

Configuring Firefox Browser for MyPLN

The following steps were created using Firefox 91 as a guide. However, alternate versions of the Firefox will be very similar in procedure as well.

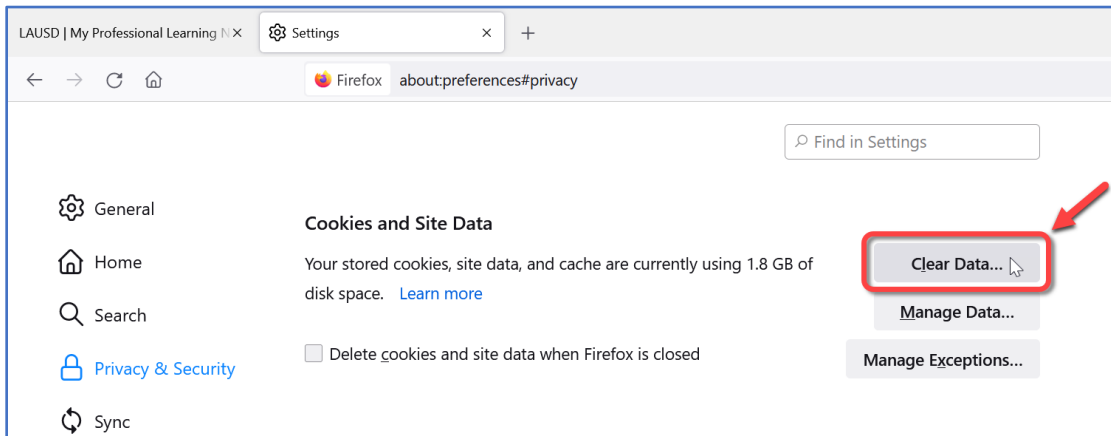

1. Open the Firefox browser, type **about:preferences** in the address bar and press **Enter**.

2. In the **Preferences** window click **Privacy & Security**.

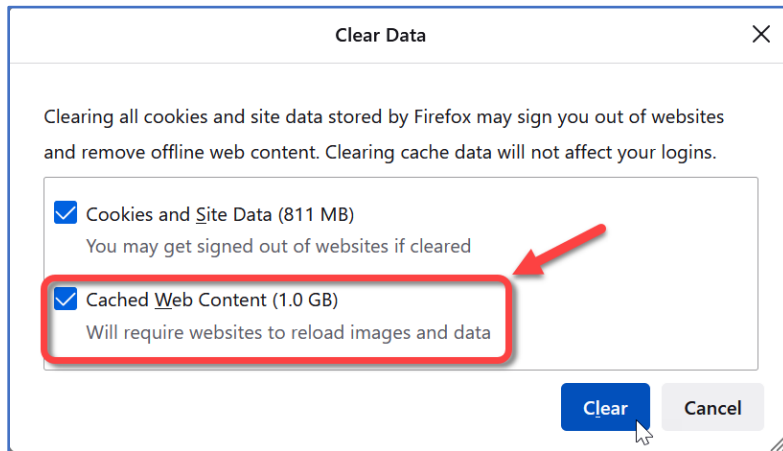

3. Under **Cookies and Site Data**, click **Clear Data**.

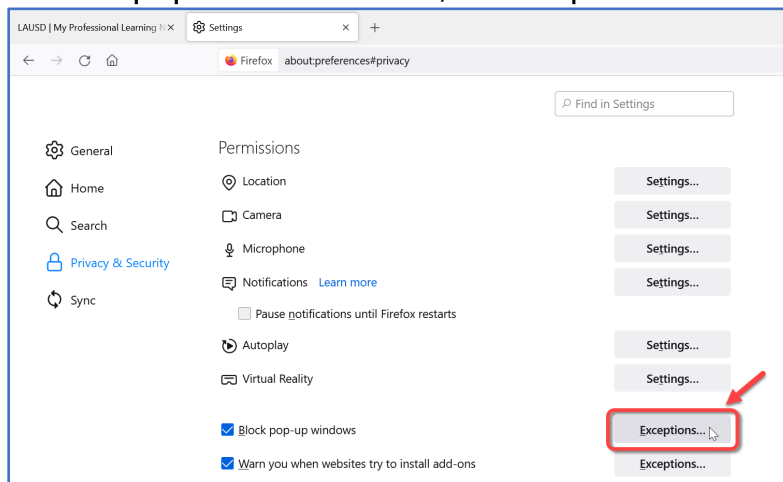

4. Ensure **Cached Web Content** is selected and click **Clear** to clear the browser's temporary internet files.

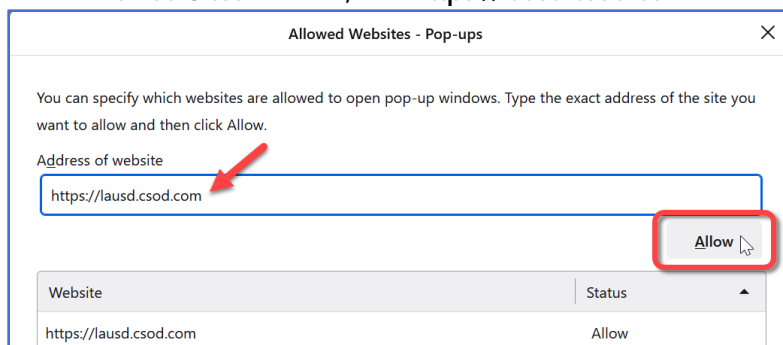

5. In the **Privacy & Security** window, scroll down to **Permissions** (see screenshot in Step 6 below).

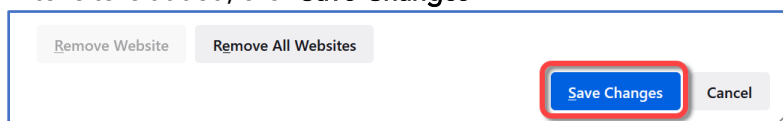

6. If **Block Pop-up Windows** is checked, click **Exceptions**.

7. In the **Allowed Sites** window, add **https://lausd.csod.com** and click **Allow**.

8. After site is added, click **Save Changes**.

9. Close the **Settings** tab and return to MyPLN. You may now launch your online course.
