INTRODUCTION

Purpose

The Plainview Academic Charter Academy (Plainview or the Charter School) community is united in its goal of becoming an affiliated charter school in the Los Angeles Unified School District (L.A.U.S.D. or the District).

The purpose of the Plainview Avenue Elementary affiliated charter school petition is threefold:

- First, it enables the school to build on its historical academic successes: 2003-2007 Title I Achieving School, 2004 California Distinguished School and incorporate the grassroots efforts of its community of stakeholders including parents, students, business partners, support staff and teachers.
- Second, it provides a focus through which the school offers a rigorous, enriched educational program for a wide range of student needs.
- Third, an affiliated charter designation will enable Plainview to aggressively implement a 21st century curriculum that not only meets, but also exceeds the minimum academic standards established by the District. The charter school curriculum will incorporate higher-order thinking skills, project-based learning, multiple intelligences, cross age tutoring, and multimedia literacy across the instructional spectrum. This multimedia approach to teaching and learning will emphasize communication in all its forms as a key to student success. Through the use of 21st century tools and strategies in the classroom, students will grow in their ability to access information and be prepared to become a part of the global community.

Plainview is a successful school energized with a tight-knit community of staff, parents, and students. We became a California Distinguished School in 2004 and a Title I Achieving School from 2003 to 2007. However, we are increasingly faced with challenges that threaten our ability to maximize our students’ potential. Obstacles include declining state and District budgets, growing class size, and fewer faculty and support personnel. These changes have hampered our efforts to provide truly differentiated instruction to an increasingly diverse student population (Special Needs, English Language Learners, identified Gifted, S.E.L. (Standard English Learners) and students performing at and below grade level). Our school is continually challenged to do more with less.

As a small Title I school we have very limited resources. Most of our budget is utilized in purchasing our Categorical Programs Advisor, Learning Center teacher, and our five teaching assistants who assist with our E.L.L. (English Language Learners) and RtI² (Response to Instruction and Intervention) population. Our school fundraisers yield enough revenue to provide each grade level with one bus for a free field trip each school year. As a result of our limited budget, we rely on District supplied materials and programs for our core curriculum.

Internally, we have encountered a growing gap between the latitude and resources needed to fully address the individual needs of every child and the practical realities of the educational climate. At the same time, we anticipate mounting pressure to sustain
and advance an academic program and teaching strategies to achieve even higher levels of student achievement. Status as an affiliated charter will provide Plainview with the means to overcome some of these difficulties and to achieve the goals established by the community so that every student reaches his or her highest potential.

**Goals of the Plainview Academic Charter Academy**

Plainview Academic Charter Academy’s primary goal is to provide a ground-breaking instructional program that actively engages all children to embrace learning, achieve to their highest potential, and master a 21st century curriculum to accomplish the following:

- Maximize student achievement, based on state and District-established academic standards and additional assessment techniques, including oral presentations and self-assessment.
- Increase interactive, hands-on learning opportunities for all students with an emphasis on enriched learning experiences differentiated for subgroups, such as children identified below grade level, Gifted, and English Language Learners.
- Encourage the use of innovative teaching methods, the use of assessment data to meet the needs of our diverse student population and empower our teachers through targeted professional development.
- Provide Plainview families an active role in shaping the learning program and priorities that contribute to the school’s success.
- Through articulation with community, middle, and high schools, Plainview will be the first step in a continuous pathway of outstanding public education.

As a Title I School, our secondary goal is to leverage Plainview’s documented outcomes and best practices in all aspects of building a successful community school. Plainview Academic Charter Academy will serve as a model among elementary schools in the District. We believe that attaining affiliated charter status can yield benefits for Plainview as well as other Title I schools. Plainview Academic Charter Academy can serve as a successful “real world” model for those schools that seek to close the achievement gap, engage the whole community in the success of the school, and prepare children to be academically successful for life.

**Description of the School**

Plainview Academic Charter Academy, an affiliated charter school for grades kindergarten through fifth grade, is located at 10819 Plainview Avenue in Tujunga in Local District 2 of the Los Angeles Unified School District.

Plainview Avenue Elementary was recognized as a California Distinguished school in 2004, and as a Title I Academic Achieving School in the years 2003, 2004, 2005, 2006 and 2007. Plainview Avenue Elementary School is currently not designated as a P.H.B.A.O. school.

**The Plainview Academic Charter Academy and Its Community**

The Plainview Academic Charter Academy site (the former Plainview Avenue School) is located in the foothills of Tujunga. The school originally opened in 1924.
In the immediate geographic area (two-mile radius) of Plainview, there are three private options and five public school options available to families that reside within the school's boundaries (see Figure 1). Plainview Academic Charter Academy is essentially competing to maintain its status as the highest quality education available for our community; the clear choice among many options situated nearby, including independent schools, magnets, or permits for adjacent school Districts.

Our intent is to preserve our core population, while at the same time, opening our enrollment to an even broader base of students within the District, to continuously strengthen the diversity of the school. We believe that by becoming a more diverse school – one that embraces children of all ethnic and socio-economic backgrounds and achievement levels – we will strengthen our ability to matriculate students through fifth grade with a deeper appreciation for the diversity inherent in Los Angeles and the greater global community.

**A. Students the School Proposes to Serve**
Currently, Plainview Avenue School enrolls children who live within our local school boundaries and a limited number of permits, on a space-available basis. All students that reside in our school boundaries or receiving a permit are enrolled regardless of their ethnicity.

Some facts about the current population of Plainview Avenue School:
- Plainview has an A.P.I. of 780.
- The number of identified Gifted & Talented students is 22 (6.7%).
- The number of L.E.P. students is 74 (22.6%).
- Special Education, including Speech and Language students, comprises (86 students) of the 2010-2011 population. The number of special day students is currently 26. The number of students receiving other special educations services is currently 60.
- 80% students with Free and Reduced Lunch
- 19% EL population
- 60% Latino population
- Current enrollment by Grade Level
  The number of kindergarten students is 47. The number of first grade students is 51. The number of second grade students is 39. The number of third grade students is 56. The number of fourth grade students is 49. The number of fifth grade students is 50.
- Larger class size means that some classes are comprised of gifted, special education, L.E.P., as well as students performing at or below grade-level.

In the last five years, our enrollment numbers have fluctuated slightly with an average of 363 students over that time period. Our target number of students for Plainview Academic Charter Academy is 400 students. With the increase in class size affecting the 2010-2011 school year, enrollment declined slightly as many of our local families turned to other options presumed to offer better educational programs, including private schools, “smaller” high performing schools in the District, and S.A.S. and magnet programs at schools like Mountain View Elementary and Sunland Gifted Magnet.
Plainview Academic Charter Academy’s goal is to serve all students and to help them achieve proficiency in all academic areas.

Based on the current results charted below, we analyze data during grade-level meetings and professional development. We discuss and plan strategies to implement programs and interventions to facilitate those students who have not reached proficiency. We use the data to identify our RtI² students and focus resources to help them succeed.

**D. Proposed Instructional Program**

**Framework & Teaching Methodologies**

Plainview Academic Charter Academy’s proposed teaching methodologies are framed around differentiated and experiential, or inquiry-based instruction through thematic units in a cooperative group setting. Supporting these methodologies, Plainview teachers will utilize instruction to provide professional development by grade-level experts and instructional leads. Teachers will facilitate professional development with expertise in each subject area. All our methodologies will be supported by authentic assessments utilizing state, District, teacher-created, performance, and publisher assessments. These assessments will be utilized to help guide instruction, decide the appropriate teaching methodologies, and select the proper materials to improve student performance.

Instructional Framework

Plainview Academic Charter Academy’s curriculum is based on the California State Standards and associated Frameworks in Language Arts, mathematics, science, social studies, visual and performing arts, and physical education. We believe that powerful learning and addressing the needs of our targeted multi-cultural population are best accomplished through a balanced program that combines curriculum-centered and student-centered instruction.

