**PURPOSE:** The purpose of this Bulletin is to restate and reaffirm the importance of the District’s policy against the use of corporal punishment. By action taken on October 15, 1984, the Board of Education determined that the use of corporal punishment as a disciplinary option at any grade level and with any student was abolished. Corporal discipline, in any form, is not to be used within this District.

**MAJOR CHANGES:** This Bulletin replaces BUL-5747.1, of the same subject, dated December 20, 2013. The content has been updated to include clarification on corporal punishment and reflects changes in the issuing Division.

**GUIDELINES:** The following guidelines apply:

Under the law, “corporal punishment” is defined as willful infliction of, or willfully causing the infliction of, physical pain on a pupil.

Corporal punishment does not include the amount of force that is reasonable and necessary for a person employed by or engaged in a public school to quell a disturbance threatening physical injury to persons or damage to property, for purposes of self-defense, or to obtain possession of weapons or other dangerous objects within the control of the pupil. In addition, physical pain or discomfort caused by athletic competition or other such recreational activity, voluntarily engaged in by the pupil, is not corporal punishment.

Corporal punishment refers to the intentional application of physical pain as a method of changing behavior. District employees are directed to not engage in the use of corporal punishment, which includes but is not limited to engaging in a mutual physical altercation, food deprivation, hitting, painful body postures, pinching, pushing, shaking, slapping, tripping, use of excessive exercise drills, or prevention of use of restrooms.

District employees are reminded that corporal punishment may also result in child abuse and, as such, must be reported in accordance with mandatory child abuse reporting laws.
