Background

The policies set forth in this Debt Management Policy (the “Policy”) have been developed to provide guidelines for the issuance of general obligation bonds (“GO Bonds”), certificates of participation (“COPs”) and other lease-backed financings, tax and revenue anticipation notes (“TRANS”) and other forms of indebtedness by the Los Angeles Unified School District (the “District”). While the issuance of debt can be an appropriate method of financing capital projects or annual cash flow management, careful and consistent monitoring of such debt issuance is required to preserve the District’s credit strength and budgetary and financial flexibility.

The District’s long-term debt that funds capital projects includes GO bonds that are backed by i) voter approved property taxes and ii) COPs that are backed by the District’s General Fund. Given this distinction, the credit ratings on the District’s GOs have been some of the highest of any major urban school district in the nation while the ratings on its COPs have been lower. Prior to the District’s GO Bond sale in March 2016, the District’s GO bond ratings were Aa2 by Moody’s Investors Service (“Moody’s”) and AA- by Standard & Poor’s Corporation (“S&P”). At that time, the District’s COPs were rated A1 (Moody’s) and A+ (Standard & Poor’s). Following the passage of State Senate Bill 222, which effective January 1, 2016, created a statutory lien in the voter-approved property taxes that secure California school district GOs, some rating agencies modified their methodology for California school district GOs. The ratings on the District’s GOs that were sold after SB222 became effective have been AAA, AA+ and Aa2 by Fitch Ratings (“Fitch”), Kroll Bond Rating Agency (“KBRA”) and Moody’s, respectively. In fiscal year 2018-19, as a result of cost pressures and declining enrollment, the rating agencies reviewed the District’s credit ratings. Fitch maintained a AAA rating on the District’s GOs while lowering the District’s Indicative Default Rating (“IDR”) rating from A+ to A and S&P lowered the District’s GO rating from AA- to A+ and its COPs rating from A+ to A. In addition, Moody’s and S&P placed a Negative Outlook on the District’s GOs and COPs and Fitch placed a Negative Outlook on the District’s IDR. Kroll maintained the District’s GO ratings at AA+. Additional information on the District’s ratings and rating agency methodology is provided in Section 3.08 and the 2017-18 Debt Report.

High GO ratings help to reduce the interest costs paid by the District on the amounts borrowed, resulting in lower property taxes paid by the District’s taxpayers to pay the debt service. Lower interest rates on the COPs reduce the burden on the District’s operating funds. The District’s debt management policies are intended to assist in maintaining the District’s high credit ratings so that access to borrowed funds is provided at the lowest possible interest rates, as well as to provide guidelines for the prudent use and management of the District’s debt. Additionally, these policies set forth selection criteria for financial consultants and attorneys to i) ensure a fair and open selection process, ii) provide opportunities for all firms (including small business enterprises) to participate in District contracts and iii) result in the selection of the best-qualified partners.

The District faces continuing capital infrastructure and cash requirements and through the Facilities Improvement Program, has been engaged in building new schools and modernizing existing schools. The costs of these requirements have and will continue to be met, in large part, through the issuance of various types of debt instruments and other long-term financial obligations. Under “Proposition BB,” “Measure K,” “Measure R,” “Measure Y” and “Measure Q” adopted by the voters in April 1997, November 2002, March 2004, November 2005 and November 2008, respectively, the District has a combined \$20.605 billion in general obligation bond authorization for its Facilities

Improvement Program, other capital projects and the refinancing of obligations payable from the District's General Fund. Consequently, the District has seen an increase in its levels of debt and other obligations and needs to anticipate future issuance of debt obligations, some of which may be repaid from the District's General Fund. With these additional debt issuances, the effects of decisions regarding the type of issue, method of sale, and payment structure become ever more critical to the District's fiscal health. To help ensure the District's creditworthiness, an established policy of managing the District's debt is essential. To this end, the Board of Education of the District (the "Board") recognizes this Policy to be financially prudent and in the District's best economic interest. In addition, the District's practices with respect to monitoring its outstanding debt issues for compliance with all Internal Revenue Service requirements and other transaction requirements are set forth in Appendix A to this Policy.

Article I. **Purpose and Goals**

The purpose of this Policy is to provide a functional tool for debt management and capital planning, as well as to enhance the District's ability to manage its general obligation bond debt, tax and revenue anticipation notes, and lease financings in a conservative and prudent manner. This Debt Policy is intended to achieve the following policy objectives:

- The District shall strive to fund capital improvements from referendum-approved general obligation bond issues to preserve the availability of its General Fund for District operating purposes and other purposes that cannot be funded by such bond issues.
- The District shall endeavor to attain and maintain the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements.
- The District shall take all practical precautions and proactive measures to avoid any financial decision that will negatively impact credit ratings on existing or future debt issues.
- The District shall remain mindful of its statutory debt limit in relation to assessed valuation within the school district and the tax burden needed to meet long-term capital requirements.
- The District shall consider market conditions and District cash flows when timing the issuance of debt.
- The District shall determine the amortization (maturity) schedule which will best fit with the overall debt structure of the District at the time the new debt is issued.
- The District shall match the term of the issue to the useful lives of assets whenever practicable and economic, while considering repair and replacement costs of those assets to be incurred in the future.
- The District shall, when pursuing the planning goals and objectives for the issuance of new debt, consider the impact of such new debt on overlapping debt of local, state and other governments that overlap with the District.
- The District shall, when issuing debt, assess financial alternatives to include new and innovative

financing approaches, including whenever feasible categorical grants, revolving loans or other State/federal aid, so as to minimize the contribution from the District's General Fund.

- The District shall, when planning for the sizing and timing of debt issuance, consider its ability to expend the funds obtained in a timely, efficient and economical manner.
- The District shall ensure that local and emerging businesses will be considered and used in lead and other roles in the financing team when appropriate.
- The District shall ensure that its financing arrangements comply in all respects with applicable state law, tax law, disclosure requirements and the District's existing debt covenants.

The key financial management tools and goals that are intrinsic to the Policy include:

- A. Budget and Finance Policy: The District recognizes the importance of emergency reserves, including liquidity in the General Fund, which can provide a financial cushion in years of poor revenue receipts. A reserve fund policy has been adopted by the Board as part of its Budget and Finance Policy.
- B. Capital Financing Plan: The Office of the Chief Financial Officer will prepare a Capital Financing Plan in conjunction with the capital budget.
- C. Annual Debt Report: The Chief Financial Officer will annually prepare for and submit to the Superintendent and the Board a Debt Report as further described under Section 4.02 herein.

Article II. **Authorization**

Section 2.01 **Authority and Purposes of the Issuance of Debt**

The laws of the State of California authorize the issuance of debt by the District and confer upon it the power and authority to make lease payments, contract debt, and issue bonds for public improvement projects. Under these provisions, the District may contract debt to pay for the cost of acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging and equipping such projects; to refund existing debt; or to provide for cash flow needs. Prior to the sale of any debt issue, including financing leases as provided under State law, the District is required to submit a report of the proposed debt issuance to the California Debt Investment and Advisory Commission ("CDIAC") that is to include a certification that the District has adopted local debt policies and that the debt issuance is consistent with those local debt policies.

Section 2.02 **Types of Debt Authorized to be Issued**

- A. Short-Term Debt: The District may issue various types of fixed-rate and/or variable rate short-term debt for various purposes. Tax and revenue anticipation notes ("TRANs") can be issued when such instruments enable the District to meet its cash flow requirements. However, the District's general objective is to manage its cash position in a manner so that internally generated cash flow is sufficient to meet expenditures. In addition, commercial paper may be issued to fund shorter-term acquisitions, such as equipment, or as interim funding for capital costs that will ultimately be replaced with longer-term COPs. Bond anticipation notes

(“BANs”) may be issued to provide interim financing for projects that will ultimately be paid from general obligation bond proceeds. The District may also participate in an annual pooled financing of delinquent property taxes to the extent that the Chief Financial Officer determines such financing produces significant benefit to the District.

- B. Long-Term General Obligation Bonds: GO Bonds may be issued under Article XIII A of the State Constitution pursuant to voter approved propositions, either under Section 1(b)(2) which requires approval by at least two-thirds of voters or Section 1(b)(3) (“Proposition 39”) which requires approval by at least 55% of voters, subject to additional restrictions. Voter-approved general obligation bonds typically provide the lowest cost of borrowing and do not impact the District’s General Fund. In recognition of the difficulty in achieving the required voter approval to issue general obligation bonds, such bonds will be generally limited to school facilities and projects that provide wide public benefit and for which broad public support has been generated. GO debt will not be used to fund District operations.
- C. Lease Financing: Lease obligations, including COPs, lease revenue bonds (“LRBs”) and other lease-purchase financings are a routine and appropriate means of financing capital facilities, including equipment. Lease obligations also have the greatest impact on budget flexibility. Therefore, efforts will be made to fund capital equipment with pay-as-you-go financing where feasible, and only the highest priority equipment purchases will be funded with lease obligations. In particular, lease financing for facilities is appropriate when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is not feasible. If and when voter-approved GO Bond proceeds are available, the District may use such proceeds to refinance such lease financing. The District may issue COPs or LRBs in variable rate mode as provided for in Section 3.08A hereof. The District may use “asset transfer” COPs or LRBs to finance emergency capital needs in accordance with this Debt Policy. Additionally, asset transfer COPs or LRBs may be used if significant savings in financing costs can be generated compared to other financing alternatives.

With the exception of leases undertaken through the District’s standard procurement process, all equipment with a useful life of less than six years shall be funded on a pay- as-you-go basis unless the following conditions are met:

- i. In connection with the proposed District budget, the Superintendent makes the finding that there is an “economic necessity” based on a significant economic downturn, earthquake or other natural disaster and there are no other viable sources of funds to fund the equipment purchase.
 - ii. The Board concurs with the Superintendent’s finding in the adoption of the budget.
 - iii. The debt ceilings in Section 3.08 of this Policy are not exceeded.
- D. Use of Revenue Bonds: Revenue bonds including Mello-Roos Obligations that are supported solely from fees or taxes on a discrete group of taxpayers are not included when bond rating agencies calculate debt ratios. Repayment of such bonds would rely on dedicated, pledged funds such as developer fees. Accordingly, in order to preserve General Fund debt capacity and budget flexibility, revenue bonds will be preferred to General Fund supported debt when a distinct and identifiable revenue stream can be identified to support the issuance of bonds

at a cost-effective rate.

- E. Pay-As-You-Go Financing: Except in extenuating circumstances, the District will fund routine maintenance projects in each year's capital program with pay-as-you-go financing. Extenuating circumstances may include unusually large and non-recurring budgeted expenditures, or when depleted reserves and weak revenues would require the delay or deletion of necessary capital projects.
- F. Use of Special Financing Structures: The District may use special financing structures permitted by the federal government if they are analyzed and expected to result in sufficiently lower financing costs versus traditional tax-exempt bonds and/or COPs/LRBs that offset any additional administrative and compliance costs and risks. The special financing structures may be in the form of GO bonds or COPs/LRBs.
- G. Capital Appreciation Debt: The use of Capital Appreciation Bonds ("CABs") for various forms of debt (e.g., GO Bonds, COPs, LRBs, etc.) is limited pursuant to AB182 which was passed in 2013. Under this legislation, the ratio of total debt service to principal cannot exceed four to one and the maximum final maturity is 25 years. Any CABs with a maturity date greater than 10 years must be callable at the option of the school district no later than the 10th anniversary of the sale date of the bonds. The agenda of the school board meeting where the sale will be approved must include a resolution to approve the sale of the CABs. Public notice for the resolution must be on at least two consecutive meeting agendas. The governing board must receive a cost impact of the use of CABs that conforms to the requirements in the legislation. The District will not use CABs unless the Board determines it is necessary to issue them for urgent projects that cannot be more cost-effectively financed by an alternative method.
- H. Identified Repayment Source: The District will, when feasible, issue debt with a defined revenue source in order to preserve the use of General Fund supported debt for projects with no stream of user-fee revenues. Examples of revenue sources include voter- approved property taxes that repay general obligation or special tax bonds.

Section 2.03 **State Law**

Section 18 of Article XVI of the State Constitution provides the basic "debt limitation" formula applicable to the District.

Sections 1(b)(2) and 1(b)(3) of Article XIII A of the State Constitution allow the District to issue traditional general obligation bonds and Proposition 39 bonds, respectively. The statutory authority for issuing general obligation bonds (including CABs) is contained in Section 15000 *et seq.* of the Education Code. Additional provisions applicable only to Proposition 39 general obligation bonds are contained in Section 15264 *et seq.* of the Education Code. An alternative procedure for issuing general obligation bonds is also available in Section 53506 *et seq.* of the Government Code.