Systematic direct-instruction, guided practice, and the application of skills through our reading program will ensure that all students are exposed to District-mandated standards. Subsequently, addressing multiple intelligences through the use of experiential and open-ended inquiry-based learning produces self-motivated and well-balanced learners. We believe that integrating these modalities will help our students to become analytical as well as creative thinkers. “Just as a single shoe size does not fit everyone, neither does a single learning environment ensure learning for all.” (Dr. Patricia Hutinger, Learning Modalities: Pathways to Effective Learning, 2001)

Teaching Methodologies

The teachers of Plainview Academic Charter Academy will use current research including articles from the National Staff Development Council, the National Center on Response to Intervention, and the Harvard Education Letter published by the Harvard Graduate School of Education. Student data will be collected from state, District, publisher, and teacher-created assessments to drive best teaching practices including the methodologies listed below, while utilizing rigorous conceptual learning at each grade-level.

Standard methodologies include:

- **Academic Rigor** - Teachers create and design lessons that are engaging and meaningful. Students actively explore, research, and solve complex problems to develop a deep understanding of core academic concepts. Students are held accountable for their own learning.

- **Clear Expectations** - Teachers clearly define and articulate state standards in “student-friendly” language to ensure academic goals are attained. Examples of work that meet or exceed the standards are posted in every room.

- **Collaborative Groupings** - Teachers create small groups in order for students to interact with their peers. Students share their thinking processes that maximize learning. This allows teachers to make observations and assess students while facilitating their work.

- **Cooperative groups** - Promotes diverse perspectives, student-centered learning, and teamwork.

- **Criteria Charts/Rubrics** - These tools help focus students to effectively meet and exceed teacher expectations and objectives of the assignment. Charts/rubrics are based upon curricular standards and objectives. Students are able to self-evaluate as they progress toward rigorous standards. This allows teachers to give effective feedback to the
students.

*Direct Instruction* - Teachers use carefully planned direct instruction to teach standards-based lessons. Lessons are strategically planned incorporating multiple modalities and multimedia to successfully meet the needs of all students.

*Guided & Independent Practice* - Students are provided with adequate time to be successful at demonstrating their understanding of the concepts or skills being taught with a variety of learning modalities and manipulatives in order for each student to achieve success.

*Small Group Instruction* - Teachers create small groups to target students who need extra instructional time as well as preview and review of lessons. Small groups are determined by data collected from all assessments, including state, District, publisher, and teacher-created tests, and teacher observations. Currently we are focused on the needs of our E.L.D. and low performing students. Our E.L.D students failed to meet the A.Y.P. goals established by N.C.L.B. and our low performing students did not reach the proficient level on the C.S.T. Our small groups are flexible and focused on raising the achievement levels of these students. Our goal is to have all students reach the proficient or advanced level on the C.S.T. and all E.L.D. students to reclassify by the end of fifth grade.

*Differentiated Instruction* - Teachers provide lessons and assignments within the core curriculum that allow students to perform at their appropriate academic levels while maintaining or exceeding state standards.

*Higher-Level Thinking* - Teachers design lessons that develop critical thinking skills, which help to solve complex problems with depth and complexity. Students are encouraged to utilize the highest stages of Bloom’s Taxonomy, such as synthesis, analysis, and evaluation.

*Integration of the Arts* - Teachers and curriculum specialists use drama, dance, music, and visual arts to enhance their students’ thinking and learning experiences throughout the curriculum. Currently the curriculum specialists are provided through the District Arts Program. If the District no longer provides these specialists and our budget allows, we will hire limited contracted teachers to fill these positions. If our budget does not allow for the hiring of limited contracted teachers, we will reach out to our community for parent volunteers and experts and apply for grants to implement our arts program. Plainview is in the process of collaborating with our Verdugo Family to develop an arts program that will integrate the Arts in all three of our schools, Plainview, Mt. Gleason Middle School, and Verdugo Hills High School partnering with the McGorarty Art Center.

*Experiential Learning* - Learning by doing. Opportunities are provided for students to understand concepts through direct experiences. Students relate to the curriculum through plays, field trips, labs, simulations, and experiments. It is through these involvements that students will process, analyze, and conceptualize the experience and
provide the ability to create new ideas.

Adhering to the proposed instructional framework and teaching methodologies ensures Plainview Academic Charter Academy instructors can successfully meet the needs of all students which include these subgroups: G.A.T.E., Special Education, English Language Learners, Under-Achieving/Non-Proficient, General Education, and the Socio-Economically Disadvantaged.

**Scope and Sequence to be Taught**

The scope and sequence of skills to be taught across the grade-levels and the different subjects the school plans to teach have been outlined below. *All California State Standards will be addressed with grade-level planning so students receive consistent instruction.* (See attached Standards for all academic areas grades K through 5). - Maintain a rigorous curriculum that meets or exceeds the state content standards for technology.
- Utilize word processing to demonstrate written expression through technology.
- Explore artistic applications appropriate to each grade-level with programs such as
PowerPoint, Garage Band, Comic Life, and iMovie.

- Work with data to identify and present information using spreadsheets (Excel).
- Use of the internet to broaden research capabilities.
- Identify and choose relevant information to enhance research.
- Utilize up-to-date sources of information relevant to study.
- Learn how to safely navigate the Internet.

Additional Enrichment Instruction – The Arts and Physical Education

It is proven that students can learn at a higher rate by applying test-based knowledge paired with hands-on experiences with science, the Arts, technology, and media. Students exposed to the Arts learn to think creatively and solve problems by imagining various solutions and rejecting outdated rules and assumptions. Questions about the Arts do not have only one correct answer. An Arts education exposes children to the incomparable. “The arts are a powerful catalyst for learning and achieving; when students engage in problem-solving and artistic expression they develop their own voice and sense of agency. Students need access to multiple pathways that engage 21st century habits and skills: with one out of every 6 jobs in the Los Angeles region linked to the creative economy, one of these pathways needs to be in the arts.” John Deasy, Superintendent of Schools L.A.U.S.D., (Arts Education Plan 2011-201, published 2011).

Plainview Academic Charter Academy will provide additional enrichment programming to all students in the future. We will fully integrate each element into the curriculum, and show evidence of research that supports the value of this approach to educating a diverse student population.

Enrichment programs will be fully incorporated into the appropriate grade-level curriculum for all levels (K-5), and meet or exceed the established California Content Standards. Plainview Academic Charter Academy will secure qualified specialists to teach these programs, which include, dance, music and physical education. These specific areas will be scheduled so that every student in the school has the opportunity to participate.

Plainview is in the process of collaborating with our Verdugo Family to develop an Arts program that will integrate the Arts in all three of our schools, Plainview, Mount Gleason Middle School, and Verdugo Hills High School, partnering with the McGroarty Arts Center. The goal of the collaborative is create venues at each school where students with artistic abilities can showcase their talents. The students will be provided with a pathway through each school to develop their skills and eventually find employment in the arts industry. “The arts allow students to develop self-esteem, to be self-expressive, and to apply their knowledge of other academic subjects in creative ways. (Victoria Tilney, in an Instructor Magazine, 2009)

Dance

The dance specialist is provided by the District through the Arts Education Branch and will work with each grade-level teaching appropriate State Standards in dance.
theory as well as instructing students in dances relevant to specific curriculum. In the primary grades students learn levels of space, bodily spatial awareness, cross-lateral brain exercises, and free movement as well as multicultural dances. In the upper grades, students learn appropriate rhythms, movement, principles of space, and historical and multicultural dances. All students learn to express themselves and find a variety of ways to kinesthetically express new concepts across the curriculum. Dance encourages the learning of mutual respect and self-discipline.

“When students dance together, they learn to cooperate and find they must go beyond tradition and authority if they are going to express themselves well. Participation in dance fills children with happiness that can carry over into the rest of their education. A dance education cultivates the critical capacities that foster a complex understanding of the world and its peoples and that educates and refines the capacity for sympathy.” (Martha Nussbaum, Ernst Freud Distinguished Service Professor of Law and Ethics, University of Chicago: Newsweek International, August 21 – 18, 2006; “Teaching Humanity”)

**Music**

The music curriculum at each grade-level supports the language arts, social studies, and science curricula while meeting the California State Music Standards. Many lessons include songs and music that explore and support all the disciplines across the curriculum. Students learn rhythm through the use of musical instruments, hand clapping, and singing in tempo.

