### Fostering Academic Interactions

**Academic Language Development**

**Modeling**
- Teacher:
  - States the purpose of the lesson and the student-friendly ELD objective
  - Models a Constructive Conversation Skill (Create, Clarify, Fortify and Negotiate) using language models based on previously observed student conversations, mentor text, multi-media text, etc.
  - Establishes or reviews routines for Constructive Conversations (ex. Model/non-model listening comprehension activity, Pro/Con, Stronger/Clearer)
  - Models and clarifies oral complex language to make output understandable

**Guiding**
- Teacher:
  - Introduces prompt on a high interest topic that connects to the direct instruction portion of the lesson
  - Guides & models students to use language of the topic to practice a targeted Constructive Conversation Skill (*engaging, relevant, intellectually rich and challenging* – CA-ELD Standards Appendix C)
  - Provides opportunities for students to engage in extended interactions using target academic language and disciplinary thinking.
  - Monitors students’ ability to use complex language to describe, shape and support ideas by listening and collecting language sample of students’ strengths and needs (*formative assessment of output skills*)

### Using Complex Text

**Direct Instruction of Linguistic Features**

**Teacher:**
- Introduces and charts the lesson focus question
- Introduces and clarifies text language, vocabulary, and features of the text.
- Models how to read and use language from the text to think about the content.
- Models how to keep track of and remember information from the text for later use.
- Delivers lessons based on Part II ELD Standards (*Learning about How English Works*) supported by Part I ELD Standards (*Interacting in Meaningful Ways*)
- Provides scaffolds depending on the nature of the task, knowledge of content, and/or proficiency in language to engage in and complete task
- Prompts students about the linguistic features of text using guiding questions
- Guides student to practice using the language from the text and the Constructive Conversation Skills while analyzing complex/mentor text (Part I)
- Monitors students’ ability to use complex language to describe, shape and support ideas by listening and collecting language sample of students’ strengths and needs (*formative assessment of output skills*)

### Fortifying Complex Output

**Differentiated Instruction**

Based on data, teacher:
- Extends opportunities to practice skills with tools and linguistic supports to produce oral, written or multi-media messages.
- Supports (small group or one-on-one) to students to fortify complex output and vocabulary usage or to target language skill development
- Provides collaborative oral/written work activities/tasks based on proficiency level and needed language skill development
- Monitors students’ ability to use complex language to describe, shape and support ideas by listening and collecting language sample of students’ strengths and needs (*formative assessment of output skills*)

**Wrap-up & Next Steps**

**Teacher:**
- Reviews and clarifies linguistic feature of the lesson’s focus question

**Students:**
- Self-assess and reflect on ELD objectives

**Teacher:**
- Closes lesson and introduces topic for next lesson
- Develops follow-up goal and experiences for future lessons

---

**REVISED 6/11/15 Elementary EL Instruction**

Adapted from work by Zwiers, O’Hara, & Pritchard, 2014
OVERVIEW

Constructive Conversation Skill-FORTIFY
Focus Question: How do connecting words or phrases link ideas, events, or reasons throughout the text to increase cohesion?
Differentiated Instruction
Wrap-up
Next Steps
NOTE: Provide a copy of the Model and Non-Model Script to the volunteer and allow time beforehand for student to review the script.

ELD STANDARDS

Part I: Interacting in Meaningful Ways

A. Collaborative.

1. Exchanging Information and Ideas. (Expanding Level) Contribute to class, group, and partner discussions, including sustained dialogue, by following turn-taking rules, asking relevant questions, affirming others, and adding relevant information.

3. Offering Opinions. (Expanding Level) Negotiate with or persuade others in conversations using an expanded set of learned phrases (e.g., I agree with X, but...), as well as open responses, in order to gain and/or hold the floor, provide counter-arguments, etc.

B. Interpretive.

5. Listening Actively. (Expanding Level) Demonstrate active listening of read-alouds and oral presentations by asking and answering detailed questions with occasional prompting and moderate support.

6. Reading/Viewing Closely. (Expanding Level)
a) Explain ideas, phenomena, processes, and text relationships (e.g. compare/contrast, cause/effect, problem/solution) based on close reading of a variety of grade-level texts and viewing of multimedia with moderate support.

Part II: How English Works

A. Structuring Cohesive Texts.

2b. Understanding Cohesion. (Expanding Level) Apply growing understanding of how ideas, events, or reasons are linked throughout a text using a variety of connecting words or phrases (e.g., for example, in the first place, as a result) to comprehending texts and writing texts with increasing cohesion.