The statutory authority for issuing general obligation refunding bonds is contained in Articles 9 (commencing with Government Code Section 53550) and 11 (commencing with Government Code Section 53580) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code.

The statutory authority for issuing TRANs is contained in Section 53850 *et seq.* of the Government Code. Authority for lease financings is found in Section 17455 *et seq.* of the Education Code, and additional authority is contained in Sections 17400 *et seq.*, 17430 *et seq.* and 17450 *et seq.* of the Education Code. The District may also issue Mello-Roos bonds pursuant to Section 53311 *et seq.* of the Government Code.

Section 2.04 **Annual Review of Debt Policy**

The Policy shall be reviewed and submitted to the Board for approval separately from the budget at least annually. The Chief Financial Officer (“CFO”) is the designated administrator of the Policy and has overall responsibility, with the Board’s approval, for decisions related to the structuring of all District debt issues. The Chief Financial Officer may delegate the day-to-day responsibility for managing the District’s debt and lease financings. The Board is the obligated issuer of all District debt and awards all purchase contracts for bonds, COPs/LRBs, TRANs and any other debt issuances.

Article III. **Structural Features, Legal and Credit Concerns**

Section 3.01 **Structure of Debt Issues**

- A. **Maturity of Debt:** The average life of a debt issue shall be consistent, to the extent possible, with the average reasonably expected economic or useful life of the improvements or assets that the issue is financing. The weighted average maturity of the financing shall not exceed 120% of the average life of the assets being financed. In addition, the District shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.
- i. **General Obligation Bonds:**
 - a. The final maturity of General Obligation Bonds will be limited to the shorter of the average useful life of the assets financed or 25 years when such bonds are issued pursuant to the Education Code.
 - b. The final maturity of General Obligation Bonds issued under the Government Code will be limited to the shorter of the average useful life of the assets financed or 40 years. Per AB 182, the maturity of bonds may not exceed 25years unless there is no compounding of interest.
 - c. General Obligation Bond issues will generally be sized to the amount reasonably expected to be required for up to two years’ expenditure requirements, taking into account unexpended proceeds of prior issues at the time an issue is sized.
 - ii. **Lease-Purchase Obligations:** The final maturity of equipment or real property lease obligations will be limited to the useful life of the assets to be financed. The final maturity of real property obligations will also consider the size of the financing.
 - iii. **Mello-Roos Obligations and Revenue Bonds:** These obligations, although repaid through additional taxes levied on a discrete group of taxpayers or from pledged

developer fees, constitute overlapping indebtedness of the District and have an impact on the overall level of debt affordability. The District will develop separate guidelines for the issuance of such obligations as the need arises.

- B. Debt Service Structure: The District shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, provide flexibility, and, as practical, to recapture or maximize its debt capacity for future use. Annual debt service payments will generally be structured on a level basis per component financed; however, principal amortization may occur more quickly or slowly where permissible, to meet debt repayment, tax rate, and flexibility goals.
- C. Capitalized Interest: Unless required for structuring purposes, the District will avoid the use of capitalized interest in order to avoid unnecessarily increasing the bond size and interest expense. Certain types of financings such as COPs or LRBs may require that interest on the debt be paid from capitalized interest until the District has use and possession of the pledged asset. However, the District may pledge assets using an asset-transfer structure as collateral for the issue in order to eliminate the need for capitalized interest.
- D. Call Provisions: The Chief Financial Officer and Controller, based upon analysis from the municipal advisor of the economics of callable versus non-callable features, shall set forth call provisions for each issue.

Section 3.02 **Sale of Securities**

There are three methods of sale: competitive, negotiated, and private placement. The preferred method of sale shall be the competitive method as it is likely to result in the lowest interest cost to the District. All three methods of sale shall be considered for all issuance of debt, however, as each method has the potential to achieve the lowest financing cost given the right conditions. Any award through negotiation shall be subject to approval by the District, generally by the Chief Financial Officer or other person designated by the Chief Financial Officer, to ensure that interest costs are in accordance with comparable market interest rates. When a competitive bidding process is deemed the most advantageous method of sale for the District, award will be based upon, among other factors, the lowest offered True Interest Cost (“TIC”). A private placement sale is appropriate when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the District than either a negotiated or competitive sale would provide.

Section 3.03 **Markets**

The District shall consider products and conditions in the capital markets in meeting the District’s financing needs. To achieve the lowest cost of funds, the District’s goal is to reach as broad a retail and institutional investor base as possible. When appropriate, the District shall consider syndicate policies that give priority to orders from local and regional investors.

Section 3.04 **Credit Enhancement and Derivatives**

The District may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance

companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing. The District shall use a competitive process to select providers of such products to the extent applicable. To assure that the District uses credit enhancement cost-effectively, the Chief Financial Officer will review an economic analysis, by maturity where appropriate, prepared by the municipal advisor before selecting which maturities to insure.

The District may undertake certain hedging strategies in connection with its debt issues only if it provides a clear net economic benefit. The credit rating of any counterparty must be at least A1/A+ by at least one of the major rating agencies the time of the transaction. Authorized strategies include interest rate caps and their variants. The Chief Financial Officer may develop an appropriate policy regarding interest rate swaps and other derivatives for approval by the Board. Such policy, if approved, will be integrated into this Policy.

Section 3.05 Impact on Operating Budget and District Debt Burden

The potential impact of debt service and additional operating costs associated with new projects on the operating budget of the District, both short and long-term, will be evaluated. The projected ratio of annual debt service secured by the General Fund to General Fund expenditures is one method, as is the additional debt burden of overlapping agencies on taxpayers. The cost of debt issued for major capital repairs or replacements should be judged against the potential cost of delaying such repairs.

Section 3.06 Debt Limitation

Section 15106 of the Education Code limits the District's total outstanding bonded debt (i.e., the principal portion only) to 2.5% of the assessed valuation of the taxable property of the District. Thus, Section 15106 of the Education Code limits the issuance of new debt when the District has total bonded indebtedness in excess of 2.5% of the assessed valuation in the District. TRANs and lease payment obligations in support of COPs/LRBs generally do not count against this limit except as provided in Section 17422 of the Education Code.

Section 3.07 Debt Issued to Finance Operating Costs

The District cannot finance general operating costs from debt having maturities greater than thirteen months. However, the District may deem it necessary to finance cash flow requirements under certain conditions. Such cash flow borrowing must be payable from taxes, income, revenue, cash receipts and other moneys attributable to the fiscal year in which the debt is issued. General operating costs include, but are not limited to, those items normally funded in the District's annual operating budget and having a useful life of less than one year.

The CFO will review potential financing methods to determine which method results in the lowest cost to the District. Potential financing sources include Tax and Revenue Anticipation Notes, commercial bank lines of credit, temporary borrowing from the County of Los Angeles Treasurer, and internal temporary inter-fund borrowing. In analyzing the impact on District cost, the CFO will consider the lost interest earnings for the District funds providing temporary borrowing capacity.

Section 3.08 Credit Rating Methodologies and Debt Burden Ratios

Credit Rating Methodologies: After January 1, 2016, when SB222 became effective, Fitch rates California school district GO Bonds based on the strength of the property tax pledge and tax base that provides the security for their repayment. However, along with the GO bond rating, Fitch releases a separate Issuer Default Rating (IDR) that reflects their broader analysis of the overall credit quality of a district's operations including governance, management, financial performance, liquidity position, etc. KBRA also recognizes the strength of the property tax pledge and tax base, but also considers the overall credit quality of a district's operations and provides a single rating on a district's GOs. Moody's and Standard and Poor's also release a single rating on GOs that incorporates a broad analysis of credit quality. For any District COPS/LRBs that are secured solely by the District's General Fund, the ratings from all agencies are based on an analysis of the overall credit quality of the District. To achieve the highest credit ratings and lowest cost of funds on its GOs and COPS/LRBs across all rating agencies, it is therefore important for the District to consider the impact of its financial decisions on the credit quality of its GOs and COPS/LRBs.

Debt Burden Ratios: As noted in Section 3.06, the District may issue "bonds" in an amount no greater than 2.5% of taxable property within the school district. The 2.5% issuance limit is known as the District's bonding capacity, with "bonds" referring to GO Bonds. Even though COPS/LRBs do not technically constitute "debt" under California's Constitution and, thus, are excluded from the 2.5% bonding limit, the rating agencies and the investor community evaluate the District's debt position based on all of its outstanding long-term obligations whether or not such obligations are repaid from voter-approved tax levies, the General Fund or developer fee sources. Therefore, the debt burden ratios described below include both long-term GO Bonds and long-term COPS/LRBs as "debt" in the respective calculations.

The following debt burden ratios should be considered in developing debt issuance plans:

- *Ratio of Outstanding Debt to Assessed Value.* The ratio "Direct Debt" shall be calculated using the District's GO Bonds, COPS and LRBs. In addition, the ratio "Overall Direct Debt" or "Overall Debt" shall be calculated by aggregating all debt issues attributable to agencies located within the District's boundaries as presented in the California Municipal Statistics Overlapping Debt Statement. It is important to monitor the levels and growth of Direct Debt and Overall Debt as they portray the debt burden borne by the District's taxpayers and serve as proxies for taxpayer capacity to take on additional debt in the future.
- *Ratio of Outstanding Debt Per Capita.* The formula for this computation is Outstanding Debt divided by the population residing within the District's boundaries, based upon population estimates using information from the United States Bureau of the Census and California Department of Finance. Ratios shall be computed for both "Direct Debt Per Capita" and "Overall Debt Per Capita".
- *Ratio of Annual Lease Debt Service to General Fund Expenditures.* The formula for this computation is annual lease debt service expenditures divided by General Funds (i.e., General and Debt Service Funds) expenditures (excluding inter-fund transfers) as reported in the most recent Audited Annual Financial Report ("AAFR").

- *Proportion of Fixed-Rate and Variable-Rate COPs Issues.* The District may benefit from some variable rate exposure in its portfolio of COPs/LRBs. However, the District shall keep its variable rate exposure, to the extent not hedged or swapped to a fixed rate, at or below \$100 million. “Hedges” include unrestricted cash resources as well as interest rate products such as caps and collars. Under no circumstances will the District issue variable rate debt for arbitrage purposes. If variable rate debt is used, the Chief Financial Officer will periodically, but at least annually, determine whether it is appropriate to convert the debt to fixed interest rates.
- A. Debt Affordability: The determination of how much indebtedness the District should incur will be based on a capital financing plan that is periodically developed by the Office of the Chief Financial Officer, which analyzes the long-term infrastructure needs of the District, and the impact of planned debt issuances on the long-term affordability of all outstanding debt. It will be based on the District’s current capital plan and will include all District financings to be repaid from the General Fund, special funds or ad valorem property taxes.
- B. Targets and Ceilings for Debt Affordability: While the District’s GO bonds are repaid by voter-approved property taxes, it is the debt that is repaid from the District’s General Fund and other internal resources (typically, the District’s COPs and LRBs) that factor into the District’s credit quality. As a result, these debt obligations must be carefully monitored to maintain a balance between General Fund debt and the resources available to repay the debt. However, the credit environment is also affected by the debt burden imposed by the District’s issuance of GO Bonds as well as the debt issuance of other agencies whose jurisdictions overlap those of the District (“Overlapping Debt”) that are secured with property taxes (for example, the City of Los Angeles, the County of Los Angeles and the Los Angeles Community College District). The rating agencies will note the overall debt burden of the District which will include the overlapping jurisdictions’ debt.

The tax receipts used to repay the District’s General Obligation Bonds are levied and collected by the County of Los Angeles and are not controlled by the District. The District shall include data on the Overlapping Debt burden along with the debt that is repaid from the District’s General Fund or from any tax revenues deposited into special funds not supporting revenue bonds (the District’s Direct Debt) in the District’s annual Debt Report.

Table 1 below provides the debt burden limit that will be monitored by the Chief Financial Officer for debt that is to be repaid from the General Fund or other District resources. This maximum amount is intended to guide policy; it does not mean that debt issuance is automatically approved. On the contrary, each and every proposed debt issuance must be individually presented to and approved by the Board of Education.

