – THIS SECOND PART IS TRICKY.

ONCE YOU KNOW IT, THINK OF HOW YOU’LL TEACH IT TO YOUR ORIGINAL GROUP OF 3.
THIRD PART

1. LIFT YOUR RIGHT KNEE 2XS.
2. KICK YOUR LEFT FOOT FORWARD 2XS.
3. DO A ¼ JUMP TURN TO YOUR R, PAUSE 1 COUNT, THEN CLAP!

PRACTICE UNTIL YOU CAN DO IT FLUIDLY WITHOUT ANY BREAKS.

THINK OF HOW YOU WILL TEACH THIS PART TO YOUR ORIGINAL GROUP OF 3.
### Objectives
- Rhythm
- Timing
- Balance
- Cardiovascular fitness
- Muscular strength
- Endurance
- Cultural awareness

### Equipment
- 1 pair movement bands/4 students
- Music and player: “Around the World”
  - RED HOT PEPPERS
- 1 paper ball/student
- Optional: Trash cans, waste paper baskets

### Activity
#### Tinikling
(Dance from the Philippines)

- Explain the cultural significance of the dance.
- Or, call the activity “movement bands” and emphasize the fitness aspect. Change name from “dancer” to “jumper.”
- Create groups of 4-5; scatter them within activity area (20x20 paces).

### What You Do
- Tinikling is the national dance of the Philippines, and tells the story about the Tinikling bird.
- The dance illustrates the long-legged bird’s attempt to “test the waters” in the rice paddies. It gently places 1 leg, then the other, inside the poles of traps set by rice farmers.
- Instead of poles, we will use “movement bands.”
- “Mingle-Mingle 4’s.” Choose a leader to select a pair of jumpbands for your group.
- Two of you start as “enders.” Place the bands over your ankles. Stand facing your partner; stretching the bands so they don’t sag in the middle.
- All others are “dancers” who move between the bands.
- Everyone will have a chance to be an ender and a dancer.
### TINIKLING
(DANCE FROM THE PHILIPPINES)

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Enders:</strong></td>
<td>First, we’ll all pretend to be Enders with bands around our ankles, and practice the Enders moves together:</td>
<td>• When both enders and dancers understand the rhythm, put all parts together</td>
</tr>
<tr>
<td><strong>Dancers:</strong></td>
<td>• This will repeat many times. How many times can you do it without a miss?</td>
<td></td>
</tr>
<tr>
<td><strong>Extensions:</strong></td>
<td>Dancers, practice your moves first with the enders holding still and their feet apart.</td>
<td></td>
</tr>
<tr>
<td>Easier Option:</td>
<td>Now let’s all pretend to be Dancers.</td>
<td></td>
</tr>
<tr>
<td>High Five:</td>
<td>• Now let’s all pretend to be Enders.</td>
<td></td>
</tr>
<tr>
<td>Crossover:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Jaws:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Social Studies Integration:</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Lessons:
1. **Easier Option:** Dancers JUMP IN, STRADDLE OUT, in opposition to the enders footwork.
2. **High Five:** While 2 dancers face each other and perform the basic step, they tap their own legs on cts. 1, 2, then high five their partner on cts. 3, 4.
3. **Crossover:** Overlap 2 sets of bands and form a group with 4 enders and 4 dancers. Dancers stand in corners and travel “Around the World” doing the footwork from corner to corner.
4. **Jaws:** When bands overlap, the middle opens wide then closes. Dancers run through the middle when the “shark” opens its jaws!

#### After Trials:
1. Can you keep the beat to the music?
2. Which group is ready to create a routine?

#### Social Studies Integration:
In the classroom, discuss the differences between islands (like the Phillipines), peninsulas, countries, and continents.
3’s – Outside

LESSON 1: THROW, STRIKE, RUN GAMES

LESSON 2: 3 CATCH GAMES
### OBJECTIVES
- Throwing
- Catching
- Fielding
- Striking
- Cooperation

### EQUIPMENT
- For every 5 students: 2 large and 2 small cones
- 1 rag softball
- 1 football
- 1 foamball
- 1 bat
- Optional: 1 batting tee an assortment of other objects to throw and catch

