MISSION AND VISION

Calvert Elementary Vision Statement:
Calvert Elementary Charter School students will be highly educated, collaborative, and innovative 21st century citizens, who achieve their highest academic and career potential. They will be life-long learners who view diversity as strength, and are respectful of others in order to make the world a better place.

Calvert Elementary Mission Statement:
Calvert is a community school committed to providing a safe and supportive environment for learning. Calvert prepares students to be fully participating citizens and leaders of the 21st Century through an academically rigorous and challenging program based on Common Core and California State Standards. Integrating technology and the arts, we provide high quality instruction in every classroom to facilitate the education of the whole child.

WHAT IT MEANS TO BE AN “EDUCATED PERSON” IN THE 21ST CENTURY

An Educated life-long learner in the 21st century is able to readily decipher and analyze information through critical thinking, problem solving, and collaboration. They are able to adapt to change using technology and integrating subject matter across the curriculum. A learner communicates and collaborates, uses inquiry processes, adapts to change, creates new products and processes, communicates with clarity, displays intellectual and creative curiosity, seeks multiple perspectives. Educated people accept and appreciate cultural and individual differences and show awareness of the outside world. They cultivate healthy peer and adult relationships. Such individuals should be able to self-evaluate, take risks and accept responsibility.

HOW LEARNING BEST OCCURS

Learning best occurs for students when the environment provides quality instruction, ample discussion, and active participation. Whole and small group discussion, cooperative learning, and application of what has been learned or discussed takes place on a daily basis. The learning environment of a school nurtures logical thinking and the ability to communicate problem solving. Working collaboratively, teachers share best practices, conduct parent workshops (such as Literacy, Mathematics, and Art), and incorporate differentiated instruction based on the needs of their students. Educators grow through professional development, exposure to new and research based practices. The principal models high expectations as an involved and supportive instructional leader.
The principal and staff empower school community members to be actively and positively engaged in the education of their children. Families are involved in quality learning experiences through events such as Back-to-School Night, Parent conferences, and Open House. Parents and community members are an integral part of the children’s education providing a foundation for life-long learning.

**HOW THE GOALS OF THE PROGRAM ENABLE STUDENTS TO BECOME SELF-MOTIVATED, COMPETENT, AND LIFE-LONG LEARNERS**

The instructional program at Calvert Elementary is based on the Common Core Standards. With this as our foundation, we create authentic assessments that involve students in real-world application. Meaningful feedback, taking responsibility for one’s own learning, and rigorous academic expectations all play a part in enabling students to become competent and lifelong learners. Technology and the arts continue to be incorporated into the curriculum, helping students to deepen their understanding of concepts and refine their skills. Having technological competence is an integral part of preparing students for 21st century life. Calvert students will be provided ample opportunities to do research and create visual presentations as excellent ways to keep learning interesting and engaging. Calvert educators nurture motivation and confidence by providing students with successful educational experiences and directing their sights on future academic goals and milestones including middle school, high school, and college. Ongoing community involvement that promotes the greater good of society through local and global causes that connect our learners with the world. Educators, students, and families also work hand in hand on school beautification programs, such as, Second Saturdays and Community Garden. All of these opportunities serve to motivate the students to investigate further and impact the world around them.

**DESCRIBE A TYPICAL DAY (Narrative)**

Approaching the front gates of Calvert School the first thing one will see is a well-maintained campus and inviting environment. Throughout the campus, colorful murals are visible that depict interpretations of school and community history, healthy choices and inspirational messages. The expansive, tree-rimmed playground contains a large, grassy area, modern sports court and state-of-the-art apparatus area, open to all students. The outdoor garden classroom is decorated with children’s figures painted for
Earth Day and a shaded eating area. Throughout the day, one could see the campus used for assemblies, small group reading activities, physical education, art, or gardening. Students may be conducting research in the well-stocked library, painting in the art room, conducting experiments in their classrooms and/or Science Lab, creating PowerPoint presentations in the computer lab, or may be participating in lessons on the interactive white board found in the Computer Lab.

