 <b>4. School Culture</b>	Does Not Meet My Expectations	Partially Meets My Expectations	Meets My Expectations	Exceeds My Expectations

The description of a day in the life of a student portrays a dynamic school in which students will receive a high quality education:	2	13	72	30
Do the activities described (such as art, music, athletics, clubs, field trips, etc.) support the mission and vision of the school?	4	30	62	22
1) The plan sounds great. I hope that they follow through. 2) They went over all my expectations. 3) We need well rounded art/music programs. 4) I hope the curriculum is grade level appropriate. 5) I hope that in the future they develop new things that will benefit the student. 6) I hope the teachers demonstrate through their actions that they love and care for them and that they motivate our students everyday and realize that both teachers and students are human beings and they too become tired and I hope that they have tolerance for one another. 7) I hope that there will be good security. 8) I think that the plan should exchange ideas with other schools to expose students to different cultures. The school should encourage projects focused on cultures that are grade level appropriate. 9) I think it's a good idea that students will be in sports, it keeps their mind occupied. 10) It sounds like the first school year there will be no music class. It sounds like the first year will be a bit disorganized but I have faith in the principal that he will be dedicated and committed to our students. 11) Security is an important issue to talk to our children about but frankly not all parents talk to their children about how to behave in school. 12) I like the idea that the grade levels will be intermixed with one another. 13) The most important thing is that the students are well prepared to want to attend college. 14) The school should offer free uniforms because not all parents have money to buy uniforms. 15) Parents should be more involved so that they are aware of what is going on and they can support the school. 16) I want studentns to learn Civility and respect, and paretns too. 16) The truth is I wish there were all of the things mentioned above ant that [the district] would not say there were no funds for that like it always does. 17) This all sounds great, we shall see if it is realized. 18) I like the idea of everything proposed, it is very good what is promised. 19) Of course come through while we still have students in different activities they will progress more. 20) I hope you come through with everything. 21) Everything is fine and we need more arts and cultural programs that can help our future. 22) Very good plan with culture and art that are important and what we need in the future 23)The promises meet my expectations but I hope they are realized. <p><i>Comments:</i> 1) To me everything is fulfilled. Everything that is happening is good.</p> <p>1)The parents are not understanding everything.  2) There is a need for more support to help our children. There is a need to respect the parent more.  3) In reference of parent engagement it appears to me to be really good. There are a lot of parents that do not involve themselves in the education of our children, and this is of the utmost importance and it should be mandatory to engage the parents.  4) Parents need to get more involved.  5) Add the paretns at every turn.  6) The truth is I don't know how they will achieve that because there are so many children at all of the schools and there are too few of us.  7) Every parent that would liek to come and help should be accepted, or have specific [rules] about who can and can not volunteer at the school.  8) I have confidence in this plan.  9) I like this plan becaouse we know how to educate children while they play and prevent profanity, or lack of respect to elders.  10) I am planning to be involved in the school like I have been at my children's other schools and hope to help out with my time  11)Yes [involvement] is important to parents.  12)For there to be more parent participation, the school needs to figure out what hours work best, once parents are out of work and can come to meetings  13) This plan is very interesting, I wish all parents get a chance to take their kids to this school and that they get the necessary support to find the best education.</p>

<p><i>Comments:</i></p> <p>1) I would like for teachers to be evaluated periodically.  2) Everything that was explained sounds very good and I hope that they follow through with it.  3) Teachers should effectively demonstrate what the students will be learning and they should be culturally sensitive towards students.  4) Qualified staff that can make changes and have a positive outlook and vision for the need of students.  5) Qualified teachers who can do a good job teaching our children.  6) We would like teachers who will take into consideration our thoughts and opinions about our children's education and our community.  7) Yes and what we liked best was that teachers will not be hired based on seniority rather by quality of teaching. 8) They should respect all the children and help them 9) I hope that for the safety of the children you recruit better teachers and verify their backgrounds and problems they may have had at other schools 10) Will all personnel have the authority to oversee their curriculum or will there be any kind of supervision for them 11) I hope that everything comes through. 12) Will the personnel really have the capacity, background, and experience to work 13)I really like the ideas that are presented and everything promised is good 13) I hope that everything is realized for everyone and that we have a beautiful youth ready to go to the university 14)Clearly we expect a lot from parents 15) Guaranty</p>
