2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LAUSD) is a district focused on ensuring all students are prepared for college, career and life. We are a district that serves over 557,000 Pre-K thru 12 grade students, of which 84% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, is essential to ensuring resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LAUSD is informed by our diverse population where nearly 94 languages other than English are spoken and 74% of our student population is Latino, 8.4% is African American and 6.04% is Asian/Pacific Islander. The District embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 60,000 employees, consisting of teachers, administrators and classified personnel that are instrumental in helping LAUSD achieve the goals and objectives for improving student outcomes.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

The Local Control Funding Formula establishes a target of funding growth for school districts throughout California. As LAUSD reaches the targeted funding level established under the law; of which we are currently 96% funded toward the District's target, we must now look within to demonstrate improved services for our targeted youth under the LCFF. Through an equitable lens, our leaders have re-imagined and re-engineered programs aimed at providing services and additional personnel to some of our highest need schools that are determined by the District's Student Equity-Based index. Specifically, the District's plan:

- Sustains commitments for Restorative Justice
- Sustains commitments for Foster youth through the continued funding of the Foster Youth Achievement Program
- Expands funding flexibility for the use of resources at school-sites to better serve our targeted student populations.
- Redefines programs, such as nursing and our technology services, to better allocate these resources to our highest need schools via an equity-based index.

In August of 2016, the California Department of Education identified actions that the District should take to correct what it saw as a deficiency in the District's prior LCAPs. Specifically, the CDE directed that the District should review its spending on unduplicated pupils in Special Education programs to ensure that such spending was done based upon the pupils' unduplicated status. It also recommended that the District review its existing programs for additional expenditures on unduplicated pupils or realign existing programs in a manner to provide additional spending on unduplicated pupils. In November of 2016, District representatives met with the Deputy Superintendent and staff of the California Department of Education to review and discuss the District's plans for realigning its LCAP in conformity with the requirements and recommendations of the CDE's August 2016 directives. The CDE indicated that all but one of the realigned programs proposed by the District were compliant with the CDE's recommendations, and suggested that the District provide additional detail on two others. On December 21, 2016, LAUSD formally presented the realigned and reidentified programs outlined in this LCAP, as modified to incorporate the November feedback from the CDE. By letter of January 21, 2017, the CDE confirmed that the District had incorporated the CDE's technical assistance into its proposed realignment plan and directed the District to engage the community and stakeholders.

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

The Los Angeles Unified School District is proud of the heroic efforts by our teachers, counselors, parents, administrators and classified staff who rally around our students every day. We also thank our education leaders and partners who work with us to understand our challenges and celebrate our gains year after year.

1 – LAUSD reached its highest graduation rate of 77% increasing by 9% over the last 3 years. Not only an increase but a demonstration that students are now completing the college required sequence of courses as part of their graduation requirement. The continued investments in credit recovery, graduation counseling and planning and furthering the culture change in our schools and amongst our families to set their sights on graduation, college and career through the District's Pre-k thru 12th grade continuum will ensure our success continues.

2 – LAUSD continues to demonstrate a great focus on addressing discipline through positive practices. The District continues to be a leader on decreasing the number of student suspensions with only .6% of our students being suspended in the 2015-16 school year. The District remains focused on implementing the school climate bill of rights and the discipline foundation policy while rolling out a 4 year strategy to train all schools with restorative practices and positive behavior and intervention supports for youth. LAUSD is proud of the significant decrease in suspensions we have seen over the last 6 years which is a product of the policies and people leading the way in this work.

GREATEST PROGRESS

3 – The District's English learner reclassification rate is expected to increase to 17.2% for the 2016-17, a 6% increase in one year. In a district that serves over 124,000 English learners this is significant progress. A continued focus on monitoring English learner progress at school-sites and establishing a foundation of culturally and linguistically responsive practices is resulting in greater progress for English Learners. With the passage of Proposition 58 and the transition to the LPAC, the District is developing strategies to support an expansion of opportunities for English learners and their families.

4 – Our chronic absenteeism rate for foster youth students in the District has decreased by 4%. With a renewed focus and increased investment in supporting foster youth, the District is seeing improved outcomes for these at-risk students. LAUSD will continue to sustain the \$13 million invested in the Foster Youth achievement program as well as continue to align strategies aimed at improving

attendance and academic progress for all foster youth.

5 – The District's participation in the school experience survey, a school-climate related survey, increased for parents by 13%. An important indicator that ensures parents are providing essential feedback regarding school performance and support for students and parents at school-sites. The \$5.3 million investment for parent engagement established in 2014-15 and the inclusion required workshop offerings for parents have enhanced the overall parent participation in the District.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

The Los Angeles Unified School District's performance on the California School Dashboard (CSD) does not identify any "Red" or "Orange" performance for any of the indicators provided in the Spring 2017 release.

A local review of indicators not included in the CSD did identify areas that need significant improvement. Specifically, a review of the District's performance found:

1) Approximately 45% of the District's 9-12th grade students were on-track to complete their A-G graduation requirements with a C or better.

The Division of Instruction continues to partner closely with local districts and school sites, engaging in ongoing efforts to raise the achievement of all students and especially those most at risk. In order to improve core curriculum and instruction, the district has invested in new state standards-aligned instructional materials for English Language Arts and mathematics and is planning adoptions for history/social studies and science in the coming years. The Division of Instruction continues to support Mastery Learning and Grading training district-wide to improve teachers' instructional and assessment practices. Social-emotional learning and culturally and linguistically responsive teaching strategies are also areas of focused professional development for teachers. Another initiative to support student success is the continued growth of Linked Learning schools that provide a personalized learning environment for students that has clear connections to career pathways.

