

KINDERGARTEN VISUAL ARTS CURRICULUM
Grade Level Focus

ART IS ALL AROUND US

Where do you see art?

Developmental Stage

Children in kindergarten and first grade are still in Piaget's Preoperational Stage (2-7 Years). They start to use symbols such as language to represent objects. For instance, the child understands the word "apple" although a real apple is not seen. However, the Preoperational child still learns from concrete evidence while adults can learn in abstract way. The Preoperational child is also unaware of another person's perspective. They exhibit egocentric thought and language.

Children in the preoperational stage are still learning to distinguish fantasy from reality and are highly engaged in fantasy play. They can be observed organizing comprehension of their environment through role-playing.

Movement

- * Stands on one foot for 10 seconds or longer
- * Hops, somersaults
- * Swings, climbs
- * May be able to skip

Hand and Finger Skills

- * Copies triangle and other geometric patterns
- * Draws person with body
