

Los Angeles Unified School District Division of Instruction

Naviance On-Demand Training

The Division of Instruction is please to announce the availability of On-Demand Training for Naviance in order to support local district and school site staff with implementation. Naviance On-Demand Training is a convenient online training solution that provides Naviance users with access to valuable learning content anywhere, at anytime, from any web-enabled device. The benefits include:

1. **Convenient and Timely:** Users can start learning instantly. This empowers new users to get started immediately and at their own convenience - controlling their own schedule for learning.
2. **Consistent and Scalable:** Users who did not attend a live instructor-led session can receive the same high-quality training experience no matter where they are located.

What's Included?

Recorded Training Courses: More than 15 hours of online instruction available in the form of recorded videos with guided instruction. Nine product-specific courses are included:

- Introduction to Naviance
- Naviance Collaborative Tools
- Configuring Family Connection
- Configuring Naviance for Schools
- Career Planning and Assessments with Naviance
- Success Planning with Naviance
- College Planning: College Research Tools
- College Planning: College Application Tools
- Naviance eDocs

Learning Assessments: For each course, learners will take an assessment to measure their comprehension of the content to determine if they have achieved the skills and knowledge as outlined in the goals of the course.

Extension Activities: For each courses, extension activities serve as an actionable list of “next steps” and “tips” for users to apply what they learned in their school setting.
