August 20, 2018

Dear Parent/Guardian,

Last spring, your child took a test called the Summative English Language Proficiency Assessments for California (ELPAC). This test is part of the California assessment system and is aligned with California's English Language Development Standards.

These standards make sure English learner students have a high-quality program that will enable them to attain proficiency in English, developing the necessary skills and confidence in listening, speaking, reading, and writing so they can be successful in the classroom. The ELPAC helps teachers across the state see how well students are doing with those skills.

Your child's report shows an overall score, consisting of oral language skills (speaking, listening) and written language skills (reading, writing) and a performance level. Because the ELPAC is a new test, scores from the ELPAC should not be compared to scores from the previous test, the California English Language Development Test (CELDT).

To find out more about your child's scores:

The ELPAC Website at <http://www.elpac.org> has the following materials to support in understanding the score reports:

- Parent Guide to Understanding the ELPAC Student Score Report
- Summative ELPAC Student Score Report Video

In our district, the test results are just one way to look at how well our students are doing. We use the results to find areas in which students need help in the next school year. It is also important to know that the test results are not used to determine whether a student moves to the next grade. If you have questions or concerns about your child's progress, please call your child's school to arrange a conference with your child's teacher.

Sincerely,

Frances Gipson, Ph.D.
Chief Academic Officer
