Charter School Division

The Proposition 39 Facilities Request Cycle for the 2016-2017 School Year is approaching quickly. Each year the District must undergo a space identification process to meet facilities use requests submitted by charter schools pursuant to Education Code Section 47614 (“Proposition 39”). Per the State implementing regulations, November 1st is the deadline for charter schools to submit their Proposition 39 facilities use requests for the coming school year. Education Code Section 47614 (The Proposition 39 law) requires the District to share campuses fairly and give equal consideration to both District and Charter school students. Therefore, your campus may be considered for co-location if it is near to where a charter school operator articulates geographic interest. As you request, the Community Relations team will attend staff briefings. Where needed, the team will also organize and facilitate community meetings. FSD Community Relations is a resource for you throughout this process. If you have questions about the Proposition 39 facilities request cycle or would like community outreach support, please contact Lorena Padilla-Melendez, Director of Community Relations Department at (213) 241-1346.
