**Addressing Dyslexia through a Structured Literacy Approach for Elementary Special Education Teachers Grades K-5/6**

<table>
<thead>
<tr>
<th>Day One</th>
<th>Day Two</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elementary Special Education teachers will learn how to use 95% Group’s Phonic Lesson Library (PLL) to support students using a structured literacy approach. Teachers will be able to diagnose students, select the appropriate lessons, make groups, and implement the lessons. Special Education teachers who have never been trained on the 95% Group PLL are welcomed to enroll. We have a limited number of kits to offer. Teachers who have inherited a kit from another teacher but never been trained are encouraged to enroll.</td>
<td>In the follow-up to day one, Special Education teachers will take a deeper dive into the data, 95% group instructional routines, and practices over a week, month, and semester that lead to improved reading outcomes for students with dyslexia. Teachers will also learn how the PLL supports a Structured Literacy Approach and learn how to support other elements, such as syllables and morphology.</td>

**Registration on MyPLN. Keyword: SPED2020**

In this training, Special Education teachers will learn strategies and receive materials to support struggling readers. They will learn how the 95 Percent Group’s Phonics Lesson Library (PLL) addresses the study of the sound of spoken words in an explicit, systematic manner. This is a voluntary training. Participants will receive or have received materials, and resources.

*Substitute coverage must be provided by the school.*

**Dyslexia is a specific learning disability that is neurobiological in origin. It is characterized by difficulties with accurate and/or fluent word recognition, poor spelling, and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction.**

*International Dyslexia Association, 2002*