Recognizing that success in high school requires strong middle and elementary school preparation, the Division of Instruction has concentrated on areas of need identified in the Middle School Framework for Action that focus on student identity and relationship formation, social-emotional learning and mindset, authentic student choice, engagement, and real-world and personal connections. The Early Language and Literacy Plan is also designed to provide additional supports in elementary schools to ensure students begin to achieve literacy benchmarks before they leave the elementary grades.

Student struggles with achieving A-G graduation requirements with a C or better are most focused in English Language Arts and mathematics courses. The Division of Instruction continues to update resources for English and mathematics support courses at the high school level. For example, the math advisors on the Division of Instruction A-G team have collaborated with local district coordinators and central office secondary math staff in the design of a fully integrated Algebra 1 Intervention Program. The program is intended for flexible implementation in upper secondary grades using a pull-out model, during advisory periods, or in an additional math lab setting. Students may enter the intervention setting as determined by their teacher, counselor, or by their own request and they continue in the program for as long as needed. The program comprises all elements needed to support students in mastering the concepts and skills required to pass Algebra 1.

**GREATEST
NEEDS**

Students who do not achieve a C or better have the opportunity to retake those courses as well. A wide array of high school credit recovery courses are offered to students needing to make up classes for A-G completion. These courses comprise virtual or blended models in the Edgenuity platform. In addition, the Performance Assessment Student Support (PASS) program was developed by the district to allow teachers raise student grades by differentiating learning opportunities so students can demonstrate mastery of course objectives in Algebra 1, Algebra 2 A/B, Geometry A/B and English 9, 10 and 11 courses. Schools also offer "grade increase" opportunities using the STAR-17 program where needed, to better prepare students to be competitive in making college applications.

2) Based on 2015-16 Eleventh grade Early Assessment Program (EAP), only 7% of eleventh grade students demonstrated college readiness through the state's math assessment.

The Division of Instruction continues to support local district and schools to implement the new state standards in mathematics. The district implemented new instructional materials in core math courses aligned with the standards in the 2015-16 school year and plans to adopt additional instructional materials in the advanced and elective mathematics courses in the 2018-19 school year. The Division of Instruction is also continuing to invest in targeted support and intervention programs to meet the instructional needs of at-risk students at all grade levels. Based on the middle grades Framework for Action, students in grades 5-9 may demonstrate more success when offered more engaging courses aligned with real-world and personal connections. The Division of Instruction has expanded efforts to develop new, more engaging courses at the high school level including:

- Financial Algebra 1 and 2 that focus on teaching algebra concepts through finance and business applications
- Introduction to Data Science that engages students in using participatory sensing devices to collect data as well as analyze the data using analysis software
- Transition to College Mathematics and Statistics designed to provide students with quantitative reasoning experiences and skills to be prepared for college level mathematics courses.

A key to aligning mathematics instruction with the new standards is for teachers to understand how assessments must be adapted to allow students to demonstrate their proficiency. The Division of Instruction continues to invest in teacher professional development aligned with Building Educator Assessment Literacy (BEAL) so teachers can understand the expectations of the new Smarter Balanced Assessment and how to align their classroom assessments with these new expectations.

Leaders of mathematics district-wide are also incorporating concepts from Mathematical Mindsets by Jo Boaler into professional development for teachers. These strategies are aligned with social-emotional learning practices that focus teachers and students on the

power of mistakes and struggle, the development of rich mathematical tasks and supporting growth mindset in students.

3) The District's overall chronic absenteeism grew by 1% although there was progress in particular student groups.

Although the District Chronic Absence Rate grew from 13% to 14%, significant reductions were found in student subgroups. The Chronic Absence Rate for long-term foster youth decreased from 23% to 15.8%. In addition, the district has identified and implemented multiple strategies to improve the availability of actionable Local District and school site attendance data and tools to support attendance improvement efforts district-wide. We are also developing online tools to train school site and district staff on attendance taking procedures, processes, and interventions. The district continues to invest in targeted support and interventions, focusing on schools with the highest chronic absence rates for TK/Kindergarten and 9th grade levels, as research supports that chronic absence in these grades are strong predictors of student academic failure and dropout.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

The recently released California School Dashboard identifies two student groups in which performance levels are two performance levels below the "all students" performance for students in the LAUSD. Specifically, English Learner students were identified as having a performance gap in the District's graduation rate and Students with Disabilities were identified as having performance gaps in the District's graduation rate, and the state's Math and English Language Arts assessments.

In order to address these performance gaps, the District intends to continue the implementation of various strategies aimed at providing a comprehensive approach to addressing the needs of these two student groups.

LCAP—English Learners

LCAP GOAL #1: 100% Graduation

To support English Learner student outcomes the district will expand dual language/bilingual programs.

The district will invest in hiring bilingual teachers and staff who can support students and communicate with parents and students in their language.

There is a need to hire more college counselors for students to graduate with all required classes. Ensure credit recovery courses are designed to support LTELs, PLTELs and newcomers.

Counselors will be hired to focus on English Learners academic needs. They will ensure students are provided with additional information in the following areas:

- Access to AP courses
- A-G courses to ensure graduation and completion of A-G courses
- Monitor school/student for academic progress
- Analyze data to inform instruction
- Students meet grade level standards
- Preparation for college and/or careers
- Implement/expand vocational training

**PERFORMANCE
GAPS**

Counselors who are bilingual in students' primary language will be identified and/or hired to support newcomer English Learners.

LCAP GOAL #2: Proficiency for All

English Learners will be offered additional supports during Designated English Language Development and Integrated English Language Development in English Language Arts, Math and Science. Beginning in the 2017-2018 school year all stakeholders will engage in the transition and implementation of the new English Language Proficiency Assessment in California (ELPAC).

