CREDIT RECOVERY
Program Opportunities for High School Students
RIG Digital Credit Recovery
Traditional means of credit recovery...

**Auxiliaries**

- Opportunities during the school day for students to retake a failed course
- Approximately 138 auxiliary courses are currently being offered across the district for credit recovery

**Independent Study**

- Provides flexibility for students to recover missing credits
- Each student enters into a personalized agreement at his or her school with the subject teacher, stipulating the assignments and assessments required, expectations, and time frame for completion of the course
Digital learning opportunities based on mastery learning...

Students proceed through each online course at their own pace as they demonstrate mastery of materials, and focus on concepts needing further instruction. The recommended duration of these courses is 12 weeks.

**Blended Learning Model**

- Schools provide a subject area credentialed teacher to support students through the curriculum
- A site coordinator/counselor is responsible for supporting students and monitoring program implementation at the school

**Virtual Learning Model**

- An online platform teacher is provided
- School site provides a mentor for each student to monitor progress acting as a liaison between the school and program
Digital Credit Recovery Programs

APEX Learning
- Use a blended learning model, and are taught by LAUSD subject area credentialed teachers

Edgenuity
- Offers blended and virtual licenses
- Since August, 2015, students have enrolled in over 11,900 courses, with 2,919 semester courses currently completed
New Credit Recovery Pilot Programs

• They grew out of the performance dialogues of 2015 that involved all local districts

• Each was designed within LAUSD as a new way of thinking around how best to support our students in need of credit recovery

• The programs utilize current district resources including personnel, curriculum materials and technology
PASS
(Performance Assessment Student Support)

• A modular program that meets the needs of students who have failed Algebra 1, Algebra 2, Geometry, 9th grade English Language Arts, and/or 10th grade English Language Arts courses

• There is no time-in-seat requirement

• Students proceed through each module at their own pace as they demonstrate mastery, and are provided differentiated instruction including technology components, on concepts needing further instruction

• Once students demonstrate proficiency in each of the modules, they earn a grade of “C” and recover missing credits

• Almost 700 students at 28 schools are enrolled in PASS courses
RIG
(Recovery + Intervention = Graduation)

• A system whereby students can recover credit for failed classes by taking up to two pass-thru classes at the options school site during the school day, while remaining enrolled at the comprehensive high school

• RIG classes are also being offered after school and in the evening, providing maximum flexibility for student participation to complete A-G course credits

• Partnerships have been created between 20 comprehensive high schools and the co-located continuation school to offer these credit recovery opportunities.
STAR 17
(Students Taking Action for Readiness)

• A program that provides extended time at the end of each semester for students to demonstrate proficiency on the concepts and skills needing further instruction

• Students are provided the opportunity to raise existing grades by participating in additional hours

• The students enter a contract with the teacher of record, their parent and school counselor that specifies the requirements

• There are over 330 students who have participated in a STAR 17 contract
Adult Education

• Provides opportunities for students to take courses after school at 38 high school campuses across the district

• Since August, 2015, over 4,000 students have enrolled, with 1,213 semester courses currently completed.
