Note: Teachers will identify additional vocabulary words/phrases from the lesson students might have challenges with and add them to this list.

• Say: As we go through the lesson, I will review each of the vocabulary words we learned on Day 1. I will stop and give you time to review these in your Thinking Journal. I will also stop and review the words during the lesson. I will give you time at the end of the lesson to review the words and clarify as needed.

Teacher addresses the vocabulary list as many times as necessary and teaches the words in context. Provide time to keep going back to the Thinking Journal as necessary.

Lesson Structure
(1a2) Knowledge of Content Related Pedagogy / 1d1 Standards-Based Learning Activities

This lesson is intended to teach the constructive conversation skill NEGOTIATE. There are 3 parts to this lesson: 1) conversation norms, 2) revise sample conversations, and 3) review the Constructive Conversation skill of NEGOTIATE.

LESSON INTRODUCTION:

• Post and read ELD Objective(s)
• Post and review Constructive Conversation Skills Poster
• Post and review Conversation Norms Poster

Today we are continuing with the constructive conversation skill NEGOTIATE. We will revise sample conversations to give us additional practice with the NEGOTIATE conversation skill. First, let’s review our Conversation Norms.

Teacher points to the Conversation Norms Poster (Appendix A).

1. Review Conversation Norms Poster

Let’s chorally read the Conversation Norms Poster:
1. Use your Think Time
2. Use the Language of the Skill

Grade Level(s): 9 - 12

3. Use your Conversation Voice
4. Listen respectfully
5. Take Turns and Build on each other’s ideas

**Note:** If a review of the Conversation Norms is necessary, review Day 1.

### 2. Revise Sample NEGOTIATE Conversations

Students will revise two sample conversations to improve them. The first revision will be of the Non-Model. It will be revised as a Shared Writing activity, led by the teacher with the whole class. For the second revision, students will work in triads using the transcribed language sample obtained at the end of Day 11. Teacher starts by displaying (or distributing) the Non-Model (Appendix C) from Day 11.

**Say:** Let’s look at the Non-Model. How can we improve this Constructive Conversation? The NEGOTIATE prompt must be one worth discussing and include “What do you notice in the visual text?” and “How do you know?” Here’s the visual text (Appendix D). Read the Non-Model to yourself as I read it aloud. Think about the prompt and the language of the skill NEGOTIATE.

**PROMPT:** Is butchering animals for nourishment right or wrong? Which has the strongest evidence?

**Teacher:** The people in the doorway are frightened. Even if they are butchering animals for nourishment, the frightened people in the doorway is strong evidence that butchering animals is wrong. What is your idea?

**Student:** No they’re not! They’re just in a hurry. I disagree. The people in the doorway are simply anxious to buy their cut of meat! One animal can feed many hungry villagers.

**Teacher:** How do you know they’re in a hurry? That is a valid point,

however, in the village there are many options that provide sustenance such as grains and produce. Which has the strongest evidence?

Student: My evidence is that they are in a hurry. They know more people from town are coming up the road to get in line. They don’t want the meat to run out. There might not be enough for everyone! They are in a hurry to make their purchase quickly. What’s your evidence? I think we can use the criteria of a balanced diet because the village has both farmland and animal resources. How are the two ideas similar?

Teacher: In the text, I notice the looks on their faces. I can tell they are frightened because they are hiding. Everyone knows that we shouldn’t eat animals for food. There are lots of other things we can eat like fruits and vegetables. Even though it seems that there are multiple sources of nourishment such as animals and produce, a healthy diet of fruits, vegetables, and grains is better for the villagers. How does evidence for your argument compare to mine?

Student: I disagree that people look scared. Besides, they don’t look like vegetarians to me. That is a valid point, but protein is an essential part of a healthy, balanced diet as evidenced by the villagers’ appearance. Humans have consumed animals for centuries. How can we come to consensus?

Teacher: The town should have a farmer’s market where people can choose from many different food options. I think the village should have a farmer’s market because people have the opportunity to choose from different food options.

Student: The meat lines will be the longest. I think the positives of a farmer’s market are fresh and abundant choices that appeal to everyone.

C. Refer class to revised Non-Model. Call on two student volunteers to read the conversation to the class.

D. Teacher discusses the improvements to show how responses are more elaborate, build upon each other, and how partners take turns.

E. Independently, students in triads will revise a language sample. Display the transcribed language sample collected on day 11 on the Student Progress Form - CAT.

• Say: In triads:
  • Number off from 1 – 3.
  • Read the language sample in your triad.
  • Orally revise the language sample to improve the conversation.
  • Use the prompt and response starters for NEGOTIATE (See Designated ELD Placemat – Appendix F).
  • Write the revision in your Thinking Journal.

NOTE: We would greatly appreciate your feedback in vetting these lessons through the following link:

• Be prepared to share out to the class.

F. Share out: after each triad shares their revision, teacher points to the Listening Task Poster – NEGOTIATE prompting the class to review the triad’s work. This ensures that the class critically examines the revisions and sees how the academic language is improving.

3. Review Constructive Conversation Skill - NEGOTIATE

Review with students the Constructive Conversation skill NEGOTIATE to ensure students understand the language needed to NEGOTIATE ideas.

• Say: Let’s review the NEGOTIATE skill. When we NEGOTIATE, we come to consensus. We also communicate ideas as we learn from each other.

Teacher refers to Listening Task Poster for NEGOTIATE (Appendix E) and reads each step aloud.

• Say: We’ve looked at the Listening Task Poster to help guide us through the conversations. There are 6 steps (teacher reads through them). This poster is intended to help us monitor and improve our academic language.

Teacher refers to the Designated ELD Placemat (Appendix F). An additional prompt resource is the Constructive Conversation Skills poster(s). Looking specifically at the NEGOTIATE row, the teacher reviews the prompts for starting and responding to NEGOTIATE ideas.

Assessment 1e2 Planning Assessment Criteria

Use formative assessments to determine the following:

To what extent are students …? (e.g.: To what extent are students… using think time, taking turns, and using their conversation voice?)

How might your students improve their …? (e.g.: How might your students improve their… respectful listening skills, collaborative discussions?)

How effectively do students …? (e.g.: How effectively do students… evaluate the Model and Non-Model, use the language of the skill?)

What additional scaffolds and/or modifications might students need when I reteach these skills?

Note: The above are sample question stems to help teachers in planning their formative assessments.

The purpose of the teacher observing student discussions as they revise the Non-Model is to help gauge the students’ understanding as they move towards increased academic language production. Students will have two opportunities to revise a Non-Model sample conversation allowing the teacher to correct any possible misunderstandings. How might the teacher help those students who are struggling with language?

| Teacher will review objective. Today we reviewed the Constructive Conversation Skill **NEGOTIATE**, and revised Non-Model conversations. Teacher will ask students the following:  
  • How did we meet today’s objective of revising conversations? Work with your partner to do the following:  
    ✓ Identify three things that you did to meet today’s objective.  
    ✓ Share and explain the three things to your partner.  
| Teacher calls on three students to share their learning with the class. |