### ACTIVITY

<table>
<thead>
<tr>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>THROW AND RUN GAMES</strong></td>
<td>To practice throwing and catching, we’ll play a fun and active game called, “Throw and Go.”</td>
</tr>
<tr>
<td>• Designate an area 10-20 paces wide for each group of 5.</td>
<td>See the long, thin field in front of you? There are 2 sidelines marked by small cones, and a larger cone 20 paces away from home. That’s the running cone.</td>
</tr>
<tr>
<td>• Create groups of 5. One ball/group; (pitcher, catcher, “batter,” and 2 fielders). Can play with a 3rd fielder if needed (group of 6).</td>
<td>Let’s watch a demonstration:</td>
</tr>
<tr>
<td></td>
<td>• Pitcher: Toss the ball underhand to the “batter.”</td>
</tr>
<tr>
<td></td>
<td>• Batter: Catch the ball and throw it anywhere in bounds. It must go at least to the pitcher (no bunts). There is no end line, throw as far as you wish. After your throw, run around the cone and back to home plate before the fielders relay the ball in.</td>
</tr>
<tr>
<td></td>
<td>• Fielders: Field the thrown ball and toss or throw (don’t run) it to each one of your group-mates. Last person with the ball tries to throw it home before the runner!</td>
</tr>
<tr>
<td></td>
<td>• Adjust running cones to create close plays at the plate.</td>
</tr>
<tr>
<td></td>
<td>• Fielders: Field the thrown ball and toss or throw (don’t run) it to each one of your group-mates. Last person with the ball tries to throw it home before the runner!</td>
</tr>
<tr>
<td></td>
<td>• After each “batter” runs, rotate positions clockwise towards the catcher – in the shape of a question mark.</td>
</tr>
<tr>
<td></td>
<td>The faster you rotate, the more turns at bat you’ll have.</td>
</tr>
<tr>
<td></td>
<td>• If you think you can make it around the cone more than once, go for it!</td>
</tr>
</tbody>
</table>

**Extensions:**
- Play 1st with a small foamball, then switch to rag softball, football, flying disc, vortex, anything fun to throw and catch.
- Give groups choice of “sport” (equipment) to play on their field.

**Explain/demonstrate game.**
THROW-AND-RUN GAMES

### STRIKE AND RUN GAMES

<table>
<thead>
<tr>
<th>WHAT YOU DO</th>
<th>WHAT YOU SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>- This game is played like Throw and Run except students bat the ball instead of throw it.</td>
<td>- This game is played like Throw and Run except we will use bats to put the ball in play, instead of throwing it. The rotation is the same.</td>
</tr>
<tr>
<td>- Allow batters to choose whether they hit off a tee, self-toss and hit, or hit a pitched ball.</td>
<td>- After all have thrown and caught in the field, whoever has ball last throws it to the catcher for the play at the plate!</td>
</tr>
<tr>
<td>- No more than 3 pitches or 3 tee attempts per batter, even if ball is hit foul.</td>
<td>- All this must happen before the runner gets home!</td>
</tr>
<tr>
<td></td>
<td>- No fly ball outs.</td>
</tr>
<tr>
<td></td>
<td>- Rotate positions (as in Throw and Run) quickly after batter has scored or is declared out.</td>
</tr>
<tr>
<td></td>
<td>- The faster you rotate, the more turns at bat you get!</td>
</tr>
</tbody>
</table>

**Extensions:**

- When competent, have outfielders move to line up (all throws go in a straight line) the relay to the catcher.
- Play same game with different sports and skills to strike the ball into play (e.g., kickball, soccer, hockey, tennis racket, etc.).
3’s: OUTSIDE - 3 CATCH GAMES

OBJECTIVES
- Throwing
- Catching
- Faking
- Defending

EQUIPMENT
- 1 foamball/3 students
- 1 pinnie/2 students
- 15 cones
- Whistle
- Optional: Assortment of other balls/objects to throw and catch (e.g., basketball, football, softball, soccer ball. hockey sticks 1/student, and hockey pucks/balls 1/2students)

ACTIVITY | WHAT YOU DO | WHAT YOU SAY
--- | --- | ---

KEEP AWAY
(2 ON 1)

- Create “Grids” (squares 15x15 paces) in activity area.
- Play Mingle-Mingle to form groups of 3. Place 2 groups in each grid.
- Explain/demonstrate activity. Have groups play first with a foamball.
- Rotate defenders every minute to provide equal opportunity.

Advanced Learners:
- Middle persons score 1 point if ball is thrown over their heads – or – if they deflect/touch the ball.

- In groups of 3, 2 are on offense (with ball) and 1 plays defense (without ball). This is “Keep Away 2 on 1.”
- If the ball is in your possession, you are a passer. If you don’t have the ball, you are a receiver.
- Passers (person with ball first): Pivot to get a clear throw, wait for your receiver to get open, lead her/him. Fake high and pass low. Fake low and pass high.
- Receivers (offensive player without ball): Move into open space; give passer a target, watch for the ball.
- Defenders: Stand at least 3’ from person with ball, not in the middle. Try and deflect pass.