Students in the following cohorts will be supported to ensure academic success and to achieve benchmark expectations in both ELPAC and SBAC:

- Newcomers,
- English Learners
- Potential English Learners
- Long Term English Learners

Provide Intervention, Support & Tutoring

To address the need for intervention and support for English Learner outcomes the District will identify and invest in diagnostic assessments for students in grades 3-11 who are Potential Long Term English Learners (PLTELs) and Long Term English Learners (LTELs) not meeting reclassification criteria.

Supports will be designed based on students' profile as follows:

Profile E-F—Students not passing Language Assessments

Profile G-H—Students not passing Language or Literacy Assessments

Profile C-D—Students not passing Literacy Assessments

Teachers will be provided additional professional development in diagnostic assessments for PLTELs and LTELs. They will engage in data analysis and provide action plans to ensure students receive interventions that are designed to meet their individual instructional needs.

Directors and Principals will be provided additional professional development in setting up systematic monitoring structures in school/student academic progress. Structures used to analyze data to inform instruction for students not meeting benchmark expectations.

LCAP GOAL # 4: Parent Engagement

Parents of English Learners who are Potential Long Term English Learner (P-LTEs) and Long Term English Learners (LTEs) will participate in parent conferences, workshops and training to learn about ways to help their students acquire English Language and literacy comprehension. Materials for parents will be written and delivered in a language they speak.

LCAP – Students with Disabilities

LCAP GOAL #1: 100% GRADUATION

In collaboration and partnership with other District departments, the Division of Special Education ensures that students with disabilities are included in District-wide initiatives related to graduation in four areas:

Direct Instruction to students with disabilities

In partnership with A-G Diploma Project Counselors, Division of Transition (DOT) Teachers work with subgroups of students who are behind on credits and at-risk for not being eligible for graduation regarding graduation requirements and post secondary options. Course development includes a middle school elective class on preparation for high school and self-advocacy as well as a high school elective course designed to help students plan for life after high school.

Waivers-

School staff are encouraged to publicize the use of waivers for specific a-g requirements as needed for students with disabilities. These waivers include: Algebra 1, Algebra 2, Languages other than English, and PE.

Parents as partners

Parents of students with disabilities participate in parent conferences, workshops, and training to learn about the differences between the certificate of completion and diploma, graduation requirements, and post secondary options. They also learn about how to support their students in developing self-advocacy and self-determination in preparation for college, career, and life options.

Certificates of Completion

The DOTs team facilitates the district-wide issuance of certificates of completion and educates school sites on their use.

LCAP GOAL #2: PROFICIENCY FOR ALL

In recognition that early literacy intervention leads to better student outcomes, the Division of Special Education has been engaged in intervention efforts designed to close the achievement gap in literacy in Grades TK-12. In the LAUSD SELPA Plan, the literacy goals are the following:

- Increase participation and proficiency of students with disabilities in statewide student assessment
- Increase the percentage of students with disabilities who are literate
- Assure that students with disabilities attain higher standards in all domains of language arts (listening, speaking, reading, and writing)

LCAP Early Literacy Goal

In addressing the LCAP goal of increasing 2nd grade early literacy rates, the Division of Special Education has entered a multi-year partnership with the Division of Instruction with the Early Language and Literacy Plan (ELLP). The overarching goal of the ELLP initiative is to ensure that all students will read, write, speak, and listen with efficiency and accuracy by the age of nine. Now in its second year of implementation, ELLP has sponsored ongoing teacher and administrator professional development in the areas of early literacy and language development, research-based multi-sensory literacy intervention, data-driven inquiry process for improving student outcomes, and application of Universal Design for Learning to broaden access for diverse learners. As 2nd grade early literacy rates improve, there will be a corresponding decrease in the number of inappropriate referrals to special education.

LCAP Increase 3rd-8th & 11th Grade ELA and Math Proficiency Goal

With the majority of students with disabilities on the core curriculum, the Division has been committed to a robust partnership with general education partners in supporting general education teachers and administrators through job-embedded, high quality professional learning opportunities to address the LCAP Goal of increasing 3rd-8th & 11th Grades ELA and Math Standards Proficiency.

Many of the Division instruction-based workshops are designed in collaboration with content experts in literacy and mathematics to ensure equitable access to all areas of the curricula provided for a diverse range of learners. Priorities in this development of workshop content includes the following:

- California frameworks and content standards implementation for all students
- Integration of Universal Design for Learning and evidence-based practices for students with disabilities into District-sponsored trainings on the new Math and ELA/ELD textbooks at the elementary, middle, and high school levels (2015-2017)
- California English Language Development standards implementation in tandem with all California content standards through designated and integrated ELD
- Literacy and language instruction that ensures all students read, write, speak, and listen effectively, accurately, and

- o fluently by the end of 2nd grade
- o Accelerated literacy and math intervention for students in grades 4 and above who did not respond to previous interventions in the early grades
- o Culturally and linguistically responsive instructional strategies integrated in all content areas to provide access and equity for diverse learners
- o Universal Design for Learning as the foundation for Tier 1 high quality instruction. Workshops have been provided to special education teachers as well as to local district teams and school site teams, including workshops for instructional coaches and leaders
- o Mastery Learning and Grading Practices training for all teachers in utilizing inclusive approaches to assessment of learning
- o New “a-g” courses designed to be inclusive of students with disabilities to better prepare them for college and careers, such as Financial Algebra, 21st Century Career Exploration, Introduction to Data Science and Computer Science, and Integrated Science

To support students with disabilities in inclusive settings, general education teachers are invited to attend special education sponsored workshops and salary-point classes on evidence-based literacy and mathematics interventions, positive behavior supports and crisis intervention, evidence-based practices for mixed-ability classrooms, students with Autism Spectrum Disorders, social emotional learning, and inclusive practices.