"Since music training supports the brain’s ability to process sights and sounds, it provides support to emergent literacy skills for all students. Researchers at Long Island University found that music instruction over a three-year period increased children’s vocabulary and verbal sequencing ability – key components in the acquisition of reading and language skills. Since children are naturally drawn to music activities, music education may be a uniquely effective way to help develop their reading ability." (Abigail Connors, early-childhood music specialist and author of 101 Rhythm Instrument Activities for Young Children, Gryphon House, 2004)

Music is also based on mathematical principles and proportions. When young children sing even the simplest songs, they absorb elements of math-repeated, measured patterns of tones, rhythms, and words without realizing it. Several studies have confirmed this link. “When children learn rhythm, they are learning ratios, fractions, and proportions.” (Professor Gordon Shaw, University of California, Irvine)

**Visual Arts**

Due to budget cut backs, we no longer have the services of a visual arts teacher. As a result, visual arts state standards are taught by the classroom teacher.

Students will learn specific grade-level standards of artistic Perception, Creative Expression, Historical and Cultural Contexts, Aesthetic Valuing, Connections, Relationships, and Applications. Research shows that art nurtures inventiveness as it engages children in a process that aids in the development of self-esteem, self-discipline, cooperation, and self-motivation. “…the arts motivates students to become innovative and creative thinkers, increases learning for all students, and develops a sense of craftsmanship, goal setting, collaboration and focus…which increases self-
esteem and skills needed to succeed in school and beyond.” (Gail Davis, Executive Director of Young Audiences, Arts for Learning, 2010).

Theater
Due to budget cut backs, we no longer have the services of a theater arts teacher. As a result, the classroom teacher implements the theater arts state standards. Students will learn specific grade-level standards of artistic Perception, Creative Expression, Historical and Cultural Contexts, Aesthetic Valuing, Connections, Relationships, and Applications. “Many of our students struggle…but through art education we have discovered a kinesthetic method to cement sounds with the written letter.” (Kitty Merk, Cleveland Students Thrive in Standard-Based Arts Integrated Experiences, 2010)

Physical Education
The physical education program provided to all grades is District-mandated and meets the state standards. This program is an important component in providing students with a healthy mind and body and also enhances the concepts of team sports and good sportsmanship. Plainview Academic Charter Academy understands the importance of integrating physical education with organized and structured play. “Access to a regular physical education program can enhance all aspects of development including academic performance, movement knowledge, motor skills and self-esteem. These benefits can be achieved through quality physical education programs. For optimum results programs should be regular, frequent, developmentally appropriate, success-oriented, and instructed by trained physical education teachers.” (McKenzie, Sallis, Faucette, Roby, and Kolody, 1993)

Technology/Computer Lab
All classes are equipped with document readers, laptops, and iPads. Some classes have Smart Boards.
Our Computer Lab is a 21st Century resource utilized by all grade-levels, K-5. Our support personnel staff the lab. Teachers are able to effectively integrate technology across the curriculum. Students are provided the opportunity to utilize the lab to enhance their understanding of the concepts being taught. “The sender of progress will shift to other nations that are more committed to the pursuit of technical excellence”. “If we make the right choices, the United States can remain the global innovation leader that it is today”. (Bill Gates Talks Technology on Capitol Hill, ABC News, Melissa Chee, March 2008.)

How the Curriculum Addresses California Content Standards
All components of the Plainview Academic Charter Academy curriculum plan conform to the frameworks for California public schools. All instruction will be standards-based and assessed by the California Standards Tests as scheduled by the Department of Education and the Los Angeles Unified School District. Plainview Academic Charter Academy will determine the extent to which they will implement District-adopted curriculum and periodic assessments.
Plainview Academic Charter Academy Governance Council will establish a
curriculum committee that is directly involved with the staff in identifying and aligning curriculum, materials, and instructional content standards in each subject area. Plainview Academic Charter Academy will follow the California State Frameworks and the California Content Standards for curriculum delivery and student learning.

How Teaching Methodologies and Instructional Program Address the Needs of the Targeted Student Population

Plainview Academic Charter Academy will address the needs of its entire student population by meeting and exceeding the state’s standards. Plainview Avenue School is currently designated as a school-wide Title I school, based on 80% of our students qualifying for free or reduced lunch. From the results of the C.S.T. in the 2010-11 school year, it was determined that 48% of our second though fifth grade population scored Basic, Below Basic, and Far Below Basic in Language Arts and 36% of the same population scored Basic, Below Basic, and Far Below Basic in math.

Teachers will utilize differentiated instruction, a variety of instructional programs and effective strategies to meet the needs of our student population. We have found that flexible, small group instruction, our learning center and innovative teaching have been successful with assisting students to learn. In addition, the Student Success Team (S.S.T.) has been instrumental in identifying and assisting at risk students with educational, physical and emotional issues that affect their ability to learn. The team includes all stakeholders, including parents and staff, in developing modifications to help students succeed.

Students’ growth and development will be monitored through various assessment tools such as District assessments, teacher prepared tests, publishers’ materials, teacher observations and S.S.T. meetings. Data will be collected and reviewed on a monthly basis and modifications will be made to the instructional program.

G.A.T.E. (Gifted and Talented Education) students will be provided with lessons and assignments that will encourage the students to strengthen their cognitive thinking skills. Higher level, creative thinking activities will provide complexity and depth. The curriculum will be differentiated to meet the needs of the gifted student. Teachers will use the differentiated strategies of compacting, questioning, tiered assignments, flexible grouping, independent projects, and classroom learning centers.

Students will demonstrate their comprehension and knowledge of subject matter by analyzing, defining, describing, and identifying what they have learned. They will be asked to demonstrate their understanding and will be able to analyze each subject using the higher levels of thinking as described by Bloom’s Taxonomy. Students will also present an outcome in a chosen format (verbal, written, arts-based, etc.) at their appropriate academic level.

The G.A.T.E. Coordinator will identify students as early as possible, based on the criteria established by L.A.U.S.D. (See attached REF-5232.1 for G.A.T.E criteria) When a classroom teacher recognizes advanced achievement by a student, the student will be referred to the G.A.T.E. Coordinator. L.A.U.S.D. will continue to provide services for G.A.T.E. students. Teachers will be notified of professional development opportunities to enhance their knowledge and understanding in
meeting the needs of G.A.T.E. students.

**Special Education** students will be integrated, if applicable, pursuant to their I.E.P. (Individualized Educational Plan), and given opportunities to demonstrate their knowledge of content in a multi-modality format that exhibits their understanding of the lesson. The Special Education Teacher will work collaboratively with the Mainstream Teacher to monitor and evaluate the students’ progress. The Special Education Teacher and the Mainstream teacher will meet weekly at grade level meetings to monitor and evaluate their students’ progress based on the classroom assignments and assessments in the students’ portfolio. The special education teacher will make regular visits to the mainstream classroom to observe and modify students’ instruction. The special education teacher will provide appropriate materials for the special education student to use in the mainstream class. In both classrooms students will be exposed to grade-level core curriculum and their I.E.P. goals will drive their instruction.

The District shall continue to serve the needs of special education students enrolled at Plainview Academic Charter Academy in the same manner as any other public school in the District, and shall be responsible for meeting all the requirements of the Modified Consent Decree.

**English Language Learners** will utilize the District-mandated program, *California Treasures*, and the L.A.U.S.D. Master Plan for the Education of English Language Learners to provide students opportunities to become fluent and literate in English. Students will be given the opportunity to demonstrate their comprehension of the lessons and work samples will be collected for their E.L.D. (English Language Development) portfolios. Students will have 45 to 60 minutes of English Language Development guided and direct instruction daily, as per Local District 2 Mandate. They will be monitored for their yearly growth of one E.L.D. (English Language Development) level per year and administered the C.E.L.D.T. (California English Language Development Test) test yearly. They will be re-classified as they become eligible, with the goal being to have all students reclassified by the end of the 5th grade. Currently, according to L.A.U.S.D. policy, a student is eligible for re-classification if specific criteria are met.