Table 1

Debt Factor	Maximum
COPs Gross Annual Debt Service	2.0% of General Fund Expenditures

Table 2 below indicates the benchmark debt burden ratios to be monitored by the Chief Financial Officer that recognize the combined direct debt and overall debt of the District, as applicable. The Office of the Chief Financial Officer shall annually prepare or cause to be prepared a Debt Report providing details of the calculations of debt ratios and projections of the impact of future debt issuance on the District’s direct debt. The Office of the Chief Financial Officer shall also develop appropriate appendices to the Debt Report containing relevant information on any rating agency and/or Government Finance Officers Association debt policy guidelines with respect to debt burden ratios.

Debt Ratios: The following table sets forth the debt ratios to be monitored under the Policy and their targeted levels.

Table 2

Debt Burden Ratio	Benchmark
Direct Debt to Assessed Value	Moody’s Median for Aa Rated School Districts with Population Above 200,000
Overall Debt to Assessed Value	
Direct Debt Per Capita	
Overall Debt Per Capita	

“Direct Debt” includes all debt that is repaid from the General Fund or from any tax revenues deposited into special funds not supporting revenue bonds.

“Overall Debt” includes any debt that is paid from general tax revenues and special assessments by residents in the District. This includes debt issued by other agencies whose taxing boundaries overlap the District, such as the City of Los Angeles, the County of Los Angeles and the Los Angeles Community College District, but excludes revenue bonds with dedicated repayment sources.

- C. **Monitor Impact on District Taxpayer of Voter-Approved Taxes:** In addition to the analysis of the District’s debt affordability, the District will review the impact of debt issuance on District taxpayers. This analysis will incorporate the District’s General Obligation Bond tax levies as well as tax rates imposed by overlapping jurisdictions. It is important for the District to be aware of its share of the total overlapping debt. In addition, the District will monitor the performance of the actual tax levy rate for each General Obligation Bond authorization versus what the tax levy rate was expected to be at the time of the original bond election and include said performance in the Debt Report. The Measure K, Measure R, Measure Y and Measure Q Bonds were each authorized with a tax levy limitation of \$60 per \$100,000 of assessed value to repay bonds issued under each authorization Measure.

Section 3.09 Use of Corporations as Lessor for COPs Issues

The District has established two special purpose corporations to assist in COPs financings as lessor: the LAUSD Financing Corporation and the LAUSD Administration Building Financing Corporation. The District shall use these corporations rather than private corporations as lessor whenever feasible. The District shall maintain proper records relating to the corporations and prepare audits as required.

Article IV. **Related Issues**

Section 4.01 **Capital Improvement Program**

Planning and management of the District's Capital Improvement Program rests primarily with the Facilities Services Division under the Superintendent's direction, subject to review by the Bond Oversight Committee (the "BOC") and approval by the Board of Education. The Facilities Master Plan and Strategic Execution Plans provide an overall description of the District's current Facilities Improvement Program, as supplemented by any proposed issuance of debt. The Facilities Services Division will, as appropriate, supplement and revise these plans in keeping with the District's current needs for the acquisition, development and/or improvement of District's real estate and facilities. The plans must include a summary of the estimated total cost of each project, schedules for the projects, the expected quarterly cash requirements, and annual appropriations, in order for the projects to be completed. The Office of the Chief Financial Officer shall prepare an annual capital financing plan in conjunction with the capital program budget as part of the annual budget for the District.

Section 4.02 **Reporting of Debt**

The AAFR will include information on the District's indebtedness including the amount of (i) new debt issued, (ii) debt outstanding, and (iii) assessed valuation. The AAFR will be posted on the District's website, the District's dissemination agent's website and the Municipal Securities Rulemaking Board's Electronic Municipal Market Access (EMMA) website.

The CFO will also produce an annual Debt Report which covers the following information: (i) bonded debt limitation and assessed valuation growth, (ii) debt outstanding, (iii) bonds authorized but unissued, (iv) debt refundings, (v) tax rate performance on outstanding bonds, (vi) cost of district debt, and (vii) credit ratings. This report will be provided to the Board and uploaded to the District's website.

Section 4.03 **Financial Disclosure**

The CFO shall designate a Chief Disclosure Officer and Disclosure Coordinator. Together, they shall be responsible for the District's disclosure compliance functions, in conjunction with the disclosure counsel appointed by the District.

The District shall prepare or cause to be prepared appropriate disclosures as required by Securities and Exchange Commission Rule 15c2-12 and to ensure compliance with applicable laws, regulations and agreements.

The District shall make available its annual AAFRs, budgets, and Official Statements on the District's website, the District's dissemination agent's website, and on the Electronic Municipal Market Access (EMMA) website so that interested persons have a convenient way to locate major financial reports and documents pertaining to the District's finances and debt.

Section 4.04 **Review of Financing Proposals**

All capital financing proposals involving a pledge of the District's credit through the sale of securities, execution of loans or lease agreements, or otherwise directly or indirectly lending or

pledging of the District's credit initially shall be referred to the Chief Financial Officer who shall determine the financial feasibility of such proposal and make recommendations accordingly to the Board.

Section 4.05 Establishing Financing Priorities

The Chief Financial Officer shall administer and coordinate the Policy and the District's debt issuance program and activities, including timing of issuance, method of sale, structuring the issue, and marketing strategies. The Chief Financial Officer shall, as appropriate, report to the Superintendent and the Board regarding the status of the current and future year programs and make specific recommendations.

Section 4.06 Rating Agency and Credit Enhancer Relations

The District shall endeavor to maintain effective relations with the rating agencies, and credit enhancers. The Chief Financial Officer along with the District's general municipal advisor shall meet with, make presentations to, or otherwise communicate with the rating agencies on a consistent and as appropriate basis in order to keep the agencies informed about the District's capital plans, debt issuance program, and other appropriate financial information. The CFO along with the District's municipal advisor shall communicate with credit enhancers as appropriate to determine if a cost-effective product for the District is commercially available with reasonable terms and conditions.

Section 4.07 Investment Community Relations

The District shall endeavor to maintain a positive relationship with the investment community. The Chief Financial Officer shall, as necessary, prepare reports and other forms of communication regarding the District's indebtedness, as well as its future financing plans. This includes information presented to the media and other public sources of information. To the extent applicable, such communications shall be posted on the District's website.

Section 4.08 Refunding and Restructuring Policy

Whenever deemed to be in the best interest of the District, the District shall consider refunding or restructuring outstanding debt when financially advantageous or beneficial for debt repayment and structuring flexibility. The Chief Financial Officer shall review a net present value analysis of any proposed refunding in order to make a determination regarding the cost-effectiveness of the proposed refunding. The minimum net present value savings as a percentage of the refunded principal to be considered for a tax-exempt refunding shall be no less than 3% per refunded bond unless, at the discretion of the Chief Financial Officer, a lower percentage is more applicable, for situations including, but not limited to, refunding candidates with only a few years until maturity or COPs being defeased or redeemed from proceeds of GO Bonds or other structuring considerations. In addition, alternative structures such as taxable advance refundings or tax-exempt forward refundings may be acceptable if the net present value savings is in excess of 5% on a maturity by maturity basis and/or other benefits to the District are identified by the Chief Financial Officer and the District's municipal advisor. For example, if the District has a very large refunding opportunity approaching and it would benefit from splitting the refunding into more than one sale, a taxable advance refunding of a portion of the bonds may be justified. Another consideration in deciding which debt to refinance and the

timing of the refinancing shall be the maximization of the District's expected net savings over the life of the bonds.

The Chief Financial Officer may waive the percent savings per maturity threshold when evaluating a fixed rate refunding of variable rate debt, as the refinancing of certain variable rate structures may provide other substantial benefits to the District that include, but are not limited to, elimination of interest rate risk, renewal risk, and counterparty risk.

The Chief Financial Officer shall restructure escrow funds for the District's refunded Bonds and COPs from time to time when savings can be achieved. The Chief Financial Officer shall review a savings analysis of any proposed restructuring in order to make a determination regarding its cost-effectiveness. The target net savings shall be no less than \$1.0 million unless, at the discretion of the Chief Financial Officer, a lower amount is more appropriate given the nature of the particular escrow fund. Any savings from such restructuring shall be applied in accordance with legal and tax considerations and analysis at the time such savings are available.

In addition, the District may issue federally taxable bonds or use other available funds to defease tax-exempt bonds if the District's Chief Financial Officer in consultation with tax counsel determines that such action would assist the District in complying with applicable federal tax provisions, or would otherwise enable the District to enter into transactions providing for non-governmental entities or the federal government to use or manage bond financed property.

Section 4.09 Investment of Borrowed Proceeds

The District acknowledges its on-going fiduciary responsibilities to actively manage the proceeds of debt issued for public purposes in a manner that is consistent with California law governing the investment of public funds, federal tax law provisions applicable to the investment of bond proceeds and the permitted securities covenants of related bond documents executed by the District. Where applicable, the District's official investment policy and legal documents for particular debt issuance shall govern specific methods of investment of bond related proceeds. Preservation of principal will be the primary goal of any investment strategy followed by the availability of funds, followed by return on investment.

The District shall competitively bid the purchase of investment securities (except State and Local Government Series (SLGS) issued by the US Treasury), investment contracts, float contracts, forward purchase agreements and any other investments pertaining to its tax-exempt debt issues. A duly registered investment advisor or the County of Los Angeles Treasurer-Tax Collector shall solicit bids for investment products. Eligible and qualified providers, but not any of the members of the District's municipal advisor pool, may bid on investment products.

The management of public funds shall enable the District to respond to changes in markets or changes in payment or construction schedules so as to (i) ensure liquidity and (ii) minimize risk.

Section 4.10 Federal Arbitrage Rebate Requirement

The District shall maintain or cause to be maintained an appropriate system of accounting to calculate bond investment arbitrage earnings with respect to each of the District's tax-exempt debt issues in accordance with the Internal Revenue Code of 1986, as amended or supplemented and applicable

United States Treasury regulations related thereto.

Section 4.11 **Transaction Records**

The Chief Financial Officer or designee shall maintain complete records of decisions made in connection with each financing, including the selection of members of the financing team and the structuring of the financing as well as the selection of credit enhancement products and providers and the selection of investment products, if appropriate. Each transaction file shall include the official transcript for the financing, the final number runs and a post-pricing summary of the debt issue. The Chief Financial Officer shall timely provide a summary of each financing to the Board.

Section 4.12 **Financing Team Members**

A. Retention of Consultants

- i. General: All municipal advisors, investment advisors, bond counsel, disclosure counsel, tax counsel, and underwriters will be selected from pools to be created through a Request for Proposals (RFP) or Request for Qualifications (RFQ) process. In isolated instances, such contracts may be awarded on a sole source basis if it is clear that an RFP or RFQ process would not be feasible or in the District's interests. The District's contracting policies will apply to all contracts with finance professionals. Generally, contracts for municipal advisors, investment advisors, underwriters, and bond, tax, and disclosure counsels will be for up to five years.

Members of the financing team for each specific transaction will be identified and presented to the Board as part of the financing transaction Board report or as a separate informative. If however, an urgent financing opportunity or need arises such that there is not enough time to obtain Board approval of the financing team through the regular process, the Superintendent may authorize the appointment of the team.

- ii. Underwriters: The minimum qualifications for underwriters to be considered for the District's underwriter pools are: the firm must have a permanent office in the State of California; the firm must have completed at least ten (10) financings in the prior two years; the firm must maintain net capital of at least \$100,000 at all times; the lead investment banker must have at least three years of experience working on large, complex transactions and must be authorized to sign a bond purchase contract; the firm must hold and maintain at all times all appropriate and required Federal and State licenses and registrations; and the firm must at all times have at least one full-time professional employee with a FINRA Series 53 license (Municipal Securities Principal).

Based on the evaluation of submitted statements of qualifications, underwriting firms will be assigned to one of four specific tiers:

Tier	Eligible Syndicate Assignments
Senior Manager	Senior, co-senior, or co-manager on any transaction
Co-Senior Manager	Co-senior or co-manager on any transaction; senior manager on transactions under \$200 million principal amount.
Co-Manager	Co-manager on any transaction.
Emerging Firm	Co-manager with a reduced liability on appropriate transactions.

In the event the District issues bonds through a negotiated sale, the selection of underwriters will be based upon a mini-RFP process and will generally be for a single transaction. The mini-RFP will specify the scoring system for selection of the underwriters and will consider the following factors in decreasing order of priority:

1. Past performance on financing transactions. Exceptionally strong or poor results on District transactions will carry extra weight.
2. Analysis of the District’s financing needs and proposed financing structure, recommended marketing plan and determination that the firm has sufficient net capital.
3. Proposed underwriting fees, including takedown, direct expenses, and the cost of underwriter’s counsel.
4. Demonstrated commitment, track record, and investment in the communities served by the LAUSD.

Underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the District will include at least one firm with an office within the District’s boundaries on each standard, fixed rate financing transaction.

- iii. General Municipal Advisor: The District will retain a general municipal advisory team to provide general advice on the District’s debt management program, financial condition, budget options and rating agency relationships. Additionally, the general municipal advisor may be used on an as-needed basis to structure issuances of District debt obligations. Any firm serving as general municipal advisor must be duly registered at all times with both the Securities and Exchange Commission (SEC) and the Municipal Securities Rulemaking Board (MSRB) and must also hold any certifications and/or licenses required by the SEC and/or MSRB.
- iv. Bond Counsel, Tax Counsel, and Disclosure Counsel: The District will select bond, tax, disclosure and/or other financial counsel to assist with debt issuances or special

projects that do not fall under the bonds, COPs, and TRANs categories of District debt obligations. Additionally, one or more of the firms may be selected to provide general legal advice on, among other things, debt financing, disclosure documents, and continuing disclosure.

- v. Range of Financings: Municipal advisory, external legal counsel, and underwriting teams will be selected for the District's GOs, COPs, TRANs, Mello-Roos, special revenue bonds and any other bond program which may be created. Depending on particular expertise and consultant availability, some firms may be used on more than one program. However, efforts will be made to establish different teams to provide a number of firms the opportunity to participate in District contracts.

B. Use of Independent Municipal Advisors

- i. Use of Independent Municipal Advisors: Any firm serving as municipal advisor must be duly registered as a municipal advisor on financings at all times with both the Securities and Exchange Commission (SEC) and the Municipal Securities Rulemaking Board (MSRB) and must also hold any certifications and/or licenses required by the SEC and/or MSRB. In recognition of the fact that in a financing the goals of the underwriters and the issuer may inherently conflict, the District will strive to hire municipal advisors who do not participate in the underwriting or trading of bonds or other securities. Under certain circumstances, however, it may be in the District's interests to hire an investment banking firm to act as municipal advisor on specific bond issues, although said firm must comply with any SEC and/or MSRB rules and restrictions pertaining to broker-dealer or investment banks serving as municipal advisor.
- ii. Municipal Advisor Pool: The CFO will maintain a pool of municipal advisors separated into two tiers.
 - a. Firms in the General Municipal Advisor Tier may be used for various financial projects for which the District requires advanced financial expertise not available within the District. The General MA Tier will also be used to select the District's Independent Registered Municipal Advisor (IRMA). Firms in the General MA Tier may also serve as municipal advisors on the District's debt issuances.
 - b. Firms in the Transactional Municipal Advisor Tier may serve the district as municipal advisors on the District's debt issuances.
 - c. SBE participation will be a consideration in the selection of municipal advisors. The score for SBE participation will be a maximum of 5 points.

The point score will be commensurate to level of participation based on the value in contract dollars. For example, a vendor that proposes 25 percent SBE participation will get 25 percent of the five possible points (i.e. $5 \times .25 = 1.25$) and a certified SBE with 100 percent participation would get the full five points.

- iii. Independent Registered Municipal Advisor: The Office of the Chief Financial Officer will select a specific firm to serve as the District's IRMA, as defined by the SEC. In order to facilitate open communication with underwriters, the District will prepare and post on its website a letter stating that the District has an IRMA. Before acting on any proposal received from underwriters, the District will provide the proposal to the IRMA and consider all feedback received from the IRMA.
- iv. Use of Investment Advisors for Investment Advice: Although, in most instances, the Office of the Chief Financial Officer will make all investment decisions relative to temporary investments pending the expenditure of bond proceeds, an investment advisor may provide investment advice on refundings and other transactions with specialized investment needs. Any firm serving as investment advisor on a District transaction must be registered at all times as an investment advisor with both the Securities and Exchange Commission (SEC) and the Municipal Securities Rulemaking Board (MSRB), as applicable, must hold any certifications and/or licenses required by the SEC and/or MSRB, and must present its Form ADV or equivalent and written fee proposal to the District prior to commencement of any work.

C. Disclosure by Financing Team Members; Ethics

All financing team members will be required to provide full and complete disclosure, under penalty of perjury, relative to any and all agreements with other financing team members and outside parties. The extent of the disclosure may vary depending on the nature of the transaction. All financing team members shall abide by the Board's code of ethics.

Section 4.13 Special Situations

Changes in the capital markets, District programs, and other unforeseen circumstances may from time to time produce situations that are not covered by the Policy. These situations may require modifications or exceptions to achieve policy goals. Management flexibility is appropriate and necessary in such situations, provided specific authorization is received from the Board.

Appendix A Long-Term Debt—Tax Compliance Procedures

LOS ANGELES UNIFIED SCHOOL DISTRICT

Statement of Purpose

This Tax Compliance Policy (the “Policy”) sets forth specific policies of the Los Angeles Unified School District (the “District”) designed to monitor tax compliance by the District with respect to Tax-Advantaged Obligations¹, including but not limited to post-issuance tax compliance with applicable provisions of the Internal Revenue Code of 1986, as amended (the “Code”), and regulations promulgated thereunder (the “Treasury Regulations”).

This Policy is intended to document and supplement existing practices and describe various procedures and systems implemented and to be implemented to demonstrate compliance with the requirements that must be satisfied at the time of, and subsequent to, the issuance of Tax-Advantaged Obligations. Compliance with applicable provisions of the Code and the Treasury Regulations is an on-going process and an integral component of the District’s debt management program. Accordingly, implementation of this Policy will require ongoing surveillance through, and sometimes beyond, the final maturity of the related issue of Tax-Advantaged Obligations and, likely, consultation with legal counsel beyond the initial engagement for the issuance of particular obligations.

This Policy is meant to set forth best practices and procedures and is intended to be revised over time. The Policy is meant to be the District’s initiative to document compliance with the provisions of the Federal tax law addressing Tax-Advantaged Bonds. Given the size, scope, and complexity of the District’s financings and school construction and maintenance program, strict compliance with all elements of this Policy will require ongoing review and refinement of the Policy. Any failure to conform to any component of this Policy shall in no way infer that the District is not in compliance with the provisions of the Code applicable to Tax-Advantaged Obligations of the District.

Policies and Procedures Generally

The District’s Chief Financial Officer (“CFO”) will establish a Tax Compliance Officer to monitor tax compliance with regard to debt offerings. The CFO shall also be responsible for ensuring an adequate succession plan for transferring tax compliance responsibility when changes in staff occur.

The Tax Compliance Officer should coordinate procedures for record retention and review of such records as more fully described herein and needs to gain familiarity with Internal Revenue Service (“IRS”) Forms 8038-G, 8038-B, 8038-CP, 14002, and relevant provisions of the Code and the

¹ The District issues (i) bonds, certificates of participation and other obligations, the interest on which is intended to be excluded from gross income for federal income tax purposes (“Tax-Exempt Obligations”) and (ii) bonds and other obligations, which provide certain credits to bondholders in lieu of or in addition to interest payments or interest subsidy payments to issuers (*e.g.*, Build America Bonds and Qualified School Construction Bonds), that finance property that was otherwise eligible to be financed with proceeds of Tax Exempt Obligations (“Tax Credit/Subsidy Obligations,” collectively with Tax-Exempt Obligations, “Tax-Advantaged Obligations”).

Treasury Regulations, including but not limited to Treasury Regulations Sections 1.141- 2, 1.141-3, 1.141-4, 1.141-5, 1.141-6, 1.141-12, 1.141-13, and 1.148-1 through 1.150-2.

The Tax Compliance Officer needs to review tax compliance procedures and systems on a periodic basis, but not less than annually, and consult with the District's General Counsel, Chief Financial Officer, Chief Facilities Executive and bond counsel as appropriate and as needed.

Electronic media will be the preferred method for storage of all records maintained by the District in connection with tax compliance. Document maintenance requirements may change over time, and the Tax Compliance Officer shall consult with bond counsel to develop and maintain a comprehensive records retention policy so as to facilitate continuing compliance with the provisions of the Code applicable to the District's Tax-Advantaged Obligations. The District will maintain the following categories of records with respect to each issue of its outstanding Tax-Advantaged Obligations:

- (i) Documentation relating to the authorization, sale, and issuance of Tax-Advantaged Obligations;
- (ii) Documentation setting forth the date, amount and purpose of each expenditure of proceeds of each issue of Tax-Advantaged Obligations, as more fully described under "Expenditure of Proceeds" below;
- (iii) Documentation of arrangements governing the use of Property Financed with Proceeds of each issue of Tax-Advantaged Obligations, as more fully described under "Private Use and Ownership" below; and
- (iv) Documentation relating to the investment of proceeds and replacement proceeds allocable to each issue of Tax-Advantaged Obligations.

The foregoing records shall be maintained by the District under the supervision of the Tax Compliance Officer for a period of not less than six years after the final payment of principal on such Tax-Advantaged Obligations, provided that with respect to property financed with proceeds of Tax-Advantaged Obligations, such records shall be maintained for a period of not less than six years after the final payment of principal on such Tax-Advantaged Obligations or any Tax- Advantaged Obligations issued to refund, directly or indirectly, the issue of Tax-Advantaged Obligations that financed such property.

Issuance of Obligations

With respect to each new issue of Tax-Advantaged Obligations, the Tax Compliance Officer is to (a) obtain and store a closing binder and/or CD or other electronic copy of the relevant and customary transaction documents, (b) confirm that bond counsel or tax counsel has filed with IRS Form 8038-G or Form 8038-B for such issue, and (c) coordinate receipt and retention of relevant books and records with respect to the investment and expenditure of the proceeds of such Tax-Advantaged Obligations. Documentation to be maintained shall include, but not be limited to:

- (i) Resolutions of the District and the County authorizing the issuance of the Bonds;

- (ii) Bond Purchase Agreement;
- (iii) (Preliminary Official Statement, Official Statement and any other documentation circulated to potential investors;
- (iv) Certifications with respect to delivery of Tax-Advantaged Bonds and the receipt of the purchase price therefor;
- (v) Tax Certificate or Tax Compliance Agreement (including exhibits, such as an issue price certificate of the underwriter or, in the event of a private placement, the purchaser);
- (vi) With respect to debt issues sold by competitive bid, documents evidencing compliance with the 3-bid rule for purposes of establishing the “issue price” of such obligations, and a copy of the pricing wire;
- (vii) Schedules prepared by the Municipal Advisor or Underwriter setting forth the sources and uses of funds, projected expenditure of proceeds, projected investment earnings on proceeds and computation of yields, together with any verification reports issued in connection with the issue;
- (viii) With respect to guaranteed investment agreements, or yield restricted defeasance escrows, documentation evidencing compliance with three-bid rules set forth in Treasury Regulation Section 1.148-5;
- (ix) Any verification reports issued with respect to the issue; and
- (x) Information reporting forms filed with the Internal Revenue Service, and proofs of filings such forms.

Expenditure of Proceeds

The administrator of each office that is responsible for spending proceeds of the District’s Tax—Advantaged Bonds will maintain records setting forth the date and amount of each disbursement of proceeds of Tax-Advantaged Obligations administered by its office, together with invoices or other proofs with respect to each disbursement, the name of the vendor or other payee, an identification of the facility or other property acquired, constructed, improved or renovated with the proceeds of such disbursement and a brief description of the actual work performed or property acquired with the proceeds of such disbursement. Within 120 days following the end of each fiscal year of the District, the Tax Compliance Officer shall obtain records setting forth with respect to each disbursement of proceeds of Tax-Advantaged Obligations:

- (i) The date of such disbursement;
- (ii) The amount of such disbursement;
- (iii) The funding source (e.g., specific GO measure or COPs issue);
- (iv) The location code and location name;

- (v) The object of expenditure; and
- (vi) The project number and description, when available, or a brief description of the type of the expenditure.

Within six months after the end of each fiscal year, the Tax Compliance Officer shall prepare a report setting forth the date, amount and purpose of each disbursement of proceeds of each issue of Tax-Advantaged Bonds during the prior fiscal year (the “Issue Expenditure Reports”). The term “purpose” shall mean each separate school facility financed with a disbursement or a description of other property financed with such disbursement.

