

AVAILABLE NOW on   
(Release 18, September 18, 2015)

**NEW** Smarter Balanced Assessment Reports:

We are pleased to announce the release of several new reports featuring Smarter Balanced Assessment results. Here is what you'll find in MyData:

- Achievement Level reports – Find out how students performed across grade levels and subgroups.
- Claim Reports – Identify strengths and challenges across specific ELA and math claims.
- School Comparisons – See how schools across the district performed on the assessments.
- Magnet Schools – Compare performance across schools at a particular location.

In addition, class rosters under “My Students, Current Year Data” now include Smarter Balanced results in ELA and math for those students who took the assessment last year.

In the coming weeks, we plan to update other reports including rosters displaying prior year results and students, at-risk and early warning reports, etc.

Please remember, the new tests are substantially different from previous tests and should not be compared to CST results. Also, because 2015 is the first year of the new Smarter Balanced Assessments, these results should be used as a baseline from which to measure future progress.