The following reclassification criteria and procedures apply to E.L.’s in Grade 2:

- The student has demonstrated English proficiency on the annual C.E.L.D.T. by achieving an overall performance level of 4 or 5 with skill area scored of 3 or higher in Listening, Speaking, Reading and Writing.
- The student has demonstrated basic grade-level skills on the Literacy Periodic Assessment (L.P.A.) by achieving scores in the Basic, Proficient or Advance performance band. Only L.A.P. #2 or L.P.A.#3 may be used to reclassify Grade 2 students.
- The teacher has judged that the students will be successful in a Mainstream English program based on Elementary Progress Report marks of 3 or 4 in English Language Arts (E.L.A.) in the areas of Listening speaking, Reading and Writing.
- The parent has been consulted regarding the student’s eligibility to reclassify.
The Notification of Reclassification letter must be printed and provided to the parent immediately. This letter requires a parent signature and must be filed permanently in the Master Plan Folder located in the student’s cumulative record.

The following reclassification criteria applies to E.L.’s in Grades 3 through 5:

- The student has demonstrated English proficiency on the annual C.E.L.D.T. by achieving an overall performance level of 4 or 5 with skill area scores of 3 or higher in Listening, Speaking, Reading, and Writing.
- The student has demonstrated basic grade-level skills on the California Standards Test (C.S.T.) by achieving scores in the Basic, Proficient or Advanced performance band on the ELA section of the test.
- For students taking the California Modified Assessment (C.M.A.), the student has demonstrated basic grade-level skills by achieving scores in the Basic, Proficient or Advanced performance band on the E.L.A. section of the C.M.A.
- The teacher has judged that the student will be successful in a Mainstream English program based on Elementary Progress Report marks of 3 or 5 in E.L.A.

(See attached BUL-5619.0 Reclassification of English Learners Grades Second Through Twelfth for eligibility and criteria)

Plainview Academic Charter Academy will continue to use L.A.U.S.D. criteria to identify English Language Learners and how they should progress in their development of English. The E.L.L. (English Language Learner) Coordinator is responsible for monitoring and updating S.I.S. data for English Learners and providing appropriate notification to parents of E.L.L. students.

Underachieving/Non-Proficient students’ C.S.T. (California Standardized Test) scores will be reviewed and their area of weakness/struggle will be identified. They will be placed in flexible classroom groups for R.t.I.2 (Response to Instruction and Intervention). They will also receive additional support in the classroom during independent work time to address their specific weaknesses in achievement, and will be given opportunities to exhibit their comprehension of the lessons taught.

Students will also be provided intervention during the school day in our Learning Center. Students are selected based on their area of weakness, as determined by Dynamic Indicators of Basic Early Literacy Skills (D.I.B.E.L.S.) scores for kindergarten through second grade and by scoring Basic, Below Basic or Far Below Basic on the C.S.T. for students in third through fifth grade. Students will be given extra support during the pull-out intervention by a highly qualified Learning Center teacher. Students will gain new knowledge, learn new strategies for problem solving, and develop new perspectives on the value of learning.

The students’ progress will be monitored and assessed monthly by teachers with input from the administration. The assessments used will include D.I.B.E.L.S., District assessments, publisher materials, teacher-created tests, and teacher observations. The classroom teacher and the Learning Center Teacher will work collaboratively on lessons, goals, and assessments. The teachers, based on the
data collected, will implement adjustments to the student groups.

Those students who fail to make adequate progress will be referred to our S.S.T. (Student Success Team) for further evaluation. Depending upon the individual student’s needs and data, appropriate actions will be recommended. Our goal is to have each student reach the proficient level.

**General Educational Population** will meet the state standards/benchmarks through the curriculum being taught. Students will achieve and/or maintain a Proficient or Advance level on their C.S.T. (California Standardize Test). Students will be provided with opportunities to participate in differentiated instruction. The needs of these students will be addressed by providing rigorous academic coursework and extra help where needed to assist them in raising and maintaining their levels of proficiency.

**Socio-Economically Disadvantaged** - Plainview Academic Charter Academy is a designated Title 1 School. As such, the majority of our students are socio-economically disadvantaged. Plainview Academic Charter Academy ensures that all students are provided with the necessary tools and nutrition to succeed academically. Our Plainview P.T.A. attempts to assist any family as the need arises.

**Evidence That the Proposed Instructional Program Will be Successful with the Charter’s Targeted Population**

Evidence shows that the proposed instructional program will be successful with Plainview Academic Charter Academy’s targeted population based upon data relating to Plainview Avenue Elementary’s historical instructional program and student population. With a focus on best practices in regards to the instructional program, Plainview Avenue Elementary was a Title 1 Achieving School for five consecutive years and a California Distinguished School in 2004. Each year, teachers have offered a rigorous daily program of standards-based and differentiated instruction to give the students an opportunity to meet and exceed their levels of proficiency. In 2010-11 Plainview Avenue School was assigned a new principal. His positive approach and enthusiasm has re-energized the staff and his leadership has motivated all stakeholders to improve in academics, attendance, and parent involvement.

Based on our current C.S.T. data, students increased in Language Arts Proficient and Advanced bands by 4%. In math, students increased by 7% in Proficient and Advanced bands.

Twelve percent of our English Language Learner population was reclassified by June 2011. Teachers utilize ongoing assessments, collaboration, the District program (California Treasures), and a variety of teaching S.D.A.I.E. (Specifically Designed Academic Instruction in English) strategies such as scaffolding, realia, clustering, webbing, mapping, and think-pair–share. E.L.D. strategies include recasting, corrective recasting, backwards build-up, choral reading, echo reading, pull-out and talk, and pull-out and write to ensure all E.L.L. students progress in a solid foundation of reading, writing, listening, and speaking in English.

The percentage of students with 96% or higher attendance increased by 4% and our staff attendance increased by 20% for the 2010-11 school year. The increase in
both student and staff attendance has been encouraged and rewarded through assemblies and participation from local businesses in our community. Our community partners have donated incentives that motivate students to attend school regularly.

Parent and community engagement increased by 21% during the 2010-11 school year. Under our current leadership parents feel welcome, appreciated, and encouraged to participate. Every meeting is provided with translation and refreshments, and parents are excited to volunteer for school-wide projects and events. The Parent Room is fully equipped and available for parent workshops and meetings.

Plainview Avenue Elementary has met and in some cases exceeded District mandates for Special Education, including the Modified Consent Decree. All teachers, with direction from the administration, adhere to each individual student’s I.E.P., as well as conduct S.S.T.’s (Student Success Team) for students who are not proficient in academics, behavior, or work habits. S.S.T. meetings recognize the R.t.l.2 approach, in terms of assisting teachers to attempt a hierarchy of intervention strategies. The goal is to enable struggling students to meet grade-level standards. Plainview’s fall 2010 District Validation Review (D.V.R.) was rated as compliant. This evidence shows that our Special Education teams are meeting the needs of special education students.

We are dedicated to identifying (See attached REF 5232.1 Guidelines for Identifying Students that are Gifted) and addressing the needs of our G.A.T.E. and high-achieving population by incorporating experiential learning and differentiated planning into daily instruction. As a result, our G.A.T.E. population reached just above the District’s norm at 6.7%.

An integral part of Plainview Academic Charter Academy’s instructional program, will be dedicated to providing additional enrichment programs. Plainview’s teaching staff, along with additional support, will provide instruction in each one of the designated fields (music, dance, and technology). These enrichment programs infuse excitement, motivation, and high interest into the learning experiences of every child. Regardless of a child’s learning profile at Plainview Academic Charter Academy, the Arts will play an enormous role in the success of all students.

How the School Will Recruit Teachers Qualified to Deliver the Proposed Instructional Program

Teachers will be recruited in accordance with District policy, procedures, and collective bargaining agreements. Prospective teachers will be asked to submit an application in accordance with Personnel Commission and District policies. In addition, prospective teachers will be required to submit a resume to our hiring committee.

How the School Will Provide On-going Professional Development

Professional Development will be an on-going component of Plainview Academic Charter Academy. It will be an effective tool used to design the curricular needs of our students and teachers. Professional Development issues, ideas, and products will be driven by the students’ and staff’s needs and interests, which are then forwarded to the Leadership Committee for formalization of appropriate training and products. Plainview Academic Charter Academy’s Professional Development program will be subject to the approval, implementation, and scheduling by the entire staff. In addition, Plainview Academic Charter Academy will participate in site-level, District professional development activities, and conferences.

As of the 2010-2011 school year, our professional development emphasis is California Treasures and RtI². Our staff requires more training to fully implement the Treasures program. They require more grade-level collaboration time to understand the program in depth and present coherent, unified grade-level lessons. This will insure that all students are provided with the same content material. Since this is a new District-wide program, we will contact the publisher to provide professional development for our staff.

