

TOSHIBA QUICK TIPS

“How am I billed - Why Meters?”

- Charges for the copiers, duplos and printers under Unified Print are based on a CPC, (cost per copy) basis.
- Meter reads are collected monthly to generate the invoice.
- A copier or printer properly connected to the network and turned on will automatically report the meter counts to Toshiba.
- If a machine is not reporting on the network, a meter request will need to be obtained manually by the site via fax, email or phone.
- To ensure accurate billing, please respond to a meter request promptly.
- If there are any questions as to how to obtain the meter count, please call (800) 260-6320, a Toshiba Representative will be happy to assist you.