Private Use and Ownership

Tax-Advantaged Obligations may lose their tax status if a bond issue meets (1) the private business use test (*i.e.*, results in Private Use (defined below)) in Section 141(b)(1) of the Internal Revenue Code of 1986, as amended (the “Code”) and (2) (a) the private security or payment test (“Private Security or Payments”) in Section 141(b)(2) of the Code (collectively, the “Private Business Test”), or (b) the private loan financing test in Section 141(c) of the Code. The Private Business Test relates to the use of the proceeds of an issue and the test is met if more than the lesser of (1) \$15,000,000 and (2) 10 percent² of the proceeds of an issue meet both prongs of the Private Business test.

Definition of Private Payments. For purposes of this Policy, “Private Payments” means payments derived, directly or indirectly, in respect of property used or to be used for Private Use. The District will periodically enter into arrangements that result in Private Use but will not involve any Private Payments. Except in the case of certificates of participation, which involve leases of properties that are used in a Private Use or secures obligations that financed property used in a Private Use, or loans of bond proceeds, arrangements that result in Private Use, but do not involve Private Payments, will not cause the District’s general obligation bonds to become private activity bonds.³

Definition of Private Use. For purposes of this Policy, the term “Private Use” means any activity that constitutes a trade or business that is carried on by persons or entities other than state or local governmental entities (“Nongovernmental Entities”). State or local governmental entities are referred to herein as “Governmental Entities.” The United States of America is not treated as a Governmental Entity. Any activity carried on by a person other than a natural person is treated as a trade or business. Any asset financed with Tax-Advantaged Obligations not owned for federal income tax purposes by a Governmental Entity will be considered to be used in a Private Use.

In most cases, Private Use will occur only if a Nongovernmental Entity has a special legal entitlement to use the bond financed property. Such a special legal entitlement includes ownership or actual or beneficial use pursuant to a lease, management, service or incentive payment contract, output

² Such ten percent limitation is reduced to five percent with respect to Private Use that is either unrelated to governmental uses of proceeds of the same issue, or disproportionate to related governmental uses of proceeds of such issue.

³ Private use alone may cause the Private Business Test limitations to be exceeded in the event that the obligations to that financed the privately used property are also secured by property used in a private use. For example, certificates of participation in a lease of property that is involved in a private use that finance property that is also used in a private business use may become taxable private activity bonds even if the District receives no payments with respect to such property.

contract, research agreement or similar arrangement. Private Use may also be established solely on the basis of a special economic benefit to one or more Nongovernmental Entities.

Management and Service Contracts. With respect to management and service contracts, the determination of whether a particular contract results in Private Use shall be based on the application of the Code and Treasury Regulations, including particularly Revenue Procedure 2017-13⁴, a summary of which is provided in Exhibit 1 to this appendix. Such management and service contracts include, but are not limited to, operating agreements, construction management agreements, business services agreements, technical consulting services agreements and other similar agreements. Further, for purposes of determining the nature of a Private Use, any management or service contract that is properly characterized as a lease for federal income tax purposes is treated as a lease. Consequently, any such agreements, even though referred to as a management or service contract may nevertheless be treated as a lease. In determining whether a management or service contract is properly characterized as a lease, it is necessary to consider all of the facts and circumstances, including the following factors: (i) the degree of control over the property that is exercised by a nongovernmental person; and (ii) whether a nongovernmental person bears risk of loss of the financed or refinanced property.

General Public Use. Use as a member of the general public is not Private Use, provided that the property is intended to be available, and is in fact reasonably available for use by natural persons not engaged in a trade or business. Arrangements providing for use that is available to the general public at no charge or on the basis of rates that are generally applicable and uniformly applied will not result in Private Use. For this purpose, rates may be treated as generally applicable and universally applied even if different rates apply to different classes of users, provided that such differences are customary and reasonable.

An arrangement is not treated as general public use if the term of use under the arrangement, including all renewal options is greater than 200 days. For this purpose, a right of first refusal under an arrangement is not treated as a renewal option if (i) the compensation for use under the arrangement is redetermined at market rates in effect at the time of the renewal, and (ii) the use of the financed property under the same or similar arrangement is predominantly by natural persons who are not engaged in a trade or business.

Short Term Use. Arrangements fitting within either of the following two arrangements will not result in Private Use:

Use Not Reasonably Available to Natural Persons not Engaged in a Trade or Business. An arrangement will not result in Private Use if (a) the compensation is based on generally applicable and uniformly applied rates, (b) the arrangement does not result in ownership of the property by a

⁴ The determination of whether a particular use pursuant to a service contract entered into prior to August 18, 2017 that is not materially modified or extended on or after August 18, 2017 (other than pursuant to a renewal option as defined in Treasury Regulation Section 1.141-1(b)) may be determined on the basis of applying Revenue Procedure 97-13, as modified by Revenue Procedure 2001-39 and amplified by IRS Notice 2014-67 Revenue Procedure 97- 13, 1997-1 C.B. 632, as amended by Revenue Procedure 2001-39, 2001-2 C.B. 39. The District will consult with tax counsel prior to applying Revenue Procedure 97-13.

nongovernmental person, (c) the term of the use under the arrangement, including all renewal options, is not longer than 100 days, and (d) the arrangement would be treated as general public use, except that the property is not available on the same basis by natural persons not engaged in a trade or business because generally applicable and uniformly applied rates are not reasonably available to persons not engage in a trade or business.

Use Pursuant to Negotiated Arm's Length Arrangements. Use pursuant to an arrangement will not result in Private Use if (a) the arrangement does not result in ownership of the property by a nongovernmental person, (b) the term of the use under the arrangement, including all renewal options, is not longer than 50 days, (c) the arrangement is a negotiated arm's-length arrangement and compensation under the arrangement is at fair market value and (d) the property is not financed for a principal purpose of providing that property for use by that non-governmental person. .

Construction Contracts and Other Purchases of Capital Assets. A contract with a nongovernmental person to construct capital assets or to sell capital assets to the District does not generally result in Private Use unless additional services are being provided by the nongovernmental person in connection with such contract, *e.g.*, construction management or consulting services. Such services with respect to bond financed property must be analyzed for Private Use under Revenue Procedure 2017-13.

Materials and Commodity Supply Contracts. A contract or purchase order for materials, commodities, inventory or other supplies from a nongovernmental person does not generally result in Private Use unless there are additional services being provided by the nongovernmental person in connection with the contracts, *e.g.*, consulting services. Such service arrangements with respect to bond financed property must be analyzed for Private Use under Revenue Procedure 2017-13.

Ownership of bond financed property. If bond financed property is owned by a nongovernmental person, such ownership will be considered Private Use of the asset for purposes of the Private Use rules.

Leases of bond financed property. All leases of bond financed property to a nongovernmental person constitute Private Use of such property unless an exception for short-term use is satisfied.

Nonpossessory Incidental Use. Any non-possessory incidental use such as vending machines, bank machines and similar uses may be excluded from the Private Use rules to the extent of 2.5% of an issue of Tax-Advantaged Obligations. Such use of bond-financed property shall be tracked by the Tax Compliance Designee.

Joint Ventures, Partnerships or other forms of Joint Ownership. Entry into a joint venture, partnership or other form of joint ownership with a nongovernmental person may give rise to Private Use. Such arrangements with respect to bond financed property must be reviewed by bond counsel.

Special Priority Rights or Special Economic Benefits. A contract which conveys special priority rights or special economic benefits in bond-financed property to a nongovernmental person may create Private Use. In determining whether special economic benefit gives rise to Private Use of bond financed property, it is necessary to consider all of the facts and circumstances, including one or more of the following factors: (a) whether the bond financed property is functionally related or physically proximate to property used in the trade or business of a nongovernmental person; (b) whether only a

small number of nongovernmental persons receive the economic benefit; and (c) whether the cost of the bond financed property is treated as depreciable by the nongovernmental person. Such arrangements with respect to bond financed property must be reviewed by bond counsel.

Compilation and Maintenance of Logs Listing Arrangements Potentially Involving Private Trade or Business Use. From time to time, the District enters into the following types of arrangements involving bond financed property:

- Use Agreements and Leases with Charter Schools
- After School Programs
- Summer Camps
- Civic Center Leases
- Naming Rights
- Other Leases, Licenses or Use Agreements Involving Bond Financed Property The arrangements described above will be referred to in this Policy as “Arrangements”.

The Tax Compliance Officer will retain copies of the Arrangements, and maintain a log listing such Arrangements, which shall note with respect to each Arrangement (i) whether such Arrangement conforms to the Short-Term Use Exception described above, and (ii) if not, the amount of payments to be received by the District and whether such payments exceed the District’s incremental costs of operating and maintaining the subject facility arising from the Private Use of the subject property.

The Tax Compliance Officer shall also compile and maintain a separate list of each arrangement described above that will not qualify for the Short-Term Use Exception and that provides payments to the District that will exceed the District’s incremental cost of operating and maintaining the subject facility arising from the arrangement (referred to as the “Potential Private Use Contract Log”)⁵. Each item listed in the Private Use Contract Log shall set forth (i) the issue or issues of Tax-Advantaged Bonds that financed property used in connection with such arrangement, (ii) the amount of proceeds of such issue allocable to such property, and (iii) the amount of payments expected with respect to such arrangement, net of the incremental costs incurred by the District to operate and maintain the facility as a result of such arrangement.

The Tax Compliance Officer shall also compile and maintain the following logs:

⁵ Arrangements involving property that was financed with proceeds of any of the District’s certificates of participation will be listed in the Potential Private Use Contract Log regardless of whether the District is to receive any payments under such Arrangements.

- *Property Disposition Log.* The Tax Compliance Officer shall compile and maintain a log listing all assets of the District purchased with proceeds of Tax Advantaged Obligations that have been sold or otherwise disposed by the District (each, a “Disposition”). The log should include with respect to each Disposition, the Issue of Tax-Advantaged Bonds that financed the acquisition, construction or renovation of such asset and the amount of proceeds of such issue that are allocable to such asset (the “Property Disposition Log”).
- *Private Loan Log.* The Tax Compliance Officer shall compile and maintain a log listing all proceeds of each issue of Tax-Advantaged Obligations applied to make loans to third parties (the “Private Loan Log”).

The Tax Compliance Designee shall update the respective logs at least annually.

Structuring of Arrangements to Avoid Private Use or Private Payments. It is the Policy of the District that to the extent consistent with the business objectives of the District, any potential Arrangement which might result in Private Use of bond financed property shall be structured so as to avoid or minimize Private Payments.

Dispositions. No transfer, sale or other proposed disposition of bond financed property by the District shall take place without the prior review and approval by the General Counsel, after consultation with bond counsel.

Remedial Actions. In the event that the District is unable to satisfy the limitations with respect to Private Use and Private Payments with respect to any issue of Tax-Advantaged Obligations, the Tax Compliance Officer shall consult with the General Counsel, the Chief Financial Officer and bond counsel and work with bond counsel to effect a remedial actions or take such other actions as shall be required to maintain the tax-advantaged status of such bonds. The Tax Compliance Officer shall provide any information regarding the bond financed property to effectuate such remedial action to the General Counsel and the Chief Financial Officer. The Tax Compliance Officer must maintain copies of the documentation with respect to the remedial action with the Potential Private Use Contract Log and attach such copies to the transcript of closing documents it maintains with respect to each affected issue of Tax-Advantaged Obligations.

Periodic Review. Although the District will monitor Private Use of assets financed with Tax-Advantaged Obligations and Private Payments relating to such use, the Tax Compliance Officer will no less frequently than annually review and update the Potential Private Use Contract Log, the Disposition Log the Private Loan Log and the log that it maintains with respect to each issue of Tax-Advantaged Obligations. The Tax Compliance Officer shall at least annually prepare a detailed calculation of all existing Private Use and Private Payments, if any, that occurred during the prior year (the “Private Use Calculation”) with respect to each issue of the District’s Tax- Advantaged Obligations. The Potential Private Use Contract Log, the Disposition Log and the Private Use calculations are referred to herein as the “Annual Reports.” The Tax Compliance Officer will provide the Annual Reports, reflecting activity through the last day of each fiscal year, to the General Counsel by November 30th of the following fiscal year.