In the 2012-2013 school year, we will identify best practices, review areas of weakness, and determine appropriate professional development for the California Treasures Program.

We will continue to utilize current RtI² strategies and explore new areas for improvement in R.t.I.2 instruction. This school year, Plainview is part of a Local District 2 RtI² cohort. We have a team attending three meetings, writing a plan, disseminating information, and implementing strategies.

For the 2012-2013 school year, Plainview Academic Charter Academy will implement the Inspiration 52 Character Building Program. There will be professional development in the Spring of 2012 to jumpstart the program in September 2012. During the 2012-2013 school year, there will be on-going professional development and monitoring of the program. This program is designed to build character and self-esteem. The program’s principles teach students values such as responsibility, effort, teamwork,
maturity, believing in ones’ self, etc. It promotes critical thinking and encourages students to change for the betterment of themselves and society. It has proven to improve academic performance, test scores, attitude, and behavior. Plainview Academic Charter Academy focuses on the entire child, not just their academic performance. These guiding principles will prepare students for their future and give them the skills needed to participate in the 21st century.

Plainview Academic Charter Academy will also implement the “Harvest of the Month” program in the Spring of 2012. The Harvest of the month program allows students to taste and explore a different California grown fruit or vegetable each month. The in-classroom taste testing gives students the opportunity to experience healthy foods and to learn about them at the same time. The program motivates and empowers students to increase their consumption and enjoyment of a variety of colorful fruits and vegetables and to engage in physical activity every day. “According to a recent study of 4th and 5th grade Harvest of the Month students, post curriculum increases fruit and vegetable consumption and knowledge. The Harvest of the Month program is a joint project of the Network for a Healthy California, L.A.U.S.D., and the Food Services Division.” (Network for a Healthy California, California Department of Public Health, 2010)

Academic Calendar/Sample Daily Schedule
(See Attachment of Early Start Instructional School Calendar)

The instructional schedule is designed to fulfill the California Ed Code minimum number of minutes, as set forth in E.C. 47612.5.

Plainview Academic Charter Academy will follow the Traditional Academic Calendar set forth by the Los Angeles Unified School District utilizing block scheduling as follows: 8:10-10:00 A.M. Language Arts and E.L.D. instruction, 10:20 A.M-12:10 P.M. math instruction, 12:50 P.M to 2:29 P.M. social studies, science, the arts, and physical education. Block scheduling allows for more continuity of instruction. It increases the span of teaching time, which allows for longer cooperative learning activities. With the use of block scheduling, the teacher is able to provide a variety of instruction and has additional time to spend with each individual student. Please also refer to Typical Day Chart on Pages 5 and 6 of this petition.

While adhering to the number of state mandated instructional minutes, professional development time will be combined into larger blocks. These professional developments will be used at our discretion for the implementation and review of new and existing instructional programs, analysis of student achievement data to further drive instruction, and opportunities to serve the needs of all students.

Timeline for Implementation
The academic program outlined in Element 1 will be implemented in the 2012-2013 school year if affiliate charter status is granted before the commencement of the 2011-2012 school year.

E. Describe How the Program Will Meet the Needs of Specific Student Populations

English Language Learners – Teachers are currently using the L.A.U.S.D. Master
Plan for the Education of English Language Learners to provide opportunities for non-English speaking students to become fluent and literate in English. Students will be given opportunities to demonstrate their comprehension of the content in a format that exhibits their understanding of the lesson. Plainview's goals are to help English learners:

- Achieve academic proficiency in all dimensions of the English language.
- Attain academic achievement in all subject areas.
- Develop a positive self-image.
- Function effectively and harmoniously in a multicultural society.

We have set a goal of advancing students a minimum of one English language development level each year. Our classrooms containing E.L.L. students will dedicate 45 minutes to one hour of classroom time daily for English language instruction with a focus on listening, speaking, reading, and writing. Students' progress is systematically monitored by the use of District mandated E.L.D. portfolios.

To ensure that our teaching staff has the knowledge and skills necessary to address the needs of English Learners in core content areas, Plainview Academic Charter Academy will provide professional development in areas of need. The principal will verify that teachers are utilizing professional development opportunities that are provided by L.A.U.S.D. and that all E.L.D. teachers are highly qualified as defined by N.C.L.B and State laws.

**Socio-Economically Disadvantaged**

As a Title 1 school, at least 75% of our students are classified as socio-economically disadvantaged. Plainview Academic Charter Academy will ensure that all students are provided with the necessary tools to succeed academically and socially. Regardless of their socio-economic status, all students are provided with equal opportunities to succeed. Our Plainview P.T.A. will attempt to assist any family as the need arises. As a small Title 1 school we have very limited resources. Most of our budget is utilized in purchasing our Categorical Programs Advisor and our five teaching assistants who assist with our E.L.L. and RtI population.

**G.A.T.E. Students**

Teachers will provide G.A.T.E. students with lessons and assignments that will encourage the students to strengthen their cognitive thinking skills. They will be asked to demonstrate their comprehension and thorough knowledge of each subject by defining, describing, and identifying what they have learned through analysis and synthesis of this information. Additionally, the students will present an outcome whether verbal or written at their appropriate academic level.

Plainview Academic Charter Academy is committed to provide G.A.T.E. students with opportunities to study the core curriculum in depth and at an accelerated pace. Higher-level creative and logical thinking activities provide for the depth, complexity, and novelty that define a high quality gifted program. The classroom teacher differentiates curriculum and professional development provides opportunities for teachers to meet the needs of G.A.T.E. students. Classroom teachers will employ several differentiation strategies, including tiered assignments, flexible skills grouping, and independent
Underachieving/Below Grade-level learners will be provided intervention during school in our Learning Center and in the classroom at Independent Work Time to address their specific weaknesses in achievement. These students will be given the opportunity to exhibit their comprehension of the lessons taught. Our goal is to have each student perform at least at the proficient level. The curriculum and structure is designed to maximize the learning opportunities of low achieving students. Low achieving students are thoroughly integrated into the entire student body and fully participate in all aspects of the curriculum.

A highly qualified teacher instructs the students assigned to the Learning Center. The program is designed to address the needs of our far below basic students. Lessons are developed in collaboration with the classroom and Learning Center teacher. Students are taught in a small group setting based on their area of need. They receive instruction 3 days a week for approximately 30 minutes. Students are monitored and assessed on an ongoing basis. Modifications and adjustments to the curriculum are determined by data results.

F. Special Education Program

The District shall continue to serve the needs of special education students enrolled in Plainview Academic Charter Academy in the same manner as any other public school of the District and shall be responsible for meeting all the requirements of the Modified Consent Decree and the requirements of S.E.L.P.A.

Modified Consent Decree Requirements

All charter schools chartered by the Los Angeles Unified School District (L.A.U.S.D. or the District) Governing Board are bound by and must adhere to the terms, conditions, and requirements of the Chanda Smith Modified Consent Decree (M.C.D.) and other court orders imposed upon District pertaining to special education. The M.C.D. is a consent decree entered in a federal court class action lawsuit initially brought on behalf of students with disabilities in L.A.U.S.D. It is an agreement of the parties approved by the federal court and monitored by a court-appointed independent monitor. The M.C.D. includes eighteen statistically measureable outcomes and facilitates obligations that the District has to achieve to disengage from the M.C.D. and federal court oversight. All charter schools are required to use the District’s Special Education Policies and Procedures Manual, and Welligent, the District-wide web-based software system used for online I.E.P.s and tracking of related services provided to students during the course of their education.

As part of fulfilling the District’s obligations under the Modified Consent Decree, data requests from charter schools that are not connected to the District’s current Student Information Systems (S.I.S.) are made on a regular basis. The requested data must be submitted in the Office of the Independent Monitor’s required format and are as follows:

1. The Independent charter schools Suspension/Expulsion Report, due monthly throughout the school year.
2. Paper S.E.S.A.C. Report and Welligent Student Listing Verification, due monthly throughout the school year.
3. C.B.E.D.S., which is due at the end of October of Each School Year.
4. All Students Enrolled December 1 of Each School Year, due at the end of December every school year.
5. Graduation Status of 12th Grade Students Enrolled on December 1, are due at the end of June every school year.