LCAP Goal Increase EL Reclassification Rate

Approximately one in five English Learners in LAUSD are also students with disabilities. In collaboration with the Multilingual and Multicultural Education Department (MMED), the Division is engaged in providing teacher workshops and training in supporting English Learners who are potential long term English Learners (PTEs) and Long Term English Learners (LTELs) in development of academic English proficiency to meet grade level standards and become eligible for reclassification. The Division is also engaged in developing policy guidelines for IEP teams to follow when making recommendations for LTELs who are eligible for special education services to be reclassified as Fluent English Proficient.

LCAP GOAL #5: ENSURE SCHOOL SAFETY

In an effort to decrease instructional days lost to suspension and increase student safety in schools, the Division of Special Education offers a number of professional development opportunities (web-based and face-to-face) to support both general education and special education teachers, including para-educators, in implementing supports for all students.

These PD opportunities include the following:

- Strengthening Our Behavior Skills (SOBS) for Para-Educators
- Online Classroom Management Modules accessible via Learning Zone
 - o CHAMPS (K-8) – four modules on Classwide Positive Behavior Support
 - o Discipline in the Secondary Classroom (9-12) – four modules on effective positive behavior support systems for older students
- Positive Behavior Support Online module (PBS 101)
- Salary Point Classes on a variety of topics for implementing positive behavior supports and systems in the classroom

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

The District’s 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population. Below is a list of realigned resources:

Proposed Change	Description	Sum of 2017-18M
Coordinated Professional Development (PD) Framework	Design Professional Development courses to identify & service targeted student population (TSP).	\$1.1
Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC)	Embedding Speech & Language Pathology services into existing PAL & PSC classes	\$4.7
Assistant Principal	All Assistant Principal (Base will only include Principals)	\$36.0
Transition Services for Targeted Student Population (TSP)	Re-focus Transition Services to concentrate on transitioning TSP	\$6.9
Bilingual Differential	Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration.	\$1.0
Redesign 2: Breakfast Program: Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition	Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.	\$1.6

education and recipes to students and parents on a quarterly basis at the especially needy schools (621).

School Libraries/Librarians	Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program.	\$8.4
Counselor (High School Only)	All High School Counselors. District's High Schools are all Title I schools.	\$24.1
Government Relation Office Personnel Redesign	Redesign work-time and functions performed by 2 personnel to focus on targeted student population. Shifts approximately \$286,000 of current \$1.1M budget from base to supplemental/concentration.	\$0.3
Fiscal Specialist	Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.	\$1.4

In addition, the investments for the 2017-18 school year augment the expanded transitional kindergarten program and support the implementation of the early language and literacy plan lead by the Division of Instruction. Combined this investment represents an additional \$6.5 million.

BUDGET SUMMARY

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION	AMOUNT
Total General Fund Budget Expenditures for LCAP Year	\$7,531,043,342
Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for LCAP Year	\$5,123,171,633

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

Affiliated Charter LCFF Resources - LCFF funding distributed to Affiliated Charter schools in LAUSD - \$350.3 million
Title 1 Resources to schools and summer programs - \$348.6 million
Title 2 Resources for professional development and quality educator improvement - \$28.6 million
Title 3 Resources supporting English Learner coaching and other efforts - \$17.0 million
Other Grants - \$169.6 million

\$5,123,171,633	Total Projected LCFF Revenues for LCAP Year

School Autonomy

Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District’s student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District’s Student Equity-Based Index.

An unallocated amount of \$245 million will be set aside as a result of a recent California Department of Education finding. The allocation is currently undetermined and will be revisited pending LAUSD’s submittal of reconsideration.

The process for updating the LCAP in 2016-17 will assist in determining the identification and/or use of the unallocated \$245 million. Please see Section 3B for more information.

Actions/Services

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the District’s options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

Diploma Project

ACTUAL

Diploma Project

The purpose of the Diploma Project is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. Key strategies include: identifying at-risk students at the feeder middle school and providing academic and transitional interventions 2) Increasing 9th to 10th grade promotion rates 3) recovering students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.

The purpose of the Diploma Project is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. Actions/Services

PLANNED

A-G Immediate Intervention Plan

Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The implementation of actions/services were completed throughout the school year. Local Districts utilized A-G intervention resources to provide credit recovery programs and support for students not on-track to complete the A-G graduation requirements. In addition, our schools supported by the Reed investment agreement were sustained by an additional year of funding to allow schools to plan for future interventions. Middle and High schools implemented and were supported by the A-G Diploma program/project to engage students who are not on track to meeting the A-G requirements for graduation by working with all stakeholders to implement interventions with the vision of graduation and college and career readiness for all students. The A-G Diploma Program provided early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

The District's all hands on deck approach to graduation has effectively increased outcomes for students district-wide. Comprehensively, the offering of after-school programs, credit recovery, alternative school options, and greater autonomy on budgeting for appropriate interventions for students at the school-site has proven we are progressing towards 100% graduation. The all student metric and subgroup performance grew in every measured area under the 100% graduation goal. This growth provides one layer of evidence that the listed actions/services are making an impact on the outcomes students.

- LAUSD reached a 99% completion rate on Individualized Graduation Plans (IGP) for students in secondary schools.
- 48% completed all A-G courses with a "C" or better from the Class of 2016 and currently 56%

- have completed all A-G courses with a “C” or better from the Class of 2017
- 77% cohort graduation rate for Class of 2016
- Currently 81% of the Class of 2017 on-track for A-G

In preparation for expectations set in the 3 year LCAP, LAUSD and LACCD reached a historic agreement in the offering and concurrent enrollment of college classes on the signing of the College and Career Access Pathways Partnership Agreement (AB 288).