DESCRIPTION OF INSTRUCTIONAL PROGRAM AND CURRICULUM
Instructional Framework, Delineation of the Core Subjects, and Innovative Components:

Calvert Charter for Enriched Academics follows the California State Standards and frameworks for instruction in Language Arts, Mathematics, Science, Social Studies, Visual and Performing Arts, Technology and Physical Education. The curriculum will meet all state and LAUSD standards. We believe that powerful learning and addressing the needs of our targeted multi-cultural population are best accomplished through a balanced program, which combines curriculum-centered and student-centered instruction. Systematic direct-instruction, guided practice and the application of skills, ensures that all students are exposed to District-mandated standards. Subsequently, addressing multiple intelligences through the use of experiential and open-ended, inquiry-based learning produces self-motivated and well-balanced learners. We believe that integrating these modalities will help our students to become analytical as well as creative thinkers contributing to our ever-changing society.

Teaching Methodologies:

The teachers of Calvert will use current research and student data to drive best teaching methodologies while utilizing rigorous conceptual learning at each grade level. Standard methodologies include:

   Academic rigor – Our methodologies encourage students to gain a deep conceptual understanding of topics or concepts and maintain a high level of engagement of the learning process.

   Clear Expectations – Teachers explicitly define and articulate the state standards in student friendly language. Descriptive criteria and models of work that elaborate these standards are expected to be displayed in every classroom, as well as, in the Daily Instructional Focus.

   Direct Instruction – Teachers provide strategically planned direct instruction using multimedia and multiple modality techniques appropriate to the developmental needs of their students to teach standards based lessons.
Guided & Independent Practice – Teachers provide students with appropriate opportunities to be successful at demonstrating their understanding of the concepts or skills being taught.

Collaborative Groupings – Teachers create flexible small groups in order for students to interact with their peers on various levels. Students share their thinking processes to maximize learning. Cooperative groups promote diverse perspectives, student-centered learning and teamwork. This allows teachers to make observations and assess students while facilitating their work.

Small Group Instruction – Teachers create small groups to target students who need extra instructional time as well as preview and review.

-Differentiated Instruction – Teachers provide lessons and assignments within the core curriculum that allow students to perform at or beyond their academic levels while maintaining or exceeding state standards.

Higher-Level Thinking – To prepare students for the future, we believe our task is to help them develop the critical reasoning skills that will enable them to think flexibly, solve complex problems and make sense of their place in the world around them. We encourage our students to move beyond the lower levels of Bloom’s taxonomy to the more sophisticated levels of analyzing, evaluating and creating.

Integration of the Arts – The Arts are a key component of our school. Teachers use drama, dance, music and visual arts to enhance and deepen the learning experience across the curriculum.

Integration of Technology – Technology is embedded in all facets of our curriculum to broaden our students’ understanding of the digital world.

Experiential Learning – Teachers create opportunities for exploration of the major concepts through direct experiences and primary sources. Students relate to the curriculum through plays, field trips, labs, simulations and experiments. It is through these activities that students process, analyze and conceptualize the curriculum.

Criteria Charts and Rubrics – These tools help focus students to effectively meet and exceed teacher expectations and objectives of the assignment. Students are able to understand and self-evaluate their own work and learning as they progress toward rigorous standards. This allows teachers to give effective feedback to the students. Adhering to the proposed instructional framework and teaching methodologies ensures Calvert instructors can successfully meet the needs of all students which include these subgroups: GATE, Special Education, English Language Learners, Under-Achieving/Non Proficient, General Education and the Socio-Economically Disadvantaged.

We are dedicated to identifying and addressing the needs of our Gifted and Talented and High achieving population by incorporating experiential learning and differentiated planning into daily instruction. As a result, our 8% GATE population is higher than the district’s norm of gifted population.