ELD OBJECTIVE

Students will be able to analyze text to understand how connecting words or phrases link events throughout the text, using complex sentences (The connecting word...links the events together because...) during paired and whole group discussions of a mentor text.
<table>
<thead>
<tr>
<th>STUDENT FRIENDLY ELD OBJECTIVE</th>
<th>I will analyze how connecting words or phrases link events throughout the text, using complex sentences.</th>
</tr>
</thead>
</table>

## FOSTERING ACADEMIC INTERACTIONS

### OPENING

**CONSTRUCTIVE CONVERSATION SKILL-FORTIFY**

Teacher introduces and clarifies lesson objective.

*Today we will practice the Constructive Conversation Skill of FORTIFY. This skill is important when you are supporting ideas with evidence and explaining how the evidence supports the idea. Today you will practice with your partner the skill of fortifying your ideas during a discussion using a visual text. Make sure that you provide evidence and are able to explain how that evidence supports your idea.*

**Conversation Norms Poster**

*Let’s Chorally read the Conversation Norms Poster.*

**Review Hand Gesture and Phrase- FORTIFY**

**Review Prompt and Response Starters**

**Prompt Starters:** Can you give an example from the text? What are examples from other texts?

**Response Starters:** For example, in the text it shows..., Strong supporting evidence is...

### MODEL/GUIDED PRACTICE

**Introduce Model and Non-Model**

*Display the Visual Text for Teacher Modeling and Listening Task Poster-FORTIFY*

*To model what a Constructive Conversation looks like we are going to use the visual text and Listening Task Poster and address the prompt: What is happening in the visual text? Provide evidence from the text. As we look at the visual text we will share our ideas and FORTIFY.*

Teacher introduces **Model** and asks for a previously selected volunteer to be their partner. Teacher and student read the **Model Script**.

**Review the Listening Task Poster**

*Teacher refers to Listening Task Poster-FORTIFY and reads each step aloud.*
PROMPT: What is happening in the visual text? Provide evidence from the text.

Model
Student A: It looks like the people are doing a science experiment.
Student B: What makes you say that?
Student A: I believe that they are doing a science experiment because they are using science experiment materials.
Student B: Yes, I see that they are using lab coats and the person in the middle is wearing goggles. I think the woman in the middle is the science teacher.
Student A: Why do you believe she is the science teacher?
Student B: I think she is the science teacher because she is pointing to the dish, and the two students are listening and taking notes.
Student A: So, what I heard you say is that one is the teacher and the other two are the students in a science class.
Student B: Yes, maybe she is showing the students what happened in their experiment. Do you see how she is holding the dish so they can see?

Teacher will use questions and Listening Task Poster to guide students through an analysis of what makes this a Model Constructive Conversation for the skill of FORTIFY. Teacher will then proceed to the Non-Model for the skill of FORTIFY.

Non-Model:
Student A: They are scientists.
Student B: Yes. I agree with you.
Student A: I believe they are doing a science experiment.
Student B: The people are wearing uniforms.
### MENTOR TEXT – Hidden Worlds by Stephen Kramer and Dennis Kunkel

**Student A:** The lady is taking notes on paper.  
**Student B:** The guy is looking at the dish in her hand.  
**Student A:** I believe they all look interested.  
**Student B:** Yes, I agree. The people look interested in the experiment.

Teacher will use questions and **Listening Task Poster** to guide students through an analysis of what makes this a **Non-Model** Constructive Conversation for the skill of **FORTIFY**.

After teacher demonstrates both models, students are asked to address the prompt: *What makes this a model Conversation for the Skill of FORTIFY?*

### USING COMPLEX TEXT

**FOCUS QUESTION**  
How do connecting words or phrases link ideas, events, or reasons throughout the text?

**OVERVIEW**  
Students will work first with a partner and then with whole group to understand and explain how phrases or connecting words are used to link ideas, events, or reasons throughout the text to help increase cohesion. The teacher will review knowledge of connecting words and phrases. They will then guide students as they analyze the story.

Explain that for the next portion of the lesson (tomorrow), they will discuss only the phrases and connecting words in <strong>bold</strong> as projected from LCD projector.</td>
<td></td>
</tr>
</tbody>
</table>

4. Direct the students to the reading task. Instruct the students to read the mentor text with a partner and to identify all the connecting words or phrases in the second paragraph.