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-site level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Specifically, the graduation target has been increased to reflect the 4% growth seen in 2015-16. Out-year targets have been adjusted to sustain the District's focus on a positive growth trend in graduation. In addition, the A-G intervention resources are maintained at \$15 million annually to ensure credit recovery and close monitoring efforts are available for local districts and the schools they serve.

For purposes of planning for the 2018-19 school year, it is recommended the LCAP for the following year be updated to include expected outcomes to reflect state changes. For example, SBAC or EAP targets should be changed from percent meeting/exceeding to scale score progress towards "level 3/meeting"; local measures changed to incorporate state guidelines. In order to provide greater coherence between local, state and federal accountability, metrics not required by CDE should be considered for removal (example: The number of 12th grade students completing the FAFSA).

PLANNED

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state’s priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional Development improving instructional capacity in all content areas.
- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state’s priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional Development improving instructional capacity in all content areas.
- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards

- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Arts Program

Establish a targeted Arts program that utilizes the District’s Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index.

Specifically, the arts equity index identifies school-sites that need greater resources to restore base levels of arts programs. The effort will bring parity to school-sites throughout the District.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the instructional actions/services outlined in the LCAP have been implemented with fidelity. The Arts Program continues to expand and provide additional resources to schools with arts deficits as identified in the District’s Arts Equity Index. The expansion of the arts included more offering of arts integration classes to include advanced levels and community/cultural partners to serve nearly 2,000 teachers annually. There was also a restoration of the Arts Community Network that includes 42 community arts partners who serve 181 underserved schools, complimenting the art instruction being accomplished by our certificated arts teachers who are in every school in the district.

Furthermore, the expanded transitional kindergarten program has been implemented in many areas throughout the District, providing an early education and intervention platform for 4-year-old students entering the District and preparing them for kindergarten. In addition, the instructional core has been supported by professional development efforts focused on improving instructional strategies for low-income, English Learner and Foster Youth students. Several points to highlight was the expansion of Dual Language programs from 87 to 101 and the increase of Biliteracy awards granted grew from 1664 to 3004 students.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

Successful growth in Math and ELA SBAC performance district-wide and a closure of performance gaps continues to demonstrate progress towards greater proficiency for students. Furthermore the following growth provides further evidence efforts are having a positive impact on the instructional outcomes of students.

- SBAC Math and ELA performance for 15-16 showed an increase of 4-6% which has resulted in modifying out-year targets.
- Increase in reclassification (RFEP) rate from 11% to 17.2%
- Decreases in LTEL rates such as decrease from 15% to 9% in the last 5 years
- Increase in Special Education and Foster Youth early literacy measures of 5 - 6% which exceeded the District's established targets for 2016-17.

Subgroup performance in these measured areas tracked similar growth.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees. Areas in which resources were under spent are most likely a result of unfilled staffing vacancies and changes in the level of expansion for programs in 2016-17.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Based on feedback from staff and stakeholders, performance metrics for the All Student measure of meeting or exceeding standards for Math and ELA were modified to show an annual growth of 3% - 4%. In addition, the English learner reclassification metric was modified to set a standard of 24% reclassification rate for English learners, a target that is significantly higher than the state's average.

PLANNED

District-wide Student Engagement Plan

Support the implementation of a district-wide expansion of best practices and training to develop strong student leadership and voice in the District. - Create multiple pathways and opportunities for student engagement, leadership development, and purposeful collaboration.

· Develop a Student Leadership, Engagement and Empowerment Plan to be included in the Single Plan for Student Achievement

· Ensure that student leaders participate and engage in District-wide student engagement efforts

· Create a process that allows all students to review and comment on the implementation of school plans, budgets and programs and develop a process that allows students to review and provide input on Local and Central District initiatives, programs, policies, budgets and goals.

· Provide student leadership training and learning opportunities through participation in workshops, conferences, advisory councils, committees and focus groups.

· Provide opportunities for elementary, middle and high school leadership advisors to collaborate, share best practices and develop a leadership curriculum to support student leadership and engagement.

- School, Enrollment, Assessment and Placement Center (SEPA) support resources

ANALYSIS

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

As is noted in the actions, the District provides a comprehensive array of services that support student achievement and positive outcomes for youth. Together, these actions play an important role in reducing barriers to success for students by ensuring their health physically, mentally and emotionally. Collectively, these actions have provided opportunities to supplement instruction to create a safe and welcoming environment for the district's children to learn and grow. Particularly, the implementation of the foster youth achievement and homeless youth programs has progressed throughout the District and is supported by a collective staff effort working alongside a collaborative of partners to ensure there is continuous feedback for these programs. Furthermore, attendance and pupil engagement efforts have been bolstered by the student engagement unit, which has developed the ongoing mentorship and facilitation of student voice through numerous settings of engagement.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

As measured by the tiered attendance bands defined by the District's Student Health and Human Services Division (SHHS), 69% of students attended school 96% or more out of the 180-day school year. Although this was a slight decline in the District's top tier attendance rate, targeted student group performance improved. Specifically, the Foster Youth student group experienced a 7 percent increase in the top tier while also reducing their chronic absenteeism rate by 4 percentage points. Overall there remains a heightened focus to increase the all student rates in both areas of measurement.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Changes in the estimated actual expenditures as compared to the budgeted resources are a result of change health and welfare benefits, a shift of personnel funded outside of LCFF resources as well changes in staff.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

The District's goal of 100% Attendance is sustained however performance targets for foster youth students are modified to reflect progress. In terms of actions, nursing supports will be adjusted to reflect an equity-based allocation of resources. Specifically, nursing services will be prioritized to schools with high enrollment of low-income, English learner and foster youth students, high medical incidences and needs and the overall enrollment size of a school. These resources can be found under the 100% Graduation goal as well as the 100% Attendance goal of the LCAP.