Arbitrage and Rebate

Section 148 of the Code, the regulations promulgated thereunder and the pronouncement relating thereto (the “Arbitrage Rules”) are intended to ensure that issuers, such as the District, are issuing Tax-Advantaged Obligations for the primary purpose of financing property needed by the District to carry-out its governmental purposes, and not for the purpose of taking advantage of the difference between its tax-advantaged costs of borrowing and its ability, if any, to invest proceeds of such obligations in higher yielding obligations. Continuing compliance with the Arbitrage Rules primarily involves ensuring that proceeds of Tax-Advantaged Obligations (“Proceeds”) are invested in accordance with yield limitations set forth in the Arbitrage Rules, except to the extent an exception to such yield limitation cannot be satisfied and rebating certain investment earnings to the United States Treasury. With respect to certain issues of Tax- Advantaged Obligations, the District will need to ensure that all proceeds and investment earnings are either expended on qualifying projects within specified periods, or portions of such issues are timely redeemed.

Specific post-issuance procedures to effect compliance with the Arbitrage Rules are addressed below. However, the procedures set forth herein are not intended to be exhaustive and further procedures may need to be identified and implemented, in consultation with the District’s staff, bond counsel, tax counsel, if any, and the District’s municipal advisors and investment advisors. Since proceeds of the District’s bond issues are deposited in a Building Fund administered and invested by the Los Angeles County Treasurer and Tax Collector (the “County Treasurer”), and the County Treasurer collects and invests moneys to be used to pay debt service on the District’s Tax-Advantaged Obligations, the County Treasurer shall also be involved in the development and implementation of this Policy insofar as this Policy relates to compliance with the Arbitrage Rules.

Procedures Generally – the following policies relate to procedures and systems for monitoring post-issuance compliance generally with the Arbitrage Rules.

- (i) The Tax Compliance Officer shall be responsible for monitoring the District’s post-issuance arbitrage compliance issues. The Chief Financial Officer of the District shall be responsible for ensuring an adequate succession plan for transferring post-issuance arbitrage compliance responsibility when changes in staff occur.
- (ii) The Tax Compliance Officer should coordinate procedures for record retention and review in accordance with the provisions of this Policy described below. In addition, the Tax Compliance Officer shall ensure that adequate records are established and maintained to set forth the date, amount, and nature of each expenditure of proceeds of each issue of Tax-Advantaged Obligations and investment earnings thereon (the “Proceeds”). Such records shall be consistent with and may be part of the Issue Expenditure Reports described under “Expenditure of Proceeds” above. The Tax Compliance Officer shall also establish and maintain a record of each investment of Proceeds, which shall include (i) the purchase date, (ii) the purchase price, (iii) information establishing that the purchase price is the fair market value as of such date (e.g., the published quoted bid by a dealer in such an investment on the date of purchase), (iv) any accrued interest paid, (v) the face amount, (vi) the coupon rate, (vii) periodicity of interest payments, (viii) disposition price, (ix) any accrued interest received, and (x) disposition date. To the extent any investment becomes allocable to

Proceeds after it was originally purchased, it shall be treated as if it were acquired at its fair market value at the time it becomes allocable to Proceeds. To the extent Proceeds are maintained by the County Treasurer, the Tax Compliance Officer shall advise the County Treasurer of the requirement to maintain such records with respect to each investment of Proceeds by the County Treasurer, and obtain a copy of such records from the County Treasurer at least annually.

- (iii) The Tax Compliance Officer should review post-issuance arbitrage compliance procedures and systems with bond counsel or tax counsel at least annually.

The following procedures shall be implemented with respect to the issuance of each issue of Tax-Advantaged Obligations:

- (i) Following the issuance of each issue of Tax-Advantaged Obligations, the Tax Compliance Officer shall obtain and maintain each of the documents listed above under “Issuance of Obligations” including, a fully executed tax certificate and issue price certificate with respect to such issue and any information reporting forms filed with the Internal Revenue Service with respect to each issue, together with proof of filing. A copy of such certificate and information reporting forms, together with the Timetable (as defined below), shall be provided to the County Treasurer as soon as practicable after the issue date of each issue of Tax-Advantaged Obligations.
- (ii) The Tax Compliance Officer should confirm that bond counsel has filed with the Internal Revenue Service (the “IRS”) the applicable information report (e.g., Form 8038-G, Form 8038 or Form 8038-B) for such issue.
- (iii) The Tax Compliance Officer should coordinate receipt and retention of relevant books and records with respect to the investment and expenditure of the proceeds of such Tax- Advantaged Obligations with other members of the District’s staff and staff of the County Treasurer.
- (iv) A record should be maintained with respect to each issue of Tax-Advantaged Obligations containing a schedule setting forth (i) the latest date such proceeds may be invested at an unrestricted yield, (ii) the benchmarks that must be satisfied in order to meet an exception to the arbitrage rebate rules, (iii) the dates on which any arbitrage rebate computations are required to be completed and arbitrage rebate is required to be paid to the United States Treasury and (iv) any date by which proceeds are required to either be expended or applied to redeem bonds and any other dates on which all or a portion of the Proceeds of such issue are required or expected to be expended (the “Timetable”)

Arbitrage – the following procedures should be carried-out from the issue date through the final redemption date of each issue of Tax-Advantaged Obligations:

- (i) The Tax Compliance Officer should coordinate the tracking of expenditures and any investment earnings with other applicable District staff, including staff of the Facilities Division. The Tax Compliance Officer should obtain and review at least monthly reports of the expenditure and investment of proceeds of each issue of Tax-

Advantaged Obligations that are on deposit in the District's Building Fund. The Tax Compliance Officer should maintain a procedure for the allocation of proceeds of the issue and investment earnings to expenditures, including the reimbursement of pre-issuance expenditures.

- (ii) The Tax Compliance Officer should obtain a computation of the yield on each issue of Tax-Advantaged Obligations from the District's municipal advisor or senior manager and obtain from bond counsel or tax counsel a listing of all arbitrage yield restrictions attributable to Proceeds or amounts treated as proceeds of each issue. For example, with respect to each issue of qualified school construction bonds, the Tax Compliance Officer should obtain from tax counsel or bond counsel the yield limitation with respect to any invested sinking fund established for such issue.
- (iii) The Tax Compliance Officer should monitor compliance with the applicable "temporary period" (as defined in the Code and Treasury Regulations), and expectations for the expenditure of proceeds of the issue and advise the County Treasurer of the need to yield restrict investments with respect to proceeds that are not eligible to be invested at an unrestricted yield pursuant to a temporary period.
- (iv) The Tax Compliance Officer should coordinate with the County Treasurer and the bond trustee, if applicable, to ensure that investments acquired with proceeds of each issue of Tax-Advantaged Obligations are purchased at fair market value. In determining whether an investment is purchased at fair market value, any applicable Treasury Regulation safe harbor may be used. In the event Proceeds are invested in an investment contract or any other investment that is not traded on an established market, and for which fair market values are not continually published, the Tax Compliance Officer or County Treasurer shall consult with bond counsel or tax counsel to ensure that fair market rules set forth in the Treasury Regulations are satisfied.
- (v) The Tax Compliance Officer should coordinate with the County Treasurer, the Chief Facilities Executive, and the applicable bond trustee to avoid formal or informal creation of funds reasonably expected to be used to pay debt service on such issue without determining in advance whether such funds must be invested at a restricted yield.
- (vi) The Tax Compliance Officer should consult with bond counsel or tax counsel prior to engaging in any post-issuance credit enhancement transactions (e.g., bond insurance, letter of credit) or hedging transactions (e.g., interest rate swaps, caps).
- (vii) The Tax Compliance Officer should coordinate with bond counsel to identify situations in which compliance with applicable yield restrictions depends upon later investments and monitor implementation of any such restrictions.
- (viii) The Tax Compliance Officer should coordinate with the arbitrage rebate consultant, as described in (ix) below, to monitor compliance with six-month, 18-month or 2-year spending exceptions to the rebate requirement, as applicable.

- (ix) The Tax Compliance Officer should coordinate with Chief Financial Officer to ensure that the District continuously engages a firm nationally recognized in the area of arbitrage rebate compliance with respect to each issue of Tax-Advantaged Obligations to arrange, as applicable, for timely computation of arbitrage rebate or arbitrage yield reduction liability and, if rebate or a yield reduction payment is due to the IRS, for timely filing of Form 8038-T and, to arrange timely payment of such rebate liability. Such arbitrage rebate consultant shall also confirm whether any of the spending exceptions to the arbitrage rebate rules are satisfied. The Tax Compliance Officer should ensure that each arbitrage rebate consultant is provided with a copy of the Timetable with respect to each issue of Tax-Advantaged Obligations and that the contract or engagement letter with such arbitrage rebate consultant provides for such arbitrage rebate consultant to work with the District to refine the Timetable and provide timely notification to the Tax Compliance Officer of each deadline set forth in the Timetable. The Tax Compliance Officer shall maintain its records with respect to each issue of Tax-Advantaged Obligations copies of each report submitted by any arbitrage rebate consultant and each Form 8038-T filed by the District.
- (x) The Tax Compliance Officer should, in the case of any issue of refunding obligations, coordinate with the District's municipal advisor, the applicable bond trustee, and the applicable escrow agent to arrange for the purchase of the refunding escrow securities, should obtain a computation of the yield on such escrow securities from the verification agent and should monitor compliance with applicable yield restrictions. Timetables should be adjusted to reflect the termination of temporary periods, the allocation of Proceeds of the refunded bonds as transferred proceeds of the refunding bonds and other matters resulting from such refunding.

Retention of Records

Retention of Records. As described above, the District is required to prepare the Annual Reports, which summarize and analyze certain underlying documentation related to the Tax-Advantaged Obligations. In addition to the requirement to retain the Annual Report, the District will also need to retain the related underlying documentation (the "Records") described below.

Records Required to be Retained. The Records that must be retained include, but are not limited to, the following:

- (i) All legal and accounting documents relating to proceeds of the Tax-Advantaged Obligations, including opinions of counsel and the tax certificate with respect to each issue of Tax-Advantaged Obligations.
- (ii) Expenditure of Proceeds of Tax-Advantaged Obligations as described below.
 - (a) Documents evidencing the expenditure of the proceeds of the Tax-Advantaged Obligations and investment earnings thereon and the specific assets financed with such proceeds, including projected draw schedules and invoices (*e.g.*, records with respect to the bond accounts and funds);
 - (b) Documents setting forth all funds and accounts relating to the Tax-Advantaged

Obligations;

- (c) Documents pertaining to the investment of the proceeds of the Tax-Advantaged Obligations (e.g., records with respect to the bond accounts and funds), including the purchase and sale of securities, guaranteed investment contracts, and swap/hedge transactions;
- (d) With respect to all investments acquired in any fund or account in connection with the Tax-Advantaged Obligations, the information set forth under the heading “Arbitrage and Rebate” herein;
- (iii) Documents evidencing any allocations with respect to the proceeds of the Tax-Advantaged Obligations.
- (iv) Documents evidencing the use and ownership of the bond financed property, including contracts for the use of such property (e.g., the Annual Reports, and the logs described herein, and documents evidencing the sale or other disposition of the bond financed property).

Required Retention Periods. The District will retain the Records and Reports until the date that is six years after the complete retirement of the related Tax-Advantaged Obligations, provided that if any of portion of the related Tax-Advantaged Obligations is refunded, such period such retention period shall not expire prior to the date that is six years after the complete retirement of any issue that refunded, directly or indirectly, such portion of the related Tax-Advantaged Obligation

Form of Records. The District will keep all records in a manner that ensures complete access thereto for the applicable above described period either in hard copy or electronic format. If the records are kept in electronic format, compliance is necessary with the requirements of Revenue Procedure 97-22, 1997-1 C.B. 652, (or subsequent guidance provided by the Internal Revenue Service), which provides guidance for maintaining books and records by using an electronic storage system that either images their hardcopy books and records or transfers their computerized books and records to an electronic storage media (e.g., an electronic data compression system).

Failure to Retain Records. A failure to maintain material records required to be retained by this Section may result in the loss of the tax status of the Tax-Advantaged Obligations and could cause additional arbitrage rebate to be owed.

Reissuance

The following policies relate to compliance with rules and regulations regarding reissuance of Tax-Advantaged Obligations issued by the District:

The CFO and the Tax Compliance Officer in conjunction with the General Counsel are to (a) identify and consult with bond counsel regarding any post- issuance change to any terms of an issue of Tax-Advantaged Obligations, (b) request bond counsel to determine whether such potential change would cause the issue to be treated as “reissued” for federal income tax purposes, and (c) confirm with bond counsel whether any “remedial action” in connection with a “change in use” (as such terms are defined in the Code and Treasury Regulations) must be treated as a reissuance for certain tax

purposes.