**Students Achieving Below Grade Level:**

In order to meet the needs of students who are achieving below grade level academically, we conduct SST’s (Student Success Team) meetings. SST meetings recognize the RtI2 approach, in terms of assisting teachers to attempt a hierarchy of intervention strategies with the goal of enabling struggling students to meet grade level standards. During the meetings we consider how the behavior and work habits of our students impact their ability to access the core curriculum. Calvert Elementary also assigns OASIS mentors outside.

In addition, our Intervention Coordinator works with students to provide targeted intervention. (RTI2 Tier II) She uses Voyager Ticket-To-Read, Voyager VMath Live, PAL RW, and Earobics (All on the state adopted/approved list for Tier II interventions.

Students Achieving Below Grade Level also work with a specialist during Universal Access time. The Specialist works using the District approved curriculum (Treasures/Triumphs) to provide provide Tier II Intervention to our Students Achieving Below Grade Level.

Modified Consent documentation that is needed to respond to complaints. All Charter Schools chartered by the Los Angeles Unified School District ("LAUSD or the District") Governing Board are bound by and must adhere to the terms, conditions and requirements of the Chanda Smith Modified Consent Decree ("MCD") and other court orders imposed upon District pertaining to special education. The MCD is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in LAUSD. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The MCD includes eighteen statically measureable outcomes and facilities obligations that the District has to achieve to disengage from the MCD and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual and Welligent, the District-wide web-based software system used for online IEPs and tracking of related services provided to students during the course of their education. As part of fulfilling the District’s obligations under the Modified Consent Decree, data requests from charter schools that are not connected to the District’s current Student Information Systems ("SIS") are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s required format and are as follows:
- The Charter School Suspension/Expulsion Report, due monthly throughout the school year.
- Paper SESAC Report and Welligent Student Listing Verification, due monthly throughout the school year.

and Mathematics instruction will conform to the National Standards (California Core State Standards, CCSS) adopted by California in August, 2010. Instruction in all areas will be planned and delivered in a timely manner to ensure all students access to the required curriculum. All teachers will meet regularly throughout the year in grade level teams to plan study units. Instructional materials adopted by the state and the Los Angeles Unified School District will be used to deliver instruction. Categorical Block Grant funds will be used to provide teacher assistance in all grade levels to provide individual student attention, to increase the integration of technology, to provide professional development, and to purchase supplemental curricular materials.

Professional Development
Professional Development at the school site is the responsibility of the school principal. District initiatives are at the core of the District professional development. This includes, but is not limited to State or Federal mandates, Response to Instruction and Intervention, English Language Learners, Mathematics, and English Language Arts Instruction. It is the principal’s job to deliver, document and submit completion of the mandated District and state professional development. Calvert will draw upon professional experts, LAUSD personnel, as well as our own teaching staff’s expertise. Professional development will focus on the areas of technology, innovation, character education, response to intervention, English Language Learners, Differentiation Strategies, and Special Education.

See Attachment D
**When and How Often Student Outcomes will be Assessed** (including innovative components and any additional specific, measurable student outcomes that the school will set for the students, and explain how these outcomes are consistent with the school’s proposed instructional program.

Calvert believes that assessment is ongoing and affords teachers an opportunity to develop daily lessons that meet the needs of all students based on their strengths and weaknesses. As mandated by No Child Left Behind, we are committed to ensuring that each child reaches his or her proficiency level in the areas of language arts and mathematics.

At the beginning of each school year, teachers receive data for their incoming pupils from MyData, CoreK12, and CST scores. We analyze the data from the prior year and formulate an instructional agenda based on the needs of each student to determine the level of intervention needed. Teachers then plan the next step based on the data analysis. This could include small group instruction, additional assessment to identify a specific skill area of need, or referral for intervention.

We use a variety of assessment tools in order to get a comprehensive representation of student achievement. Data from these different assessments is collected and studied by teachers independently and at weekly grade-level collaboration. Additionally, the administration examines and discusses data on an ongoing basis throughout the year with teachers.