Expenditures

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The District continues to provide parent engagement resources to help cover staff and supply costs for parent centers and related staff who engage parents at the school-site level. Over the course of the last 2 years, the LCAP's accountability of 4 parent workshops provided at each school-site has been implemented. Two of the workshops are limited to the required topics of the A-G graduation requirement and the school's School Report Card results. There are numerous topics that may be covered in the other 2 workshops in which schools have the discretion to select from modules developed by Parent and Community Services. The school experience survey continues to be a centralized survey administered at all schools that provides a venue to collect opinions regarding engagement, perception and areas of need at a school-site.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

As is reported in the LCAP, all measures of engagement increased as compared to the 2014-15 LCAP targets and actual outcomes. Specifically, the increase of schools completely a minimum of 4 workshops is now at 86% with the expectation to reach 100% within the next 3 years. Parent sentiment on the school experience regarding resources to support their child's education reached 89% and the survey participation has increased to 53% as compared to 31% two years ago. We are seeing steady progress in this area and it is reinforced by one-on-one and group engagement that took place as part of the LCAP process. Parents overwhelmingly responded that they had seen increased engagement at schools and more concerted efforts by staff to engage parents however the feedback also noted there is room for growth in this area.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Expenditures in the parent engagement line item are expected to exceed the amount budgeted for 2016-17. Increases in health and welfare costs as well as additional hours provided at school-sites has resulted in an additional \$800,000 allocation to these services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There are currently not changes planned for the existing targets established in the LCAP. Current growth is on track to meet expected targets in the various areas being measured for parent, community and student engagement. In connection with the minimum workshop requirement for schools, the District will be exploring a minimum participant requirement for each of the workshops to focus on capacity building and the reach of parents who participate in the workshops.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

School Climate/Restorative Justice and Los Angeles School Police Department Investments:

The actions outlined under the School Safety goal continue to be implemented throughout LAUSD. Specifically, the Division of School Operations has implemented various actions related to the roll-out of the Restorative Justice program:

- Revision and publication of policy Bulletin
- 5 Restorative Justice Advisers and 45 Restorative Justice Teacher Advisers were hired
- Provided online Student Discipline data reports published monthly on the District website and data monitoring
- Restorative Justice Tier I Trainings for COHORT 1 (149 schools)
- Limited data access due to MiSiS rollout
- 20 additional Restorative Justice Teacher Advisers were hired
- Complete Restorative Justice Tier II/III trainings for COHORT 2 schools
- Started Restorative Justice Tier II/III trainings for COHORT 3 schools
- Ongoing data monitoring and analysis commencing second semester
- Continue to work with SWPBIS Task Force, Charter Schools, community, business and philanthropic partners

The Los Angeles School Police Department deploys 378 sworn personnel 24 hours/7 days a week in a variety of ranks. In addition to our sworn personnel, the LASPD deploys 98 non-sworn school personnel covering campuses, safe passages, traffic safety, and specialized assignments.

The LASPD Safe School Passage works closely with patrol units and outside law enforcement agencies and contributes significantly to the safety of students. Additionally, campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students.

Patrol officers have responded to a wide variety of calls for service from schools and District facilities, participate in before and after school safe passages duties and respond to countless priority

incidents. Last year, the LASPD responded to nearly 135,000 calls for service.

Currently, the LASPD deployed 110 (38%) police officers and senior police officers to its high school campuses, as well as 26 (9%) police officers to its middle school campuses. Additionally, the Department also deployed 47 (61%) school safety officers to its middle school campuses.

In addition, the LASPD deployed 68 (23%) police officers and senior police officers to its safe passage patrol to support the campus based police officers and senior police officers and to patrol the unstaffed early education centers, elementary schools, and District offices.

In summary, the LASPD deployed a total of 220 police officers and senior police officers to its campuses and safe passage patrol reflecting a 76% of sworn police officers and senior police officers committed to providing policing services to schools during instructional time. The LASPD deploys a total of 36 school safety officers to its campuses reflecting a 48% of school safety officers committed to providing safety services to schools during instructional time.

A comprehensive strategy to support students and address discipline and behavioral issues has resulted in positive outcomes for all youth in LAUSD.

Instructional days lost to suspension is the total number of school days students are absent due to suspension. In school year 2007-08, the District lost 74,765 instructional days to suspension. In school year 2015-16, the District lost 6,574 instructional days to suspension.

The suspension rate is calculated by dividing out-of-school suspensions by student enrollment. In school year 2007-08, the District's suspension rate was 8.1%. In school year 2015-16, the District's suspension rate was 0.59%, a 93% decrease over eight years.

Although several targets were not met for suspension and instructional days lost there continues to be progress year over year. Specifically, African-American youth suspensions declined by .37% and students with disabilities by .93%. These numbers may seem insignificant however the overall rates of suspension are on average 2.5% as compared to the District's overall rate of .6%. These suspension rate reduction in actuality constitute a 13% to 39% reduction in suspensions for these subgroups.

In addition, one of the ways in which the Los Angeles School Police Department (LASPD) has measured success in supporting students is through the ability of addressing students who commit minor violations of the law while being able to keep them in the educational setting and out of the juvenile justice system. Through this process, a student receives counseling services that have no impact on the student's ability to attend school.

During the 2015/16 school year the LASPD issued 408 arrest diversion referrals to juveniles who would

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

otherwise been introduced into the juvenile justice system. Out of the 408 juveniles, 281 (over 68%) successfully completed the arrest diversion program by receiving counseling or other services that directly addressed the root cause of the behavior through a referral from a Pupil Services & Attendance (PSA) Counselor.