**Reading Task:** Now read the second paragraph on page 546 of “Becoming a Scientist.” Together, identify and underline the connecting words or phrases that link ideas, events, or reasons that increase cohesion. Have a Constructive Conversation and fortify your choices. Remember to explain, elaborate, question and paraphrase. Use these questions to guide your discussion and fortify each other’s ideas:

- "Let’s look at the ___ sentence. What is the connecting word you identified?"
- “How do you know that the connecting word or phrase links an idea, event, or reason?”
- “How does the connecting word or phrase increase cohesion?”
  Remember to respond in complete and complex sentences such as:
- “I know the connecting word … links the ideas together because…”

Elicit students’ responses and ask them to share out which connecting words or phrases they marked on their text. In a whole group discussion, students will calibrate their findings with the text being projected on the board. (Projected text is the same text the students have.) Students underline the connecting words or phrases they did not identify. Explain that for the next portion of the lesson (tomorrow), they will discuss only the phrases and connecting words in **bold** as projected from LCD projector.

**Student Progress Form (SPF)- Constructive Conversation Sample**
Teacher will focus on 2-4 students to progress monitor using the **Student Progress Form (SPF)-Constructive Conversation Sample** on the use of the constructive conversation Skill of **FORTIFY** and the Conversation Norms to inform next steps. Students’ highlighted mentor text and self assess.

I understand and can explain to someone else.

I understand but need more practice.

Ask students the following prompt: *How do connecting words or phrases link ideas, events, or reasons throughout the text to increase cohesion?*

Students will go to the chart that best illustrates their understanding of lesson objective. Students from each area will pair up. Using their individual mentor text, students will fortify their understanding of the lesson objective by explaining specific examples from the text.

Teacher closes lesson and introduces topic for next lesson.

### NEXT STEPS

**USE FORMATIVE ASSESSMENTS TO DETERMINE THE FOLLOWING:**

To what extent are students demonstrating an understanding of connecting words or phrases link events together? Were the students able to identify the connecting words or phrases in the text?

How might your students improve their use of connecting words or phrases to link ideas, events, or reasons?

**How will you use this information to inform your next steps for instruction?**

#### MODEL/GUIDED PRACTICE

**Introduce Model and Non-Model**

Display the Visual Text for Teacher Modeling and Listening Task Poster-FORTIFY
*To model what a Constructive Conversation looks like we are going to use a visual text and address the prompt: *What is happening in the visual text? Provide evidence from the text.* As we look at the visual text we will FORTIFY and share our own ideas.*

Teacher introduces Model and asks for a previously selected volunteer to be their
partner. Teacher and student read Model Script.

Review the Listening Task Poster

Teacher refers to the Listening Task Poster-FORTIFY and reads each step aloud.

http://2.bp.blogspot.com/-kO8EbcZoUEY/VNa3K0oTW9I/AAAAAAAABDs/rMdpWz0ml34/s1600/sinkandfloat.jpg

PROMPT: What is happening in the visual text? Provide evidence from the text.

Model

Student A: I see students conducting science experiments.
Student B: Why do you believe this? Can you given an example from the text?
Student A: A strong piece of supporting evidence is the tub. I think they are conducting science experiments because they have tubs like the ones we use for our science experiments.
Student B: Yes. I agree that the students are participating in a science experiment because they are using paper to record what they see and there are steps they are taking.
Student A: Can you give more examples from the text to fortify your idea?
Student B: I see the students working in groups. The third picture shows the girl placing the yellow piece in the water. Then, in the other picture, she takes the yellow piece out of the water.
Student A: When I look at the text, I think they are doing a science experiment to see if the yellow piece will float.
Student B: Yes, I agree with your statement because the students have water and they are putting the yellow piece inside the pink tub.
Teacher will use questions and Listening Task Poster to guide students through an analysis of what makes this a Model Constructive Conversation for the skill FORTIFY.

Teacher will then proceed to Non-Model for the skill of FORTIFY.

**Non-Model:**
- **Student A:** The kids are doing a science experiment.
- **Student B:** Yes, they have materials.
- **Student A:** The students are putting the yellow piece in the water.
- **Student B:** The students have papers to take notes.
- **Student A:** There is a pink tub like the one we use in class.
- **Student B:** They are in a classroom.
- **Student A:** I think the students are younger kids.
- **Student B:** The kids are working together.

Teacher will use questions and Listening Task Poster to guide students through an analysis of what makes this a Non-Model Constructive Conversation for the skill of FORTIFY.

After teacher demonstrates both models, students are asked to address the prompt: *What makes this a model Constructive Conversation for the skill of FORTIFY?*

**STUDENT VISUAL TEXT**

**STUDENT PROMPT**

*What is happening in the visual text? Provide evidence from the text.*
## USING COMPLEX TEXT

**FOCUS QUESTION**

How do connecting words or phrases link ideas, events, or reasons throughout the text?