The District is currently in the process of developing an Integrated Student Information System (I.S.I.S.) as required by the M.C.D. Although most charter schools are not currently utilizing the District’s current S.I.S, the M.C.D. requires all charter schools to implement the use of I.S.I.S. once it is developed. Plainview School is currently using the Integrated Student Information System (I.S.I.S.) as required by the M.C.D.

For students transferring to Plainview Academic Charter Academy from other school Districts, Plainview Academic Charter Academy shall provide related services required by the students’ Individualized Educational Plan upon the students’ enrollment regardless of the type of service provider (school, N.P.A. or private). I.E.P. team meetings for such students will be held within thirty (30) days of the student’s enrollment in accordance with state and federal law.

c. Assessments
The referral process shall include Student Success Team (S.S.T.) meetings to review prior interventions, accommodations and modifications, and to recommend further interventions as appropriate. The referral process shall be supported by the Response to Instruction and Intervention (R.t.I.²) model approach using data to identify student strengths and weaknesses. Upon review of accumulated data, observation, and review of records, Plainview Academic Charter Academy may determine that assessment is necessary to determine possible eligibility for special education programs and related services.

Upon a parent’s request for assessment, Plainview Academic Charter Academy will convene a meeting to review and discuss the request in light of student records, acquired data, and student performance to agree with or deny the request for assessment. If Plainview Academic Charter Academy determines that assessment for special education eligibility is not warranted, prior written notice must be given to the parent/guardian with a clear rationale for such refusal within 15 days of the request. If the Charter School concludes that there are suspected disabilities, the school must develop an assessment plan for each student with suspected disabilities within the 15 day timeline. The assessment plan will describe the types of assessments that may be used to determine the eligibility of students for special education instruction and services. Assessments will be conducted, within legal timelines, after receiving the parents’ written consent. Plainview Academic Charter Academy shall conduct an I.E.P. team meeting that includes required team members within mandated timelines for each student assessed to discuss results, determine eligibility, and (if eligible) specify special education instruction and services. Plainview Academic Charter Academy will make decisions regarding eligibility, goals, program, placement, and exit from special education through the I.E.P. process according to federal, state, and District timelines.
d. Alternative Placements

In the event that Plainview Academic Charter Academy is unable to provide an appropriate placement or services for a student with special needs, Plainview Academic Academy Charter will contact the District to discuss placement and service alternatives. Plainview Academic Charter Academy is expected to provide services to all enrolled students with disabilities (mild to severe). If an Individualized Education Program (IEP) team that includes Charter School personnel places a student in a special education program provided by another entity, the Charter School will be fully responsible for the quality of the program and for any costs incurred for such a placement.

e. Least Restrictive Environment

Plainview Academic Charter Academy will support movement of students with disabilities into less restrictive environments and increase interactions of students with disabilities with non-disabled students. Plainview Academic Charter Academy’s general program of instruction for students with disabilities shall be responsive to the required sequence of courses and related curricular activities provided for all students at Plainview Academic Charter Academy. Assessment and standardized testing procedures shall be implemented, including guidelines for modifications and adaptations, to monitor student progress.

Plainview Academic Charter Academy will ensure that it makes the necessary adjustments to comply with the mandates of state and federal laws, including the I.D.E.A. regarding discipline of students with disabilities. Discipline procedures will include positive behavioral interventions and the District’s Discipline Foundation Policy. Prior to recommending expulsion and/or prior to the eleventh day of cumulative suspension for a student with disabilities, the Plainview Academic Charter Academy will convene a manifestation determination I.E.P. that includes District representation as set forth in the District’s Policies and Procedures Manual. Plainview Academic Charter Academy will collect data pertaining to the number of special education students suspended or expelled.

Plainview Academic Charter Academy is committed to achieving population balance that includes students with disabilities. Plainview Academic Charter Academy
will conduct outreach activities to attract and enroll a range of mild to severe special education students that is diverse and comparable with resident schools with similar demographics. The current District-wide average percentage of students with disabilities is 10 - 13%. Plainview Academic Charter Academy outreach efforts should be geared toward aligning with the District-wide average. Plainview Academic Charter Academy may not refuse to admit a student based on special education eligibility, needs, or services identified in the student’s I.E.P. The District will provide Plainview Academic Charter Academy with M.C.D. reports indicating range of services and number of students served at individual Charter schools.

The Plainview Academic Charter Academy will contribute their fair share of S.E.L.P.A.-wide unfunded special education costs from their general-purpose block grant monies.

5. **District Responsibilities Relating to Plainview Academic Charter Academy Special Education Program**
   As long as Plainview Academic Charter Academy operates as a public school within the District, the District shall provide information to the school regarding District special education decisions, policies, and procedures to the same extent as they are provided to other schools within the District.
To the extent that the District provides training opportunities and/or information regarding special education to other school site staff, such opportunities and/or information shall be made available to Plainview Academic Charter Academy staff.

**G. What it Means to be an Educated Person in the 21st Century**

Plainview Academic Charter Academy believes an educated person of the 21st century is flexible, creative, and complex with a continuous thirst for knowledge. These individuals are self-confident, self-motivated, self-aware, life-long learners that are active participants in their community.

An educated person of the 21st century is prepared for a multi-cultural world that is globally interconnected. Being a part of the ever-changing and fast-paced information age, an educated person is technologically savvy, curious, and productive. An educated person is able to communicate, collaborate, and contribute to the ever-changing social and global society.

Students at Plainview Academic Charter Academy will take responsibility for their own learning. They will be able to gain valuable information and insights from concrete experiences in order to develop positive problem-solving and critical thinking skills. “Learning involves much more than a process in which a student receives and assimilates information passively. Rather, it is an active process in which a student must process information, by extracting, analyzing, evaluating, organizing and synthesizing information, so that it can be readily retrieved and used in problem solving.” *(Columbia University of Graduate of Arts and Sciences, 2011)*

Students will make more efficient and meaningful choices to expand inter- and intra-personal relationships. Plainview Academic Charter Academy students will reason, question, and inquire. They can apply the scientific methods of investigation and think flexibly about complex systems, whether abstractly or creatively.

To be effective in the 21st Century, students must be able to exhibit a range of functional and critical thinking skills related to information, media, and technology. This requires knowledge and expertise that is mastered through problem solving, communication, and collaboration. Students need the ability to collaborate and make individual contributions on a global scale in order to work and contribute to the modern world.

Students must be prepared with creative and innovative skills to become successful adults. “The illiterate of the 21st century will not be those who cannot read and write, but those who cannot learn, unlearn, and relearn.” *(Alvin Toffler, Educated Person in the 21st Century, 2010)*

**How Learning Best Occurs**

Plainview Academic Charter Academy recognizes that learning best occurs when the community is immersed in a culture of education that both challenges and nurtures the development of individuals. Teachers, parents, and community members need to collaborate to create an environment and culture that is inherently reflective of our school, home, and community.

Learning best occurs when all stakeholders fulfill their joint, collaborative responsibility to provide this culture of education for every child. Working together creates an atmosphere focused upon the importance of education, which in turn inspires shared learning. "We must instill curiosity, which is fundamental to lifelong
learning.” (Lee Herman, Alan Mandell, *From Teaching to Mentoring*) The use of project-based curriculum is a means for engaging students in real world problems, human issues, and investigating hypothesis.

Plainview Academic Charter Academy will serve as an academic arena to develop a desire for lifelong learning in all children. Plainview Academic Charter Academy will strive for the whole child approach to learning, teaching, and community engagement. The school shall provide a safe, supportive, and challenging environment that encourages students to maximize their learning potential through integrated learning experiences. Dedicated administrative staff, well-qualified teachers, support personnel, and diverse classrooms will provide optimal opportunities for every child to be reached and supported in their educational development. Classroom instruction will take into account the multiple modalities of learning and the differences of abilities among students. Research has shown that... "learning styles teach us that we should present materials in multiple ways: with visual aids—such as charts, graphs, tables, film clips, and illustrations—demonstrations, hands-on activities, small group discussions and simulations.” (Columbia University Graduate School of Arts and Sciences, 2011)
ELEMENT 2: MEASURABLE STUDENT OUTCOMES

The measurable pupil outcomes identified for use by the charter school. ‘Pupil outcomes,’ for purposes of this part, means the extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school’s educational program.” Ed. Code § 47605(b) 5(B)

A. Our Vision for Student Outcomes

Plainview Academic Charter Academy’s desired curriculum will include an integrated, inquiry-based K-5 curriculum closely aligned with California state and national standards in the core areas of language arts, science, math, and social studies. Cross-curricular, project-based learning will be enhanced using music, art, and dance instruction, and there will be a strong emphasis on hands-on learning utilizing our new computer lab, science lab, and art center. The Plainview Academic Charter Academy program embraces the following key elements:

1. **Standards are Essential:** Clear and public standards for what students should learn at benchmark grade levels are a crucial aspect of making sure we are meeting the academic needs of all students. They also serve as a guide for teachers, administrators, parents, and students themselves as to the specific basic knowledge and skills the students must master.