Standardized assessments will include, but are not limited to: CST written in English (yearly), CELDT (yearly), curriculum embedded Treasures assessments for Language Arts, CORE K-12, DIBELs, District Quarterly Math Assessments (every 6-8 weeks), and District Science Assessments (fourth and fifth grade three times a year) and District Literary Performance Assessments (Quarterly). These assessments give teachers a common measure of student performance. Teachers and administrators can make decisions regarding instructional programming based on how students are performing in relation to other students who take the same test.

Authentic assessments are ongoing and can better evaluate the child over time and in a variety of settings. Authentic assessments may include, but are not limited to: portfolios, journals, work samples, homework, teacher created tests, teacher observations, checklists, anecdotal records, publisher provided criterion-referenced tests, and standards based projects. Performance assessments and standards based projects
that are graded using a rubric also allow for meaningful application of essential knowledge and skills.
Intervention Coach/Coordinator will assist in providing Data as well as provide support to staff when discussing instructional strategies and best practices.
In conjunction with standardized and authentic assessments, teachers will also use daily informal assessments from observations, weekly quizzes and tests, class work, and project assignments to help identify immediate areas of concern and to guide instruction.
Element 3 – Method by Which Student Outcomes will be Measured

“The method by which pupil progress in meeting those pupil outcomes is to be measured.” Ed. Code § 47605 (b)(5)(C)

The Charter School agrees to comply with and adhere to the State requirements for participation and administration of all state mandated tests. As a District affiliated charter school, the Charter School will test with the District and adhere to District testing calendars and procedures for all state mandated assessments.

Methods of Assessing Attainment of Student Outcomes and How These Assessment Measures are Consistent with the School's Proposed Instructional Program and Use a Variety of Assessment Tools:

Student outcomes are measured through diagnostic, formative and summative data. Teachers begin each year by assessing student skills through a combination of teacher created materials, LAUSD materials and commercially available materials. The results are evaluated by the classroom teachers during grade level meetings, analyzed with emphasis on the grade level standards, and performance on the CST. Teachers use these results as a way to map the curriculum units for the upcoming school year. Student progress is evaluated three times per year on the progress report. In an effort to have all students become successful, the principal will compile a list of students at risk, or scoring Basic, Below Basic, or Far Below Basic. This list will be used by teachers to assist in team planning during grade level meetings, to help support student learning, to refer students for intervention and to be a guide in monitoring progress throughout the student elementary experience.

Benchmark assessments are used to assess student progress at varying intervals. District materials, additional teacher created and commercially published unit tests are used to monitor student achievement and to inform instructional practice at the completion of individual units. Results of these assessments, possible interventions and re-teaching topics are discussed at grade
level meetings. Assessment data will be used to inform instruction and professional development on an ongoing basis. The curriculum committee is directly involved with the administration, and the leadership committee to identify and align curriculum materials, instructional materials, interventions, and periodic and formative assessments aimed at meeting the California Standards in each subject area. The Governing Council will also monitor the success of programs and utilization of resources based on data to inform decisions for school improvement and school needs. Working together in a yearly process of review and revision, the educators of Calvert will ensure their efforts are focused on data driven instruction. This will include participating in District trainings and in-services and the use of District instructional guides, and periodic assessments.

Additional “in-house” Benchmark Assessments to be used by the School to Assess Student Progress on an Ongoing Basis and the Frequency the Assessments will be Administered:

Teachers will develop "in-house" Benchmark assessments as determined necessary to be given in addition to the District required assessments.

How Assessment Data will be used to Inform Instruction, Improve the Educational Program, and Inform Professional Development on an Ongoing Basis:

Grade level teams will use the Inquiry Cycle to identify strengths and Best Practices according to assessment data as well as analyzation of student work. In addition, teachers in grade level teams will use the Inquiry Cycle to analyze needs/next steps according to the assessment data/student work. Teachers will utilize support systems available to them including the Instructional Team, Instructional Coach/Coordinator, as well as colleagues that are implementing Best Practices. Grade Level Teams will generate S.M.A.R.T. goals (Specific, Measurable, Actionable, Realistic, and Time Bound) and progress monitor to determine if the plan is applicable and meaningful progress toward student achievement is being maintained.