Training

The District shall engage its bond counsel or special tax counsel to provide a seminar at least every five years, which shall be attended by the Tax Compliance Officer, representatives of the Chief Financial Officer, the General Counsel and the Chief Facilities Executive and staff members from each office of the District responsible for the expenditure of proceeds of the District's Tax-Advantaged Obligations. The County Treasurer and members of the Bond Oversight Committee should also be invited to participate in such seminar. Such seminar shall include a review of the District's compliance initiatives during the prior twelve-month period, discussions relating to restrictions on the use of proceeds of Tax-Advantaged Bonds, arbitrage requirements and recent developments in such areas.

EXHIBIT 1 to Appendix A

SAFE-HARBOR MANAGEMENT CONTRACT GUIDELINES
REV. PROC. 2017-13

General Rule.

A contract between a state or local governmental unit (a “**Qualified User**”) and a manager or operator which is not a state or local government unit (a “**Provider**”) for the management of, or services rendered at, or incentive payment in respect of, a tax-exempt bond-financed facility (the “**Managed Property**”) that meets the safe-harbor guidelines of Rev. Proc. 2017-13 as summarized below, is treated as not creating any private business use under Section 141(b) of the Internal Revenue Code (the “**Code**”). In addition, if the guidelines are met, the burden to prove that the contract creates impermissible private activity would shift to the Internal Revenue Service (“**IRS**”) in a tax court proceeding. All contracts must be reviewed on a case-by-case basis.

Under Rev. Proc. 2017-13, a contract under which the only compensation consists of reimbursements of actual and direct expenses paid by the Provider to “Unrelated Parties” and reasonable related administrative overhead expenses of the Provider does not create private business use. “Unrelated Parties” are persons other than either: (1) a related party (as defined in § 1.150-1(b) of the federal income tax regulations) to the Provider; or (2) a Provider’s employee.

General Financial Requirements.

1. *Reasonable Compensation.* The compensation, including any payments to reimburse actual and direct expenses paid by the Provider and related administrative expenses of the Provider, must be reasonable.
2. *No net profits arrangements.* The compensation paid to the Provider must not include a share of net profits from the operation of the Managed Property.
 - Compensation to the Provider will not be treated as including a share of net profits if no element of the compensation takes into account, or is contingent upon, either the Managed Property’s net profits or both the Managed Property’s revenues and expenses for any fiscal period (other than any reimbursements of direct and actual expense paid by the Provider to Unrelated Parties).
 - For this purpose, the elements of the compensation are the eligibility for, the amount of, and the timing of the payment of the compensation.
 - Incentive compensation will not be treated as providing a share of net profits if the eligibility for the incentive compensation is determined by the Provider’s performance in meeting one or more standards that measure quality of services, performance, or productivity, and the amount and the timing of the payment of the compensation is not based on or contingent on the net profits of the Managed Property.

3. *No Bearing of Net Losses.* The contract must not, in substance, impose upon the Provider the burden of bearing any share of net losses from the operation of the Managed Property.

- An arrangement will not be treated as requiring the Provider to bear a share of net losses if:
 - the determination of the amount of the Provider's compensation and the amount of any expenses to be paid by the Provider (and not reimbursed), separately and collectively, do not take into account either the Managed Property's net losses or both the Managed Property's revenues and expenses for any fiscal period; and
 - the timing of the payment of compensation is not contingent upon the Managed Property's net losses.
- The reduction of a Provider's compensation by a stated dollar amount (or one of multiple stated dollar amounts) for failure to keep the Managed Property's expenses below a specified target (or one of multiple specified targets) will not be treated as bearing a share of net losses as a result of this reduction.

4. *Permissible Certain Types of Compensation.* Compensation in the form of capitation fees, periodic fixed fees and per-unit fees is not treated as providing a share or net profits or requiring the Provider to bear a share or net losses regardless of whether the Service Provider pays expenses with respect to the Managed Property.

- *Capitation Fee* is a fixed periodic amount for each person for whom the Provider or the Qualified User assumes the responsibility to provide all needed services for a specified period so long as the quantity and type of services actually provided to such persons varies substantially. A capitation fee may include a variable component of up to 20 percent of the total capitation fee designed to protect the Provider against risk such as risk of catastrophic loss.
- *Periodic Fixed Fee* is a stated dollar amount for services rendered for a specified period of time. The stated dollar amount may automatically increase according to a specified objective external standard (*e.g.*, Consumer Price Index and similar external indices) that is not linked to the output or efficiency of the Managed Property.
- *Per-Unit Fee* is a fee based on a unit of services provided specified in contract or otherwise specially determined by an independent third party. The stated dollar amount may automatically increase according to a specified objective external (*e.g.*, Consumer Price Index and similar external indices) standard that is not linked to the output or efficiency of the Managed Property.

5. *Timing of Payment of Compensation.* Deferral due to insufficient net cash flows will not cause the deferred compensation in the form of a capitation fee, periodic fixed fee or per-unit fee to be treated as contingent upon net profits or net losses if the contract includes the following requirements:

- The compensation is payable at least annually;
- The Qualified User is subject to reasonable consequences for late payment, such as reasonable interest charges or late payment fees; and
- The Qualified User will pay the deferred compensation (including interest and late payment fees) no later than the end of five years after the original due date of the payment.

Control by the Qualified User.

The Qualified User must exercise a significant degree of control over the use of the Managed Property.

- Generally, property that is leased, licensed or generally under the management or control of a Provider is treated as used in a private business use.
- This control requirement is met if the contract requires the Qualified User to approve the annual budget of the Managed Property, capital expenditures with respect to the Managed Property, each disposition of property that is part of the Managed Property, rates charged for the use of the Managed Property, and the general nature and type of use of the Managed Property (for example, the type of services).
- For this purpose, for example, a Qualified User may also show approval of capital expenditures for a Managed Property by approving an annual budget for capital expenditures described by functional purpose and specific maximum amounts; and a Qualified User may show approval of dispositions of property that is part of the Managed Property in a similar manner.
- Further, a Qualified User may show approval of rates charged for use of the Managed Property by either expressly approving such rates or approving a reasonable general methodology for setting such rates, or by including in the contract a requirement that the Provider charge rates that are reasonable and customary as specifically determined by an independent third party.

Permitted Terms.

The term of the contract, including all renewal options that may be exercised by the Provider, may not be greater than the lesser of 30 years or 80 percent of the weighted average reasonably expected economic life of the Managed Property.

- For this purpose, economic life is determined as of the beginning of the term of the contract, and a contract that is materially modified is retested as a new contract as of the date of the material modification.
- Any material modifications to a service contract will cause the term of the contract to be reviewed for purposes of Rev. Proc. 2017-13.

- If more than 25 percent of the proceeds of any bond issue is used to acquire land, then land is taken into account in the calculation and treated as having a 30-year life.

No Circumstances Substantially Limiting Exercise of Rights.

There must not be any role or relationship between the Qualified User and the Provider that would substantially limit the Qualified User's ability to exercise its rights under the contract, including cancellation rights (the "**Unrelated Person Requirement**").

- This requirement is considered satisfied if:
 - not more than 20% of the voting power of the governing board of the Qualified User in the aggregate is vested in the directors, officers, partners, members and employees of the Provider,
 - neither the chief executive officer or the chairperson (or equivalent executive) of the Provider is a member of the governing board of the Qualified User, and
 - the chief executive officer of the Provider (or any person with equivalent management responsibilities) is not the chief executive officer of the Qualified User or any entity that is part of the same "controlled group" as the Qualified User.
- For these purposes, an entity is part of the same "controlled group" as the Qualified User if one entity has either (i) the right or power both to approve and remove, without cause, a controlling portion of the governing board of the other entity, or (ii) the right or power to require the use of funds or assets of the controlled entity for any purpose of the controlling entity.

Risk of Loss of the Managed Property.

The Qualified User must bear the risk of loss upon damage or destruction of the managed property (for example, upon *force majeure*).

No Inconsistent Tax Position.

The contract must contain language evidencing the agreement by the Provider to not take any tax position that it is inconsistent with being a service provider to the Qualified User with respect to the Managed Property, *e.g.*, the Provider must agree not to claim any depreciation or amortization, investment tax credit, or deduction for any payment as rent with respect to the Managed Property.

Functionally Related and Subordinate Use.

A Provider's use of the Managed Property that is functionally related and subordinate to performance of its services under a management contract for the Managed Property conforming to the requirements of Rev. Proc. 2017-13 does not result in private business use (for example, use of

storage areas to store equipment used to perform activities required under a management contract that meets the requirements of Rev. Proc. 2017-13 does not result in private business use).

Certain Exceptions.

Certain arrangements generally are not treated as management contracts that are subject to the above rules. These include:

- Contracts for services that are solely incidental to the primary governmental function or functions of a bond-financed facility (e.g., contracts for janitorial, office equipment repair, hospital billing or similar services);
- The mere granting of admitting privileges by a hospital to a doctor, even if those privileges are conditioned on the provision of *de minimis* services, if those privileges are available to all qualified physicians in the area, consistent with the size and nature of its facilities;
- A contract to provide for the operation of a facility or system of facilities that consists predominantly of public utility property (as defined in section 168(i)(10) of the 1986 Code), if the only compensation is the reimbursement of actual and direct expenses of the service provider and reasonable administrative overhead expenses of the service provider; and
- A contract for services, if the only compensation is the reimbursement of the service provider for actual and direct expenses paid by the service provider to unrelated parties. For this purpose, payments to employees of the Provider are not treated as payments to unrelated parties.

Terms to be Included in Each Management Contract.

Each Management Contract should evidence compliance with each of the requirements set forth above and explicitly include the following:

- Language evidencing control by the Qualified User.
- Language identifying the Managed Property and the parties' estimation of the reasonably expected economic life of the Managed Property at the time the parties enter into the Management Contract.
- Language identifying rates charged for use of the Managed Property or including a reasonable general description of the method used to set the rates, or evidencing that the Provider charges rates that are reasonable and customary as specifically determined by, or negotiated with, an independent third party.
- An explicit provision that all net losses from the Managed Property and the risks of damage, destruction or taking of the Managed Property, other than damage or destruction of the Managed Property resulting from negligence, recklessness or intentional acts of the Provider, are to be borne by the Qualified User.

- Representations of each party that the Unrelated Person Requirement is satisfied.
- Language evidencing the agreement by the Provider to not take any tax position that it is inconsistent with being a service provider to the Qualified User with respect to the Managed Property.

Appendix B Continuing Disclosure Procedures

LOS ANGELES UNIFIED SCHOOL DISTRICT

I. INTRODUCTION

A. Purpose

These continuing disclosure procedures (“Continuing Disclosure Procedures” or “Procedures”) of the Los Angeles Unified School District (the “District”) are intended to (a) ensure that the District’s Continuing Disclosure Documents (as defined below) are accurate and comply with all applicable federal and state securities laws, and (b) promote best practices regarding the preparation of the District’s Continuing Disclosure Documents.

B. Definitions

1. “Continuing Disclosure Documents” means (a) annual continuing disclosure reports filed with the MSRB, (b) event notices and any other filings with the MSRB, and (c) debt reports filed with the California Debt and Investment Advisory Commission (CDIAC).
2. “Official Statements” means preliminary and final official statements, private placement memoranda and remarketing memoranda relating to the District’s securities, together with any supplements, for which a continuing disclosure obligation is required.

II. KEY PARTICIPANTS

A. Disclosure Practices Working Group

1. *Composition.* The Disclosure Practices Working Group (the “Disclosure Working Group”) has been created by the Chief Financial Officer (“CFO”) to have general oversight over the entire continuing disclosure process. Membership in the Disclosure Working Group shall be appointed by the CFO and consist of persons relevant to the disclosure process. The following persons currently constitute the Disclosure Working Group.
 - (a) Chief Financial Officer;
 - (b) Chief Disclosure Officer;
 - (c) Disclosure Coordinator;
 - (d) Disclosure Counsel; and

- (e) Any other individuals appointed by the CFO.
 2. The Disclosure Working Group shall consult with external professionals (such as those with expertise as bond counsel, tax counsel, disclosure counsel, and municipal advisor) or other interested parties as the CFO or any other member of the Disclosure Working Group determine is advisable related to continuing disclosure issues and practices. Meetings of the Disclosure Working Group may be held in person or via conference call.
 3. The Disclosure Working Group is an internal working group of the District staff (with the exception of Disclosure Counsel) and not a decision-making or advisory body subject to the provisions of the Ralph M. Brown Act (Government Code Section 54950 et seq.)
 4. *Responsibilities.* The Disclosure Working Group is responsible for:
 - (a) Reviewing and approving all Continuing Disclosure Documents as contained in the District's Preliminary and Final Official Statements before such documents are posted;
 - (b) Reviewing annually the District's status and compliance with continuing disclosure obligations including filings of Annual Reports and Notices of Listed Events as described in Sections III.B. and III.C. below;
 - (c) Reviewing any items referred to the Disclosure Working Group; and
 - (d) Evaluating the effectiveness of these Continuing Disclosure Procedures and approving changes to these Continuing Disclosure Procedures.
- B. Chief Disclosure Officer
 1. *Appointment.* The CFO, in consultation with the other members of the Disclosure Working Group, shall select and appoint the Chief Disclosure Officer.
 2. *Responsibilities.* The Chief Disclosure Officer is responsible for:
 - (a) Approving the Continuing Disclosure Documents, Listed Event Notices, and Voluntary Filings.
 - (b) Overseeing the work of the Disclosure Coordinator.
- C. Disclosure Coordinator
 1. *Appointment.* The CFO, in consultation with the other members of the Disclosure Working Group, shall select and appoint the Disclosure Coordinator (currently the Director of Capital Fund Compliance).