Since the implementation of the Arrest Diversion Program, 865 juveniles have been referred to the diversion program. Out of those diverted, only 9% have been forwarded to Los Angeles County Probation Department for adjudication within the juvenile justice system. Since the beginning of the arrest diversion program, during the 2015/16 school year, there have been only 62 (7%) incidents of recidivism.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There are no changes to this goal. The out-year targets and related actions are sustained in the LCAP.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All outcomes measured under the basic services goal meet and align with the Williams sufficiency reporting requirements. These actions are carried out with fidelity and ensure basic cleanliness, materials and staff alignments are provided to schools throughout the District. Specifically, targeted resources have focused on work performed by "Tiger Teams" is scheduled in advance with the Principals of high need schools. The Complex Project Manager (CPM) meets with the Principal to prioritize work needed at each school site prior to the "Tiger Team" visit. Work at the sites consists generally of additional cleaning support and gardening assistance or making repairs. Work is summarized to show items completed and items still outstanding after the Tiger Team leaves the site and evaluated through an exit interview with the principal. Reports showing the work completed can be provided to the PAC for regular meetings.

Teacher evaluations continue utilizing the growth and development cycle, which for the 2016-17 school year will exceed 27% of the roster-carrying teacher workforce.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

All targets were met and have been sustained consistent with the statutory requirements.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. In addition, an expenditure was added to 2016-17 to acknowledge a nutrition program for low-income students.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

A change in an action reflects supplemental and concentration resources contributing to the District's expansion of the Breakfast in the Classroom and Supper programs. These nutrition-related programs emphasize the need to provide additional meals beyond lunch to low-income students in the District.

Stakeholder Engagement

LCAP Year

2017-18

2018-19

2019-20

INVOLVEMENT PROCESS FOR LCAP AND ANNUAL UPDATE

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LAUSD utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District. Special priority was made to meet with representatives of the targeted student populations served through the LCAP, including the students themselves. The District made a conscious effort to expand the timeline of engagement in the school year in order to better utilize community feedback in the development of the LCAP.

The District's engagement efforts began in August with informal focus groups reviewing the LAUSD's LCAP Survey and collaborating on partnership opportunities for community organizations to sponsor LCAP "Input Sessions." A total of 33 meetings were held from August through June by the District to engage community stakeholders in the development of the LCAP. A total of 1,991 community members attended these community meetings. A survey to solicit feedback from the community on the priorities of the LCAP and the District's goals was released to the public in October and ran through April 15th. A link to the online survey was sent to a list of over 400 community partners to share with their respective constituents and members requesting participation. A total of 2,332 surveys were received, both in person and online. A total of 19,953 individual responses were analyzed from these surveys.

A total of 22 Input Sessions were held across the District from October to December to gather feedback from stakeholders on the existing goals and targets of the LCAP. Stakeholders were also asked to provide strategies that will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth. Additional parent advisory group meetings and LCAP investment meetings were also held throughout the school year. A full list of the LCAP meetings are noted in this section below.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources:

<http://lcff.lausd.net> and <http://Achieve.lausd.net/budget>

As part of the LCAP Input Sessions and informational meetings, the Los Angeles Unified School District presented an overview to stakeholders of the LCFF, the goals and metrics included in the District's Local Control Accountability Scorecard, as well as investment areas of the LCAP.

In addition to the Input Sessions, meetings were held with both the DELAC and the PAC as part of a Parent Leadership Development schedule. District personnel provided updates on a number of programs highlighted by the LAUSD's LCAP. In particular, they focused on key programs funded by new and ongoing investments made in 2016-17 and provided progress updates on targets and strategies established in the 2016-17 LCAP. In addition, the District's parent committees were able to review year-end data from 2014-15 and any available current year data. Additional non-LCAP metrics were also used to provide context for growth or identify potential challenges in meeting the District's set targets. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

In January and February of the 2016-17 school year, each school was provided with a School Report Card highlighting the progress to goals and metrics aligned to the LCAP. Each school held a workshop with parents and community stakeholders to discuss the progress of the school on the pertinent LCAP metrics, based on grade level. In addition, the School Report Cards were provided online for each school available on the LAUSD's

website at achieve.lausd.net and using the "Find a School" tool.

Permissible within the CA Education Code, the LAUSD District English Learner Advisory Committee (DELAC) is serving in place of the English Learner Parent Advisory Committee (ELPAC). The Parent Advisory Committee (PAC) continued in its third year with elected governing officers. In 2016, members on the PAC were elected from each of the five LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Ten guardians representing Foster Youth were also elected as a whole group from across the District. The parents representing English Learners were elected from amongst the members of DELAC by their regional representatives. The parents of Low-Income students and the parents At-Large elected their representatives, respectively. Guardians of foster youth were elected at a regional convening by other Foster Youth guardians to represent these stakeholders. Seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 50 members of the DELAC and 47 members of the PAC.

The Superintendent provided written responses... **(MUST BE COMPLETED AFTER COMMENT RESPONSES)**

The LCAP and Annual Update will be presented at a public hearing on June 13, 2017, which was formally noticed and available for public review on June 9, 2016.

The Los Angeles Unified Board of Education approved the LCAP and Annual Update on June 20, 2017.

IMPACT ON LCAP AND ANNUAL UPDATE

How did these consultations impact the LCAP for the upcoming year?

After conducting 33 community meetings focused on LCFF and LCAP, the District has identified 34 recurring themes to support the educational achievement of LAUSD students. These themes are reflected in sustaining the goals, services, and investments of the District's LCAP for the 2017-18 school year. Below are demographics and a high-level summary of survey responses.