### MODEL/GUIDED PRACTICE DAY 2

**Review the Lesson Focus Question.**

Yesterday, we discussed how different connecting words or phrases link ideas, events, or reasons throughout the text to increase cohesion. This skill will help you when you use connecting words or phrases to clearly express your ideas orally or in writing. For example, when you write a narrative or an expository piece, connecting words or phrases will help link your ideas, events, or reasons.

1. **Yesterday you used Lines of Communication oral language strategy to review your knowledge of connecting words or phrases.**
   - “What do you know about connecting words or phrases?”
   - “What kind of words are they?”
   - “Why do we use them?”
   - “How do connecting words or phrases link ideas, events, or reasons?”

2. **Yesterday, you read sentences with your partner. Together, you identified and underlined the connecting words or phrases in the sentence.**
   - “What connecting words or phrases did you identify?”
   - “How do you know that they are connecting words or phrases?”
   - “How does these connecting words or phrases link ideas, events, or reasons in the text and help increase cohesion?”

Elicit students’ responses and ask them to share out which connecting word or phrase they marked on their text. Explain that for the next portion of the lesson, they will discuss only the connecting words or phrases in **bold** as projected from LCD projector. They will also have an opportunity to self-assess using the “**Stand and Self-Assess**” activity.

**Teacher facilitates discussion by reading one question at a time. After each question, in pairs, students share their responses.**

**Guiding Question #1:** What do you notice about the connecting words or phrases in the second paragraph? How do these connecting words or phrases link ideas, events, or reasons throughout the text?
Mentor Text: Becoming a Scientist, paragraph 2, page 546: Then Dennis received a gift that changed his life. "When I was ten years old, my parents gave me a microscope for Christmas," he recalls. "It came with a set of prepared slides—things like insect legs, roots hairs, and tiny creatures called protozoans. As soon as I unwrapped the microscope, I forgot about my other presents and tried to figure out how to use it."

Possible Answer: These connecting words and phrases convey time. They link the ideas in sequence.

Guiding Question #2: Now let's look at the second paragraph on page 548. Look closely at the first sentence. What is the connecting phrase? How does it link two ideas?

Mentor Text: Becoming a Scientist, paragraph 1 page 548: After Dennis graduated from high school, he enrolled in a junior college in his hometown.

Possible Answer: The connecting phrase tells us what happens next. It connects to the previous reading on page 546 and shows us that this event occurred after he was ten years old.

Guiding Question #3: Now let's look at the third paragraph on page 548. Look closely at the first two sentences. What are the connecting words? How do these link two ideas?

Mentor Text: Becoming a Scientist, paragraph 3, page 548: Then Dennis transferred to the University of Washington, in Seattle. Finally he could learn and do things he had dreamed about.

Possible Answer: The connecting words show a shift in time. The connecting words show a sequence. The connecting words that time has passed.

Guiding Question #4: How do the connecting words or phrases that we discovered link ideas or events? What evidence can you use to support your idea?

Possible Answer: They show a transition in time. For example, on page 564, the first sentence on paragraph 2, "then" is used to show there is a change in time.

Students return and respond to lesson focus question.

- How do connecting words or phrases link ideas, events, or reasons to increase cohesion? What evidence can you use from the text to support your idea?
- Students work with a conversation partner and share their response to the prompt.

Possible Answer: In this mentor text, the connecting words or phrases are used to link ideas and events throughout the text to convey chronological order. For example, on
Los Angeles Unified School District

FORMATIVE ASSESSMENT

Student Progress Form (SPF)- Constructive Conversation Sample
Teacher will focus on 2-4 students to progress monitor using the Student Progress Form (SPF)-Constructive Conversation Sample on the use of the constructive conversation Skill of FORTIFY and the Conversation Norms to inform next steps.

FORTIFYING COMPLEX OUTPUT

DIFFERENTIATED INSTRUCTION

Small Group (Teacher)
Student will have a Constructive Conversation with their partner about the following prompt:

What FORTIFY prompt starters can you use with your partner next time?
What FORTIFY response starters can you use with your partner next time?

Independent Activity (Students):
Students can play Constructive Conversation Game with new visual text to practice the skill of FORTIFY.

WRAP-UP

Review ELD Objective
Teacher will review ELD objective and clarifies linguistic feature of the lesson’s focus question.

Stand and Self-Assess
Teacher will set up charts/signs in two different areas in classroom. Students self-assess and reflect on ELD objectives.

I understand and can explain to someone else.

I understand but need more practice.

Ask students the following prompt: How do connecting words or phrases link ideas, events, or reasons throughout the text to increase cohesion?

Students will go to the chart that best illustrates their understanding of lesson objective. Students from each area will pair up. Using their individual mentor text, students will fortify their understanding of the lesson objective by explaining specific examples from the text.