2. *Responsibilities.* The Disclosure Coordinator is responsible for ensuring that the following are done:
 - (a) Preparing and filing the Continuing Disclosure Documents and seeking assistance from professionals in the municipal advisory and bond, tax, and disclosure counsel pools, as necessary;
 - (b) Serving as a “point person” to communicate issues or information that should be or may need to be included in any Continuing Disclosure Document or a specific filing of, for example, a Listed Event Notice or a Voluntary Filing;
 - (c) Monitoring compliance by the District with these Continuing Disclosure Procedures, including timely dissemination of the annual report and event filings as described in Sections III.B. and C. below;
 - (d) Recommending changes to these Continuing Disclosure Procedures to the Disclosure Working Group as required, necessary or appropriate;
 - (e) Following up with others, including management of outside consultants assisting the District, in the preparation and dissemination of Continuing Disclosure Documents to make sure that assigned tasks have been completed on a timely basis and making sure that the filings are made on a timely basis and are accurate;
 - (f) Together with the CFO, coordinating the timely provision of information to Disclosure Counsel as needed to fulfill its responsibilities to the District;
 - (g) In anticipation of preparing Continuing Disclosure Documents, soliciting “material” information (as defined in Securities and Exchange Commission Rule 15c2-12) from District units;
 - (h) Maintaining records documenting the District’s compliance with these Continuing Disclosure Procedures; and
 - (i) Reviewing compliance with and providing appropriate certifications in connection with the various covenants in bond, COPs, and TRANS documents. The Disclosure Coordinator shall review the bond documents to determine which covenants require an annual or regular certification and maintain a list of the same.
 - (j) Monitoring the websites and subscribing to the communications (e.g., news alerts, press releases, etc.) of each Rating Agency and Bond Insurer (defined herein) in order to be aware of any rating change as described in each Continuing Disclosure Document.

III. CONTINUING DISCLOSURE FILINGS

A. Overview of Continuing Disclosure Filings

1. Under the continuing disclosure undertakings in connection with its debt offerings, the District is required to file annual reports (“Annual Reports”) with the Municipal Securities Rulemaking Board’s (“MSRB”) Electronic Municipal Market Access (“EMMA”) system in accordance with such agreements in each year. Such Annual Reports are required to include the District’s audited financial statements and certain updated financial and operating information (or may incorporate by reference publicly-available documents that contain such information).
2. In accordance with each Continuing Disclosure Documents, if audited financial statements are not available by the date the Annual Report is required to be filed, unaudited financial statements are to be included in such Annual Report and audited financial statements shall be filed when such statements become available. If unaudited financial statements are filed, the cover page may include a disclaimer stating that such financial statements are unaudited and are subject to adjustments and modifications, the result of which will be presented in the audited financial statements. In addition, in accordance with the applicable Continuing Disclosure Document, the District shall file or cause to be filed a notice of any failure to provide its Annual Report on or before the date specified in a Continuing Disclosure Document.
3. The District is also required under its continuing disclosure obligations to file notices of certain events on EMMA..
4. In accordance with State law, the District is required to file annual debt reports (“CDIAC Reports”) with the CDIAC for any issue of debt, including capital leases, issued during the reporting period. The CDIAC Reports are due within seven months of the close of the reporting period, defined as July 1st to June 30th.

B. Annual Reports

The Disclosure Coordinator shall ensure that the preparation of the District’s Annual Reports commences as required under each specific continuing disclosure obligation. Before any annual report is submitted to EMMA, the Disclosure Coordinator shall confer with the Disclosure Working Group as needed regarding the content and accuracy of any Annual Report.

C. Event Filings

Each member of the Disclosure Working Group shall notify the other members of the Disclosure Working Group if he or she becomes aware of any of the material events listed in any of the District’s continuing disclosure certificates. The Disclosure Working Group may meet to discuss the event and to determine, in consultation with

counsel from the bond, tax, and disclosure counsel pool to the extent determined by the Disclosure Coordinator and the CFO, whether a filing is required or is otherwise desirable.

D. Paying Agent, Bond Insurer, and Rating Agency Filings

1. The Disclosure Coordinator shall submit to each issuer of a financial guaranty insurance or municipal bond insurance policy guaranteeing the scheduled payment of principal of and interest on an outstanding issue of bonds when due (a “Bond Insurer”), paying agent and trustee such annual or interim financial information and other information as it may request in accordance with the respective agreements with the District.
2. Each member of the Disclosure Working Group shall notify the other members of the Disclosure Working Group if he or she becomes aware of any of the events for which Moody’s Investor’s Service, Standard & Poor’s Rating Services, a Standard & Poor’s Financial Services LLC business, Fitch Ratings, KBRA or any other such rating agency then-rating the District’s bonds (each, a “Rating Agency”), any Bond Insurer, paying agent or trustee of the District’s bonds requires notice. The Disclosure Working Group may meet to discuss the event and to determine, in consultation with counsel from the bond, tax, and disclosure counsel pool to the extent determined by the Disclosure Coordinator and the CFO, whether a filing is required or is otherwise desirable.
3. The Disclosure Coordinator shall submit to each such Rating Agency such financial and other information it may request to obtain or maintain a rating on the Bonds

E. Uncertainty

The CFO may direct questions regarding the Procedures or disclosure to counsel from the bond, tax and disclosure counsel pool, the Office of General Counsel, or such other counsel or consultant as he/she deems appropriate.

F. Voluntary Disclosures

The District’s policy is to only file annual financial information and operating data and listed event notices that are required under the Continuing Disclosure Documents and applicable federal securities laws. The Disclosure Coordinator may determine to file voluntary disclosure information that is not required under the Continuing Disclosure Documents.

G. CDIAC Reports

The Disclosure Coordinator shall ensure that the preparation of the CDIAC Reports shall be prepared as required under State law. Before any report is submitted to CDIAC, the Disclosure Coordinator shall confer with the Disclosure Working Group

as needed regarding the content and accuracy of any CDIAC Report.

IV. DOCUMENTS TO BE RETAINED

The Disclosure Coordinator shall be responsible for maintaining records demonstrating compliance with these Continuing Disclosure Procedures. The Disclosure Coordinator shall retain an electronic or paper file (“Disclosure File”) for each Annual Report that the District files or causes to be filed on EMMA. Each Disclosure File shall include final versions of the Continuing Disclosure Documents; written confirmations, certifications, letters and legal opinions described herein; copies of these Continuing Disclosure Procedures and a list of individuals to whom they have been distributed and the dates of such distributions; and a written record of the dates of meetings and/or conference calls of the Disclosure Working Group. The Disclosure File shall be maintained in a central depository for a period of five years from the later of the date of delivery of the securities referenced in the Continuing Disclosure Document, or the date the Continuing Disclosure Document is published, posted, or otherwise made publicly available, as applicable.

V. EDUCATION

- A. The CFO shall ensure that the Disclosure Coordinator and the Disclosure Working Group are properly trained to understand and perform their responsibilities. Such training may include training sessions conducted by consultants with expertise in municipal securities law, municipal securities compliance and disclosure or by attendance at conferences, or other appropriate methods identified by the CFO.
- B. The District shall engage a law firm of nationally recognized standing in matters pertaining to the federal securities laws (“Disclosure Counsel”) to provide a seminar at least every five years, which shall be attended by the Disclosure Coordinator, representatives of the Chief Financial Officer and the General Counsel, and members of the District’s Board of Education. Members of the Bond Oversight Committee should also be invited to participate in such seminar. Such seminar shall include a review of the District’s disclosure compliance initiatives during the prior twelve-month period.

VI. AMENDMENTS

Other than timely meeting the requirements of its Continuing Disclosure Documents continuing disclosure certificates, any provisions of these Continuing Disclosure Procedures may be waived or amended at any time upon consultation with the CFO.

Appendix C Internal Control Procedures

LOS ANGELES UNIFIED SCHOOL DISTRICT

I. PURPOSE

These internal control procedures (“Internal Control Procedures” or “Procedures”) of the Los Angeles Unified School District (the “District”) are intended to ensure that the proceeds of the issuance general obligation bonds (“GO Bonds”), certificates of participation (“COPs”) and other lease-backed financings, tax and revenue anticipation notes (“TRANS”) and other forms of indebtedness will be directed to the intended and allowable use.

II. BACKGROUND

The District has been authorized by voters to issue up to \$20.6 billion in GO bonds under five separate bond measures. Pursuant to the requirements of the bond measures, the Bond Oversight Committee (BOC) was established. The BOC is a 15- member independent oversight panel that reviews the recommendations for expenditure of the bond proceeds.

The District issues COPs to fund other capital needs not covered by the GO Bond authorizations. The Capital Fund Compliance Office was established to monitor the use of the proceeds from the issuance of GO Bonds and COPs.

District schools and offices enter into capital lease agreements for various equipment items such as computers, printers and copiers. The process for lease agreements is outlined in the District’s procurement manual.

III. KEY CONTROL ACTIVITIES

A. Authorization and Approval of Projects

1. A Strategic Execution Plan is presented to the Board of Education outlining the proposed projects, funding sources (primarily GO bonds) and project schedule.
2. The BOC meets monthly to review and to adopt resolutions recommending the expenditure of bond funds to the Board of Education. LAUSD staff present proposed projects to the BOC for consideration as "Strategic Execution Plan" (SEP) amendments.
3. After the review and recommendation from the BOC, the Board of Education reviews and adopts the amendments to the SEP.

B. Budget and Expenditure Authorization

1. Initial budgets and budget adjustments (BAs), such as those to create and control positions, for GO bond and COPs funding sources are reviewed and

approved by the Office of Capital Fund Compliance for:

- (a) Required Board and BOC project approval
 - (b) Appropriate use of funds under the state and federal law
2. Expenditure transfers for GO bond and COPs funding sources are reviewed and approved by the Accounting and Disbursements Division for appropriate accounting treatment, and then approved by the Office of Capital Fund Compliance for bond-eligibility.
 3. In coordination with the Budget Services Division, the Office of Capital Fund Compliance conducts an annual review of all existing and new positions funded or to be funded by bond funds and provides approval prior to the roll-over or creation of these positions into the new budget fiscal year.

C. Semi-Annual Certification

All employees whose positions are partially or fully funded from bond program(s) are required to certify, on a semi-annual basis, that they have worked on related bond eligible projects and activities for the period covered by the certification. The requirements and guidelines for the documentation of bond-funded employees are outlined in District Bulletin #BUL-6521.1.

D. Procurement Manual

The District's procurement manual outlines internal control procedures for procuring supplies, equipment, and general and professional services, including contracts and equipment leases.

E. Equipment Inventory

Each District site is required to maintain equipment inventory records for equipment whose current market value exceeds \$500. The requirements and guidelines for inventory records are outlined in District Bulletin #BUL-953.1.

F. Fixed Assets Module

The District uses SAP's Fixed Asset Module to account for the District's fixed assets. This serves as a subsidiary ledger for fixed assets and handles the acquisition, depreciation and retirement of assets.

G. SAP

The District uses SAP for recording financial transactions. This provides for a workflow process that is used for enforcing internal controls. It also provides an audit trail for all transactions.

H. Audits

1. The GO Bond Funds are audited as part of the District's Annual Financial Audit.
2. The GO Bond Funds are also subject to an Audit of Agreed-Upon Procedures each year.
3. COPs proceeds and capital leases are audited as part of the District's Annual Financial Audit