Demographics:

- 52% of respondents identified as parents
- 10% of respondents identified as students
- 72% of respondents identified as Hispanic or Latino
- 56% of respondents identified as receiving/their child receiving Free or Reduced Lunch
- 37% of respondents identified as English learners (students or parents/guardians of ELs)
- 10% of respondents identified as Foster Youth (students or guardians of FY)

Common themes from the quantitative survey questions covering our high-need students (with relevance to LCAP goals):

- Increase support for struggling students
- Provide appropriate interventions for English learners who are not meeting benchmarks
- Improve parent/family engagement opportunities
- Focus on academic proficiency for low-income students
- Support teachers with additional professional development and support staff (including reducing class sizes)

The eight most frequently cited themes in relation to Student Achievement from the qualitative, open response sections of the survey and community discussions included:

- Provide interventions and students supports
- Improve parent/family engagement opportunities
- Provide support for students in which English is their second language
- Ensure student engagement/involvement in their schools
- Support teachers with additional professional development and support staff (including reducing class sizes)
- Monitor school and student achievement to ensure adequate progress is being made
- Ensure students are college and career ready (including access to academic and college counseling)
- Ensure safety in schools and focus on discipline and behavior management

The priorities identified above are included in the District's budget. Investments for Foster Youth, English learners, and Low-Income students are identified on subsequent pages of this document. The LCFF investment priorities reflect the feedback received from stakeholders and student data, and are tied to the academic data and needs of our students. Investments are further detailed in subsequent pages.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEA's goals. Duplicate the table as needed.

New
 Modified
 Unchanged

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

STATE 1 2 3 4 5 6 7 8

COE 9 10

LOCAL

Identified Need:

- To monitor and support high school attainment.
- To increase number of students who successfully complete high school college and career ready
- To monitor and reduce drop-out rates for middle and high school pupils.
- Ensure that 12th graders have access to the financial aid and opportunities to attend universities, community colleges and/or vocational schools.

<p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include</p>		

Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and

participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;
- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry

sector workplace;

- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College

and Career Clubs program aligned with the Common Core and Linked Learning,

- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,

- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.

- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high

school programs.

- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

<p><u>A-G Immediate Intervention Plan</u></p> <p>Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6</p>		

period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

STATE 1 2 3 4 5 6 7 8

COE 9 10

LOCAL

Identified Need:

- To increase the number of students who score Proficient or above in English Language Arts on the SBAC assessment
- To increase the number of students who score Proficient or above in grade level and higher level mathematics on the SBAC assessment
- To monitor and increase early literacy rates of pupils
- To increase the number of English Learners who achieve full English language proficiency
- To increase the number of English learners demonstrating readiness to participate in a core English language arts curriculum.
- To decrease the number of Long Term English Learners
- To monitor and support Foster Youth middle and high school attainment.
- To monitor and increase the number of Student with Disabilities participating in General Education Settings.

<p><u>Foster Youth Support Plan and Family Source Centers</u></p> <p>Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:</p> <ul style="list-style-type: none"> • Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each 		

- foster youth
- Provide ongoing intensive case management
 - Ensure equitable access to resources (i.e., tutoring)
 - Advocate for the educational rights of foster youth
 - Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSP)
Pupil Services and Attendance (PSA)
Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

<p><u>Professional Development</u></p> <p>Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state’s priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:</p> <ul style="list-style-type: none"> • Standards-Focused Professional Development improving instructional capacity in all content areas. • Alternatives to suspension 		

- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (Rtl²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

<p><u>Instruction</u></p> <p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student’s ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the District’s curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p>		

- Teachers and instructional staff
- Implementation of shifts in Mathematics and ELA
- Interdisciplinary instruction
- English Language Development (ELD) Standards Phase-In Plan
- Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative
- Contracts to support effective Common Core State Standards instruction
- Design lessons
- Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative
- Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards.
- Arts integration

<p>Special Education Additional Resources</p> <p>Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment of students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP, represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>

<p><u>English Learner Supports</u></p> <p>Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)</p> <ul style="list-style-type: none"> -Provide for EL/SEL Instructional Coaches -Accelerated Academic Literacy Program - Standard English Learner support program (AEMP) 		

- Support the implementation of the District's English Learner Master Plan through the ELD Standards Implementation Plan, ELD

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year

2017-18 2018-19 2019-20

Estimated Supplemental and Concentration Grant Funds: \$1,134,420,996

Percentage to Increase or Improve Services: 23.67%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are a number of these services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels for targeted School-Sites:** Increase staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. The District has set a goal of providing the basic service of appropriate credentialed and effective staff in the LCAP. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Support School Autonomy:** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Targeted English Learner Supports:** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students.
- **Foster Youth Achievement Program:** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP.
- **Support integrating Special Education students into General Education:** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. Specifically, the IEP services are focused on identifying effective methods for ameliorating and overcoming the unique barriers to core-program integration for English learning, low-income and foster pupils with Special-Education-qualified disabilities. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities.
- **Enhance School Climate and Student Engagement:** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Expand Site Assigned Maintenance Program:** Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents:** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to

supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.

- **Increase Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in properly managing day-to-day activities, which enhances the quality of education youth receive at the school-site. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Increase Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Increase Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.

â€The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population. Below is a list of realigned resources:

Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP).

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes

Assistant Principal: All Assistant Principal (Base will only include Principals) supported through enhanced professional development and focused on improving targeted student populations

Transition Services for Targeted Student Population (TSP): Re-focus Transition Services to concentrate on transitioning TSP

Bilingual Differential: Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration.

Redesign 2: Breakfast Program: Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

School Libraries/Librarians: Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program.

Counselor (High School Only): All High School Counselors. District's High Schools are all Title I schools.

Government Relation Office Personnel Redesign: Redesign work-time and functions performed by 2 personnel to focus on targeted student population.

Fiscal Specialist: Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