After Trials:
- If you don’t have the ball, run a 45 degree angle cut towards the passer. Practice the give and go.
### 3 Catch Lead-Up (Passing to a Moving Target)

- **WHAT YOU DO**
  - Explain/demonstrate activity. Have groups play first with a foamball.
  - Teach the “SPARK Principle of 3’s.” Answer is always 3 (e.g., stand 3 ft. from person w/ball, pass in from out of bounds within 3 sec., take 3 steps w/ball, etc.).

- **WHAT YOU SAY**
  - The object is to make 3 catches; each to a different member of your group.
  - Everyone in your group is on offense; there is no defense for this drill.
  - Use the cuts and moves you’ve practiced to get open and receive a pass.
  - Practice well because soon there will be a defender shadowing you.
  - **After Trials:**
    - The person with the ball cannot take more than 3 steps before passing it, or hold it for more than 3 seconds.

### 3 Catch Games

- **WHAT YOU DO**
  - Groups of 3 play against each other, 1 game per grid; 1 ball per game.
  - Explain/demonstrate game.
  - Assign half the groups to wear pinnies (to designate from one another).
  - Scorekeeping optional.

- **WHAT YOU SAY**
  - The object of the game is to make 3 catches, each to a different member of your group.
  - Group wearing pinnies begins with the ball in the center of the grid. Each defensive player shadows a different person, staying at least 3 ft. away at all times.
  - If 3 catches are made, that group drops the ball immediately. Other team picks it up and tries to make 3 catches.
  - Whichever group touches the ball last has possession.
  - Count your catches out loud.
  - **Extensions:**
    - Play with different balls and skills (e.g., 3 catch basketball or flying disc; 3 trap soccer or hockey).
    - Add a shot: After 3 catches/traps, group may take a shot on goal (e.g., basketball, soccer, hockey, etc.).

**Diagram**

- Illustration of players moving to open space and playing games in a grid pattern.

---

*Lesson: 2*
MR. PAUL ROSENGARD (with SPARK since 1990): Is the Executive Director of the SPARK Programs of San Diego State University (also a division of Sportime, a member of the School Specialty family of companies) and he instructs future teachers at the University of California, at San Diego where he has been a faculty member since 1996. Mr. Rosengard is known for his extensive work as a physical activity interventionist, having contributed as an intervention director, consultant and trainer for a number of benchmark national studies/projects including SPARK, TAAG, M-SPAN, Pathways, PEACH, OPprA, OPI, POPI, and the NikeGO campaigns. Mr. Rosengard was appointed the first Deputy Director of the CA Governor’s Council of Physical Fitness and Sports (1996) and served as a key member on the education committee for many years. He was selected as one of 20 Special Advisors to the new Governor’s Council in the current administration. Mr. Rosengard is nationally known for his creative writing and innovative pedagogical methods, which have been proven effective in improving physical activity programs, teacher effectiveness, and student outcomes. To date, he has over 25 publications in professional journals, has authored or co-authored 16 curriculum books for teachers, and conducted more than 375 professional workshops and conference presentations worldwide, many as a featured or keynote speaker. Mr. Rosengard is quoted frequently in magazines and newspapers and seen on television (most recently on Good Morning America) and professional videos.

DR. THOM MCKENZIE (with SPARK since 1989): Is a Professor in the Department of Exercise and Nutritional Sciences at San Diego State University. Thom is a former school health and physical education teacher, administrator, coach and athletic director. He has authored or co-authored over 130 refereed papers and book chapters and has presented over 300 papers on physical activity, physical education, teacher/coach training, and applied psychology. Thom is a Fellow of four professional organizations, including the American Academy of Kinesiology and Physical Education and the American College of Sports Medicine. He received the “Curriculum and Instruction Honor Award” from NASPE in 2006 and was AAHPERD Alliance Scholar in 2003. His work is also recognized internationally, and in 2003 was awarded the AIESEP Olympic Committee President’s Prize for research and program development. Thom is an investigator on three long-term, multidisciplinary research projects funded by the National Institutes of Health, was recently appointed to the Science Board, President’s Council on Physical Fitness and Sport.

DR. JAMES SALLIS (with SPARK since 1989): Is a SPARK founder and serves as a valued Consultant. Jim is a Professor of Psychology at San Diego State University and was the Principal Investigator for Project SPARK. His major professional interest is developing and evaluating programs to improve physical activity and other health habits, for which he has received grants in excess of $15 million. Jim has authored or co-authored more than 400 refereed articles and book chapters on health and behavior, most of these on physical activity and sport. He has presented more than 350 papers on health and behavior at professional meetings on four continents and is a consultant on health promotion for various national granting agencies, research studies, companies, and government agencies. Jim was on the Editorial Board for the 1996 Surgeon General’s Report, Physical Activity and Health.