2. **Challenging Curriculum:** Standards must be accompanied by a rigorous curriculum that is aligned with those standards. The goal of the Plainview Academic Charter Academy is to provide a challenging 21st Century curriculum that will not only meet, but also exceed the minimum thresholds established by the District and the state.

3. **Teachers Matter:** Teachers need to be held to high standards, and they need to be knowledgeable of the latest research, methodologies, and pedagogies. Strategies for significant and on-going teacher professional development using the selected curricula will be included in the Plainview Academic Charter Academy program.

**Desired Outcomes of the School’s Instructional Program**

Plainview Academic Charter Academy understands that on-going assessments allow teachers the most desirable method to facilitate and drive instruction based on the needs of all students as determined by their areas of strengths and weaknesses. A variety of assessments are utilized, which may include but are not limited to: C.S.T., C.E.L.D.T., D.I.B.E.L.s, California Treasures, District Quarterly Math and Science Assessments, teacher-prepared tests and quizzes, portfolios, and anecdotal records.

1. **Language Arts:** Students will be effective communicators. They will be able to read, write, listen, and speak effectively meeting all state standards. Students will be able to incorporate the language of all disciplines across the curriculum and give concrete examples when writing and speaking. Furthermore, they will actively read, listen, and be able to locate and interpret information. Students will be able to combine these skills to compose meaningful writing and oral presentations.
2. **Mathematics**: Lessons will be presented in an exciting, enriching, and engaging manner with the use of technology and manipulatives. Students will understand and apply formal logical reasoning, analytic and symbolic processing, arithmetic and pre-algebraic manipulation and construction. Students will also create/generate their own real world word problems to gain further understanding of the applications of such processes.

3. **Science**: Students will acquire proficiency in the fundamental concepts and terms of various branches of science, such as Physical, Life, Earth, and Ecology. They will attain proficiency by engaging in inquiry-based experiments. Students will formulate their hypothesis and utilize experiments demonstrating the scientific method as they engage in hands-on critical thinking experiments in our science lab. They will apply their skills to gain further understanding of fundamental science concepts.

4. **History and Social Studies**: Students will demonstrate an understanding of culture, diversity, and world view, recognizing the similarities and differences reflected in various personal, cultural, racial, and ethnic perspectives. They will demonstrate an understanding of the rights and the origins, functions, and sources of power, authority, and governance of various populations. “Without a sense of history, no man can truly understand the problems of his own time.” (Sir Winston Churchill)

5. **Technology**: Students will become familiar with the computers in our new computer lab. They will use word processing and other applications to enhance the core curriculum and prepare them for a technologically advanced society. Students will be familiar with various applications to accomplish goals in all other disciplines, such as spreadsheets, Photoshop, Keynote, PowerPoint, etc. Students will understand the use of current technology and its real world applications. Students will learn to navigate the Internet safely while conducting research.

6. **Arts**: Students will develop knowledge of and appreciation for the arts such as music, visual arts, theatre, and dance. This will be promoted through an academic curriculum intertwined with enrichment instruction. The classroom teacher will provide Art instruction. If the District provides funding, an arts instructor will teach the Arts. Plainview school is working in conjunction with the schools in our Verdugo family to develop an arts program to enrich the Arts at all three of our schools.

7. **Physical Education**: Students will build a healthy, balanced body, and mind through various intramural sport activities and drills. All Physical Education standards and mandates will be addressed with dedicated time for psychomotor skills development.

**Cultivating Life-Long Learners and Skills**

Students at Plainview Academic Charter Academy will develop lifelong learning and inter-personal skills. They will develop positive social and community ethics and values. Plainview Academic Charter will implement the Inspiration 52 Program to develop character, self-esteem, and a sense of responsibility.
1. **Leadership, Collaboration and Cooperation:** Students will know and be able to demonstrate the adaptive and associative skills appropriate to their level. They will develop the skills necessary to become successful leaders and collaborators.

2. **Goal Setting:** Students will learn to set their own short-term and long-term academic goals in-keeping with their abilities and based on a high-level of expectations inherent in the school community. Students will be challenged to continuously set and re-evaluate personal goals.

3. **Critical Thinking and Problem Solving:** Students will learn to be effective problem solvers and will develop critical-thinking skills.

4. **Self-Discipline:** Students will learn to control their behavior and will respect and uphold the values of the community. Students will be taught Plainview Academic Charter Academy’s Core Values of: Respect, Responsibility, and Safety.

5. **Citizenship:** Students will learn and practice their civic rights and responsibilities, and will have an appreciation of their impact on the immediate community and the larger world.

**B. Specific and Realistic Achievement Targets**

Plainview Avenue Elementary School scored a 780 A.P.I. score in the 2010-2011 academic school year. In the 2011-2012 school year our goal is to achieve an A.P.I. score of 800 or more. In 2012-2013 Plainview Academic Charter Academy’s goal will be to improve our A.P.I. score from the previous year and continue to show growth in the following years.

In addition, Plainview Academic Charter Academy is committed to improving its similar schools A.P.I. ranking. Even though the school has experienced a strong A.P.I. score in our Local District, the school has not scored well in comparison with similar schools. In fact, in 2009, Plainview’s academic performance scored in the bottom 60% of schools that were comparable to it. This is clearly an area that illustrates that even though we have been successful according to our A.P.I. scores, there are many areas that could be improved. (See chart on following page)
Plainview Avenue School met 9 of the 10 subgroups through Safe Harbor for A.Y.P. criteria in 2010-2011. The Hispanic and Latino subgroup did not meet the benchmark in the area of English Language Arts. As a result, Plainview is designated as a Program Improvement School One. In 2012 Plainview Academic Charter Academy will continue to strive to meet all Annual Measurable Objectives. In terms of the number of students scoring proficient or advanced, the school’s goal is to exceed the target benchmarks established by the State for the significant subgroups (School-wide and White). In 2012-2013 the target area for E.L.A. will be 89.2%, and the Target area for Math will be 89.5%. In addition, Plainview Academic Charter Academy will attempt to maintain a participation rate on the C.S.T. of 100%.

As stated in Plainview Elementary School’s Single Plan for Student Achievement (see Attachment), our goal is proficiency for all. Our English Language Arts percentage will increase in proficiency from 57%-63% in the 2012-2013 year, and within the charter term reach 75% of our student population achieving proficient or advanced. Our Hispanic/Latino subgroup, who did not achieve AYP benchmark in English Language Arts, is included in this goal. Our goal for math is to increase the percentage of students who are proficient or advanced from 69% to & 75% in the 2012-2013 school year. We have identified struggling students by reviewing their C.S.T. data. They were grouped by subcategories, and put into small group instruction and intervention. Their progress is monitored periodically with Language Arts Assessments (three times a year, as per District mandate), classroom tests and quizzes, and publisher testing materials (California Treasures) given as needed or at the end of the unit.

We are steadfast in our desire to provide this group with the support necessary to meet proficiency requirements. Such support will include intervention, access to the Learning Center, and small group instruction. Educational support will be determined by data analysis of assessments and teacher observation.

### C. Frequency and Methods by which Students Are Assessed

Plainview Academic Charter Academy believes that assessment is on-going and affords teachers an opportunity to develop daily lessons that meet the needs of all students based on their delineated strengths and weaknesses. As mandated by No Child Left Behind, we are committed to ensuring that each child reaches his or her proficiency level in the areas of language arts and mathematics.

