About looking for Standards during Designated and Integrated ELD Instruction

The CA ELD Standards describe the key knowledge, skills, and abilities that students who are learning English as a new language need in order to access, engage with, and achieve in grade-level academic content. The CA ELD Standards, in particular, align with the key knowledge, skills, and abilities for achieving college and career readiness described in the California Common Core State Standards for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects (CA CCSS for ELA/Literacy).

The Critical Principles for Developing Language and Cognition in Academic Contexts further detail the objective of the CELDS by defining the critical and meaningful experiences and knowledge that English Learners need in order to ultimately achieve proficiency in English. These principles are unpacked as the 12 ELD standards in Part I: Interacting in Meaningful Ways and 7 ELD Standards in Part II: Structuring Cohesive Texts. These standards are further distilled into Student Vital Actions. This observation tool will assist with observing for teacher and student actions that demonstrate evidence of these standards in classrooms that are providing a Comprehensive ELD Program.
