Comments:

- *The plan needs to include greater emphasis on strategies to support the 30% of students that are transient. Students who are enrolling and leaving the school site require a unique program to perform well in the classroom.*
- *The instructional program should include opportunities for school staff to visit student homes, follow-up phone calls for parents and opportunities for parents to observe how students learn at the school site.*
- *There are disparities when it comes to prioritizing the budget needs and services provided to student groups.*
- *The resource room for gifted students should be a priority similar to the development of interventions for under performing students.*