Prior to the new school year, all teachers receive test data of their students at our first professional development meeting. The data is analyzed from the prior year and an instructional agenda is formulated based on the needs of each student.

We use a variety of assessment tools in order to get a comprehensive representation of student achievement. Data from these different assessments is collected and studied by teachers independently and at weekly grade-level collaboration. Additionally, administration examines and discusses data with teachers.
on an on-going basis throughout the year.

Standardized assessments may include, but are not limited to: C.S.T. (yearly), C.E.L.D.T. (yearly), D.I.B.E.L.s (as needed), California Treasures (as directed), District Quarterly Math Assessments (every 6-8 weeks), and District Science Assessments (4th and 5th grade - 3 times a year). These assessments give teachers a common measure of student performance. Teachers and administrators can make decisions regarding instructional programming based on how a student or students are performing in relation to other students who take the same test.

Authentic assessments are on-going and can better evaluate the child over time and in a variety of settings. Authentic assessments may include, but are not limited to: portfolios, journals, work samples, homework, teacher-devised tests, teacher observations, checklists, anecdotal records, publisher-provided criterion referenced tests, and projects. Also known as performance assessments, they allow for meaningful application of essential knowledge and skills.

In conjunction with standardized and authentic assessments, teachers will also use daily informal assessments from observations, weekly quizzes and tests, class work, and project assignments to help identify immediate areas of concern and to guide instruction.

**Periodic Assessments**

Plainview Academic Charter Academy shall determine their development, implementation, or use of periodic assessments according to the needs of its students, within the limits permitted by the Education Code. Plainview Academic Charter Academy may choose to use District assessments or design its own, and will determine the timing of such assessments coordinated with the respective local district. Student’s progress will be monitored and determined by teacher observation, class assignments, textbook publishers’ assessments, District Assessments, and state testing.

Parents will be notified of their child’s academic progress through the use of District report cards distributed three times a year and through parent conferences held at least twice a year and as needed.
ELEMENT 3: METHOD BY WHICH STUDENT OUTCOMES WILL BE DETERMINED

“The method by which pupil progress in meeting those pupil outcomes is to be measured.” Ed. Code § 47605 (b)(5)(C)

As a District affiliated charter school, Plainview Academic Charter Academy will test with the District and adhere to District testing calendars and procedures for all state mandated assessments.

D. How Data Will be Used

Plainview Academic Charter Academy values data-based decision making to optimize its approach to meeting the needs of all students, to monitor the school’s progress, and to establish future goals and interventions. Specific examples of this include:

- Data from combined assessments, (such as D.I.B.E.L.s, the District’s Language...
Arts Periodic Assessment, Math Periodic Assessment, text book publishers’ test and CST scores) are evaluated continuously by teachers and administration, as it becomes available, in order to meet each student’s educational needs. Data is also used to identify and prioritize professional development priorities as well as to provide topics for discussion during grade level planning. Some professional developments and grade level meetings are dedicated to reviewing recent or upcoming assessments to determine if the students are prepared or are meeting benchmark goals;

• District assessment results and authentic assessments are communicated to parents (by teaching staff) throughout the school year in a variety of ways such as e-mail communications, weekly progress reports, and assessment reports;

• School wide data is also shared in a public forum at monthly governance meetings by the Principal, when it’s available, in order to discuss upcoming program development and intervention priorities;

• Data regarding our E.L.L.s is shared at E.L.A.C. meetings. Data from C.E.L.D.T. is communicated to parents by the Categorical Programs Advisor;

• MYDATA may be available to all parents, teachers, and students for immediate access to grades, scores, and attendance. Instantaneous access to this information provides all stakeholders with the ability to monitor student performance and academic growth. In addition, intervention can take place in a timely manner. This information will be utilized to assist administration and teachers in critiquing and examining data and to develop an effective Professional Development program on an ongoing basis.

E. Identification of Grading Policy

Individual classroom teachers shall be primarily accountable for assessing their students’ achievements with regard to standards-based grade-level work and achievement of grade-level appropriate content standards as well as progress toward fulfilling the skills, knowledge, and attitudes required for advancing to the next grade level. Student progress toward meeting expected student outcomes is monitored on an ongoing basis at each grade-level by regular student assessments aligned to the school’s curricular standards as appropriate for each grade-level and content area. Student progress toward achieving the school’s desired grade-level standards will be communicated to students’ parents by providing appropriate feedback on class assignments, homework assignments, Parent Reports, Progress Reports, and regular conferences with the student’s teacher.

Proficient levels of the District and State Standards are summarized on the Progress Report that was introduced by the L.A.U.S.D. in the1999-2000 school year. The L.A.U.S.D. Progress Report uses a 4-point scoring rubric that aligns with classroom teachers’ daily work assignments. Students earn a “4” for Advanced Proficient Levels; “3” for Benchmark Proficient Levels; “2” for Partial Proficient Levels; and “1” for Not Proficient Levels. The academic standards include specific learning topics in the different subject areas for each grade level: Language Arts is divided into reading, writing, listening, and speaking; mathematics; history and social science; science; health education; physical education; and the Arts. The standards for life-long learning (i.e., work and study habits) include use of time, independence, organizational skills, and quality and completeness of work. The standards for character development (i.e., learning and social skills) include respect, cooperation, dependability, responsibility,
self-control, and fair play.

Progress is reported to the parents three times annually using the L.A.U.S.D. Progress Report. Additionally, parent conferences are formally conducted at the end of the first and second reporting period, as well as within all reporting periods as needed.

Plainview Academic Charter Academy shall utilize alternatives to suspension and expulsion with students who are truant, tardy, or otherwise absent from compulsory school activities.

Standards and Conduct

Plainview Academic Charter Academy embraces the theory of positive discipline. We use problem solving and consequences to help children become successful students and citizens. Parent/child/school cooperation and support is crucial. To this end, the Parent/Student Compact addresses the responsibilities of each signatory to the Compact. (See attached L.A.U.S.D. BUL-2680). In addition, each teacher in every classroom explains standards and expectations for behavior. Students are expected to maintain our school-wide standards of behavior, which are based on our Core Values.

Core Values

1. Be respectful
2. Be responsible
3. Be safe

In addition to our Core Values students will be reminded to adhere to the following traits of expected behavior:

- Take responsibility for yourself and your actions.
- Demonstrate that you are contributing citizen of your school community.
- Always treat others with respect.
- Show fairness to others in class as well as on the playground.
- Show kindness to others who need assistance.
- Prove yourself to be trustworthy to your peers and school staff.

Positive Behavior Reinforcements

Students are encouraged to behave appropriately throughout the day. At the beginning of each semester, the administration hosts assemblies for students to discuss
expectations for student behavior. Students are given “Caught Being Good” coupons by school staff when demonstrating the Core Values or any of the traits of expected behavior. Students submit their coupons in lottery form and a drawing is conducted every Friday morning for a chance to meet the Principal and grab a gift from the treasure box.

School-Wide Behavior

Morning recess and lunch recess are times for play, relaxation, and to share time with friends from different classes and grade levels on the playground, in the garden, or in the library. These choices allow for personal development and a wide range of personal choices. All students will be expected to follow the Core Values or any of the traits of expected behavior. However, if there are infractions, there are consequences for the misconduct. Plainview Academic Charter Academy shall follow District Discipline policy and procedures.

3. Third offense: Student is removed from the game or classroom. The student may be given a consequence as a result of their behavior. A parent conference may be required. Any students involved in physical altercations will meet with the principal.

Further behavioral infractions will be handled according to L.A.U.S.D. policies and procedures.

The principal shall inform the parent that the parent is expected to respond without delay to any request from school officials to attend a conference regarding his or her child’s behavior.

No student shall be penalized for his or her parent’s failure to attend a conference with school officials, i.e., reinstatement of the suspended pupil shall not be contingent upon attendance by the pupil’s parent at the school conference (E.C. section 48911).

The principal may suspend a student without affording him/her an informal conference only if an emergency situation exists. The term “emergency situation” means that the principal has determined that the immediate conditions constitute a clear and present danger to the lives, safety, or health of students or school personnel. If a student is suspended from school without the conference, the designated administrator shall notify both the parent and the student of their right to a conference and of their right to return to school for that purpose. The conference shall be held at the earliest time possible, but no later than two school days after the incident takes place unless the
